THE OMAHA DAILY BEE: TUESDAY, JULY 26, 1892.

THE SPECULATIVE MARKETS

Wheat was Firm Under Apprehensions of Damage to the Crop. LIVERPOOL CABLES WERE LOWER Corn was the Most Active and Strongest

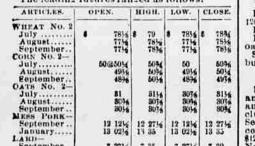

of the Articles Traded in on the Board-Stocks and Bonds.

CHICAGO. Ill., July 25 .- The wrath to come was measurably indicated by the heat in the with it in nexil e outing shirts and pantaloons with praiseworthy energy and disregard of the buoyancy of the mercury. It was a buil day, led by corn, which was well supported by provisions and received countenance, though of a sublued kind, from wheat. The changes since saturday are an advance in corn of 14c, in pork of from 175 to 325c, and

in wheat of %c. The wheat market was firm under apprehensions of damage to spring wheat from the hot weather. The reports from the porthwest differed somewhat, but generally concelled considerable damage already done by rust. The bullishness in corn was of much assist-ance to the wheat bulls. In today's receipts at this port were 145 cars of new wheat. St Louis held fully up to Saturday's predic-tions, the amount bein: 30.3 0; Minneapoils had heavier receipts, numbering 356 carloads. Cables were easier. Liverpool reporting 354

in the decline and the weather in England

<text>

Stendy at Saturday's Prices. OMAHA, July 25. - Receipts of both cattle and bogs were light, even for a Monday, but the ran of sheep was the largest in over a month. There were 36 cars of cattle, largely west-eras, on sale. Light receipts for four days in succession have civen both buyers and sellers more courage and prices ruled stronger on desirable offerings. Right decent cornfed steers sold fully use higher than Saturday, or at from 15c to 25c higher than Saturday, or at from 15c to 25c higher than Saturday, or at from 15c to 25c higher than Saturday, or at from 15c to 25c higher than Saturday, or at from 15c to 25c higher than Saturday, or at from 15c to 25c higher than Saturday, or at from 15c to 25c higher than Saturday, or at from 15c to 25c higher than Saturday, or at from 15c to 25c higher than Saturday, or at from 15c to 25c higher than Saturday, or at from 15c to 25c higher than Saturday, or at from 15c to 25c higher than Saturday, or at from 15c to 25c higher than Saturday, or at from 15c to 25c higher than Saturday, or at from 15c to 25c higher than Saturday, or at from 15c to 25c higher than Saturday, or at from 15c to 25c higher than Saturday, or brought \$4.35. There were picenty of good western cattle here and some 1.150 to 1.200-1b. steers sold at \$3 75 and \$105. These were more or less hayfed stock, It was a good strong market for anything the buyers wanted, but slow and weak as usual on infer-ior stuff. The cows on sale were mostly westerns. Bushees was fairly brisk and the market firm. Top matives sold for \$2.55, while there were two loa 's of fed western heifers here good enough to bring \$3.05. The ordinary run of stuff, however, sold at from \$1.25 to 2.00. Bulls, oxen and stags were in meager supply and quotably firm, and the same was true of calves like wise been affected by the advance in corn and will doubless follow that market to some extent. CHICAGO, Ill., July 25.—Counsein.an & Day to Cockrell Bros. Commission Co.: Wheat closes firm, with a fair advance made and about all of it maintained. The principal stimulating influence was hot weather in the southwest and west, which induced some-what liberal buying by those sections. There was some cool local buying also, which was induced by the strenzth in corn. Business has been rather more active. The visible supply increase was not large enough to become a marked factor. The crop movement continues very moderate and cable advices, while meager, were steady. Indications favor cooler weather and in the event of such a charce, if accompanied with rain in the south-west, the market would likely be affected ad-versely to the utils. Prices are low, however, and we do not look for any radical declines. Corn has been very strong. Reports of hot winds in Kansas and Nebraska gave the buils an easy market to control, which they did throughout. The close was firm afteran active market. Provisions were quite active and decidedly strong, partly on ac-count of the h ger corn market, bft largely under the strong at the symmet desire was shown by the holders to seil. **STOCKS AND BONDS.** and quotably firm, and the same was true o calves The stocker and feeder trade was very light. There was really no country demind at all, while regular dealers were insisting on lower prices for the fresh receipts. Business was necessarily duil, but prices are hirdly quota-bly different from last week. Representative sales: 37 1226 4 25 STOCKS AND BONDS. 1 1220 2 75 There Was No Change in the Character of Trading Yesterday. NEW YORK, July 25.—There was no change 2 2165 2 40 STOCKERS AND FEEDERS. 1 510 2 4J in the character of the trading today, and while the bulls seemed to have the upper hand the improvement in quotations outside No. of Sugar and a few specialties was of the smallest kind and dullness continued to be 1 cow..... the prevailing feature. Brokers lay some stress upon an increasing demand for investment stocks and bonds, but the open market shows as yet none of the effects of this buy-270 cows 740 1 50 ing, as the purchases made at the board are for the most part by the professional element and covering short lines, taken in connection with the demand for certain stocks in the loan crowd. The market is largely oversold in comparison with its size. Today there was no animation in St. Paul, Eric. Atchison and Sugar, but while all were strong the latter fluctuated over a range of more than I per cent, but among the speciatives Minneapolis & St. Louis, both common and preferred, with Evansville & Terre Haute and Great Northern preferred scored handsome gains on light transactions. The rest of the market was extremely dull with no apparent change in quotations and utterly barren of feature. The market closed barely steady at the concession, but with most stocks at small fractions better than the close of last week. Sugar, however, retained most of its early advance and closed 1% per cent higher. The tradit reached only 104,333 listed and 27,787 unlisted shares. Government bonds have been neglected. State bonds neglected. NEW YORK, July 25.-The Post says: The strain of the market last week, thougn not at all sensational in its results, has served the number of the profile. loan crowd. The market is largely oversold

