

THE DAILY BEE

PUBLISHED EVERY MORNING. OFFICIAL PAPER OF THE CITY. TERMS OF SUBSCRIPTION...

OFFICES: Omaha, The Bee Building, corner 10th and 11th streets.

ADVERTISING: All communications relating to news and editorial matters should be addressed to the editorial department.

THE BEE PUBLISHING COMPANY. SWORN STATEMENT OF CIRCULATION. State of Nebraska, County of Douglas...

Average Circulation for September, 24,022. The city hall is being investigated. Taxpayers of Omaha, please don't forget this.

PRIVATE SECRETARY MORRISSEY as an investigator of hoodlums is a striking illustration of the eternal fitness of things.

THE county hospital buildings are again agitating public attention by their generally dilapidated condition.

"That's just protest too much," growl the suspicious mugwump organs of New York to the Tammany braves who are daily and hourly declaring their allegiance to the Prophet of Gray Gables.

IT is evident by the way the Italians have taken part in the Columbus celebrations that little New Orleans affair in their pride of America's discoverer's nativity.

OMAHA cannot expect a \$3,000,000 union depot like the new Philadelphia Broad street station, but this city is entitled to a depot that will accommodate the vast passenger traffic that centers at this point.

THE proposition to enrich the mine owners by passing a free silver act would be identical, just as absurd and impossible, with guaranteeing the farmer \$1.20 per bushel for his wheat when the market price is but 70 cents.

BROCKENIDGE has finally refused to orate at the dedication exercises in Chicago next week. The celebration will not be deferred on that account.

THE democratic house ticket has some good men, we will admit, but there are no better men in the county than Augustus Lockner, Charles Goss or W. N. Nason, who are candidates for the house on the republican ticket.

WE HEAR it again stated that our agricultural implements are sold in foreign countries at a lower price than in America. This would be important if true.

THE people's party loudly calls for government control of telegraph lines and yet not a single member of that party in congress has introduced a bill to that effect or attempted to render aid to the postal telegraph, a perfectly sane and feasible measure, which has been projected by the republicans through Mr. Wannamaker and others.

"THERE'S no free silver in this country," cry the money silver advocates. Then why should we have free silver which would in a very short time drive out of circulation in this country about \$600,000,000 of gold, crippling all financial transactions by the forced use of a debased coin and making the greatest lack of money ever experienced in our history?

A LIVERPOOL trade journal, speaking of the grain market in Europe, says that "the key to the situation this season may be found in an unexpectedly large demand for wheat from the continent, which will help to raise prices out of the mire into which they have fallen."

HENRY LIVESKY has always been an upright citizen. He has lived in Omaha for more than a quarter of a century and served the public creditably in every position he has ever held.

THE storm that swept over the city of Denver on Wednesday did damage in various ways, but chiefly by prostrating electric lights and trolley wires, the electric current causing the death of half a dozen horses with which the wires came in contact.

MORTON'S DEMAGOGY. J. Sterling Morton's effort to erode the sugar beet industry by denouncing the bounty as a system of pernicious protection is in keeping with all the other free-trade fallacies.

Now Morton simply resorted to the wildest of demagoguery and banked on the ignorance of his audience. The fact is that sugar beet culture is an industry of very recent date in the United States.

When America can boast of 100 sugar refineries instead of half a dozen, no sugar refiner will be idiotic enough to end abroad for his mechanical engineer.

The first New England cotton mill engineers and machinists had to be imported from Lancashire and Manchester, and our first glassworkers came from Belgium, France and Germany.

THE democratic organs gleefully declare that the south is safely solid for their party. Since the result of the elections in Georgia and Florida clearly demonstrated that the populist party had ceased to be a factor in those states, the democratic leaders have dismissed all anxiety regarding the electoral vote of the south.

THE democratic organs gleefully declare that the south is safely solid for their party. Since the result of the elections in Georgia and Florida clearly demonstrated that the populist party had ceased to be a factor in those states, the democratic leaders have dismissed all anxiety regarding the electoral vote of the south.

THE experience of Omaha jobbers who handle tin plate does not harmonize well with the statements of Mr. Bryan and other democratic campaigners who are insisting that tin plate is not and cannot be made in the United States.

AN eastern republican contemporary pointedly and sensibly says: "Republicans need not expend any money or thought upon the south. It will be squandered money and barren thought if ventured. The proper way is to accept a solid south as a foregone conclusion and buckle to and make a solid north and west."

THE dilemma with the free trade campaign orators is that they do not give the people credit for any intelligence. They say that they are unable to learn by diligent inquiry that there is any such thing as American tin plate, and that the McKinley law must therefore be a fraud.

THE prophets of calamity are doing even more harm to the credit of Colorado than to that of Nebraska or Kansas, for the reason that they are misrepresenting the condition of the great mining interests as well as that of the agricultural interests of that state.

THE POPULIST CANDIDATE. General Van Wyck is getting some rough handling from the press of the state on account of the manifest inconsistency of his past record and present professions.

