**REPUBLICAN PROSPECTS IN MISSOURI.**  
 The republicans of Missouri, under the leadership of Major Warner, their candidate for governor, are making a vigorous and aggressive campaign, and it is believed by those who are well informed regarding the situation that the chances of republican success on the state ticket are good. It is a noteworthy fact that the democratic lead in Missouri on the state ticket is falling off much faster than it is on the national ticket. The democratic carried the state in 1880 for president by 55,000 and for governor by 54,000, while four years ago the vote for president was nearly 25,000 and for governor only a little over 13,000.

Clarkson, and our reckless contemporary is not justified by anything that has yet been discovered in placing a stigma upon the name of a man whose life in Omaha and everywhere else had never been sullied by even the suspicion of dishonesty.

Judge Clarkson's career of strict integrity and correct living could not protect his memory from the defamatory gabbles of corrupt jobbers, but it should have been respected by the press of his own home until convincing and positive proof is found to the contrary.

The decline in the price of silver, which has fallen lower than ever before, is causing a serious disturbance in the financial and commercial affairs of India and presents a problem to the British government full of grave difficulties. It is nothard to find reasons for the decline, but how to meet the changed conditions which it involves and avert the troubles which it threatens is not so easy a matter. The United States is quite as much interested in this subject as any other country, but nothing can be done regarding it for at least six months. The treasury is powerless, the law absolutely requiring the purchase of so much silver monthly, so that the government must go on purchasing even if that metal should continue to fall. The situation gives more than ordinary interest to the conference soon to be held to consider the silver problem, but as that body can do nothing except to recommend a great deal may happen in the way of unsettling financial affairs before any practical result from its deliberations may be reached. Meanwhile the downward course of silver offers a lesson for the careful attention of those who urge that the United States should adopt the free and unlimited coinage of that metal. Suppose that policy were now in operation, can there be any doubt that there would pour into the country a flood of silver which our mints could not handle in the next five years, but which coming here would have the effect to drive gold to a premium and out of circulation?

**THE REPUBLICAN TICKET.**  
 Wallace Star: The republican state ticket is a winner from top to bottom. Pierce County Call: The ticket is an excellent one. It is the strongest ticket one has in the state. Republican Valley: The ticket cannot help but command the respect and confidence of the voters of the state. Nance County Journal: The state ticket is the best which has been put up for years. Every good republican will do his best to see that it is elected. Clay County Progress (alliance Ind.): The late republican state convention nominated the strongest state ticket that it has put up for the last twenty years. St. Paul Republican: The ticket nominated is an exceptionally strong one, composed of the best men in the state. Men and women who are well known to the people at large in the state. Shelton Clipper: The republican state convention acted wisely in nominating Judge Crouse for governor. Every man could have been found in the state, and that he will be elected goes without saying. Ewing Democrat: As between Crouse, the republican ticket is the best that has ever been put up by the republican party in this state. Bayard Transcript: There are no misstatements among the candidates. It is a most excellent one in every respect. Republicans everywhere will do their best to elect every county in the state comes a burrah for success. Beatrice Times: Judge Crouse is a republican of the best type, a clean, able and energetic man. Place J. E. Willets of Kansas related to the workmen of Omaha that he had sold a horse for \$100 to Uncle Sam and was compelled to give a bond that has never yet been released. This is a grievance that all the workmen in the country should rise in their might to redress. It is an awful hardship on a free American citizen, but Mr. Willets should not lose much sleep over that perpetual bond if he came by the horse honestly. The probabilities are that about the time he sold that horse Uncle Sam's quartermasters were troubled by claimants whose horses found their way from the jayhawkers' stolen herd into the government corral. The bond was only a necessary precaution against dealers who, according to the tariff reformer's idea, were in the habit of buying their goods in the cheapest market and selling them in the dearest.

