chase.

The supply of cow stuff was limited to a very few loads, and as there was a fair inquiry the few here soon changed hands at stoady to strong prices.

The feeder trade was pretty quiet but few fresh ones on sale and practically no demand from country buyers. Prices are practically unchanged on anything wanted at all. Representative sales:

COLORADO CATTLE.

Hogs.—Prices on hogs strengthened a big nickel this morning, pretty nearly everything selling at from \$5.50 to \$5.69, against \$3.45 to \$5.55 yesterday. There was a slight in crease in the receipts as compared with yesterday, but the quality, as a rule, was hardly as good. The shipping demand was limited to a few small orders, the bulk of the hogs going to local houses. Prices ranged from \$3.40 to \$5.65, the bulk selling at from \$5.50 to \$3.60, and general cost \$5.55 against \$5.47% yesterday. Representative sales:

THE SPECULATIVE MARKETS

Strongest Trading for Many Weeks was Witnessed Yesterday.

CORN TRADERS HAD A LIVELY TIME

Talks of Hot Weather in Kansas Quickly Raised the Cry of Damage to Cora and Prices Went Up With a Rush.

CHICAGO, Ill., Aug. 4.-The broadest and strongest trading for many weeks was wittoday on the Board of Trade. Corn and oats were excited, general news developing a genuine scare. Wheat went up in sympathy, closing We higher than last night. Corn

gained 132c, o its 152c and pork 20c.

The corn trade had a lively day. The market started norvous and prices up 14c or more over night on the hot weather and hot winds talk on the curb last night and this morning. Some points in Kansas had a tem-perature of about 100° for a little time yesterday and the dispatenes quickly raised the cry of damage to corn. Kansas City messages daily wors. Other stories were to the effect that corn was heading in many sections while only three feet high. On the early advance there was free realizing, and a drop of %c

from the best prices all around. The Price Current comment was bearish, saying that the average was well maintained. and the prospect generally encouraging. The receipts were quite liberal at 250 cars, while the estimate for Friday was light at 255. It was about midday that a batch of fresh dispatches from Atchisen. Wichita, Leavenworth and other points were circulated saying that with the best of weather the crop would be from half to three-fourths of an average. The trade was largely short and there was a flurry instanter. From the lowest point of the day prices were advanced about \$10 call around in a few minutes. Previous to this there was some selling credited to Bryant. The buying was led by Bartlett-Frazier and Congdon. and the prospect generally encouraging. The

Congdon.

When the late advance started, there was a general scramble by shorts. The buil fever was not allayed during the remainder of the Session, the close being at its from the top for

was not allayed during the remainer of the day.

A heavy bus ness was transacted in oats The advancing tendency so conspicuous yesterday was continued with increased force. The cause of the activity and advance was the liberal local and outside buying parties who handled large quantities being heavy buyers. Their purchases were based on the continued unfavora le tone of the crop departments which are coming from this state. Iowa and in fact all the surplus oats states. The threshing returns are disappointing, the yield per zere being 20 to 35 nu, and the weight 20 to 25 lbs. per bu. The offerings were not large and the demand good, so that the prices were kept on the upward course the greater

yield per zere being 20 to 35 nu and the weight 20 to 25 lbs. per bu. The offerings were not large and the demand 200d, so that the prices were kent on the upward course the greater part of the day. Opening trades were at ½e advance and prices advanced from ¼e to ¾e nore, then receded ¾e, but advanced le, yielded silzhtly and closed steady.

In wheat a firmer feeling was established, and was fairly active and then duil, followed by some accivity. A strong feeling was established at the opening on higher cables, firmer domestic merkets, the improvement in the local market for corn and cats, more liberal exports at the seaboard, reported hot winds in kansas, and a greater disposition by the local could bely them to sell. After the expiration of the first hour a reaction set in on estimated heavy receipts for tomorrow and the market ruled lower. It subsequently advanced in sympathy with the increased strength in corn, oats and provisions. The opening sales exhibited an improvement of ¾e over yesterday's closing price, advanced a shade, and then feil off about ¾e, fluctuated within a limited range and then advanced le, closing firm.

The situation in provisions is a surprise to many who regarded the advance which started in a few weeks ago as a temporary affair. The shipments of meats, the reduction of stocks, the decrease in the movement of hogs, all continue beyond expectations. In addition to these influences the market had help today from very decided laying by shorts, additional buying by the big holders, who were builing the market and from the grain markets which were excited and higher. There was an advance from last night's best prices of about 22%e in pora, 12%e in lard and 12%e in rits. The close was at a shade from the top.

the top.
Freights were firm with a fair demand at 2½ for wheat and 2c for corn to Buffalo.
Estimated receipts for tomorrow are: Wheat, 575 cars; corn, 275 cars; oats, 19; cars; hogs, 13,0,0 head.
The leading futures ranged as follows:

Minneapolis Flour Output.

