Harrison was elected temporary president; A. F. Buechler, temporary secretary. A constitution in general line with the state and national contitutions was adopted and a committee con sisting of eae from each ward of the city was appointed on permanent organization. The permanent officers are: Albert Roeser, president; Dr. H. C. Miller, secretary; D. C. Zink, W. A. Prince, A. L. Shoetz and E. C. Hockenberger, vice presidents. Steps were taken to properly meet visitors to the state republican league meeting Wednes-day, August 31. The Bartenbach opera house is being held for that date, unloss better accommodations can be secured. The meeting was a highly enthusiastic one and represented both old standbys and young blood. KANSAS CITT, Mo., Aug. 22 .- There arrived at the union depot during the twentyfour hours ending at 9 o'clock tonight 328 passenger trains, bringing into the city, it is estimated, no less than 65,000 Knights of Pythias and other visitors.

Daspite the great number of trains they are being well handled, and are received at various stations on as near schelule time as could be expected. The Chicago & Alton and the Missouri Pacific unloaded at the Grand avenue station and the Santa Fe and Mempthis at the temporary station at Twentieth street and Highland avenue. This arrangement relieves the rush at the union depot, which would otherwise be swamped in the crowds of arriving visitors. The cheap rates are oringing as great a crowd as tho most extravagint prophet predicted. The effect of the rates is noticeable in the fact that the great bulk of the visitors are from

the east, where the rates are way down, while from the west, where the rates are maintained at one fare for the round trip, the arrivats are mostly Pythians. The Alton, Missouri Pacific and Santa Fe are bringing in the majority of the travelers. with the Burlington, Roca Island and Wa-

KANSAS UIT, Mo., Aug. 22.-Rain pre-vented the completion today of most of the athletic and sharpshooting contests being held in connection with the annual reunion of the Kreigerbund. The contests in turning, however, were all completed and prizes were awarded as follows: First prize, Ed Walters; second prize, Casper Knipp; third prize, Joseph Dangiomeyer; fourth prize,

Lee Lyons. The convention of the delegates today was an informal affair and only the barest rou-tine business was transacted. The conven-

the business was transacted. The conven-tion will be in session several days. The most important acts of the convention will be to decide the location of the next fest and to elect a president. It is almost cer-tain that the Kreigerbund will meet in St. Louis next year. As to who will be the next president it is difficult to predict. Sev-eral candidates are in the field. Among those who are promiuently mentioned for the place are Fritz Holie of St. Louis, the pres-ent incumbent, and C. J. Wairuff of this city

Tonight the delegates and visiting divisions gave a grand lantern parade. Four thousand men bearing German lanterns were in line and the spectacle was a brilliant one. The illuminations prepared for the Knights of Pythias were in full blast and the streets presented a gorgeous appearance.

How It Looks Upon the Retallation Measures Adopted by the United States.

TORONTO, Ont., Aug. 23.-Referring to President Harrison's proclamation imposing a toll on vessels passing through the Sault Ste. Marie canal, the Empire (government organ), says: "The spirit in which the present action is taken is certairly an unfriendly one and will not tend to increase cordiality of feeling between the two countries. We doubt whether public opinion in Canada will approve of any further concession in this matter in order to secure an amicable arrangement with a country which seems to have as little regard for international comity as for

The Globe (libera') says: "An attempt to strike this blow at Canadian commerce is warranted neither by the present attitude of our ministers, nor by the whole course of in-ternational dealing with tweetere to canals and waterways. It would be folly to deny that the step taken will not put an important Canadian interest in jeopardy, but any further concession in the face of this act would be too great waterings of our dignity and self respect."

FIREMEN WILL NOT STRIKE Sargeat Refuses to Call Out His Men Unless Everybody Goes Out. HE SYMPATHIZES WITH THE SWITCHMEN But There is No Use in His Ordering a Strike

> Join-All is Quiet at Buffalo.

