The meeting of the trustees of the Iowa School for the Deaf which was to have been held vesterday did not take place on account of the luability of two of the members of the board to be present. A. T. Flickinger, who was expected home yesterday, failed to arrive and Louis Weinstein of Burlington was detained at his home by illness in the family. Governor Boics was not present. C. S. Ranck of Iowa City was the only one present and all he could do was to make an examination of the surroundings and go home. The probability is that the insti-tution will not have to go for the next two years hampered by the lack of a laundry, although there is no insurance on the cam-aced building and no chance for the legis-lature to make an appropriation. There is a fund of about \$10 lbs; however known as fund of about \$10,000, however, known as the "providential fund," which is constantly kept on hand for emergencies like the present that may take place in any of the state institutions, and it is thought likely that this amount can be secured to make the necessary improvements before the opening of the school year.

City Council Decides to Swap the Steamer for a Chemical Extinguisher.

ADVANTAGES THE TRADE WILL BRING

Fire Can Be Fought More Successfully in the Future-Cutting Off Extra Clerks -An Ordinance to Regulate Bankrupt Sales.

The council meeting that failed to meet Monday night on account of the tack of a quorum was held yesterday afternoon, with all the aldermen present excepting Jennings, who is still out of the city. One of the important things done was the decision to purchase a chemical engine for the fire department. Chuirman Pace of the fire committee presented a proposition which had been made to the city by a Chicago firm, offering to furnish a chemical engine for \$2,000 or to take in exchange for it the "Reswhich is disabled since the fire at the institute, with \$350 to boot, the amount which it is estimated it will take to put it in repair. While considering the proposition Marshall Templeton was called upon for his opinion. He stated that twothirds of the fires that have been in the city the last five years could have been extuguished with two-fifths of the less if a chemical engine had been on hand, instead of having to depend upon the city water works. The proposition was accepted and Alderman Pace was instructed to make the trade. The new engine will propably be in the city in two weeks.

Alderman VanBrunt offered a resolution instructing the mayor to advertise for a spe-cial election to elect an alderman in the Fourth ward to fill the vacancy caused by the death of Aiderman Brown. It was

adopted unanimously.

Mayor Lawrence read a communication from himself in which he called the attention of the council to the fact that last April the expenses of the government had been decreased by \$140 per month by cutting off the circical force, and he suggested that one of the city cierk's deputies could be beheaded and an additional saving be made. The suggestion was acted upon and the office of the deputy clerk who has been acting as clerk of the superior court was declared vacant, after September 1. G. W. Brill, who lives in the western part

of the city, appeared before the council to protest against allowing herds of cattle to run at large all through hi, neighborhood. The poundmaster had failed to put a st p to the nuisance and he thought something ought to be done at once. A resolution was drawn up which was intended to compel the herders to keep their stock west of Twenty-seventh street and south of Fourth avenue, but it was discovered that it would take an ordinance to fill the bill, and the matter was consequently referred to the committee of the

A petition bearing the signatures of thirty or forty merchants was read, asking the council to pass an ordinance regulating the sale of bankruit stocks, auction sales and the like, by transient increhants. An ordinance had been drawn up on the supposition that it filled the bill, and it was read in con-nection with the petition. It provided for the issuing of a license to such transients for \$400 per year or fraction thereof, and fixed a fine of not less than \$20 or more than \$100 as the penalty for each day that the merchant sold goods without having such a license. It was read twice and then laid over under the rules until next meeting.

The city engineer reported that the Indian

creek bridge at Bryant street was becoming rotten and would be soon unsafe for travel. He also reported that the Seventh street bridge was impassable. Both cases were referred to the bridge committee.

The ordinance compelling any one who

wished to distribute circulars or posters to take out a license for \$25 per annum was laid over in order that an agreement might be got out out of the city bill poster, for whose penefit the ordinance is to be passed, to pey for the publication of the ordinance. A sewer was ordered put in on Sixth street from Ninth to Fourth avenue and on Eleventh avenue from Fourth to Third

The contracts and bonds of H. G. McGee, Stimson & Huber, John Skinkle, M. L. Williams and John M. Hardin for improvements were approved.

Important Decisions.

Attorney General Stone handed down an opinion yesterday in reply to a question propounded to him by Superintendent of Instruction J. B. Knoepfler at Des Moines with reference to the payment of tuition by pupils of the public schools who reside out of the district where they attend. The attorney general holds that any pupil may attend free if his parents reside in the dis-trict, or if he himself has separated from his parents with no present intention of re-turning. If, however, a child leaves home for a day, week, or term, to attend school, intending to go back home when the school is out, he holds that he comes under the head of pupils who "sojourn temporarity," as tno statute has it, and is therefore to be re

quired to pay tuition.

Another question is also decided with reference to the issuing of teachers' certificates. Superintendent Knocpiler asks if a teacher's certificate issued in one county and endorsed by the county superintendent of another county is to be considered a legal certificate to allow him to teach in the second county. Mr. Stone says the law provides that teachers shall pass examinations at the opening of each school year, and although it may seem needless to compel an experienced teacher to undergo an examination year after year, the statutory life of a certificate is one year, and there is no law that authorizes a superintendent to seek to teacher's certificate issued to one county and

renew it by endorsement after its expiration. This last decision is likely to make a great change in the present manner of running the schools. It is almost a universal custom in the state for superintendents to renew from year to year the certificates of teachers who are known to be capablo, and the new rule that will go into effect by the atterney general's decision will cause a deep wail of dissatisfastion from the schoolma'ams.

