## THE SPECULATIVE MARKETS

Wheat Slanted Under the Influence of the Better Tone.

REPORTS OF PROBABLE FROSTS RECEIVED

Indications That Corn May Suffer in the Dakotas and Other Northwestern States - Result of the Labor Troubles.

CmcAgo, Ill., Aug. 18.-The wheat market slanted under the influence of the bester tone to the first cablegrams. Beerbohm's dispatch read: "More disposition to buy." Another read: "Duil, not quotably lower," and the public message from Liverpool noted an advance of 15d per cental for American red winter. The Cincinnati Price Current's remarks confirm ng private reports of disappointing yields of wheat from the threshing in South Dakota were likewise a mild assistance to the bulls. They paid a good deal of attention to the dispatches which came in from Buffalo during the sess on concerning the inhor troubles. The effect of the strike is, of course. bearish upon values while this continues.

troubles. The effect of the strike is, of course, bearish upon values while this continues. Some reports of the condition of the crop of spring wheat in the Dakot is were received, but is they emanated from the railroad interest they were not received with the credence which the names attached to them would otherwise command.

The bails were fortified in maintaining former holdings and in adding to them, on slight breaks by the appearance of the weather map, which was regarded by the weather map, which was regarded by the morthwest. The range in the thermometer in the British northwestern possessions from 14 to 46, following very heavy r.in.

The opening price for September was from 75 to 75 as, but there were lots for sale at those prices and it was soon suiling at 76c. That very narrow range marked the breadth of the fluctuations up to within an hour of the close of the session. Business was extremely dail. The weak cosing of the Berlin and Paris markets did not appear to weaken the faith of holders. The price clang tennelously close to 57c for September. There were sales at 75c at the end.

The corn market started at a point lower than it left off at yesterday noon, weakened a trifle, then became very strong, had a tumble back to the opening point, following which it rested. The opening value of September was 52c and after touch ag 513c had a burge to 525c. A good deal of long stuff came out on the advance, much of which it was rumored, was being sold for the Cucahys. The price gradually declined to 512c. The market was firm as the session approached its close. September advanced again to 724c. Fear of colder weather was the influence under which the market closed.

Oats opened a trifle easier, but buying orders proved to be plentiful and the execution of them caused a gradual hardening of prices, Partles who sold short early became nervous, as the advance continued, and came in thereby giving the market additional strength. Sentember closed a trailed and the execution of them caused a gradual hardening of p

prices. Parties who soid short early became nervous, as the advance continued, and came in, thereby giving the market additional strength. September closed at 33½ against \$27.c at the close yesterday.

Provisions were again very much depressed by the Buffalo strike and the backers were free sellers. Dispatches from the stock yards said that prices for hogs were from 5c to 40c lower. About 19,030 hogs were received and fully 14,000 were left over from yesterday. The Buffalo strike checked shipments to the eastern markets and it also deters shippers from forwarding hog products, as they fear a freight blockade and destruction of property. There were also rumors of man pulation and sales by longs to break prices. September pork sold shortly after the opening at \$11.75. Lard and ribs were steady.

mated receipts for tomorrow: Wheat, 673 cars: corn, 40) cars; oats, 3 % cars; hogs. 15.0 % head. Lake freights steady on basis, 24c for wheat and te for corn to Buffalo. The leading futures range las follows:

Traders' Talk.

Traders' Talk.

CRICAGO, Ill., Auz. 18.—Rennett. Hopkins & Co. to S. A. McWhorter: The news has been about as bearish today as yesterday and the strike at Buffalo has assumed more alarming proportions, but the market has been firm all day. It is a natural recovery from yesterday's depression. A continuous navance is hardly to be expected at this time, but the on-portunity to buy cheap wheat is a good one and a nice profit at no distant day seems highly probable. The price is about 24c below that of a year ago. Considerably colder weather in the northwest and the fear of frost in the northern edge of the corn belt have bad a stimulating effect. There were also a good many short lines covered on the break yesterday and both buils and boars favored a molerate raily. Good souking rains in Kansas and Nebraska would be likely to cause another drop inless immediately followed by a frosty temperature. There was a pretty fair demand for outs and improving prices existed. The built leaders in provisions seem willing to encourage a further shake out on lower praces but the best juiges anticipate a sharp rally presently.

