VETERANS OF TWO STATES

Hundreds of Nebraska and Kansas Citizens at Superior's Reunion.

CAMP LINCOLN'S TENTS ALL CROWDED

Managers Have Much Difficulty in Accommodating the Visitors-Arrangements in This Respect Will Be Made Today.

CAMP LINCOLN, SUPERIOR, Neb., Aug. 23. - [Special to Ton Ben.]-The interstate reunion was formally opened this afternoon, though for three days previous a constant string of arrivals kept the officials on the jump, assigning quarters and enlarging plans which were supposed to be ample, but which proved to be inadequate for the accommodation of the immense crowds which have thronged the camp. The managers planned everything on a large scale, but find themselves at a loss to furnish quarters for the unprecedented attend-

There is no limit to the size of Camp Linsoln, however, and additional tents have been ordered, so that the only disappointment will be that of a brief delay. The tents are pitched on the level prairie, adjoining a magnificent grove, in the shelter of which is tocated the speakers' stand and all amusements, refreshment stands, dining halls, etc., of which there are enough to form a little city. Captain Murfin is in charge at headquarters acting as aid-de-camp to Commander Adams, and Adjutant Felt is making himself felt all along the line. Every courtesy is being shown and no com-plaints is coming from any quarter.

A more joily, goodnatured tot than the officers of the Interstate association never took command of a reunion. The big cannons from Fort Omaha are on the grounds and awoke the tired soldiers this morning. The following document will be of interest, as it covers a point not thought of by most people: STATE OF NEBRASKA, ADJUTANT GENERAL'S
OFFICE, LINCOLN, Neb., Aug. 29.—Circular No.
2: The National Guards of Kansas or of any
other state are hereby authorized to enter the
state of Nebraska fully armed and eqipped to
attend the Grand Army of the Republic reunion at Superior in this state. By order of
commander-in-chief. Victor Virqualy,
Adjutant General and Chief of Staff.

HAD PLENTY OF SAND.

An Inspection of Paving Results Very Favorably for the Contractor. No matter what Mr. Hugh Murphy's shortcomings may be in other lines, it is quite evident that he is not short on sand.

Ever since the winter set in last fall and the public work was shut off there have been rumors affoat to the effect that under all or most of the Colorado sandstone pavement put down last year by Mr. Murphy in Omaha he had put only from three to five inches of sand instead of six inches as the contracts specified. Several parties openly asserted that if an investigation was instituted it would reveal the features. tuted it would reveal the fact that the city had been mercilessly swindled on this matter of sand base for stone pavement.

of sand base for stone pavement.

It was stated to various councilmen time and again that the stone pavement laid by Mr. Murphy ought to be torn up for the purpose of investigating the sand base. The matter finally attracted sufficient attention to get into the council in the form of a resolution ordering an investigation. This took place last spring, but on account of the absence in Europe of Councilman Steel, who was ensirman of the committee, the matter drifted along without investigation

until today,
This morning Councilmen Steel and Jacobson and City Engineer Rosewater accompanied by Hugh Murphy and a BEE reporter started out to inspect every street paved with stone last year by Mr. Murphy. A couple of workmen with crowbars and picks went along to take out the stone where the investigations were desired.

The first payement inspected was on Fifteenth street between Jackson and Leaven-worth. Four stones were taken up at different points along the street and under three of them the sand was full six inches deep while the base under the other fell short a quarter of an inch.
The committee then passed around to Jones

street and pulled up three stones between Thirteenth and Sixteenth. Some of them ran over six inches of sand and one fell short nearly an inch. The average was a little over five and a half inches. The city engineer and the two councilmen were well pleased with the payement, expressing them-selves as thoroughly satisfied with the depth of the sand, since it measured almost six inches after having been packed under the traffic of a year.

Mr. Murphy made no suggestions as to where the stones should be taken up. He maintained his usual bland and compiacent exterior and seemed to enjoy the investiga-tion more than any one in the party.

The next street struck with the pick and crowbar under the direction of the committee was Twenty-second between Committee was Twenty-second between Leavenworth and St. Mary's avenue. Here they removed three stones about 100 yards apart and found fully six inches of sand under every one of them. The stones were measured in every case as well as the sand and the combined depth of both sand and stone was found to average over a foot in thickness.

