Weakness Yesterday Followed an Early Bulge in Grain.

PROVISIONS CLOSED WITH A GAIN

Reports of Cholera in New York Caused Holders of Grain Much Uneasiness-Bulls Enlited Later and Pushed the Price Back.

CHICAGO, Ill., Sept. &-Weakness today followed an early buige in the grain markets and wheat soid he lower than last night. Corn climped up marly le and then slipped back to about the starting point. Oats show a decline of from Mc to Ic. Provisions, after quite a show of strength, sagged near the close and quit with a gain of from 34c to 1c. Frost tark was the main source of the strength and cholera of the weakness.

A report of a case of cholera in New York city made the price of wheat go off %c. But this report was soon denied, and the nati Price Current's estimate that the crop would not exceed 500,000,000 bu, becoming known, the bulls railled and pushed the price back to nearly the top figures. But the an-nouncement that the two steamers which had been expected from Europe were in sight and both flying the choiera flag produced another season of depression, under which there was another drop of the. Mitchell, Logan, Lindblem and l'arcridge were the leading sellers of wheat early, but Tom Bennett, Walker and scalbers were fair tuyers, especially on the

The market was exceedingly weak, during the last ten minutes and closed within lac of the bottom, although the New York report about two new steamships arriving was contradicted. Grain in the stock market was on bear factors, and there was a general desire by holders to unload.

tradicted. Grain in the stock market was on bear factors, and there was a general desire by holicers to unload.

In corn the opening trades were at from '4c to '4c advance, and after railing steady for a moment, soid off, under free selling by room operators and longs in general from '4c to '4c. The offerings were well absorbed, being taken by prominent parties, and when the indications of frost contact in the northwest became known, there was quite a scramble among shorts, the result being a full le advance. There was a good dear of long property out on the raily and the priac worked back '4c, changed some and closed with a slight gain. There is an impression that the government report Saturany will show some reduction from the August statement.

A part—but just how much it is hard to determine—of Norton-Worthingtons' line of September out; which has made the shorts very nervous < r some time, came on the market toany, creating a weak feeling and depressing prices. The selling was done through brokers and the quantity soid was estimated by some traders to be only 25,000 bu., while others pinced it at 2,0,000 bu. Much of the trading was in the May future.

The provision trade was not disturbed by much outside business. There was good support and higher prices for all products, but much less action in the market than usual.

Lake rates were firm, with agood demand for bouts at 24c for wheat and 2c for corn to Buffaio.

Estimated receipts for tomorrow: Wheat

Estimated receipts for tomorrow: Wheat, 430 cars; corn, 481 cars; oats, 270 cars; hogs 20, 0 bead. The leading futures ranged as follows:

Chicago, Ill., Sept. 8.—Kennett, Hopkins & Co. to S. A. McWhorter: The strength in corn has discouraged the selling of wheat, but the market has shown a downward tendency most of the session. Winter wheat receipts have been lighter, but deliveries of spring wheat are increasing. There is every indication that farmers will con-tinue to market freely, and stocks increase rapidly. Not only is the official visible supply pliing up, but little interior local stations are overstocked, and there is constant selling pressure, against which our parnor trade cannot contend. The situation grows daily more discouriging and lower prices seem inevitable. A semi-official prediction of frost tonight in Nebraska and Kansus terrined shorts in corn and forced them to cover, advancing corn nearly ic. The full alvance was not sustained, ferring to wait until tomorrow and see if the forring to wait until tomorrow and see if the frost materializes. Elevator men say that the consumptive demand for oats is very poor, as the big Texas crop is supplying the southern trade. It is believed by many that the holders of ribs are in a critical po-sition and will be forced to inquidate, hence raders prefer standing aloof and looking for

that the holders of ribs are in a critical position and will be forced to liquidate, hence traders prefer standing aloof and looking for a turn.

Chicago, Ill., Sept. S.—Counselman & Day to Cockreil Commiss on Ca.: Wheat opened dull am stendy. There was some buying by New York people early on the better tone to private eables and the trice Current prediction of less than a \$60,00,00 bushes crop. The weather was cold in the northwest, and Atlantic clearances were reported by private messages to have been 50 per cent greater than public postin s, but all this served to raily the market he per bushel. After a dull session the early buyers soid out on some cholera news and closed the market ha half-cent lower than yesterday. Corn raied strong on lighter receipts and some conservative investment buying suggested by the Price Current summary and the signal service weather reports. The buil leaders seemed anxious to coax the opposition to increase their short lines, and at the close the advance was about lost again. It is likely to be a weather market this month. Oats were weak under an attempt of the holders to un oad for September and October delivery. Provisions were very dull and holders ready to sell, but no buyers appeared. The buil clemeat marked prices un alout its all around at the close. We think that some short selling of October corn was done as a hedge against long October inrod and ribs, which were nearly unsalable.