CRICAGO, Ill., Aug.; IS.—F. G. Lozan & Co. to Duncan. Hollinger & Co.: Wheat has ruied dull but steady, all day. Trading has been featurciess. Our advanced sharply early on the fear of frost in the northwest ton the Continuous for in receipts. We look for an improvement in prices. Corn advanced sharply early on the fear of frost in the northwest ton the fear of frost in

STOCKS AND BONDS,

Railroad Securities Were More in Favor Yesterday Than Wednesday. New York. Aug. 18.-The news from the striking switchmen, which bears pretended made the slump in prices yester lay, was more avorable this morning, and the prompt action of the governor infused a little confidence nto the stock market, though its influence extended only to fractional gains among the rallroad shares. There was a rather more widely distributed and targer bus ness in the railroad shares, while the manipulation of the industrials went on at an increased rate. The covering of shorts was still most prominent in Burlington and the other grangers. The first named rose | per cent. The upwarl movement, while confined to the insignificant fractions among most of the railroad shares

tions among most of the railroad shares, reached the entire list, but only among the few leaders was it notice the.

The high prices attained induced some realizations in the last hour and prices yielded slowly in the face of the extraordinary rise in sugar, which had come up from 1984 to 1123, with all the other industrials following, most scoring rains of from 1 to 2 per cent. The market finally closed quiet but heavy on the decline, with most stocks at small fractions better than first prices. The transactions reached 153.245 listed and 9.376 unlisted shares, sugar contributing 81.376 and Reading 39.590.

Cattle Scarce and Unsteady-Hogs in Fair

OMAHA. Auz. :8—The supply for four days foots up 6.542 cattle, 16,932 ho is and 1,648 sheep, against 7.711 cattle, 22,497 hogs and 644 sheep, the same four days last week, a decrease of 1,730 cattle and 6,40) hogs and an increase of over 1,600 sheep.

the same four days last week, a decrease of 1,300 cattle and 6,40 hogs and an increase of over 1,600 sheep.

Receipts of cattle were surprisingly light for this season of the year, in fact the nineteen cars, 505 head of cattle received constituted the smallest run of cattle so far this year. The poor demand from the country for feelers is the principal reason for the light run. As a general thing the bulk of the receipts during August are westerns and these mostly go to the feeders. As there is hardly any demand for feeding cattle just at present on account of the uncertainty of the corn crop, western shippers are naturally holding off for a more favorable market.

The fresh offerings were nearly all cows and feeders, the few beef cattle received being decidedly common and held at prices which practically insured their not se ling. The demand was good for desirable killers and the market was quotably strong.

There were seven or eight loads of cows and mixed stuff on sale and with a good demand prices ruled fully steady on all grades. Sales were at from \$1.5 to \$1.75. There were a good many calves here and prices were generally firm, common yearlings to very good veals selling at from \$1.55 to \$1.75. There were a good many calves here and prices were generally brisk at prices a shade firmer all around although there was nothing right choice here. Sales were at from \$1.55 to \$1.75.

although there was nothing right choice here Sales were at from \$2.25 to \$2.70, mostly at from \$2.40 to \$2.65. Representative sales:

LONDON, Aug. 18.—[New York Herald Cable—Special to The Beg !—There was no change in the bank rate today, which remained at 2 per cent. New business has been very quiet in the Stock exchange today. Outstanding accounts have been rather freely cosed. Consols are unchanged. Indian rupee paper has given way only 'b per cent. Total ..... 492 4.126 ... Chicago Live Stock Market.

Chicago, Ill., Aug. 18.—[Special Telegram to The Bee.]—Good cattle sold stronger and the market for other descriptions was at least steady today. The slight turn for the better was ascribed to the fact that fresh arrivals were lighter than generally expected and that yesterday's total fell something like 3.00 head short of the estimates. Owing to the ratirond troubles at the east shippers were compoled to operate conservatively, but there was a good demand from other sources, and as indicated above, the tone of the market was healthfer than on Wednesday or the day before. The supply was composed of about 6.00 matives, 5.00 Texans and 4.000 of westerns. Sales of natives were from \$1.25 to \$5.25—largety at from \$1.75 to \$2.5 for steers. Texas cattle were firm at from \$1.50 for steers. Texas cattle were firm at from \$1.50 for steers. Texas cattle were firm at from \$1.50 for \$4.00. The trade in stockers and feeders was scarcely sufficient to establish quotations.