Pacific street from Twenty-ninth street to Twenty-ninth avenue was also tested. Here the committee took up five stones. The sand under them fell short about one inch, but in the others it ran full six inches. The average was five and one-half inches of sand base under that block of hillside pavement.

of hillside pavement.

Eighth street from Worthington to the alley north, Pine street from Eighth to Park. Wild avenue and Seventh avenue between Pine and Williams were all carefully inspected, in no case did the sand fall short more than half an lack and the committee became thoroughly convinced that they were not going to run against a mare's nest anywhere under the pavement as had been predicted. To make the investigation complete, how-ever, the committee visited the only two rewer, the committee visited the only two re-maining districts paved by Mr. Murphy inst year. They went to the north end of Sherman avenue, leading in a diagonal direction across the northwest corner of the fair grounds. There they found plenty of sand; in fact, it was a little over six inches in places.

n places.
The last street visited was Eleventh, Loth north and south of Grace, where Mr. Murphy paved half a dozen blocks. The same condi-tions met the committee here as in other places inspected, and so far as the committee was able to see the pavement had been laid in compliance with the contract.

A Traveling Man's Experience with Diarrhoea.

LINCOLN BURGLARS'

Several Eouses Visited in Different Portions of the City.

ONE SUSPECT ARRESTED BY THE POLICE

Little of Value Secured by the Thieves-Heard in the Courts-Lincoln's Union Veteran Club Will Visit Grand Island.

Lincoln, Neb., Aug. 23 .- [Special to The Bee.] -The usual number of burgiaries were reported at the ponce station this morning. First came a notification that the residence of Edward Hurlbut at 1704 D street had been entered during the night by somebody, who forced an entrance through a kitchen window. Mr. Hurlbut's desk was pried open and the rooms on the lower floor ransacked. A watch, a child's bank and several small articles were missing. Dan Cashian, a negro suspected of being an accomplice of Green Gaffney in the murder of Charles Thomas last May, was arrested on suspicion. He was formerly a coachman in the employ of

Mr. Huribut.
C. M. Taily, who lives at 1627 H street, reported that during the night someone gained access to his residence by prying open one of the pay windows. He was frightened away anything but a preastbefore he had secured anything but a breast-pin belonging to the ladies. W. A. Sellick's house at 1623 G street was

also invaded by someone who effected an entrance through the kitchen window. Mr. Sellick is the loser to the extent of two gold watches and \$17 in cash.

Heard in the Court Rooms.

The Missouri Pacific filed its answer to the suit for damages instituted by Mrs. Sarah E. Coberly, mother of the young lad killed on a switch engine at West Lincoln last June. The answer denies that Mrs. Coberly has any authority to institute a suit for damages for the reason that she has never been legally appointed administratrix of the estate of the dead boy; that the boy's death was the result of his own carelessness and the negligence of his parents; and that at the time of his death he was a trespasser on the company's right-of-way. The Rock Island has begun condemnation

proceedings to secure an acre of the piece of ground known as the M street ball park. J. H. Hoxie asks for an attachment in the sum of \$40 against W. A. Alesdorf, who, he claims, is his creditor to that amount.

Another mysterious disappearance is re-ported. Frank Ferris, a well known barber, who runs a shop near Thirteenth and O streets, left his home, 936 South Thirteenth street, Friday morning, estensibly to go to work, since which time he has not been seen or heard of. His debts were not press-ing and he had no domestic troubles, as far as known. He left his wife with but \$1, and she says he has twice before left home in a similar way, returning after a short absence.

Frank Daniels, is an event of much gratifi-cation among a numerous class of our theater-goers. Frank Daniels is a master of de-lightful drollery. He has a quaintness about him possessed by no other comedian engaged in farcical work at the present time. He is at all times irresistibly funny, and certainly is mimitable in his special line of comedy characterization. He has quietly and good-naturedly wormed himself into the affections of this big fun-loving and quick-witted na-tion, and, as intimated above, the announcement of his return will be welcomed. He will present at Boyd's new theater the latter half of this week that fantastically ludicrous piece, "Little Puck," which has been freshened up this season with a lot of new music, songs and dancing. The company is almost entirely new. Miss Bessie Sanson still heads the bevy of pretty and clever girls Mr. Daniels has in his company. The company this season numbers over twenty-five people.
