CONSTRUCTION STATISTICS.

Figures Compiled by the Railway Age on Tracklaying and Grading.

Chicago, Ill., Sept. 29.—Railway construction has proceeded at a safe and moderate pace this year, and yet in almost every state and territory new lines have been completed or commenced.

The Railway Age and Northwestern Railroad, in its forthcoming issue, will say: Our returns show that during the nine months from January 1 to September 30, there have been 2,519 miles of main track laid on 230 different lines in the United States, while a corresponding amount of grading has been done on which the rails are yet to go down.

Official notice has been given that the Nickel Plate will meet the 83 round trip rate between Chicago and Buffalo, made by its competitors to punish it for making a \$7.50 rate for the national convention of real estate dealers.

New York, Sept. 29.—At the meeting of the executive committee of the Monterey & Mexican Gulf Railroad company, held today, J. A. Robertson was named as general manager and C. A. Morrison was appointed general superintendent, subject to the orders of T. S. Hullock, first vice president.

Suit Against the Port Reading. TRENTON, N. J., Sept. 23.—Attorney General Stockton has filed in the supreme court information in the nature of a quo warranto against the Port Reading Railroad company. He alleges that the company has been illegally acting as a corporation to operate a railroad and issue capital stock, for all of which the attorney general asks due process of law against the Port Reading company. The court requires the company to answer within thirty days.

HUGH MURPHY'S COLOR LINE

Action of the Contractor Delays the Paving of Twenty-Second Street.

WILL NOT USE THE WHITE SANDSTONE

Prospect that the Road to the Government Corral Will Be Left Impassable for Another Winter—Knocked Out by a Quibble.

People who had hoped to see South Twenty-second street paved this season are liable to be doomed to disappointment, as another delay is inevitable, the contractor refusing to go on with the work.

The trouble is right here. Last spring when the final patent ordinance was passed, it provided that the street should be paved with Colorado sandstone, not designating the color of the stone that would be used.

The specifications called for Colorado stone, but did not name the color, and on these specifications Hugh Murphy bid and was awarded the contract. The property owners along the street, selected white Colorado stone and this kind the contractor was ordered to lay.

Now he refuses to do any part of the kind, holding that as the ordinance provided for the road, and the contract allowed for simply Colorado stone, he has the right to lay either the red or the white. He proposes to lay the red because he has no white stone in his quarries.

At the meeting of the Board of Public Works, yesterday afternoon, the matter was completed by which it is possible that the work may go on, though this is decided at the city council and will be decided at the next meeting.

Some More Contracts Let. Like the county commissioners, the Board of Public Works held the regular weekly meeting ahead of time in order to dispose of the accumulated business.

Contracts were let for the paving and curbing of the following streets: Twenty-first, from Wirt to Spencer; Douglas, from Sixth to Twentieth; Seventeenth, from Farnam to Dodge; and Grace, from the Omaha Belt Line railway tracks to the east line of the Chicago, Minneapolis & Omaha railway right-of-way.

For paving with Trinidad sheet asphaltum, the standard paving company was the lowest bidder, its bid being \$24 for class "A," \$23.39 for class "B," with a five-year guarantee; \$3.10 for class "A" and \$2.05 for class "B" with a three-year guarantee.

On Douglas street, Farnam and Murphy took on the curbing, bids being made to E. D. Van Court on three streets and to J. B. Smith & Co. on one. Van Court bid \$2.50 with a five-year guarantee.

THE FACT

Mrs. Schenck's Mandrake Pills cured her of the following ailments.

UNDER A SWITCH ENGINE.

Thomas Fox Lost His Life by Sleeping on the Railroad Track.

A Union Pacific switch engine enroute from South Omaha to Avery yesterday morning shortly after 7 o'clock struck Thomas Fox, injuring him so badly that he died from the effects of the injuries two hours later.

Fox was sitting on the track just north of the Albright depot when the engine came toward him, and before the engine could come to a stop the locomotive was upon his victim and buried him into the air, and he landed at the foot of the hill.

Fox is comparatively unknown, having been here but a few days, and was a section hand. He had been on a spree, and the general opinion is that he was drunk upon the track with intentions of suicide.

He boarded with A. W. Dennis in Albright, and those acquainted with him say that he is well educated. He was 49 years of age and an Irishman. He has been here for a number of years. He was removed to the city jail and died a few minutes after being taken there. He was unconscious all the time.

The following permits were issued by the superintendent of buildings yesterday: Jennie Patrick, one and one-half story frame dwelling, Ninth and Bancroft; Jennie Patrick, one and one-half story frame dwelling, Ninth and Bancroft.

Marriage Licenses. The following marriage licenses were issued by Judge Eiler yesterday: Name and address. Age.

White Slaves of Russia. In Russia the women labor fifteen hours a day for 15 cents. Frank C. Carpenter in The Sunday Bee will relate in a most fascinating letter how the Russian women toil from early morn till late at night for a miserable pittance.

No Inquest Held. The remains of J. R. Kling, the old man who dropped dead at Twelfth and Harney streets Wednesday night were forwarded yesterday to Woodbine, Ia. Coroner Mull decided that an inquest was unnecessary.

Shameful Confession. It is a shameful confession to make that many people are willing to use adulterated articles because they are cheaper, and in doing so often subjecting themselves to injurious effects, for it must not be supposed that those who are willing, at the cost of reputation and for the purpose of gain, to impose adulterated goods upon the public, would hesitate to use injurious adulterants.