Another loe per 100 lbs, was enipped off from the market value of hogs. Not more than \$5.30 could be obtained for the choicest of the offerings, and there was not to exceed half a dozen loads for which buyers could be found at better than \$5.73. Prices below \$5.70 bought the largest pirt of the supply, and from \$1.45 to \$5.65 being the popular figures. Many lots sold below \$5.45 indeed at the close that figure bought pretty decent hogs. Late saies were on a basis of from \$1.00 to \$5.65 for light, \$5.10 to \$5.75 for heavy. There were sales of skips and culls at from \$1.00 to \$5.50 and the lose that figure bought pretty decent hogs. Late saies were on a basis of from \$1.00 to \$5.65 for light, \$5.10 to \$5.75. In sleep there was but little trading at over \$5.00 and prices below \$5.30 bought the built of the lambs.

Receipts: Cattle, 15,000: hogs, 20,000; sheep. Chicago Live Stock Market. has given way only 15 per cent, notwithstanding the fail of silver on the Indian ex-han e. Greek bonds declined I to 15 per cent. Home railways have been more freely bid for during the last hour and close distinctly firm. Except a decline in Southeastern deferred and Great Eastern, a general advance was a stabled residence. Southeastern deferred and Great Eastern, a general advance was established ranging from \$\frac{1}{2}\$ to \$\frac{1}{2}\$ per cent. American railways have been more or less flat all day, having been influenced by labor troubles and the fall in silver, which frightened holders into selling just at the last moment. A ceneral decide was established, including 1\frac{1}{2}\$ per cent in Eric preference. \$\frac{1}{2}\$ per cent in Eric preference. The cent in Luke Shore, \$\frac{1}{2}\$ per cent in Louisville & Nashville and Northern Pacific preference, and \$\frac{1}{2}\$ to \$\frac{1}{2}\$ per cent in others. Short loans continued to be quoted at \$\frac{1}{2}\$ per cent. The discount market has shown increased firmness, two and three months bills being quoted at \$1\frac{1}{2}\$ per cent. HE IS GOING TO CHINA. Farewell Reception to T. J. Hollander by

the Y. M. C. A. Mr. T. J. Hollander, known among religious young men of the city as "limothy," on account of his zeal and faithfulness in religious work, was tendered a farewell reception last night at the Young Men's Christian asssociation building. He will leave in a few weeks for China to enter upon the work of a Christian missionary, and, on account of the fact that Rev. Mr. McCarthy, who has spent many years in Chinese mission work, was in the city, it was de-cided to hold the farewell reception last

The concert hall was well filled with the The concert hall was well filled with the friends and acqual tances of Mr. Hollander. It was a manifestation of good will and friendship sufficient to till the heart of any young man with supreme satisfaction. Mr. Hollander has been exceedingly popular during his career as assistant secretary of the Omaha Young Men's Christian association, and never has this fact become more apparent than last night. On the platform sat

BONDS WANTED W.W.HARRIS & COMPANY, Bankers, 163-165 Dearborn Street, CHICAGG. :5 Wall Street, NEW YORK. 70 State St., BOSTON.

Secretary Ober, State Secretary Nash, Rev. P. S. Merrill, Rev. Mr. McCarthy, J. M. Hazelton and half a dozen other prominent

association workers.

Dr. Merrill offered prayer, Mr. Knicker-bocker read a scripture lesson and then Rev. McCarthy spoke for twenty-five minutes upon the mission work in the interior of China. Mr. Hollander then related the story of how he came to decide upor, the life of a missionary, closing with many tender words touching the ties of friendship that his de-parture must necessarily sever.

Mr. Hazelton offered a few words of god-

speed in behalf of the young men of the as-sociation, and Mr. Charles A. Goss presented Mr. Hollander a handsome gold watch as a token of esteem from his friends in the

Mr. Hollander was very much affected by the presentation, but managed to respond it a very appropriate manner after getting that

a very appropriate manner after getting the "risin' out of his throat."

State Secretary Nash presented a very practical phase of the occasion by inviting those present to chip in enough to pay Mr. these present to chip in enough to pay Mr. Hollander's way to China. Something like \$150 was raised in a very few minutes, and then the audience sang "Biest Be the Tie That Binds."

