The swelling has almost disappeared from his face. He can cat and sleep well, and his general condition is very good. He was out

Billy Myer's Work.

STREATOR, Ill., Aug. 23.—While Billy Myer has been training industriously in this city for several weeks for his approaching fight with Jack McAuliffe, the little cyclone has bad little to say for publication. He has simply been too busy to talk very much. During the past few weeks he has done more hard work than the most industrious coal heaver. He has two sets of training quarters, one in a half in the center of the city, the other at the driving park. In addition he has been taking long cross-country runs under the immediate supervision of his backer, Alf Kennedy. As a result of this conscientions work he is today in the best possible physical condition and under the watchful eye of Alf Kennedy he will be kept so until the night of the hight. That he is perfectly confident of his ability to whip McAmilife is evident not so much from what he says but his manner of saying it.

Opinions of 'Frisco Sports.

San Francisco, Aug. 23.—Notwithstand-the fact that San Francisco is the place of Jim Corbett's birth and that he has the good wishes of a vast inajority of the citizens of the city, when it comes down to a betting ution Sullivan is a favorite at odds of 10 to 7. These are some opinions from well-known sporting men in this vicinity: Duncan B. Härrison, Sullivan's fellow trespian—I hope Corbett will knock the big fellow's head off, but I don't see how he can

do it. No man that I ever heard of stands any show with him.

Paddy Ryan—Yes, Corbett will land on Sullivan, but he can't nit John hard enough to bother him any. Sullivan only wants one rack at "Pompadour Jim" and that will

Eddie Greaney, champion amateur light-weight of the coast—Corbett has a good chance to win. He is even cleverer than Charlie Mitchell, whom Sullivan failed to whip and has a longer reach. He can't hit like Sullivan, but he can duck and get away Walter Watson, instructor at the Olympic club-I honestly believe Corbett has a good chance to win. He is undoubtedly the clever-est big man arive. If Sullivan does not whip Corbett in eight rounds he never will.

John Dougherty, founder of the Pacific Athietic club—Corbettis a wonderfully clever man; but his hands are not likely to stand the racket. I think superior science in this match will not prevail against Sullivan's terrific onslaughts President Hiram Cook of the California

club-Sullivan is too powerful for Corbett, whether he is in first-class trim or not. John .. will not race around worth a cent, and I would not be surprised to see a poor fight und the affair end in a row of some sort. Tommy Ryan Getting Fidgety. The California Athletic club is trying to arrange a fight between Tommy Rvan of this city, the undefeated champion weiterweight pugilist, and George Dawson, the Australian who recently conquered Danny Need ham. The sporting editor of THE BEE WAS informed by telegraph last night that the club would hang up a purse of \$3,000 for the match. Ryan, however, will not consent to make the match for this money. He says, and very correctly, too, that he is just as much of an attraction for the big clubs of the country as any pugilist in the business, and wants a purse commensurate with his importance as a card. If the purse is raised to \$5,000 Ryan will make the match immediately and secure Danny Needham as his Needham has already written Tommy informing him that this position will be agreeable to him if the match is made. Last night a telegram was sent to Arthur Lumley asking what sort of a purse the Coney Island Athletic club would hang pp for a fight between Ryan and Doc O'Connell, but as yet no response has been received. Lackawanna Switchmen Go Out-Strikers Assault Nonunion Men-Arrest of Several Rioters-Sweeney Refuses to Talk-Incidents of the Strikes.

BUFFALO, N. Y., Aug. 23.-Thomas J. Manaher, who was formerly a Lehigh switchman, late this afternoon was one of the four men who were throwing stones at the picket line of the Twenty-second regiment on the Lehigh tracks of the Lake Shore. The men were fired upon, and the one referred to fell dangerously wounded, The injured man was taken to the Emergency hospital and the coroner has been notified to be in readiness to take the man's ante-mortem statement should signs of death occur.

The other three men were arrested by the police of the Seventh precinct and charged with rioting. The private who did the shooting was also detained by the police, the entire party being taken to the Seventh precinct station house. The officer of the company to which the detained private belonged protested against the arrest of his subordinate and demanded his release, and the authorities complied with the request.

Badly Beaten by Strikers. Thomas Gable, a nonunion man, while working in the Lehigh yards at East Buffalo was set upon by four strikers and badly injured. Two of the strikers jumped on his stomach while their companions held him down. The injured man is at the Emergency hospital. No arrests have been made in the latter case.

Scattering shots were fired by pickets in various yards tonight, but up to 10:30 to-night there has been reported no organized assault by the strikers, nor any concerted movement by troops upon those who hang along the picket lines, causing such annoy-ance as they can, with safety to themselves. Lackawanna Switchmen Go Out.

