# Drug and Prescription Department,

Isn't it strange how some people will allow prejudice to filch their bard-earned coin? They buy their groceries, dry goods, clothing and other neces-saries where they can buy them them cherpest, but when they need medicine they go to an old-time druggist and pay him seven prices for a prescription. What's the sense in it? Where's the logic? By what process of reasoning do you justify yourself in paying these ex-horbitant prices for drugs and pre-scriptions when we can supply you with identically the same articles at a frac-tion of the drug store price? Our pharmacists are thoroughly competent and reliable, else they would not be al-lowed by the State Board of Pharmacy. by whom they have been examined, to practice in the state. No doubt they have filled prescriptions for you at some of the other drug stores in the city. Can't they do the work now as well as then? Our drugs and chemicals are of the very highest quality that money can buy and we challenge any chemist or other competent authority to find anything in our stock that is not absolutely pure, fresh and reliable. Prices talk and we court comparison of ours with those of anybody. Bring us your prescriptions. Bring us a copy of one you've had filled somewhere else and we'll make you figures which will take your breath.