BUFFALO, N. Y., Aug. 22.-Grand Master Sargent of the firemon's order is in the city. Ho is willing to call out his men on condition that all the other allied railway organizations do the same. It is believed here that the firemen of the local organization have passed the point where the enthusiasm of their sympathy might take them out on a strike. It is not thought now that they will go out independent of the order at large. During every hour since Friday night's meeting, firemen, who are in a position to know exactly what the companies are doing in freight traffic, have observed the steady increase in the movement of freight trains. It Increase in the movement of freight trains. It is said Sargent will today inform Sweeney that, while he assumes the switchmen's cause to be just, and while they have his sympathy, he will not call an isolated strike of firemen in this locality, but if the time comes when labor must assert itself and the other allied orders will come out, he is willing to place bis men in the same column. Benefity then his men in the same column. Briefly, then, the strike if it comes must be one involving the Brotherhood of Locomotive Engineers, Brotherhood of Railway Trainmen, Brother bood of Railway Conductors and the Broth erhood of Railway Telegraphers.

To the Associated Press Frank P. Sar-gent, grand master of the locomotive incemen, this morning said in om-phatic language, "If I order a strike of firemen, it will be in conjunction with the brotherhoods of locomotive engineers, railway trainmen, railway conductors and railway telegraphers. Indications that a Sympathetic Strike of

Other Employes Will Not Occur. BUFFALO, N. Y., Aug. 22.-For ten days Master Workman Sweeney of the switchmen's order has been in this city seeking to encourage and planning for the welfare of the men, about 539 in number, who were formerly the movers of freight traffic in the various railroad yards hereabouts. He has seen the companies secure new forces and he has witnessed the almost entire restoration of the conditions as they were before his followers quit work. He has now asked the heads of all the other labor organizations allied with the switchmen in railroad work to meet him here. Already Mr. Sargent is here and the others are expected tomorrow and next day.

Today a number of portable stoves were placed in several of the camps, and other purchases made indicate that the officers at least expect to stay here a while. The men are quick to note these things and construe them as meaning that they will be kept here for a long time to come. Talk about not get-ting away before October was heard in some of the camps. Many of the men are becom-

ing uneasy about their business positions. A letter was shown an Associated Press correspondent, written to one of the men in the Twenty-second regiment, by his employer, saying that it would be impossible to hold his position open for over a week longer. A noncommissioned officer said: "If we are kept here until October half the boys will be cut of jobs when they get home." A great deal of this kind of talk is heard wherever soldiers congregate, denoting uncasiness on

Startling Developments Promised.

COAL CREEK, Tenn., Aug. 22.-General Carnes said this evening: "The prisoners are just reginning to open their mouths, and some starting developments will be made in a short time. They all belong to a secret oath-bound order and the penalty for violating their obligation is death, consequently they have been close as clams heretofore. We have gotten several confessions from them today which, at this step of the proceedings, it would be unwise to give out, but I will state this much, when they are made known they will create much surprise." George E. Irish, a notorious miner leader, was brought to Knoxville from Coal Creek at 11:30 tonight.

He will speak through Missouri, Arkansas, Texas, Missis-sippi, Alabama, the Carolinas and Virginias, He will return to lowa early in October and devote the remainder of his time to the northwestern states. He is in good health and very sauguine.

The Death Roll.

SYRACUSE, N. Y., Aug. 22.-A widely known resident, "Prince Charles A. Perkins," was found dead in his chair this morning of heart disease. He was formerly secretary of legation at Stockholm and con-sul at Barcelona. He married Princess Gladia Isabella, of the Spanish royal family. Lyons, In., Aug. 22.--In this city today occurred the death of Oliver P. McMahon of a complication of discases accelerated by a railroad wreck in the south, in which he was injured recently. He was 73 years of age and one of the founders of the Frst Naional bank in this city in 1860 and its presi-

dent at death. CEDAR RAPIDS, In., Aug. 22 .- Hon, Sampson C. Bever died at So'clock this evening of old age in his 84th year. He started the first bank in this city and was one of the pioneers of the Chicago, Iowa & Nebraska raitway between Clinton and this city. Seward, Neb., Aug. 22.—[Special to The BEE.]—The death of J. H. Purdum of the firm of Godard & Purdum occurred at 6 o'clock this morning. He had not been feel-ing well for several days, but attended Suu-day school and accurate at the Mot

day school and services at the Methodist Episcopal church, of which he was a mem-ber, yesterday, being apparently in his usual health. About 6 o'clock in the evening he was threatened with cholera morbus, receiv-ing soon after a stroke of apoplexy, lapsing at once into unconsciousness, from which he did not rally. His wife, three sons and six daughters survive him. Mr. Purdum was one of the most prominent and highly re-spected citizens, and his loss to the com-munity as well as to his family will be greatly felt. He was in his 57th year.

