Government bonds were dull and steady. State bonds neglected.

The Post says: Dull professional stock market Saturday is traditionally the occasion for averaging up small speculative trades. The early trading of the week having largely taken the shape of luying for the rise, it was natural that today's market should be made upon the sale of numerous small holdings. Traders not encumbered with stock for sale took advantage of the provailing movement to push the decline further, but met with no great success.

RECEIVED A FRESH IMPULSE

While Wheat Opened Lower and Weak o the Report of a Case of Cholera in Chicago, it Onickly Recovered.

Curcago, Ill., Sept. 1\.-Quite a lively re bound was witnessed in the grain prices today after depression on a cholera scare. Wheat blosed %c nigher than last night. Corn regelved a fresh impulse from mother frost pre-diction, and compared with yesterd y's clos-in: price is about ic higher. Provisions were very dull and rather weak. October pork, 20c lower; Cetober lard 7%c, and October r.bs. 5c

While wheat opened lower and weak on the report of a case of choiers in Chicago, and the fresh outbreak in New York, it quickly recovered, the Chicago case being authoritat vely denied. Then there was a gradual ret vely denied. Then there was a gradual recovery, and the market held practically steady the rest of the session at the advance. Bradstreet's report an increase of 10 per cent in exports from toth coasts for the week over those of the previous week, which seemed to give the friends of wheat some confidence, the trade seemingly ignoring the lear shipart of the report which gave the total European and American available supply at 111,000,00 bu. the largest on record, 25,000,000 bu, more than a year ago and 40,0000 bu, more than a year ago and 40,0000 bu, more than two fears ago. Mitchell, Scott and other prominent scalpers were active buyers, with the offerings right, and corn making a sharp advance about the same time. Free realizing and stort sciling set the prices back some, but the feeling was generally firm.

Corn was strong almost from the start, and followed up 2c from yesterday's close, and authough it was not all held, the general tone was firm. The rain was regarded as a strong factor, as it would retard the ripening and might cut off receipts. There was also a report that a cold wave was behind the rain and might bring frost, and this caused considerable alarm among the shorts. Schwartz-Dapee had a dispatch predicting frost in the southwest tomorrow might, and were heavy buyers on the strength of it. Homer Ashelby bought freely.

Oats were strong and higher, influenced large receipts of hogs, but it improved sightly in sympathy with the strength in corn, but on the whole was lifetess.

Estimated receipts for Moniay; wheat, 526 cars; corn 54 cars; oats, 251 cars; hogs, 27,000 head.

Carcago, Ill., Sept. 16.—Counselman & Day to Cockrell Commiss on Co.: Wheat opened with some show of weakness on fresh cholera news, but the weakness was of short duration, offerings being very moderate. The opinion gaining ground that teday's government report would be a buillsh document brought buyers to the front, and waite the market has not been particularly active it has shown marked strength, as it closed firm at the top. The tenor of the news in circulation was bearish. All of Bradstreet's figures fivored the bears, but there was not enough wheat on safe to back up these advices to the extent of turning the crowiffrom buyers to sellers. Crop movement shows about the same average preponderance of receipts overshipments, but the list was not completed, neither did we have all the closing cables when our session closed except Liverpool, which closed unchanged. The market depends now on the government report. Corn was strongly affected by frost news, the predictions being for frost Sunday night in lowa and Nebraska. Receipts were quite liberal and estimates are also liberal. The old corn is on the move now and probably will last some time. Oats were strong on good demand and in sympathy with corn. Provisions opened casy on receipts extended for the coming week. The closing was weak at bottom prices due to scattering unloading by parties who did not care to hold stuff over Sunday.

Chicago, Ill., Sept. 10.—F. G. Logan & Co. to Duncan. Hollin or & Co.: In wheat, the first weakness was caused by the arrival of a steamer with cholera and the report of a case in this city, which was later unload proposed cash demand was the paramount feature. The clearances were light from New York, but charters from here were 28,000. The market has a steady to an upward tendency. The government report may increase that or counteract it. The crowd are now waiting for the result. In corn there was considerable covering by local traders around the opening price, then the market lapsed into quietness until the local weather office Traders' Tark.

government report mentions possibility of frost in northern states and the spring wheat country. Oats ruled strong partially in sympathy with corn, but mainly on good buying by commission houses. We believe they are good property. Provisions opened easier on more hogs than expected. Prices ruled weak and closed at about inside prices. Chicago, ili. Sept. 1.—Kennett, Hopkins & Co. to S. A. McWhorter: The opening in wheat was weak on easier cables. Dismal cholera news from New York and reported death from choicra last evening in Chicago helped it. The weakness was not lasting and the quiet undertone of strength which has been manifest for several days gradually advanced the market ½c. The trade will be builtship inclined because the price is now compared with former years and little serious attention is given to the statistical situation. The fact that stocks are large everywhere, that they increased at home and abroad 1:485,000 the past month against 762,000 a year ago, that the spring wheat movement is just setting in at a time when foreign markets are overstocked and depressed by the cholera plague cuts little figures with the average speculator, who is impressed with low prices current. He buys now on soft spots without reflecting that existing conditions may bring about lower prices if receipts do not diminish materially and soon. The corn market has been buoyant on apprehensions of frost and buillish government reports. Local shorts covered freely, the leading receiving houses supplying the demand on sharp railies. The short interest seems to have been pretty well eliminated. Provisions were rather easier, but the trade was light and without special features.