Mr. Hollander will go first to Tang-Kee, where he will study the Chinese language and customs for nearly a year before enter ing upon the active work of a missionary. When he has partially mastered the language be will be assigned to a station in the inter-ior under the direction of the superintendent of missions.

WANTS A WATER TOWER.

Chief Galligan Tells Why the Apparatus is Needed in Omaha,

At the last meeting of the fire and police commissioners it was decided to ask th council for authority to purchase a Hale water tower for use in the ousiness part of the city. In speaking about the matter yesterday Chief Galligan said:

"I recommended the purchase of a water tower and hope that the city will buy one. In case they do Omaha will then have as good a fire department as there is in the country. It is something we need here, and while the machine would probably not be called into service very often, it would pay for itself at one big fire like the Omaha Hardware company's fire last March. All the large cities of the country have purchased these towers and find them invaluable in the large cities of the country have purchased these towers and find them invaluable. able in cases where the fire is in the to

story of a tail building and where it would be impossible to carry a line of hose. "The pipe of the tower is raised by a small chemical engine, and is telescopic, so that it can be raised to a height of sixty five feet or lowered to thirty feet. For flooding purposes it is invaluable. On the new pattern of towers now being made there is room for six lines of hose 'siamesed' together, and thus several hundred gallons of water a minute can be poured into the top story of a bigh building and flood the structure in a very short time. The nozzles which discharge the water are operated by one man, who stands on a platform just above the front wheels of the truck, and will turn in an are of ninety degrees, which is greater than is ever neces-sary. At the end of the truck of the water tower there is a short iron pipe which also discharges a good sized stream of water. This is to be used in throwing a stream of

vater into lower windows."

Continuing, the chief said that he had plenty of room at the new engine house for such an apparatus and that the city could not make a better paying investment. Al of the five commissioners are in favor o purchasing the apparatus but owing to the small balance remaining in the fire fund they cannot now see their way clear to warrant the expenditure. However, an effort will be made to raise the money some way and it is probable that the board will buy the tower.

FURTHER CAUSE FOR WAR.

Alton Officials Accuse Gould Agents of Double Dealing. Cuicago, Ill., Aug. 18,-General Passenger Agent Charlton of the Chicago & Alton has followed up his attack on the lines in the Western Passenger association with a supplementary communication to Chairman

Caldwell, in which he says: "In my letter of the loth inst. to you, I omitted to advise you of what, however, you are doubtless as we'l aware of as I am, that some time ago when there was no reasonable excuse for so doing, the Burlington road contracted a St. Louis Knights of Pythias rate at \$4 from St. Louis to Kansas City and reurn. At the time this was done and stil ster, and when I wrote you on the 16th inst. was urged to make an open rate of \$4 from St. Louis to Kansas City and return because of this private rate made by the Burlington unnecessarily and in violation of the asso-

ciation agreement.
"I am just in receipt of the following telegram of this date from our general western passenger agent at St. Louis, and which must be interesting to you after your decision that the rate for Knights of Pythias from St. Louis to Kansas City and return must be \$5: 'Missouri Pacific has notified brokers that the Knights of Pythias rate will be \$4. city ticket office has also quoted same rate to two people whom we sent there to make

inquiries.'"

Mr. Charlton does not say whether his company will meet this rate or not, but the supposition is that it will. Nearly all the roads directly interested have decided to meet the Alton's rate between C'ileago and Kansas City quotation \$5 for the round trip, and \$3 for the single trip. An exception is the Rock Island, which has taken no action as yet. The Calcage Great Western and as yet. The Chicago Great Western an-nounced today that it would not meet the rates, as to do so would be to cut the rates over its line between Chicago and St. Paul and between St. Paul and Kansas City, which it cannot afford to do, Notice was given by the Illinois Central that it would make a rate of \$25 from Chicago to New Orleans and return on account of the Sullivan prize fight.

HEED THE WARNING

Which nature is constantly giving in the shape of boils, pimples, eruptions, ulcers, etc. These show that the blood is contaminated, and some assistance must be given to relieve the trouble.

S.S.S. Is the remedy to force out these poisons, and enable you to GET WELL.

"I have had for years a humor in my blood, which made me dread to shave, as small boils or pimples would be cut, thus causing the shaving to be a great annoyance. After taking three bottles in the should be appetite splendid, sleep well, and feel like running a foot all from the use of S. S.S.
