Hogs—The supply was the lightest of the week, only about half as many as were here last Friday. There has been a decrease in receipts this week compared with last of about 10.000 head. Thursday's market was reversed. It w sabout 15c lower then; it was 10 to 15c higher today. There was comparatively little outside demand, but with buillish reports from Chicago all buyers took a hand and the pens were bractleally cleared by 10 o'clock. Poor light to prime heavy hogs sold at from \$4.9) to \$5.15, but it was practically a \$5.00 market, against a \$4.85 and \$4.90 market Thursday, the general average of prices paid being \$5.03, against \$4.884 Thursday and \$5.04 last Friday. Chlengo Live Stock Market.

Chicago Live Stock Market.

CHICAGO, Ill., Sept. 2.—[Special Telegram to THE BEZ.]—Native cattle of good to extra quality were in fair request and commanded about Thursday's price. Poorer qualities remained dull and very weak. They sold on a basis of from \$1.00 to \$2.75 for inferior to choice cows. \$1.75 to \$1.25 to \$2.5 for stockers in 1 feeders and from \$2.50 to \$5.70 for common to fancy. Westerns were again in light supply and again sold steady. They were quoted at from \$1.00 to \$2.85 for cows and at from \$2.50 to \$3.50 for steers. Only about 1.500 head arrived. Texas cattle remained about steady. The 2.500 received were promptly bought up on a basis of from \$2.40 to \$2.25 for cows and from \$2.15 to \$3.25 for steers. Some common and medium cattle were left over and the close was duil.

There was an advance in light angles of the content of the content was an advance in light angles of

medium cattie were left over and the close was duil.

There was an advance in light grades of hogs of 15c but heavy and medium weights sold from 30c to 25c higher than at the lowest time yesterday. Everything was bought up early and the close was strong at from \$4.75 to \$5.25 for poor to choice light and at from \$4.70 to \$5.25 for poor to choice light and at from \$4.90 to \$5.25 for poor to choice light and at from \$4.90 to \$5.25 for poor to choice light and at from \$4.90 to \$5.25 for poor to choice light and at from \$4.90 to \$5.25 for poor to choice light and at from \$4.90 to \$5.25 for poor to choice light and selfers were inclined to ascribe it to a desire on the part of buyers to call out an increased supply for next week. Present prees are slightly lower than last Friday's quotations for light weights, while heavy grades show an advance of 15c.

The sheep market has been in an unsettled state since our last review, the tendency being downward. The demand was not less active than before, but there was a largely augmented supply and buyers have secured a reduction of from 25c to 50c per 190 lbs. Present quotations are from \$4.00 to \$4.50 for poor to choice natives, \$4.00 to \$4.25 for grass westerns and from \$2.75 to \$4.00 for Texans. Fed westerns were quoted as high as \$5.00, and there were sales of fed Texans at from \$4.40 to \$4.90. The immb market was declined from 50c to \$6.50. The immb market was declined from 50c to \$6.50. The immb market was declined from 50c to \$6.50. The immb market was declined from 50c to \$6.50. The immb market was declined from 50c to \$6.50. BUT A PERIOD OF WEAKNESS FOLLOWED

There Was Less Apprehension Felt in Regard to Cholera as a Result of the Prompt Action of the Government.

ORICAGO. Ill., Sept. 2.-Wheat started off this morning with an appearance of strength. and some early sales were as high as 56 over yesterday's close, but the selling was so free on the advance that the strength was soon eliminated and a period of weakness fol-lowed, the loss being over ic during the first hour. The early firmness was due to better cables, Liverpool bein; quoted ¼d higher. There was less apprehension felt in regard to the cholers. Is the prompt action of the government in regard to quarantine iel to some confidence that the scourge might be kept away from this countr. But on mature consideration it was felt that such measures, while acknowledged to be extremely necessary, were a serious interference with commerce and might serve to prevent the free movement of our prain abroad, which was the only hope of gool prices. Another hearish factor was the continuance of heavy receipts which are everywhere proving a serious weight for the market to bear, while yet another very weak agency was the severe break in corn, which yet tumbling downward on the continued heavy receipts and the failure of the expected general frosts to appear last night over the corn belt. the cholers. is the prompt action of the gov-

receipts and the failure of the expected general frosts to appear last hight over the corn
belt.

