A little irregularity has come to light in connection with the grading of Avenue A betwoen Twentieth and Twenty-second streets that may result in several law suits being instituted against the city. It seems that the council ordered Avenue A graded at this point without coing through the formality of establishing the grade. The niling neceseary to bring this part of the avenue up to the level of the rest was done, and the cost was taxed up to the adjacent property owners. Just within a few days the fact of there being an irregularity has come to light, and the councilmen are very much worried for fear that some of the property owners in that vicinity will take advantage of a logal techniculty to keep from a legal technicality to keep from paying

Propositions Looking to the Building of a Belt Line Railroad.

SOME FACTS ABOUT THE NEW SCHEME

Plans Submitted to the City Council-The Proposed Route of the New Road-Rumors Concerning It - Happenings Across the River.

The city council met yesterday afternoon as a committee of the whole to consider the project of giving the Union Land and Improvement company a franchise to build and operate a railway in the northwestern part of the city, over certain streets and alleys that have already been mentioned, company was represented by J. W. Paul of Omaha and all the councilmen were present when he unfolded his plan to them. His purpose is to begin near the intersection of North Eighth street and the river and build a track nearly parallel with the course of the river, passing under the east span of the motor bridge and ending at First avenue. This track is to be accompanied by all the switches necessary for operating a first class belt line. Through a large part of its course it is to be laid on the levee, and this will rid the city of the trouble and expense of keeping the levee in proper repair, as it will be ssary for the company to keep it in re-

pair for its own protection.

The object the company has in proposing the scheme, so says Mr. Paul, is the filling up of the land in the northwestern part of the city with factories. There is a large amount of vacant land there which at present the algority worthless but which could be s almost worthless, but which could b increased in value immensely if a systematic effort were made to seems manufacturing enterprises. The belt line will be used in connecting the manufacturing districts with the Northwestern on the north and with all the other roads centering in the city at the west end of First avenue. Through North Twentieth street the district has an outlet to the city itself, that street already being raised to grade.

The ordinance which was proposed by Mr.

Paul to the council granting the right of way was discussed at length and finally referred to the judiciary committee and the city at torney with instructions to report, if possi-ble, at the meeting of the council next Mon-day evening. Most of the aldermen are friendly to the scheme, but some of them have an idea that Mr. Paul's scheme is not quite so open and aboveboard as it seems to be at first blush. They think that he is trying to get the right of way in order to turn it over to the Nebraska Central railway, which will enter the city at almost the identical spot where the Belt line is proposed to be put. The council will make an effort to find out more about Mr. Paul's plans before passing the ordinance.

Council Bluffs, Ia. New Ward Division.

At the council meeting next Monday even ing one of the important things to be brought up for consideration is the new division of the city into voting precincts, to conform to the provisions of the Australian ballot law, At a recent meeting Aldermen Jennings, Van Brunt, Tibbetts and Smith were ap pointed a committee to figure out a scheme for redivision, and the result of their work will be presented to the council Monday evening for adoption or rejection. The pro-posed division is as follows: First Ward-Two precincts, divided at

Broadway. Second Ward-Two precincts, divided at Second Ward—Two precincts, divided at Seventh's reet, to where it intersects with Sixth street, and then on a line to Robrer's park and to the First ward line.

Third Ward—Two precincts, divided at Story street and the park line.

Fourth Ward—Two precincts, divided at Seventh svenne. This is a change, taking a strip of two blocks from the First and adding it to the Second precinct.

dentity of the Colored Men Killed in the Union P. cific Yards. The identity of the two colored men killed Phursday evening in the Union Pacific yards has been established. Their names are Harry Moore and William Jackson and they lived in South Omaha.

Moore has been in South Omaha for about six weeks and was employed in the brick vard conducted by Crittenbrink Bros. at Twenty-ninth and F streets. He came from Торека, Kan., and has relatives there. Since coming here he has been batching with a young Swede in the small brick building at Third and Commercial streets. A few days ago his white companion left and William Jackson took up his residence with Moore. But little beyond this was known of Jackson, and he was not employed in this

A small sum of money was also found, and also a number of books, which denoted that one of the men was an officer of some society. A trunk, which was locked, was not opened. Coroner Maul will more fully investigate today.

Buying Up the Claims. An Omaha attorney is buying up the claims of the registers who served in the recent special election, and unless the Neoraska Central company allows them \$18 each will begin suit to compel the payment of the claims. The question of paving the registers has frequently been before the council, but that body was not disposed to take any action until the Nebraska Central company allowed \$18 for each register. The company is not inclined to do this, and cites City Attorney Conneil's opinion that the law does not provide for the payment of more than \$3 per day to each register. The men engaged as registers say they propose to fight the matter in the courts, and are confident of winning.

Snap Shots of the Pavements, The city has just received a number of photographs of Twenty-fourth street. They were taken several weeks ago and will serve purpose. At the time the views were taken the warm weather had just set in and began to show its effect upon the poor spots in the pavement of that street. Since that time most of these places have been repaired by the paving company. The Scheme of Municipal Ownership to be Given a Trial. SIOUX FALLS, S. D., July 29.-The city council committee appointed by the mayor having in charge City Attorney Lyons' "municipal saloonkeeping," are ready to report. Next Monday they will give their verdict unanimously inaugurating the scheme. The sentiment among the aldermen is growing favorable to the trial of the scheme for a month at least. The committee recommends the establishment of six saloons in Sioux Falls, one for a ward, and that there be appointed a saloon superintendent, under whom the working force of bartenders will operate. The saloons are to be opened from 5 a. m. to 10 p. m. Nothing is to be sold except that which can be bought of wholesale dealers or manufacturers. Beer is to be disposed at 5 cents a glass, while whisky shall command 25 cents a drink. It is the purpose of the committeemen, if their ideas are carried through, to lessen the de mand for spirituous liquors. The council will meet Monday night to act on the report.