Minneapolis Flour Output.

Minneapolis Minn., Aug. 4.—The Northwestern Miller says: As a result of accidents, causing two mills to stand idte the closing half of last week, and others to tose more or less time, the flour output fell short of what it was expected to be. The week's production was 192,615 bbis.—averaging 23.112 bbis, daily—arainst 198,070 bbis, the previous week, 174,470 bbis, for the corresponding time in 1891, and 156,470 bbis. In 1890. For the same reason that existed last week, the output for this week will lke y show a decerase. Flour continues inactive and a trifle cheaper, prices are easier. For a week back the fresh sales have lacked a good deal of equaling the manufacture. However, most firms have orders ahead and they could self much more were they willing to accept present prices for September and October delivery.

The domestic demand is of a consumptive character and not very large. One heavy concern here, nowever, says that though running its mills full capacity all the time it is comparatively short of patent and would be glad to get an accumulation at Buffalo and other distributing points. About 25,000 bbis, of this have been held in Minneapolis by one firm, but some 18,000 bbis, of this bave been shipped the past week. Foreigners appear to be more responsive to any strength shown in wheat than Americans are, and though General and scored a hand spain significant in spain to its apain though season thate to issue a scene the failure to follow in the failure to start a bull to start a bul ing to pile it up, keep their output reduced. The direct exports last week were 72,540 bols, against 70,16- bbls, the preceding week.

Traders' Talk.

Traders' Talk.

Chicago, Ill., Aug. 4—Counselman & Day to Cockrell Bros. Commission company: Wheat followed the course of grain in interest and volume of business, but closed strong with a satisfactory aggregate of trade done, although some transactions were not reported, as vessels are scarce and shippers feared a sharp advance in rates. Sample lots of all grades were well sold, a sale of 190,000 bu. No. 2 hard was also reported. The speculative market railled in the face of heavy local pounding, occasioned by large estimated receipts, and closed at the best price; and looks hizher. Corn and oats advanced sharply on reports of dry hot winds in the southwest, and an attempt of some longs who sold yesterday to repurchase their lines. We still advise purchases on breaks. Provisions were more active on covering of professional short lines; longs were sellers, but in the main the situation remains unchanged.

Chicago, Ill., Aug. 4.—From F. G. Lozan & Co. to Duncan, Hollinger & Co.: The strength in wheat continues. September opened at "lacing sign of tomorrow. It sold as low as 77-2c, and so, das high as 78-3c, and closed at 7-3c, and so, das high as 78-3c, and closed at 7-3c, and so, das high as 78-3c, and closed at 7-3c, and so, das high as 78-3c, and closed at 7-3c, and so, das high as 78-3c, and closed at 7-3c, and so, das high as 78-3c, and closed at 7-3c, and so, das high as 78-3c, and closed at 7-3c, and so, das high as 78-3c, and closed at 7-3c, and closed at 7-3c, and so, das high as 7-3c, and closed at 7-3c, and clo

St. L but traders should receive with caution claims that one-half the Kansas crop has been de-stroyed. Provisions have been very strong, due nos-sibly to rumors that Armour and other large holders contemplate squeezing the shorts. They look like going st.fl higher.

STOCKS AND BONDS,

Duliness Was the Most Prominent Feature of Business Yesterday. NEW YORK, Aug. 4.—The stock market to-day was active at first, but later it settled back into the old rut of duliness and while the industrials were still prominent in the dealings they occupied a much less con-sulcoous place than for the last two days. The rumors of Vanderbilt buying Omaha made that stock again a leader, if not the leader, of the market and the stimulus was extended to all the Vanderbilt shares, which have been of late entirely neglected, North-

western being especially active and strong.

These movements, however, were after all out incidents in the market, duliness being most prominent feature and fluctuations being of the hand to mouth order. The movement in the industrials gave evidence of having reached its limit, at least for the present.

ment in the industrials gave evidence of having reached its limit, at least for the present, though General Electric still had many friends and scored a handsome gain. The trading was almost ent rely professional and the room contingent were inclined to be bearish again though there was little pressure of stocks, except in realization of the profits accrued during the late movement. The late manifested tendency of the forigners to sell stocks on every rise is having its influence to restrict operations and the failure of the railroad list to follow industrials to any marked extent gives the bears hones that the efforts to start a bull campaign will be discouraged by the lack of support given by those outside the Stock exchange. There was a diminished amount of interest shown in both Atchison and the grangers and fluctuations in these shares having dwindled down to the proportions of those in the general market, this afternoon the withdrawai of the stimulus from the industrial stocks rendered the market once more less lifeless. The market closed with a firm temper, though generally at small fractional losses as compared with last night's figures. The transactions of the day reached 19, 179 listed and 20, 103 unlisted.