Then came a report, quickly denied that
cholera had made its appearance in New
Orleans. It did not take long for this combination of adverse influences to turn the
crowd very bearish and there was heavy
liquidation and vi.orous short selling. December opened &c. Licher at 77%c, advanced
to 75%c, sold off to 75%c, ralled to 76%c. broke
to 76%c on renewed selling, then, on late
cables reporting firmer markets abroad, advanced to and closed at 76%c.

Corn was weak and demoralized from the
start showing more demoralization than anything elac, and before mean had declined like
from yesterday's close. Frosts were reported,
but the general impression was that they
were not heavy enough to do any damages
and that they would in fact burry forward
the ripening of that cereal and thus the expected buil argument was turned to account
by the bears. The receipts, too, were large
and 13) cars in excess of the estimate and
farmers were said to be selling freely.
Nearl all commission houses seemed
to have selling orders and many of the
most pronounced buils heretofore were
free sollers and the liquidation was general.
The depression continued without any material reaction to the close, which was weak,
at or near the lowest figures of the day for
the various futures. October opened at from
4946494c, against 494c at the close yesterday,
sold steadily off at from 474/474c, strengthencil to 484c, but weakened again and closed
at 475c, the low point of the day.

Outs weakened with everything else, closing
fic lower, after having touched a point %c
lower.

lower, after having touched a point Action of the price of hogs; but the break in corn and the general weakness in all the other pits sent prices off, despite the efforts of Wright, Cudahy and other longs to hold it. At the close a better feeling prevailed, and most of the loss was recovered. Pork closed with a loss of only 254c. Lard is unchanged to 255c lower and ribs 25c lower to 1256 higher, Lake freights unchanged.

Estimated receipts for tomorrow: Wheat, 609 cars; corn, 680 cars; oats, 423 cars; hogs, 1,00 head.

1 ,00 head. The leading futures ranged as follows:

Traders' Taik.

Chicago, Ill., Sept. 2.—Counselman & Day to Cockrell Commiss on Co: Wheat opened strong on the demand from shorts caused by higher cables, but broke sharnly under scattered liquidation induced by fine weather and a large increase in the death rate from choiera in Russia brought on by the excessive heat. The market railled on large clearances and on an active export demand for red wheat reported from New York. The closing was duit and about ½ lower. Corn has exchanged places with wheat and become the weakest article on the list. This is due to large receipts and liquidation caused by the disappointment of the frost bulls. At the decline shippers have again come forward as free buyers, but speculators are bear shon the fear of a choiera blockade and bought Cetober for the growing crop. Provisions present no new features. Liquidation of the January product by outsiders, laboring under the choiera scare, caused a weakening of far-off futures. Continued baying of September and October product by packers and heavy professional speculators made them close higher. The discount on October pork is like y to narrow to \$1.00 below January. Again manipulation is the order of Traders' Intk. October pork is like y to narrow to \$1.00 below January. Again manipulation is the order of the day and we advise against new trades in

January. Again manipulation is the order of the day and we adv.se against new trades in 182 futores.

Chicago. Ill.. Sept. 2.—Keanett. Hopkins & Co. to S. A. McWhorter: Wheat obened Strong and \(\frac{1}{2}\) & higher. but the extreme weakness in corn caused it to se loff fe. Closing cables coming in unexpectedly higher led to a quick rally. At no time did the market have a panicky look. It was clearly pounded down by short selling and the deel ne was very gradual. The long wheat came out yesterday on stop loss orders, leaving the market in a healthler position than for some time past. Yesterday wheat sold lower than at any former time since the panic fo lowing the Harper collapse in 1887. Liverpool prices with a good demand. New Yorksaid there was a scarcity of No. 2 red affoat and a good demand for it. A private cable just in from Hamburg says that cholera is decreasing. Northwestern advices are very emphatic in regard to the great damage done to wheat in the past two weeks. Fr mary market receipts of corn have depressed that market sharply and outs have sold off moderately in sympathy. Conservative dealers have said for weeks that corn was too high, but they are now advising customers that it is on a good commercial basis. Armour is quoted as saying that yesterd y was the low day for wheat and provisions, ite, with several prominent local traders, is understood to be buying hog product on all soft spots.