The day has witnessed the making of little history. This is a season of waiting. The state board of arbitrators have, to be sure, announced that they would tomorrow insti-tute a hearing into the circumstances and causes of quitting work by the men who were until recently switchmen in the rall-road yards here. No lively interest is evinced in the inquiry though the evidence may be of a greater interest than anticipated.

One hundred and fourteen switchmen struck in the yards of the Lackawanna and the Buffalo, Rochester & Pittsburg. In two weeks past switchmen have struck in all the yards centered here. The men who went out have been replaced by others who are out days seen replaced by others who are now doing the work in all the yards, so there is now actually no strike of switchmen in any Boffalo yards, except one where forty men struck yesterday and the two where the workmen quit today. The Lackawanna was temporarily crippled, although she is said to have near at hand recruits enough to man her switches. The reads whose men man her switches, The roads whose men went out yesterday today resumed work with two crews. The Lehigh and Erie equaled yesterday's traffic and the Central and West Shore, with new business, exceeded their movements yesterday. The Lake Shore handled its business and the Night Distance against anomal. Nickel Plate was nearly normal.

Wouldn't Handle Scab Freight. Throughout the recent strike history here the Luckawanna men have been vowing allegiance to the road. All their demands had been granted and they have affirmed that they would fight for the road and would not leave it. Today a-trainload of western freight was shunted into the Lackawauna yards from the Lake shore freight yards. It was scab freight, and the switchmen refused was scab freight, and the switchmen refused to move it and the officers of the road dis-charged them. They number 125.

Trains were running as usual an hour All this was about 2 p. m. and two hours later for similar reasons, it is said, the switchmen in the Buffalo, Rochester & Pittsburg road went out-adding fifteen

His own followers are compietely in the dark as to what his policy is, one of the members of his executive committee baving stated as much to the state board of arbitration. Today Messrs. Donovan, Purcell and Robertson attempted to learn from the grand master of the switchmen when, if ever, he was going to order out the switchmen now working in the jurisdiction affected by the strike. Mr. Sweeney posiively refused to give the arbitrators any in-

formation. BOUND FOR BUFFALO.

Grand Chiefs of the Conductors and Trainmen Pass Through Chicago. CHICAGO, Ill., Aug. 23 .- E. E. Clark of Cedar Rapids, Is., grand master of the Order of Railway Conductors, arrived in this city this morning.

"I am on the way to Buffalo," said he, "in response to an invitation of Grand Master Sweeney of the Switchmen's union." said that so far as he knew his order had no grievance to right. He thought the demands of the switchmen were just, but strongly condemned the recent inwisesness. Clark was joined here by Grand Master Wilkinson of the Order of Railway Trainmen of Galesburg and both left for Buffalo at 3 o'clock.

Deraited a West Shore Train. Suspension Bridge, N. Y., Aug. 23 .- At about 9 o'clock last night some one pulled a switch at the junction of the Buffalo branch of the cantilever bridge. In consequence a West Shore freight train bound for Buffalo was partly derailed. The ongine and three cars passed on the Buffalo track, the fourth and fifth were derailed and the rest of the train took the track for the bridge. Gateman Fellows was slightly injured in attempting to open the gate. The accident happened near the strikers' headquarters.

After the wreck a switchman had his lantern kicked out of his hand by a bystander. The collision of the train with the gate might have resulted in its precipitation off

Camp Meeting with Trimmings. Dr. Savidge of the People's church is going to carry the war into the enemy's camp, and is arranging for a big camp meeting to be commenced at Anson's grove, near Springfield, in Sarpy county, on Thursday, September 1. The meeting will be decidedly out of the usual order, and will be coupled with attractions that will draw the people from other than plous motives. For instance there will be a balloon ascension in the morning of the opening day and a grand display

of fireworks in the evening.
Rev. Dr. Savidge has secured the cooperation of a noted evangelist, who is an
artist, and will draw protures illustrating the
sermon while Mr. Savide is preaching. The artist is said to be remarkably fine and to furnish very striking flustrations.

Next Sunday morning Rev. Dr. Savidge will preach on "The Prodigal Son," and in the evening on "The Devil's Old Men," both sermons being illustrated by his unknown chalk artist.

Fireman and Watchman Combined.

It is a settled fact that there will be a night watchman in the city hall, but as the selection of the man is left with Superintendent Mathieson he will have to be a competent fireman as well as a watchman.

Mr. Mathieson said that it would be an extravagant expenditure of money to employ both a night watchman and a night fireman and that if it was left to him he should employ a man who could look after the building and the fires.

City Hall Illumination, The contractors, Russell, Pratt & Co. of this city, who will supply the new city hall with gas and electric light fixtures have received word from the factory that the entire outfit would be shipped yesterday.

They expect to complete the wiring and have the lamps, lights and chandeliers ready for use within sixty days. Their contract price with the city is \$12,000 and of this amount \$2,000 will be expended in wiring.