General Van Wyck professes to endorse the plank of the populist platform which demands a national currency, "safe, sound and flexible, issued by the general government only, a full legal tender for all debts, public and private, and that without the use of banking corporations," and therefore he is opposed to the national banks.

THE death of the Western Traffic association is not expected to produce any particular disturbance in the railroad situation for the reason that it was expected. When a quorum of the advisory committee failed to attend the meeting in New York called for last Tuesday it was apparent that there was a mutual understanding that it was time the association came to an end.

THE largely increased first day's registration in the interior of New York shows lively interest in the presidential struggle and a growing confidence in the republican ticket.

OUR FOREIGN COMMERCE. Our foreign commerce shows a flattering record for the three years ending June 30, 1892, during Cleveland's administration, our exports amounting to \$2,154,229, an average of \$718,176,628.

IT SEEMS at first glance a little strange that there should be a large increase in the sales of anthracite coal under present conditions, but no doubt the explanation lies in the fact that consumers have made haste to stock up in anticipation of further unreasonable advances in price by the coal combine.

AN ENCOURAGING sign in that great political battle ground, New York state, is the large registration reported in New York city. The republicans there have been working hard to secure this result, and it is known that they have succeeded well in their efforts to induce supporters of the republican candidates to make sure that no votes are lost on account of carelessness and neglect.

THE squabble over the rival republican city committees is untimely, if not disgraceful. There is practically nothing for the city committee to do in the present campaign. The county committee will take care of the registration, the hiring of carriages, selection of challengers and all the other work pertaining to getting out the voters on election day.

IN SURRENDERING the sixty-acre tract on the river front, which never belonged to it, and relinquishing its claim to the viaduct bonds, the Union Pacific is to get not only a clear title to the union depot grounds, but possession and permanent use of that portion of Tenth street under the viaduct.

THE only true riches are those that death cannot take from us. Keep close eyes on the man whose wife is afraid to ask him for money. A good many sermons are aimed too high to ever hit anything on earth.

damaging statements made. The whole country knows that this state produced enormous crops last year and the fame of her crops this year is already gone abroad to discredit the empty allegations of the calamity crowd.

IT APPEARS that the efforts of Kansas City to cut into the business of South Omaha have been carried on with redoubled energy since the retraction in the differential by which the Missouri stock center held decided advantages.

Of course the populists in the western states who came out for the republican party know that a vote for Weaver is really a vote for Cleveland, and are anxious to get back to the old field and will vote for Harrison.

THE American watch is ticking "McKinley all over the world," says Mr. McKimley. It is. And yet not a clean watch would have been manufactured in this country without protection.

THE democrats were sure that there would be a deficit in the treasury, and called greatly. Now they are mourning because the cash balance constantly increases and the evidence is unvarying that the republicans knew exactly what they were about when they passed the McKinley bill, which has proved to be a revenue measure so nicely adjusted that it does not produce a great surplus nor cause apprehension of a deficit.

from \$50,000 to \$100,000. So that the road gets ample compensation for giving up property to which it has at best only a doubtful claim.

IT APPEARS that the efforts of Kansas City to cut into the business of South Omaha have been carried on with redoubled energy since the retraction in the differential by which the Missouri stock center held decided advantages.

Of course the populists in the western states who came out for the republican party know that a vote for Weaver is really a vote for Cleveland, and are anxious to get back to the old field and will vote for Harrison.

Mayor Henry D. Borden of Grand Island was at the Delonee yesterday and of course could not bein expatiating on the sugar beet crop. He said that it was going to be the best year that the Grand Island factory has thus far had as the weather had been all that could be desired this fall, making not only an immense crop but a crop of better quality than usual as well.

face, 'countrymen,' an' not a word about city people. New York Press: Paternal Parent—That young Jones comes frequently to see our Father. Is there anything between them, do you think? Paternal Parent: They are at present sitting together on the parlor sofa, and I should say there is nothing between them.

A CHANCE OF BASK. The fall has over the morning Josiah," said Mrs. Erickson and gold array. And the hammock in which the lovers swung is loaded and put away.

Philadelphia Record: Cheap venison at the restaurants is seldom deer. Buffalo Express: "Is he quick tempered?" "Quick," said Hempstead. "I am going three records every day."

Chicago Tribune: "I paid the man for fishing the stream this morning Josiah," said Mrs. Chugwater, "and I took the last cent there was in the house."

Atlanta Constitution: "Some men are born lucky," sighed the editor. "Our contemporary, 'Borah,' has just been bitten by a rattlesnake."

Washington Star: "Gosh!" exclaimed Josiah Funderburk, as he read the list of the men in the menagerie, "jest look at them freckles!"

Washington Star: "Why, gentlemen," said James Huggins, as he warmed up to his subject, "George Washington was not only a great man, but a great man in his own right."

Washington Star: "Why, gentlemen," said James Huggins, as he warmed up to his subject, "George Washington was not only a great man, but a great man in his own right."
