to Come and Take It. OMAHA A MECCA FOR DEAD GAMES NOW

Many Lesser Lights of Fistiana Now in the City-Yesterday's Races and Ball Games - Gossip of Track and Ring.

New York, July 28.-Captain Williams, manager of the Olympic club of New Orleans, says that he is not eager to secure some one to fight Bob Fitzsimmons just for the sake of the ciub making money, but to keep faith with the sporting public. He says Charles Noel, president of the club, decided to have three champion fights on September 5, 6 and 7, and he is eager to keep his word. While the captain was talking on the subject a cable dispatch was received. It read

George Baird, better known as Squire Abingdon, who is backing Ted Pritchard, refuses to allow him to go to America to de-cide his contest with Jim Hall." This settled the Pritchard-Hall deal, and

the captain then telegraphed the backer of George Dixon offering a purse of \$7,500 for a fight between Dixon and Jack Skelly in its club on September 6.

PRATTLE OF THE PUGS.

At the Hand Ball Court Tonight. The Mike Boden-Paddy Brennan contest comes off at Kilgalion's hand ball court this evening promptly at 9:15, and a ratting exhibition will doubtless be the result. Boden, she old trial hoss, has beat such men as Jack Burgess, Pete McCoy, Jack Laughlin, Bob Coffrey, John McVey. Billy Gabig, Lem Mc-Gregor and dozens of other hard ones, and is capable of making a lively mili with any of the heavyweights. He is one of the few fighters who guards with his left and extends his right. Brennan has an equally good record, and there will be lots of smoke when the two collide.

The Gathering of the Clans. W. H. Gibson of Rock Island, Ill., and the backer of Tommy Ryan in his contest with Jack Wilks Saturday, together with a number of friends, arrived here vesterday. He had a long talk with his protege at Bandle's in the afternoon, and while he expressed himself as well pleased with his condition and prospects, his exhaustive expatiation on the liabilities of too much training, seconded. to say the least ambiguous. He had Kyan consult a physician as to the condition of his tonsels, and at once put him on a new diet for his stomach. The truth is, itvan is not just what he ought to be. The severe curri-culum his trainer has put him through and the recent torrid weather combined in producing a feeling of languor that may militate against his work. He says, however, that

ne never felt better in his life. Tuck Wilkes and his trainor, Jack Davis, got in from Sioux City last night, and are quartered at South Omaha. The St. Louis boy is fine as silk, down to weight, but as strong as a your draft horse. He says, in all his experience, he never feit in such per-fect condition as he does now, and that he expects to make the battle of his life tomorrow night. There are great things in store for Tuck if he wins, for he will be clevated at once to the realm of stars, and can fill his date book to the last page without turning a band. If Ryan wins the probabilities are that he will figure in one of the big September dates at New Orleans, with Australian Dickson, who whipped Danny Needbam Tuesday night, as his opponent,

Always After the Winner. Artie Flint, the one time well known St. Louis light weight, is in the city, and while he he has left no guarantee of good faith, he adops this means of challenging the winner of the Ryan-Wilkes contest Saturday night for the best purse any club will offer for the event. Artic had probably better challenge the loser and fight him immediately after be gets through with his Saturday night's job.

The Money All Up. of Ryan and Wilks met a THE BEE office last evening and made their final deposit of the \$2,000 stake with the sporting editor. This, together with the \$1,500 purse, will be turned over to the referee at the ringside Saturday night.

Burglars in and Out.

About 1:15 o'clock this morning a man was een by a couple of railroad men to enter the Dewey & Stone Furniture company's storehouse at Eleventh and Leavenworth streets. An examination showed that the spring padlock has been opened and then locked again. When the switchmen and a couple of policemen arrived the door was found wide open. A search was made but the officers could not find anyone, owing to the piles of furniture in the building. The

PLENTY OF MATERIAL TO SELECT FROM

Making Armor Plates at the Homestead Mills-Date Fixed for starting Up the Other Works-Friek's Condition-Notes from Homestead.

Pirrsnuro, Pa., July 28.-The Carnegie Steel company, limited, has prepared a scale for the Union mills in this city and the Beaver Falls plant which the new men or those of the former employes who return to work will be required to sign. The scale will extend until January, 1894, and the wages will be the same as paid the amalgamated workmen, but no association will be recognized. The finishers, it is said, will profit by the new wage arrangement. The fires have been started in the Union mills and work will probably be resumed in a few days. The strikers are quiet and no trouble is anticipated. There have been no attempts made as yet to resume at Duquesne or Beaver Falls and none will be made until the Homestead and Union plants are in fuli operation. The trouble with the transportation men at the Edgar Thompson works, Braddock, was settled by Manager Schwab and the men have returned to work.

Within the Homestead Plant. At the Homestead plant the force is being teadily increased and nearly 100 men were sent up on the Tide today.

An Associated Press reporter went through the works this morning and fully 700 men were at work. The men are very intelligent and not a few are college graduates, who attracted by the reports of high wages in the steel works prefer learning a trade to settling down to the doubtful expediency of a pro-fession for a livelihood. There are besides a number of experienced mechanical engucers who exhibited their certificates and really seem to handle the penderous machinery very easily. Three heavy plates were rolled before the Associated Press re-porter's eyes and seemingly with as little friction as in any rolling mill. Work is being especially directed toward the naval con-tracts, and Mr. Potter says there will be little or no delay in furnishing the material. "We have all the laborers and yard men we want," he said, "and we are discriminating in our selections."

Released on Bail.

No further informations were made today against the Homestead men and there were no more arrests. The eight strikers arrested yesterday for aggravated riot were all re-leased on \$2,000 bail each. The remainder of

the thirty-six are still at large.