Lizzie Bordea's Trial.

FALL RIVER, Mass., Aug. 29-The prosocution in the Berden murder case will open its. case at 3 o'clock this afternoon in the Second district court room, before Juage blassdell. About 300 witnesses have been summoned. The defense has secured the services of Melvine O. Adams, the well known Boston criminal lawyer.

The adjournment was granted on the ground that some things to be used as evidence in the case are wanting at the present time. These are the clothing and various parts of the furnishings of the rooms, which the alleged murderess occupied. They are now in the hands of experts, and they will Every man who has a not be here tomorrow nor next day, nor probably the day following.

u the encampment are now quartered at Camp Shaw. The remainder will arrive between tonight and noon tomorrow, when the encampment will be formally and officially opened. There are now occupying the tented city, according to official information, 6,825 knights.

In locating the various bodies of knights at the camp fantastic tricks have been played with the map of the United States. To read the sign poards which are scattered ver the camp, one imagines that some upheaval of nature had sadly mixed up the relative positions of the states and territories of the union, or else they were all out making social calls. Kansas and Massachusetts are bide by side. Connecticut crosses Mason and Dixon's line to smile at Kentucky and offer real wooden nutmegs in exchange for pure hand-made sour mash. California annihi-lates 3,000 miles of space and nestles up close o Pennsylvania, and the waters of the blue Pacific and the stormy Atlantic atmost mingle. Minnesota crosses the Father of Waters and leaps the expanse of the placid Ohio to shake hands with Tennessee. Canada makes love to lilinois and the union jack floats modestly in the breeze in the shadow of the stars and stripes, while Missouri complacently gazes into the back vard of Texas.

Wild Work of the Wind.

Early this afternoon the camping knights were given a lesson in the hardships of camp life and were shown what the windy west can do in the way of storms. The weather had been fine for weeks and seemed to have waited until the city had decked itself in holiday attire, vain of the admiration of her visitors, before showing how ugly it become. At noon today dark clouds could began to pile up at the northern horizon, and an hour later, without warsing, the storm descended upon the lown, accompanied by a furious gale and a drenching downpour of rain Dust was whirled into the air in thick clouds he wind whistled and roared; trees were blown low towards the ground under its force; the lightning gleamed and the thunde pealed forth with loud deconations. Th force:

visitors who were not accustomed to that sort of thing thought the storm a dreadful one, but the natives soon quieted their fears by assurances that it was only an ordinary western shower. The fury of the storm did not last over a quarter of an hour, but in that time in did considerable mischief Several tents at the camp were blewn down and those which remained standing were filled with dust, which flew in clouds before the rain feli. Everything not well sheltered was soaked with rain, and a good deat of discomfort resulted.

The rain also marred somewhat the beauty of the down-town decorations. Flags and moting were rendered limp and stringy and he coloring of their faorics became, in some cases, woefully mixed. The rain continued about an hour after the rest of the storm had pissed away. The weather tonight is clearog and the signal station predicts a fine day for tomorrow's pirade, one of the great lea-tures of the whole cocampment

Session of the Supreme Lodge of the World. The biennial session of the supreme lodge Kaights of Pythias of the world will be be-gun tomorrow morning. Previous to the session the supreme representatives will be

given a reception at the Grand opera house. The reception will be held at 6 o'clock in the morning. Addresses of welcome will be delivered by Governor Francis in the name of the state, Mayor Cowherd in the name of the city, and E. M. Harber, grand chancellor of Missouri, in the name of the local Pythins. Supreme Chancellor George B. Shaw will respond for the supreme lodge and the lodge will then go into executive session. All the members of he lodge are now on the grounds.