Chicago, Ill., Sept. S.—F. G. Logan & Co. to Duncan. Hellin, er & Co.: Wheat opened higher in sympathy with other grain, but was soon sold off on cholera reports, fluctuating back and forth on receipt of denials and new reports. Toward the close the scattered is ng wheat bought yesterday and today came on the market. The export demand for direct shipment has been fair, 1-0,000 to 175,000 bu. was taken today. There is a good cash demand. The government, which will report on the general wheat situation, figuring both spring and without any striking feature.

STOCAS AND BONDS.

STOCKS AND BONDS.

NEW YORK, Sept. 8.—The stock market today as rather unsett ed in its temper but there were evidences of more support to prices than the covering of shorts. The movements of importance, however, were still confined to a very few stocks, the narrowness of the market being still very prominent and the changes in the quotations among the general list no wider than usual of late. A great deal of literature was put out, having for its object the allaying of the excitement over the possible war between the Reading and the Pennsy vania and to some extent it was successful, as while Reading on very large transactions was held comparavery large transactions was held comparasome few lots bringing 10c. Old hons are
pasted at 8c and roosters again. It is too early
in the sessen for seese and cucks. There were
several coops of seese and cucks. There were
which there was it tile or no sale.

Edgs—ihe bulk of the stock went at 16c,
with some sales reported at 15c.

St. Louis Markets.

St. Louis Markets.

St. Louis Markets, but scon re
St. Louis Markets, but scon re
Texas Pacafic, which scored some improvement. The industrials were less prominent in

the dealings, but general electric and Lead were specially strong, while the feature of the railroad list was New England, which disputed with Reading the leadership in activity and fairly led the market in the extent of its upward movement. The rest of the market was throughout the day dull and without novement of interest.

The trading was almost entirely professional throughout the day and a drive was made at the list late in the day on the rumor that a large order for gold had been received from Germany. There was no apparent support given to prices and the whole list, including New England and the industries, yielding to the pressure and the forenoon's gains were we ped out, with something in addition in most cases. The close was firm, however, on a raily, evidently the result of covering operations.

Government bomos have been dull and steady. State bonds have been dull and estady. State bonds have been dull and easier.

The l'out says: The evidence that the beginning of this week found the market largely steady. State bonds have been dull and easier. The Post says: The evidence that the beginning of this week found the market largely oversold becomes more and more apparent and goes far to explain the present improvement in prices even in the face of some adverse conditions. The market was also sustained by the strength of the London market. There was no doubt of heavy buying orders. This was shown soon after the opening, when a partial successful attempt was made to sell stocks down. Lare buying orders came in and the bears were forced to cover without delay.

London Financial Review.

[Copyrighted 1892 by James Gordon Bennett.]

London, Sept 8.—(New York Heraid Cabie—Special to The Ree.)—There was no change in the bank rate, which remains at 2 per cent. The stock markets today have shown little more animation in one or two directions. At best the business has been far from netive. Conso s and India rupee paper are unchanged. Home ratiways net with moderate attention and close tolerably firm. Ca edonian recovered ½. Improvement of ½ to ½ were marked in Northeastern, Metropolitan district, North British and a few others. On the other, Brighton, after being ½ hisner, closed at a decline of ¼ while Great Northern stocks and Northwestern also are lower. American railways have been fairly active and close firm in response to a strong tone reported in New York. Although final prices are not quite best most of the descriptions marked an advance of ¼ to 1, the lead being taken by Louisville & Nashville, Denver, Eric, Atchison and Philadelphia & Reading. Canadian lines have been neglected and close fairly firm, a moderate improvement having taken place in Grand Trunk preferences and Cahadian lines have been neglected and close fairly firm, a moderate improvement having taken place in Grand Trunk preferences and Cahadian Pacific. Money remains a terfect drug with scarcely any demand. Accommodations on short loans have been frecely offered at ½ per cent. Even advances for a week were obtainable at the same figure, few bits have been brought forward. Those of two and three months being quoted at ½ per cent. London Financial Review.

New York Money Market, New York, Sept. 8.—Money on Call—Easy at 34@4 per cont; last loan, 4 per cent: closed offered at 4 per cent.
PRIME MERICANTILE PAPER—415@6 per cent.

DISPOSITION.

Chicago Live Stock Market.

Chicago, Ili., Sept. 8.—[Special Telegram to The Ber.]—The situation in cattle is unim-proved. Supplies were overwheming, yin ex-cess of the demand and prices were as limb as before. Within the last few.

before. Within the last four days nearly 74,000 cattle have been dumped into the yards, indicating a supply for this week of fully 93,000 head, a number that has naver been reached more than two or three times before.