**CONGRESSIONAL CONVENTION CALL.**  
 HEADQUARTERS REPUBLICAN CONGRESSIONAL CONVENTION, OMAHA, AUG. 15.—The republican party of the Second congressional district, state of Nebraska, will assemble in a delegate convention at Washington hall, in the city of Omaha, Douglas county, Nebraska, on the 20th day of September, A. D. 1892, at 2 p. m., for the purpose of placing in nomination one candidate for congress in said Second district, to elect a congressional committee, and perform any other business pertinent to such convention. The several counties in said congressional district shall be entitled to the following representation, based upon the vote cast for George H. Hastings for attorney general in 1890, as provided by the republican central committee of Nebraska, which is as follows:  
 Douglas county..... 64  
 Sarpy county..... 6  
 Washington county..... 6  
 It is recommended that no proxies be allowed in said convention, but that the delegates present cast full vote of delegation.  
 HENRY GOTTSCHE, Chairman,  
 PERRY SELDEN, Secretary.

**THE BEE PUBLISHING COMPANY**  
 SWORN STATEMENT OF CIRCULATION.  
 State of Nebraska,  
 County of Douglas,  
 I, George H. Tschuck, secretary of THE BEE Publishing Company, do hereby certify that the following is a true and correct statement of the circulation of THE BEE for the week ending August 15, 1892, was as follows:  
 Sunday, August 1..... 26,500  
 Monday, August 2..... 25,700  
 Tuesday, August 3..... 25,700  
 Wednesday, August 4..... 25,700  
 Thursday, August 5..... 25,700  
 Friday, August 6..... 25,700  
 Saturday, August 7..... 25,700  
 Average..... 24,302

The republican candidate for governor, Major Warner, is very popular, particularly with the old soldiers, of whom Missouri has a large number. He is making his campaign almost wholly upon state issues and the testimony is that his canvass is proving to be very effective. At any rate the advice from Missouri is very reassuring for the republicans so far as the state ticket is concerned, and such a victory this year would go far toward making the state republican on the presidential ticket four years hence.

**A GRATEIFYING PROSPECT.**  
 Readers of THE BEE cannot have failed to notice that its columns contain almost every day accounts of new industrial enterprises established within the boundaries of Nebraska. This steady increase in the number of our mills and factories shows that the home patronage idea is bearing fruit. Every one of these new enterprises, even though comparatively small at the outset, is bound to grow and keep pace with the demands of its market. Every one of them must employ men who, with their families, will swell the number of consumers of all commodities, and thus the reciprocal influence of home patronage will be made manifest.

**COMPETITION BY WATER AND RAIL.**  
 The competition between the railroads and the clipper ships from San Francisco to New York is producing results very favorable to the shippers of the Pacific coast, especially in the line of heavy freights. There has lately been a great revival in the carrying trade from west to east by the way of Cape Horn. Some of the largest and best sailing ships now engaged in commerce are those employed in what is called in the east "the California trade." It takes a sailing ship about 115 days from the average to go from San Francisco to New York around the Horn. Sometimes it takes much longer, and a voyage of 100 days is considered very remarkable. Yet this slow method of freight transportation has, by reason of its cheapness, so extensively cut into the business of the railroads that the Southern Pacific has deemed it necessary to lower its rate on certain kinds of goods from 40 to 60 per cent; and judging by the published schedule the reduction applies to the greater portion of the merchandise shipped east from the Pacific coast.

**MAID OF ATHENS UP TO DATE.**  
 Deloit Tribuna.  
 Maid of Athens, she is not  
 Give me a pack and my heart,  
 But that shining diamond ring,  
 Bracelet, eardrop, everything  
 Give me another who they'll fit;  
 When our summer love is new,  
 Give them back and I will fit.  
 Give me another who they'll fit;  
 While from lovers half a score  
 You can get a plenty more.

**GOOD AMERICAN FOOD.**  
 Albany Evening Journal.  
 You can talk about your gamey birds  
 And fancy ruffled grouse,  
 A food that's good enough for me  
 Is picked home-made sausage;  
 No "goose" pudding, "sage" kraut  
 And other stuff like that,  
 But sausage and buckwheat cakes  
 And doughnuts fried in fat.

**FROM THE SEA SHORE.**  
 This toilette de plage is of almond-green crepon. The lower part of the corset enters into a dark-green velvet corset, edged with gold lace and ending in a basque of lace.

**OUR down street contemporary** is becoming an elastic expert in the art of coming-off-the-dump.

The janitors will remain on the ragged edge of uncertainty until the next school board meeting.

MAYOR BEMIS very naturally returned to his real estate exchange oratory in his address of welcome to the Shrimers.