The work of the lodge tomorrow will be en-tirely preliminary and will consist in the initiation of new members and the hearing of reports of the various supreme officers. The Pythian Sisters arrived in nearly great numbers today as the meening souths. Most of them came to witness the pageants of the knights, and only a few of in attendance upon the supreme

to the Associated Press that he would never consent to the withdrawal of his men from their occupations unless joined by the menbers of other rallway organizations. With this position as an early precedent in the conference situation of the leaders it is not an unfair assumption that other executive heads will take the same position this shall prove to be true then all must go out or none will quit.

Mr. Arthur's Position.

The trend of fair judgment leads to a con viction that there will be no concerted abandonment of work by the organization to be represented in the conference. Mr Mr Arthur of the engineers has not as yet re sponded to Mr. Sweeney's invitation, and, while he may attend without previous notice of his intention to do so, it may not be re garded as surprising should Mr. Arthur represented through a communication rather than in person. Well informed persons here, when appraised of Mr. Sargent's ultimatum to Mr. Sweeney, concluded without hesita tion that no positive result will grow out of the meeting which Mr. Sweeney has called, It is thought to be a fair inference from Mr Sweeney's action that he has reached the limit of his power, locally, and that he has, by summering his colleagues, evidenced a conscious weakness of his own position as related to recent complications in the railway rouble here. In addition, Mr. Sweeney, his action, is regarded as having cilled help. He will have their counsel, but but the concensus of opinion is that neither he his followers will be aided by any syn sympa thetic strike among the engineers, fireme conductors, the trainmen, or by the Order Felegraphers.

Adding to the Strikers' Numbers.

About fifty men who have acted as switch-men for the Western New York & Pennsyl vania road this afternoon ceased their work because required to handle freight from the Central.

There are renewed intimations, that the switchmen of the Grand Trunk may add themselves to the number of tills men in

their trade. After all the talk of the withdrawal of troops, it may be as well to state that no troops will be withdrawn until time shall have made improbable any forther attacks pon the present switchmen in this city of hose who were formerly so employed poradic cases of abuse and outrages will arise to be recorded, but such will be inci-dents only to a situation which is now secure unless, perchance, Mr. Sweeney's secure unless, perchance, Mr. Sweeney's conference should result in the birth of new considerations or new complications.

CHIEF SARGENT TALKS.

Firemen Will Not Be Called Out Unless the Other Railroad Men Are,

BUFFALO, N. Y., Aug. 22 .- Soon after his arrival Mr. Sargant mot Mr. Sweeney in conference, after which an Associated Press reporter met the first chief.

"You have met Mr. Sweency?" was asked.

"I have," said Mr. Sargent.

"And you gave him your ultimatum as communicated to the Associated Press this

morning, in effect that you will not call out the firemen except they are joined by the other labor organizations allied in railway workf

"That is the situation, and I told Mr. Sweeney exactly that. What I mean to say," added Mr. Sargent, "is that there is no use of sending out our man in detachments to be gobbled up. If the strike now in effect here is of the importance to render necessary the combined action of labor organizations, the firemen are organized to do their share. ment today issued a circular letter to the col-

THERE WILL BE A SURPLUS.

Secretary Foster Says the Revenues Will Ex

coed the Expenditures by \$15,000,000. WASHINGTON, D. C., Aug. 22.-Treasury officials state that the department has a balance of \$59,000,000, and revenues, notwithstanding the loss of \$50,000,000 on sugar, are increasing at the rate of \$1,000,000 a month from customs alone. This rate of increase has been going on since the 1st of March. It is estimated that the customs revenue

this year will produce a surplus of \$15,000,000 over expenditures. Secretary Foster is not at all apprehensive that the Treasury department will experi-ence any trouble in the matter of the shipment of gold during the present year, and he so expressed himself to a reporter today. The secretary believes that things are safe with the large amount of gold the govern-ment absolutely owns, viz. \$110,000,000 and besides it will take many a domand to seriously deplete this store when constant access sions to it are being made. Nothing has been done looking to a prevention of the shipnent of gold from this country, he says, and