MERCURIAL Mr. J.C. Jones, of Fulton, Arkansas, says of "About ten years ago I contracted a severe case of blood pol-

son. Leading physicians prescribed medicine after medicine, which I took without any relief. I also tried mercurial and potash remedies, with unsuccessful results, but which brought on an attack of mercurial rheumatism that made are life.

made my life one of agony. RHEUMATISM After suffering

four years I gave up all remedies and began using S. S. S. After taking several bottles I was entirely cured and able to resume work.

S.S.S. Is the greatest medicine for blood poisoning to-day on the market."

LIVE STOCK MARKETS. Cattle Trade Completely Demoralized-Cattle Trade Completely Demoralized—Hogs Gain-Slightly in Value.

OMAHA. Sept. 8.—Fupplies for four days foot up 17.945 cattle, 12.02; hogs and 1.955 sheep, azainst 12.662 cattle, 12.03; hogs and 1.955 sheep the corresponding four days last week.

To say that the cattle market was completely demoralized gives but a faint idea or the situation. Heavy recepts both here and at eastern markets have fully satisfied the present demand and no improvement need be looked for until there is a letun in receipts. There were no right good natives offered, in fact few native steers of any description and the big bulk of the westerns would-hardly pass for better than cound mon. With no outside demand whatever angthe local demand pretty well supplied a regioner. Y part of the week was out of the question. Business was dulf from the start, and prices ruled unevenly lower. In general the fair to good beef cattle sold from 22c to 30c lower than Saturday. Westerns sold largely at \$1.90 to \$1.20 but the bulk of the offering were on the feeder order.

Butchers' stock and canners were off from 10c to 15c again, a decline so far this week of from 3c to 5c. The trade was very duil, with sales of poor to very good cows and helfers at from 75c to \$2.55, the bulk of the fair to good stuff going as from \$1.35 to \$1.06. Bulks, oxen and stage were slow sale at lower prices, the range being from \$1.35 to \$2.00. Gaives were duil and easier, the supply being heavy, at from \$1.50.

In the stocker and feeder line a fair business was transacted and while good to choice Hogs Gain Slightly in Value.

How values have been affected by the enormous receipts is plainly apparent in the published sales, which show a decline since last Friday of from 25c to 56c per 100 lbs. There was a larger supply of choice cornfatted cattle here today than for some time past, but under a good export demand holders were enabled to unload at nearly steady prices. All other descriptions were weak, very weak. The receipts consisted of about 11,000 natives and 10,000 rangers. The former were quoted at from \$1.00 to \$2.50 for poor to choice cows and buils, and at from \$1.25 to \$5.50 for steers. Westerns were saleable at from \$1.40 to \$4.90, and Texans at from \$1.25 to \$5.00. The calf market was dull and weak, the week's receipts having been too large.

At the opening of business a fairly steady feeding appeared to possess the hog market. There was free buying for eastern account, and local packers also taking hold in an interested way. There was an hour's trading on a basis of Wednesday's quotations. But the steadiness of morning soon disappeared and before y o'c ock salesmen were working hard to unload at from 5c to se off. The close was quil and extremely weak at from \$4.75 to \$5.30 for poor to prime light and at from \$4.85 to \$5.30 for heavy. There was not much done at better than \$4.85 the most common figures being from \$5.10 to \$4.40. Grass hogs were neglected at from \$2.00 to \$4.50.

Seliers experienced an unchanged sheep market. There was a good demand from local slanghterers and a fair inquiry for shipment. Between the two classes the supply was soon absorbed, the market clossing steady at from \$2.50 to \$5.50 for poor to cholee sheep and at from \$2.50 to \$5.50 for joor bend; hogs, \$2.00 head; sheep and trans. Receipts: Cattle. Excepts: Cattle. 2.00 head; shipments, \$5.90 head; market steady to strong on natives; westerns and Texans. Be lower; best natives, \$5.00 gas, \$0.00; cattle. 2.00 head; shipments, \$5.90 head; market active and 5c lower; rough and common, \$1.9 @5.10; packing and mixed, \$5.10@5.30; prime heavy and butchers', \$4.400, \$5.50; light and common, \$1.9 @5.10; packing and mixed, \$5.10@5.30; prime heavy and butchers', \$4.400, \$5.50; light and common, \$1.9 @5.10; packing and mixed, \$5.10@5.30; prime heavy and butchers', \$4.400, \$5.50; light and common, \$1.9 @5.10; packing and mixed, \$5.10@5.30; prime heavy and butchers', \$4.400, \$5.50; light, \$4.50; packing and mixed, \$5.10@5.30; prime heavy and butchers', \$4.400, \$5.50; light, \$6.50; lig At the opening of business a fairly steady