Chicago, Ill., Sept. 2.—F. G. Logan & Co. to day for wheat and provisions. He, with several prominent local traders, is understood to be buying holy product on all soft spots.

Chicago, Hi., Sept. 2.—F. G. Logan & Co. to Duncan, Hollin ser & Co.: The firmer cables started the market off br skly, but afterward fluctuations were ruled first by a weather cable, then a stronger cable coupled with the denial by the authorities of the reported two cases of cho era in New York. There were about 200,000,000 bushels of wheat worked for export. The heavy receipts is taking the snap out of the buil element in both wheat and corn. We are told that one road has applied for extra inspectors at their yards, expecting 7 0 cars a day next week. The receipts tolay were 150 cars wheat, 290 corn. 70 oats, charters 50,000. Thera was one steady stream of liquidation in corn from beginning to end, started by cold weather not materalizing, and then heavy estimates for tomorrow. Locals tried to raily the markets but the small shipping demand prevented. At present the heavy receipts and the probability of their continuing is molding an unusual bearish feeling in this cereal. A prominent local long sold his line of oats this morning. With we kness in corn and a depressed market, we look upon oats as the best property at the prices. Provisions opened firm on light run of logs.

STOCKS AND BONDS.

Conditions Now Prevailing Indicate Little Change Either Way.

NEW YORK, Sept 2.—The conditions now pre-vailing in the stock market are favorable either to an important rise nor a material decline in prices. It is well understood by this time that the cholera was nothing but a frame upon which to hinge a temporary ex estement, during the prevalence of which speculators who started the thing may galo ome temporary advantage in their operations in the market. At the same time the present ondition of the money market is such that there is little likelihool of any important movement being undertaken, and the continued export of gold indicates that the end of the European liquidation is not yet. The cears, however, are still active and aggressive. There was a distinctly easier feeling in oney and with the dying away of the cholera care the business done showed a marked fallng off and the fluctuations of the general ist became very disconcerted. Sales, howver, looking for a vulnerable spot again lit on the coalers, and the accompanying circu-iation of a rumor of another rate war among the coal stocks, great pressure was brought to bear on all the leading coal stocks. The trading in Reading ran up to enormous figures and all the others were more active than usual and the result was the decl nes reached over 3 per cent in Jersey Central and Delaware and Hudson, and nearly 2 per cent in Lackawanna & Reading. The effect on the general market was very slight. The market, which had opened strong and materially higher with the leaders showing gains: fas much as 5, per cent, closed quiet and heavy with most stocks within small fractions of first prices. The final changes are almost all small grains.

Government bonds have been duit. State bonds have been entirely ne riected.

The Post says: While high money rates and the cholera are the nominal causes of the present demornized condition of the market the real causes lie deeper in the inherent condition of the market issoif. There has for a month been a constant advance in the in-

dustrials and by sympathy in some railway shares. The present scare is no doubt a purging of prices. The curtain has been lifted and the real nature of operations has been revesied. It has shown a market filled with stop orders of small margined holders and a high level of prices that would not seem to be warranted by actual conditions. Small traders have taken the advice of a few prominent bull operators and steadily bought, although a reaction was bound to follow. When the turn came, there was an indiscriminate outpouring of stocks and the execution of the many stop orders only accelerated the decline. This was a bear experience for a large number of small traders.

London Financial Review.

[Copyrighted 1892 by James Gordon Bennett.]