Since its occupancy the county jail has nover been entirely depopulated, but at this time there are less people in that bastile During the past five years the average has been 110 prisoners per day. Now there are only sixty-five persons behind the bars. Jailer Miller accounts for this by maintaining that Omaha is on its good behavior.

Dastardly Attempt at Train Wrecking. READING, Pa., Aug. 23 .- A dastardly atempt was made to wreck the express on the Pennsylvania railroad, due in this city from Philadelphia at 8 o'clock, last night. The train dashed into four timbers placed across the track. Fortunately only the rear wheels of the locomotive jumped the track. The lives of a hundred passengers were in

FOSTER REVIEWS THE SITUATION

True Meaning of the Position of the Demoocrats on the Tariff Question-Anything to Bankrupt the General Government.

WASHINGTON BUREAU OF THE BEE,) 513 FOURTERNTH STREET, WASHINGTON, D. C., Aug. 28. Secretary Charles Foster talked very freely about the political situation today. "I think the general situation is about as favorable for the republican party as it could be," he said. "Mr. Harrison's election, I think, is assured. It is my candid opinion that he will not only carry the northern states, but two or three of the southern states as well. The general issue of the campaign is the tariff. The democrats have taken the position of repressing all customs revenue, even though necessary to the support of the government. That is the true meaning of their declaration. They have drawn them selves up in line in opposition to any protec tion, great or little, incidental or otherwise,

declaring it all unconstitutional.

Auything for the Occasion.

"They cannot get away from that. They have had a great deal to say of the bankrupt treasury. The treasury is not bankrupt. We are meeting our obligations. The governmen is going along all right and the treasury is in a good condition. But if they honestly be lieve that the treasury was bankrupt how do they explain their conduct during the session of congress, just closed? The house did not cut down expenditures, they did not try to devise any means of increasing the revenue which they have said was not necessary to meet the expenditures. On the contrary, the house passed a bill to reduce the revenue \$30,000,000 a year. It looks as if they were determined to make sure of it and bank rupt the treasury if it were not so Bankruptcy seems to be what they wanted They will probably not make much out of that cry. Their leaders are saying that they are as sound on the silver question as we are, but everybody knows that the party believes in the free coinage of silver and they
will seize the first opportunity they can get
to chact a free coinage law. Their pretenses
on that point are false. They are trying to
make a 'force bill' issue, but they are not
succeeding. The life is all out of that. Republicans have been hearing so much about
breaking up the solid south that they have
got tired of it to a great extent and have no got tired of it to a great extent, and have no faith in it, but I feel confident now that it is going to be broken up. This time I think it is gone. This will settle itself and the force bill' issue is without life, I think you can depend upon it that whatever Mr. Harrison has to say on that subject in his letter will be wise and will be well said, for all he writes and says is wise and well put."

Will Consult with Candidates. The Nebraska senators are determined to do everything in their power to strengthen the canvass of the republican candidates for congress in Nebraska. Senator Paddock says there are not likely to be any appoint-ments made in Nebraska except in cases where offices are made vacant by death, resignation or otherwise, and immediate action is required, until the republican members of the house of representatives, who are expected to be selected in November, are on hand to participate in recommendations to the president. He also says that Senator Manderson agrees with him, that all cases where appointments are to be made which, under the rule that members of the house who are friends of the appointing power might properly unite in the recommendations, will be referred to the several repub lican candidates for an expression of their

views the same as if actually members.

Senator Paddock says that in no case so far as he is concerned in the South Platte country, where he has jurisdiction, will be recommend the appointment of any postmaster without first submitting the case to the republican candidate for the district in which the office is located, for his advice. SUICIDED OR WANDERED AWAY. The Eldest Son of Frederick Wines, the Homicide Expert, Disappears. Washington, D. C., Aug. 23.-Mr. Freder ick Wines, the special commissioner of the eleventh census, whose recent buildin on homicide in 1891 has attracted so much attention, has sustained a very heavy blow in the loss of his eldest son. The young man, Arthur Frederick Wines, who was just 21 years of age, was one of the brightest and most promising members of the junior class at Cornell university. He disappeared last Thursday morning. The police have been

making a quiet search for him, but no trace has yet been discovered. It is believed that he was overtaken by a sudden fit of despond-

ency and that he has either committed sui

cide or gone in search of work in the country, for which he is not physically able nor fitted by his previous life.

DeWitt's Sarsaparilla is reliable. Kansas is All Right, Mr. A. D. Morse of this city has received a letter from Ellsworth, Kan., indicating that crops down there are in good condition. The wheat crop is the largest ever harvested in the state, and in Elisworth county most of the corn is very fine, there being an occa-sional piece on high ground that will not be up to the average. This is due as much to shiftless farming as to drouth.