NEW BOOKS. It was the wish of Tallevrand that his

memoirs should not be published until the year 1890. This singular request has been Av. Pr observed, and the fifth and last volume has 655 1 83 just been issued.

just been issued. In the memoirs the early events of the author's life are not detailed. The narrative progresses rapidly without dwelling on the beginning of Talleyrand's political career, nor does it more than 'touch the part he played in the Gonstituent assembly, his relations with the great personages of that period, nor the m's-stons and public offices he filled during the early part of the revolution. But a few chapters are devoted to the earlier years, while the period from 1821 to his death is while the period from 1821 to his death is presented in detail. The publication of these manuscripts is

The publication of these manuscripts is valuable, not so much to the average reader of history as the careful and critical historical scholar. One must have a clear conception of that period of history to clearly understand and appreciate the work. More than that, he must have a cool judg-ment to discern the coloring imparted by the crafty diplomatist. The intention of the crarty diplomatist. The intention of the publication of the memoirs then, is not to give an account of the life of Talleyrand, or a view of the period of history in which he was a prominent figure. But it makes ac-cessible to the historical student manuscripts which may throw new light on contempo-

Traders' Talk.

CHICAGO, Ill., July 25.-F. G. Logan & Coj to Duncan, Hollinger & Co.: The wheat market has been dull today although firm. September opened at 77%c, sold as low as 77% @775c, as high as 78%, closed at 78%c bid. For eign advices are unchanged. The weather is favorable for growing crops. The absence of orders for this for the new winter crop continued and there is very little demand for our old spring wheat. The premium for it today is about a half cent over Septem-ber. The crop reports from the northwest are rather conflicting. They generally report some improvement

strain of the market last week, though not at all sensational in its results, has served the purpose of bringing to light all the factors governing the present situation. It proved that, on its present level, the stock market is very strong; that under pressure the out-standing short interest can be made to cover but that even among professional operators there is great timidity about engaging in ex-tensive speculation. Professional sentiment is bullish and anybody who does buy for a "turn" is appladed and encouraged; but he finds few active followers and is usually on the watch for an opportunity of taking frac-tional profits for his own account. The following are the closing cuotations for the leading stocks on the New York Stock exchange today: exchange today:

The total sales of stock today were 32.113 shares, including: Atchison, 14.278; Eric, 18,-630; Lake Shore, 2003; Northern Pacific, pre-ferred, 2,9 5; Reading, 5,803; St. Paul, 9,850; Union Pacific, 3,300. London Financial Review.

London Financial Review. [Comprighted 1892 by James Gordon Benns2.] Losbox, July 25.–[New York Herald Cable –Special to The BEE.]—The general business has been exceedingly quiet in the stock ex-change today, the fact of the settlement commencing tomorrow checking new engage-ments. Funds all unchanged. Indian ruppe paper has given way % per cent owing to weakness in silver. Foreign government se-curites have shown considerable irez-ularity though comparative stendiness is reported on continental bourses. A feature among home railways is a fail of 1% per cent in Noutheastern de-ferred on some forced siles while the weekly traffic statement is unsatisfactory, there end a few others are about % per cent lower and a few others are about % per cent down but a small improvement is established in Chatham, Great Western, Metropoiltan, Northeestern. London & Northwestern and Midiand. American railways have been most inactive. The whole day they have been most inactive these of the or or three months have been quoted at 13-16 to % per cent.