London, Sept 2.—INew York Herald Cable
—Special to The Bre.]—This has not been a
very satisfactory day in the Stock exchange,
new business having been on a limited scale
while markets have been rather unsettled,
though the tendency at last is decidedly more
favorable. Consols are unchanged. Inlian
rupee paper has given away % per cent. Forelen government securities close firm, being
supported by a strong tone reported on the
continental bourses. Home railways have
been adversely influenced by miserable
weather. Southern lines closed fairly strong
at an advance of % per cent, being marked in
Brighton. Southerstern deferred and Northeastern also improved ¼ per cent, while few
others are fractionally lower. American
railways showed considerable depression
during the early dealing. After the receipt
of New York prices a decided raily ensued,
still most descriptions marked a decline on
the day ranging from ¼ to % per cent, the
lead being taken by Lake Shore, New York
Central, Eric second mortgage and Wabash
stocks. Money continued to be a drug. Short
loans have been freely offered at ½ per cent,
Very little business has been transacted. In
the discount market two and three months
bills have been negotiated at 15-16 to 1 per
cent. London Financial Review.

New York Money Market. NEW YORK, Sept. 2.—MONEY ON CALL—Easy at 2% to 5 per cent: list loan. 2% per cent; closed offered at 2% per cent.
PRIME MERCANTILE PAPER—4/26 per cent.
STERLING EXCHANGE—Quiet but ffrm at \$1.86% for sixty-day bills and \$4.88% for demind.

Hogs—Receipts. 22,50; shipments, 3,500; market 5@100 higher; heavy, \$3,1003.23; packing, \$4,70@4.19; itch, \$5,00@5.15.

Sheep—Receipts. 1,500; shipments, 400; market better; native muttons, \$3,50@4.75.

OMAHA LAW SCHOOL

Comprehensive Plans for the New Depart. ment of the University of Omaha. The University of Omaha has established department to be known as the Omaha Law school, which will be opened next Tuesday with the following faculty: Judge Wilham Keysor, bailments and criminal law; James B. Meikle, common law and law of real property; John L. Kennedy, contracts and domestic relations; James H. McIntosh,

evidence and agency.

The course will be two years of three terms each, and the degree of bachelor of laws will be conferred. The instruction for the second year will include the law of corpora-tions and wills, mercantile law, equity and equity jurisprudence, pleading, constitu-tional and international law. An effort will be made to have the legislature pass a law which shall admit the graduates of this school to practice without an examination,

DeWitt's Sarsaparinia cisa 1535 the biool ANNOUNCEMENTS.

What promises to be one of the best attractions of the season will be given at the Farnam Street theater next Thursday evening, September 8, Lincoln J. Carter's magnificent scenic production, "The Fast Mail." This is said to be a melodrama of more than ordinary merit, while the scenic and mechanical effects equal anything that has ever been given in this city. There is a representation of an engine room on a Mississippi steamer, showing the furnaces under the boilers in active operation. A realistic train of cars shoots across the stage with wonderful effect. The scene representing the Magara Falls is said to challenge criticism and beggars description.

In this day of elaborate scenic effects in plays, it is not enough that the environment of the drama should be good—it must be of the drama should be good—it must be great. It is with this principle in mind that Robert Downing, who appears at Boyd's September 5, 6 and 7, has had new sets painted of the most elaborate description. There is a glimpse of Flavius' gardens, a magnificent view of the Tiber, the palace of the Cæsars is shown, also the Forum and the Coliseum, and a magnificent set which cover the aprice stage is given over to the ers the entire stage is given over to the arena in which the fight of the gladiators occurs. "The Gladistor," "Virginius," "Casar" and "Ingomar" as presented by Robert Downing and his powerful company will be scenic productions par excelle

DeWitt's Sarsaparilia is remanic.

THERE IS HOPE

Kansas City Live Stock Market.

For every one who has blood trouble, no matter in what shape or how long standing, provided none of the vital organs have been so far im-paired as to render a cure impossible. S. S. S. goes to the root of the disease, and removes the cause, by expelling the poison from the body, and at the same time is a toule to the whole system. However had your case may be, there is hope

FOR YOU.

Cured me of a most malignant type of chronic blood trouble, for which I had used various other remedies without effect. My weight increased, and my health improved in every way. I consider S. S. the best tonic I ever used.

Treatise on blood, skin and contagious blood poison mailed free. SWIFT SPECIFIC CO., Atlanta, Ga.