trade was light and without special features. New York Money Market. New York, Sept. 10.—Money on Call.— At 3624 per cent; last loan, 3 per cent; closed offered at 3 per cent. Reading, Sugar and New England Securities

Were in the Lead. NEW YORK, Sept. 10 .- The stock market today was saved from utter stagnation only by the activity developed in Reading, Sugar and New England, with some little help from the grangers. There was a revival of rumors in regard to trouble between the Reading and its employes, the story having it that an ultimatum will be passed in by the men on Monday. Such rumors naturally unsettled the market and a heavy temper marked the dealings almost from opening to close, though there was no apparent pressure to sell stocks even in the face of the remarkable withdrawal of funds from the center shown by the bank statement, for the prices settled down only from lack of support. The opening was generally small fractions lower and while the heavy temper was developed immediately in Reading and some others, the general list displayed an advanctu: tendency at first, which. however, was soon checked, though Sugar was advanced fractionally and closed close to its

The near approach of the settlement has also tended to check new engagements. Funds are unchanged. Indian runee paper improved a fraction, due to firmer tendency in silver. Home ratiways close duil, due to few realizations coupled with the gloomy weather report. A fail of 5% in Great Western. 3% in Midland and Northwestern occurred. Changes in others are slight and favorable, the exception being Caledonian and Northeastern, which mark a small improvement. American ratiways, after being generally firm, close somewhat irregular; at the same time dealings have been almost at a standstill. The changes established were of no particular importance except a rise of % in Atchison income bonds and % in Atchison ordinary. There has been little or no demand for money. Short loans have been freely offered at ½ per cent. The discount market has been equally quiet. Total ... Chicago Live Stock Market. CHICAGO, Ill., Sept. 10.—[Special Telegram to The Ber.]—There was about the usual Satur-day's run of cattle and in its other features also the market was not unlike that of other

The Ber. |- There was about the usual Saturday's run of cattle and in its other features also the market was not unlike that of other Saturdays. There was not much inquiry from any class of buyers and there were more cattle than were needed. Quotations remain unchanged, ran ing from \$1.0 to \$2.0 for inferior to choice native cows, from \$2.5 to \$5.50 for steers, from \$1.4 to \$4.0 for Western range cattle and from \$1.2 to \$4.0 for Texas.

The hog market was quite strong when it opened. Shippers had fair orders in hand they did not hesitate to pay a little stiffer press than were current yesterday. Local packers were not so liberal, and after the shippers had filled up the market sazged a point. It closed dull at from \$5.00 to \$5.50 for poor to choice heavy and at from \$5.0 to \$5.50 for poor to choice heavy and at from \$1.8 to \$5.40 for light. There were sales anywhere from \$2.00 to \$5.50 for cholera pigs and culls to \$5.60 for extra assorted heavy hogs.

Sheep and lambs were in light snoply and light genand and unchanged. They were quoted at from \$1.00 to \$5.50 and at from \$5.50 to \$6.22 respectively. Sales of westerns were on a basis of from \$5.50 to \$4.25 respectively. Sales of westerns were on a basis of from \$5.50 head; sheep 1.500 head; sheep. 1.500 head; sheep.

Satisfactory prices.

Offerings of cattle today were the lightest of the week but they included some very good cattle, both natives and rangers. The market was about steady. Good to choice stuff was picked up readily at fully steady prices, 1.180 and 1.574 lb. cornfed steers selling at \$1.40 and \$1.90, with good to choice westerns, weighing 1.203-ibs, and upwards bringing \$1.25 and \$3.5. On the ordinary run of stuff there was no improvement, either in tone or price. The market in zeneral ruled weak at the previous decline of about 25c to 49c from last week's closing prices.

Cows and in xed stuff were slow sale at prices from 3c to dic lower than a week ago. Poor to good cows sold at an extreme range of from \$.00 to 12.25. Buils were slow and lower, around \$1.25 to \$5.00.

There was no change in the stocker and tracket trade. Smooth weighted stocker and Ransas City Live Stock Market.

C. H. Rohrer, agent of the Missouri Pacific railway, New Haven, Mo., says: "I suffered great deal one hot evening last week, (July there seemed to be an internal conflict going on. A traveling man said he had something in his grip at the hoter that he believed would relieve me, and producing a small bottle of medicine gave me a dose. I felt better, and in a few moments took another dose, which entirely relievee me. I believe that such a medicine is worthy of recommendation and that is should be kept in the housduring the summer. The bottle was labeled Chamberlain's Colic, Cholera and Diarrace Remedy." For sale by druggists.
