Burglars Succeed in Getting in Their Work and Escape Undetected.

BOLDNESS OF THE MIDNIGHT PROWLERS

Two Places Visited in a Single Night-Operations Conducted Under the Glare of Electric Lights-Bowman Will Not Be a Candidate.

When H. H. Van Brunt's office on Fourth street, near Broadway, was opened yesterday morning the discovery was made that burgiars had been there during the night. The front door of the building was unlocked, both safe doors were open, and the cash drawer had been broken open. There was not a cent in the entire establishment, so the burgiars were disappointed in their hopes of getting rich in a single night. A fine gold watch had been left lying in a tin box in one of the compartments of the safe, and the box was found broken open and the watch was missing. A lot of notes and other valuable papers which were in the box were untouched. The watch was the only article taken, so far as could be learned. There is no clue to the identity of the guilty parties. but as the front door of the office has a Yale lock it is supposed that the burglary was committed by some one who was acquainted

with the premises. A purgiary was also committed at the fruit A burgiary was also committed at the fruit store kept by Carmen & Thilo at the corner of Main street and Willow avenue. The thieves entered by prying up the cellar door on the sidewalk on Willow Avenue. That they could do this under the bright light of they could do this under the bright light of an arc lamp not fifty feet away without being caught is a matter of some little sur-prise, but they did it, and after filling up their pockets with \$39 worth of fruit and confectionery they made off without leaving the slightest clue by which they could be

And ThatgSettles It. The question whether Hon. Thomas Bow man's refusal to run as a candidate for renomination for congress from the Ninth Iowa

district was the genuine article, or was intended as a temporary makeshift, bas been asked frequently ever since his declaration was published several months ago in the daily papers. There were not a few, in the democratic as well as the republican ranks, who thought that as the campaign season came on Bowman would reconsider his deision and enter the race again. Later developments go to show that he still holds to velopments go to show that he still holds to bis determination not to run. Thursday afternoon he and E. H. Merriam, a well known member of the local democracy, were seated on the curbstone of the courthouse vard talking politics, and a republican, who is acknowledged to be truthful, was sitting not far away, where he could hear without

eing seen.
"No, I don't like the way they do in con gress," said Bowman: "it's too much like going to school. You've got to be there at rollcall, and then you can go away for awhile, but the first thing you know you've got to be back for rollcall. I don't like it, and I don't intend to run again." "But, Tom." rejoined Merriam, "you're the only democrat in this district that we

can put up with the ghost of a show of winning." "D - if I care," was the rejoinder; "I shan't run." And there the matter stands. This decli-nation is considered by his friends to be final, and they are now hustling about to find some one else who will pose as a sneep before the shearers. Senator William Grone-

Trouble for a Machine Man. Howard Spark, a young man who has been

employed as agent for the Singer Sewing Machine company in Council Bluffs, is in trouble as the result of a dispute he had with the manager of the office over a question of commissions. He was arrested yesterday afternoon on an information issued from Justice Swearingen's office charging nim with larceny and forgery. In brief, the story of Manager Tarpy of the machine com-

pany is as follows:
All the agents who sell machines have blank leases, which are made out and signed by the purchaser and the agent, specifying the terms upon which the machine is bought and the times at which the payments be-come due. If a machine is sold for cash no lease is required, but the cash is turned in with the order. When Spark took cash orders he failed to turn in the cash, but instead made out faise leases and forged the names of the purchasers to them. How long this went on is not known, but in some way the fraud was detected and Spark was ar

The information alleges that the names of the women which have been forged to the fictitious leases are Sarah Olinger, Julia Barry, Sarah Ward and Minnie Gibson. Raking Over the Ashes. Only the ashes and the still hot walls of the burned portion of the annex at the Deaf and Dumb institute now indicate the fury of the tempest of flame that raged there thirty hours ago. Superintendent Rothert has put all the force at the institute at work clearing away the debris and repairing as fast as possible the weeck. The work of clearing away was begun in fact before the fire was fairly extinguished and immediately after the dispersal of the crowds drawn to the scene by the fire, and by 10 o'clock yesterday morning everything had been cleared away and the cortision incldent to the catastrophe abated. The kitchen was colly damaged by water, was cleared out in time to get supper after the fire, and before

wided to pump water for domestic use and to obtain a pressure in case of fire.

It is feared the loss will be much greater than was at first supposed and may reach \$30,000, much depending upon the condition Sunday building destroyed was erected by Con-tractors Wickham Bros., and their recollec-tion is that the cost was \$10,000. Ed Wick-ham yesterday examined the walls and thinks a portion of them can be saved.

It is now piainly evident that the fire will not interfere in any way with the opening of the autumn term of school. This was Super-intendent Rothert's strongly expressed be-lief immediately after the fire, and the activity displayed yesterday and the great progress made makes it apparent that the superintendent's promise to have everything