Mr. H. C. Frick's condition continues favorable. He passed a confortable day. William J. Brennan, counsel for the strikers, stated this evening that the proposed suits against Messrs. Frick, Potter and Lovejoy for conspiracy had not been abandoned, but nothing would be done until Mr. Frick had recovered. The police do not expect to make any more arrests of anarchists Inspector McKelvey said he did not think

Herr Most would be arrested now, as they had no use for him and it would almost be impossible to connect him with the case.

BREAKING UP CAMP.

Only a Few Soldiers Left at Homestead-Leaving the Company Houses.

HOMESTEAD, Pa., July 28.-It is probable to ight that, as the result of arrests today, a counter charge will at least be made by one of the locked-out men for conspiracy against General Superintendent John Potter of the steel works here. Hearing that informations were out for aggravated riot, Burgess Mc-Luckie, Hugh Ross and Elmer Bailey went to Pittsburg this afternoon, and surrendered themselves to Alderman McMasters and were bailed in \$2,000. On their return to Homestead Bailey stated that the suit against him was purely spite work and that he would sue Potter.

The great division camp with nearly 6,000 soldiers, established here sixteen days ago, is a thing of the past tonight. Indeed, about 1,000 soldiers, a battery and a small squadron of cavalry are the only reminders. The provisional brigade is all the more vigilant, however, for it cannot trust to overawe by

mere force of numbers.

Twenty-two families of striking laborers, who lived in company houses on Shanty Hill, moved out this afternoon, it being the expiration of the time for the men to go to work for the company or leave the resi-dences. Tois evening a number of the strikers boarded a coal train on the Pittsburg & McKeesport road passing through the works and hurled lumps of fuel at the nonunion men. Tonight orders were issued to search all trains entering the yard to prevent a recurrence of this outbreak.

ASKING FOR ASSISTANCE.

Authorities of Merrill, Wis., Fear Trouble with Striking Mill Men

MILWAUKEE, WIS., July 28 .- Governor Peck early this afternoon received a dispatch from the mayor of Merrill stating that that place was in the hands of a mob and that trouble was threatened. The telegram asked for assistance and protection, but did not state whether any depredations had been committed. The sheriff and his force are unable to cope with the strikers. Governor Peck is making preparation neet any emergency. Some days the hands at one of the mills to meet ago in that city went on strike and other mill employes joined them. Yesterday the mill owners decided to close their mills for an indefinite period, but no trouble was anticipated, as the strikers, while confident of winning, were very orderly. Both sides were determined to carry their point, and a long fight is looked for. There are a number of mills at Merrill, and the strikers number up in the hundreds. Robert Schilling of this city has been requested by the strikers to go to Merrill and counsel moderation to the strikers. Schilling is national secretary of the people's party,

GUARDING THE OFFICES.

Suspicious Characters Loitering Around the Carnegie Headquarters-More Strikes. PITTSBURG, Pa., July 28. - The Carnegie offices are now under constant police surveillance. Suspicious looking characters have been leitering about the building for several days, but no attempts were made to enter it. Thirty-six informations were made yesterday by Secretary Lovejoy against strikers for aggravated riot. Warrants were issued and thirteen arrests were made.

All the operators of the Duquesne mills were admitted to membership in the asso-ciation and the plant is now more thoroughly organized than any mill in western Pennsyl-vania. It is yet idle and the settlement peaceful.

The men in the transportation department at the Edgar Thompson steel works, Brad-dock, have struck for higher wages. The men out are yard trainmen and have charge of all freight cars consigned and shipped from the mill. The Amalgamated associa-tion men claim that as nothing can be shipped into or from the works, it will have to shut down if the transportation department re-mains out for three days. In this case the last large plant in the Carnegie interests

From a number of letters which Hugh O'Donnell received in the past few days, it is evident that the New York anarchists ex-pected that their proposition to kill every capitalist connected with the Carnegtes and sive the steel workers a clear field, ought to have met with instant nailing of gratitude here. AMSTERDAM, July 98 .- The Handelsblad of this city publishes letters from Celebes giving details of the recent eruption of the volcano Gunano on Great Sandmir island. The eruption commenced at 6 p. m. on a day early in June and was unheralded by the slightest seismic warning. Immense volumes of flame and smoke and masses of stones suddenly burst from the volcano. The stones fell all over the island, killing hundreds of natives who were busy in the fields getting in the rice crop. Those who succeeded in reaching the supposed shelter of ceeded in reaching the supposed snelter of their homes found no refuge, many houses being crushed beneath the weight of the falling stones and roofs having collapsed under the weight of ashes, burying the inmates, in many instances whole families. Streams of lava flowed with startling rapidity down the slope of the mountain, upon which there were located numerous farms and villages. Houses and fugitives alike were overwhelmed by those rivers of molten rock. It is estimated that over 1,000 persons perished in the slapes of the mountains and hundreds more in the lowlands, but the exact loss of life is not yet known. A week after the eruption had abated the

Instead of complying with the order, however, the prisoner remained scated, and impudently replied: "Get up yourself. Why don't you get up?" The judge answered: "I am a magistrate

The judge answered: "I am a magistrate and need not rise to speak to you."

Thereupon Etievant retorted: "One man is as good as another. Get up if you want to speak to me then I will get up, too."

The other prisoners followed the example of bravado set by Etievant, and adopted equally as insoient a mien toward the judge. Each in turn began a violent harangue and tried to expatiate on the subject of anarchy The judge, however, refused to listen to them, and after a scene of disorder suc ceeded in silencing them.