Government bonds have been dull and steady. State bonds have been entirely neglected.

The Post says: Two facts were, however, noticeable in today's market as they have

lected.

The Post says: Two facts were, however, noticeable in today's market as they have been throughout the week, the pools organized to support the several stocks have shown no signs of giving up the task, and the bear operators have kept well aloof from the market. Whatever may be said of the current manipulations, this reflects a generally strong situation.

sam Nathan's Unsuccessful Effort to Annihilate Woolf Zucharin. Woolf Zacharia, a South Tenth street

pawabroker, went to the police station yesterday forenoon with a blood curdling 72., 1234 84 2234 tale of conspiracy, socialists and assassins, He said he had been sent a number of threatening letters and was convinced that his days were numbered if the police failed to capture his assailants. Detective Savage went with him and secreted himself in an adjoining room to await developments. In a few minutes Sam Nathan, a youth of 19, came in with blood in his eye and a stonecutter's hammer in his shirt sleeve. At the sight of Woolf he worked up a fine frenzy and let drive with the hammer, missing his aim but smashing the dishes. Then the detective gathered him in.

Sam Nathan, it seems, had an idea that
Woolf was casting sheep's eyes at his sister-

in-law and when his brother, the lady's hus-band, refused to go after his scalp, took up the warfare himself Mrs. Winslow's Soothing Syrip for children teething produces natural quiet sleep.

25 cents a bottle. Price of Four Fingers. In a petition filed, Gustave Landmann 1mplores the court to compel Abraham Rosenperry to pay over \$15,000 besides the costs. The plaintiff alleges that on July 2, 1892, he was engaged at Rosenberry's saw and planing mill; that on that day he was working about the machinery cleaning away the sawdust. He thought that the machine was not

running and fully believing that he knew what he was thinking, placed his right hand on the planing knife. As soon as Gustave found out that the machine was in operation, he also found out that four of his fingers had dropped down into the sawdust, and he thinks Rosenberry should pay the bul. Don't become constipated. Take Beech

Mr. Jaleks' Check. Chairman Birkhauser of the Board of Public Works has heard from Andrew Jaicks, the unsuccessful asphalt paving bidder. Mr. Jaicks has written to have his forfeit check of \$500 on the St. Mary's av-

enue contract returned. By the way, Jaicks got the contract for this street, which is one block in length, and the check will go into the city treasury unless he comes to time on his contract.

CATTLE / HOGS |SHEEP Marriage Licenses. The following marriage licenses were is-140 sued by Judge Eller yesterday: Name and address. W. T. Smith, Sloux City, Ia..... Chicago Live Stock Market.

Chicago, Ill., Aug. 4—[Special Telegram to The Ber.]—The cattle market was strong. Most descriptions soid 10c higher than yesterday, or from 15c to 25c hi her than at the close of last week. All of this advance may be ascribed to the fact of light receipts, only about 12,00c head arriving tod ay and the total for the expired part of the week falling short of 44,00l. There was a good local and eastern demand but next to no inquiry for export account, Chicago being relatively higher than London. Of the fresh receipts about one-half were natives. They were sailable at from \$1.25 to \$1.25 for poor to extra cows and bulls, at from \$1.50 to \$3.50 for stockers and feeders, and at from \$1.35 to \$3.45 for grassers, and the range of prices for westerns was from \$1.50 to \$4.50.

There was unusual briskness in the hog trade today and prices ranged higher. The best sorts went quick at from \$6.00 to \$6.05 and very ordinary lots were taken at from \$5.0 to \$5.75. The gain averaged fully from 5c to 10c per 100 lbs.. making an advance of 15c since Tuesday. All of the decline resulting from Monday's neavy supply has now been regained; indeed, the average of today's sales was nearly as high as for any day in the senson. Everything was out of sellers' hands long before noon and the close was firm at from \$5.50 to \$4.55 for common to choice grades. Poor lots sole at from \$5.00 to \$4.55 and cuils at from \$5.50 to \$4.55 for common to choice grades. Poor lots sole at from \$5.00 to \$5.40 and cuils at from \$5.50 to \$5.55. Poor and common stuff is not wanted and must be sold at very low prices, if at all sales of the latter run down as low as from \$5.00 to \$4.00. Sales of lambs were principally at from \$5.50 to \$5.50. though quotations range from \$1.00 to \$5.75. Receipts: Cattle, 12,000; shipments, 4,000; Christ Olsen, Onaha. Carolina Erickson, Omaha.