The committee that was appointed to make arrangements for the veterans' reunion which is to be held in this city on the 7th and Sth of next month, held its first meeting last evening in the parlors of the Grand hotel and added a number of other names to the committee. As it now stands the committee is composed as follows: Chairman, A. C. Graham: treasurer, Mayor N. D. Lawrence; E. L. Snugart, C. R. Hannan, J. W. Peregoy, Thomas Bowman, John Keller, Vic Jennings, E. W. Hart, J. R. Rice, Finley Burke, Ira F. Hendricks, John Schoentgen and S. B. Wadsworth. These gentlemen will act as a general committee on finance and arrangements and will start out in a day or two with a subscription list to collect money from citizens. Between 8,000 and 9,000 are expected to be present during the raution, and all the citizens are expected to furnish is the tents, tent room and such other incidentals as may prove necessary. The visitors will board them-selves. It is hoped that the work of the committee will meet with such co-operation from the citizens that the visitors will be given a good impression of the city during their stay.

Insurance Men in Trouble. Another sensational suit in which E. W. Kappel is made defendant was commenced in the district court yesterday, W. H. McClelland is the plaintiff, and he makes the Mutual Life Insurance company of New York and E. W. Peet & Co., the western agents for the company, co-defendants with Kappel. Me-Cicliand alleges, among other things, that in 189) there was an agreement entered into between him and the defendants by the terms of which he was to solicit insurance. On the strength of this agreement he old work for the company for which he claims \$421.20 as commission. The defendants agreed to pay this amount, but never did so. Some time after Kappell, who was at that time Council Bluffs agent for the company, induced him to take cut a policy of insurance for \$5,000, the premium on which for the first year amounted to \$268. He paid this, but some time afterwards Kappell induced his (McClelland's) wife to give up the policy, which she was nolding, saying he wanted it to show to a neighbor of ners and would return it at once. This policy, instead of being returned to Mrs. McCletland, he claims was sent to Peet & Co,'s office and there destroyed. He demands judgment for dam-

Council Last Night. The city council met last evening in adjourned session, President Walters presiding in the absence of Mayor Miller. Two paying ordinances were introduced and referred. One calls for the paving of the alley from M to N street, between Twenty-fifth and Twenty-sixth streets, and allows the prop orty owners thirty days in which to designate the material to be used. The other ordinance repeals a former ordinance passed several months ago ordering L street from Twenty-fourta to Twenty-seventh paved with ventura asphaltum, and provides for the paving of that street with vitrified brick on

The city garbage ordinance was amended, and its powers extended and increased.

An ordinance was introduced providing for the opening up of N street from Twentieth street to the B. & M. tracks, and empowering the city attorney to begin condemnation proceedings for the purpose of opening up the street

F. A. Broadwell was allowed \$67 as dam ages by reason of water from the street flooding the cellar under his house on N street, near Twenty-first. An ordinance was introduced placing fire

byorants at Thirtieth and S streets, Thirtieth and Shelby streets, Thirtieth and Brennan streets, and Thirtieth and Hoffman

A petition asking for a sidewalk on the north side of Armour street, from Bellevue avenue to Twentieth street, was referred to

the city engineer.
Bids for the grading of O street, from Fourteenth to Twentieth street, were opened, and Cash Bros.' being the lowest bidders the contract was awarded to them. Their bid was 12 6-10 cents per cubic yard for grading, 50 cents per lineal foot for 18inch sewer pipe and 30 cents for 12-inch pipe, and \$5 for each 100 feet of grubbing. The contract for grading the alleys be-tween Eighteenth and Twentieth streets, from Missouri avenue to M street, was awarded to S. Hunter. His bid was 17 4-10 cents for each cubic yard of grading and \$25

for each 100 feet of grupbing. A large batch of bills was allowed and warrants ordered drawn on the occupation tax fund. Chairman Wyman of the finance committee is out of the city, and Wood from the same committee reported only on those claims approved by the chairman. The committee on streets was instructed

to advertise for bids for laying sidewalks in the city during the coming year, At 11:15 the council went into executive session to consider the occupation tax on saloens and take steps to enforce the pay-

ment of the same. The council sat as a board of equalization during the evening for the purpose of equalizing the special tax's and assessments levied against the abutting property to pay for the grading of Twenty fifth street from J to Q grading of Twenty-fifth street from J to Q streets. The clerk was engaged in reading a lengthy opinion from City Attorney Van Dusen when that gentleman came in and stated that the opinion should be read in executive session. A motion was immediately carried and the board went into secret session. sion and voted to not levy the assessment against the abutting property on Twenty-fifth street. This leaves the matter in such fifth street. This leaves the matter in such shape that the contractor who did the work will be compelled to carry it into court and and have it determined whether the property owners or the Union Stock Yards company shall pay for the overnaul of the grading done on that street three years ago.

Stabbed a Plumber. About 1 o'clock yesterday morning John

Parks, a plumber, was stabbed three times by Louis Meyers, employed in the sausage department at Swift's packing house. The men were on Twenty-sixth street near the Rowley block and a dispute arose. Parks struck Meyers, who pulled a small butcher knife from his clothes and inflicted two bad wounds on the former's head and one in the shoulder. The wounds are not considered dangerous, but it was a close call for Parks. Mayers was arrested and will answer to the

his patient's life and neglected to report the matter. He escaped with a reprimand as did slso Dr. Holinquist, who had failed to report a case of typhoid fever.

Mr. Howell was in favor of enforcing the ordinance regarding such cases, which means a police court fine from \$5 to \$100 for each violation. Hereafter the physicians will be held strictly to the letter of the law. Samuel E. Rogers and John Powers had been ordered to abate a stagnant water nuisance at Sixth and Cedar streets and appeared before the board to show cause why they could not obey the board's orders. It was claimed that the Codar street sewer had claimed that the Codar street sewer had been broken for some time and in consequence it was impossible to drain the surrounding low lands. After a long talk the matter was referred to the council with the request that the city engineer be instructed to repair the sewer if it was necessary.