**THE PEOPLE KNOW BETTER.**  
 It pleases the orators and press of the democratic party to make a great deal of noise about the "robber tariff," and the claim is persistently put forth that the present protective tariff law has increased the cost of necessities to the American people. The claim is utterly false, as everybody knows who keeps even an approximate account of his expenses.

**AMONG the terrible things** that have provoked him to revolt against the old parties J. E. Willets of Kansas related to the workmen of Omaha that he had sold a horse for \$100 to Uncle Sam and was compelled to give a bond that has never yet been released. This is a grievance that all the workmen in the country should rise in their might to redress. It is an awful hardship on a free American citizen, but Mr. Willets should not lose much sleep over that perpetual bond if he came by the horse honestly. The probabilities are that about the time he sold that horse Uncle Sam's quartermasters were troubled by claimants whose horses found their way from the jayhawkers' stolen herd into the government corral. The bond was only a necessary precaution against dealers who, according to the tariff reformer's idea, were in the habit of buying their goods in the cheapest market and selling them in the dearest.

**THE reports from Iowa** are all to the effect that the republicans made sure of a handsome majority when they cast aside the burden of prohibition and resumed the habit of working for the recognized principles and interests of their party.

**IN VIEW of the recent decision** of the Western Traffic association, let that freight bureau be organized at once. Its necessity is urgent at this time.

WITH streetcar-men's and switchmen's strikes in this country just now there ought to be a healthy demand for fall shoelathers. Walking is still good.

**THE Chicago News, a rampant tariff reformer** organ, says that the people are alarmed because of the free trade stand of the democratic party and that "they prefer McKinleyism to Cobdenism."

**ON THE morning of November 9** some of the wisest democratic organs in America can use as editorial explanation of their defeat some of the articles on Cleveland which they published before the wigwam convention.

**THE Board of Education** has dilly-dallied with the construction of new school buildings very much after the fashion pursued by the council and Board of Public Works in regard to paving and sewer contracts.

**THE Denver system** of garbage disposition is superior to that of Omaha, but the really best way to dispose of the stuff is to burn it. As we have no crematories in this city, every back yard can be used and no damage done. Burn the garbage.

**IT IS NOW claimed** that Omaha and Kansas City packers get a rebate by which the hog product rates are more nearly equalized. If this is true it is all the more a reason for appeal to the law to correct such abuses. Let this transportation business be not only fair but open and honest.

**IT SEEMS to be the peculiar mission** of the free trade organs to search this country over with a fine tooth comb in hysterical haste to discover a protected industry which by reason of mismanagement or neglect has proven a failure. This is truly American procedure and is of great aid in advertising this nation.

**THE decision of Governor Buchanan** of Tennessee to bolt the democratic ticket and run as an independent will serve to increase interest in the political campaign in that state. It is understood that Governor Buchanan will be nominated by the people's party, which will hold its convention tomorrow, and the platform he has announced ought to be entirely acceptable to the new party. With four tickets in the field, and so popular a man as Buchanan at the head of one of them, the republicans ought to stand some chance of winning. There is every reason to expect that the governor will draw extensively from the democrats, and as the people's party in Tennessee was largely recruited from the democracy, it would seem that the latter cannot afford to lose a great many more without the danger of being beaten. Stranger things have happened in politics than would be the election this year of a republican governor in Tennessee.

**BROWNING, KING & CO.**  
 Largest Manufacturers and Retailers of Clothing in the World.  
 Gentlemen  
 You like to be well dressed. You like the tailor-made suit; but you don't like the tailor-made price. If you can get the tailor-made price you would consider that so much gained. Suppose you step into our store and we put a tailor-made suit on you that fits you perfectly, won't you be just as well satisfied as if you had had a little fat tailor waddling around you with a tape measure, who had made it expressly for you. Our suits are tailor-made, made expressly for men of your size, and if it don't fit you to a dot, we'll make it fit just the same as other tailors do who charge you twice as much and look pleasant. We're making special prices just now on broken sizes and styles of men's and boy's clothing.  
 Our store closes at 6:30 p. m., except Saturdays, when we close at 10 p. m. | S.W. Cor 15th & Douglas St |
