THE SPECULATIVE MARKETS

Wheat, Corn and Provisions Broke Early and Went to Pieces.

SHORTS TOOK VERY LARGE PROFITS

Clear and Favorable Weather All Over the West Induced a Good Deal of Selling as Pavoring an Increased Movement.

Curcago, Ill., Oct. 28 -The way the markets broke today was shaply Teanysonian. After the record smashing almost daily during the past week in the line of low prices, wheat this evening compared with twenty-four hours ago shows a decline of the for December and the for May. Corn is he lower for November and from the to he lower for the later deliveries. Provisions, with the exception of October ribs, are also in the slough October pork is 1715c lower: November 2215c and May 30c lower. Lard for October dropped 1714c, for November 1215c and for January 15c. October ribs are The up; November 50c off and January 15c off.

The wheat trade seems to have come to a full realization of the bearish conditions which have been steadily on the increase for some time and the longs who have been holding on the hope of some improvement in the outlook, seemed to have lost all courage and began to drop their loads. This was more especially the case with holders of the near futures and December fell to 6c discount on futures and December fell to 6c discount on May and October to 2c discount on December. Short sellers also showed more boldness and the offerings were urgent while the demand was singgish and shorts who took profits were about the only buyers. Cables were lower, domestic markets heavy, the receipts everywhere large and the tracks crowded with cars waiting to go to store. Vague rumors of a local failure were in circulation and for a short time increased the weithness. Though they were not confirmed, the market was so heavy there was little recovery. Pardiage, who is supposed to have a big short line out, bought freely on the decline. The opening was about 1g lower and prices further declined 1½c for December and it for May, then recovered slightly and the closing was about 1½c lower for the forager and it lower for the latter future.

Com was lower in sympathy with wheat and free liquidation by the longs. May ruled relatively stendier than the rest of the list. The clear and favorable weather all over the west induced a good deal of selling as favoring an increased movement. There was rather free celling of the near futures by receivers and some of the prominent buyers of late were also supposed to have so dout, but the covering of several short lines on the decline checked the downwant tendency. November, which was yesterday a trifle premium, was one time today ge discount. Opening trades were from 1½c to 1½c under the final quotations of yesterday and gradually declined under offerih s from 1½c to 1½c, rallied 1½c, declined receipts were only 15 decrease and so as her covery and pretently and closed with a loss for November and December of from 1½c to 1½c, rallied 1½c, declined receipts were only 15 decrease of the receipts were only 15 decrease the receipts May and October to 2c discount on December.

loss for November and December of from 3c to 3c and May 3c.

Outs held up better than any other, as the receipts were only 150 cars, where 210 cars had been expected. The bir stocks in local clevators serve to depress near months, while some support is shown May on the part of investors. Opening firm, the market he d about steady for a time, but after the break in wheat and corn, declined from 3c to 3c under rather free speculative sailing.

In provisions offerings were liberal, both from the long and manufacturing interests, and the demand from all sources was only fair, with the bulk of the purchases credited to shorts. Prices ruled materially lower on

to shorts. Prices ruled materially lower on all the leading articles and the market closed at about the inside figures. Liberal recents of hors and the weakness in grain were the chief causes of the depression. Prices received no support from the buil clique except in the matter of October ribs, which were moved on 250 pc. 1.0 lbs.

In the matter of October ribs, which were moved up 25c per 1 0 lbs.
Froights were slow: shippers were trying to force a decline in rates but did not succeed as vesseimen preferred carrying ore. Rates were unchanged at 24c for wheat and 2c for corn to Buffalo. The estimated receipts for tomorrow are 350 cars of wheat, 430 cars of corn, 190 cars of oats and 11,000 hogs.

The leading futures ranged as follows:

Traders' Taik.

Chicago, Ill., Oct. 28.—Counselman & Day to Cockrell Bros. Commission company: Liquidation by longs in wheat was fierce and small lines were thrown overboard from all directions as stoporier limits were reached. The discount widened on December to 61½ below May and considerable quantities of near future contracts shifted from December speculators and strong carriers to shorts. All this will not come back on the market unless on a bulge. This wonderful fail weather has taken the nerve out of the short crop bulls in corn and holders are looking for a scalpers raily to sell, on. Several natural bears have got long and are supporting the market, but are not likely to try to buil corn when cribbers commence to seal. Larger receipts of hogs made buyers of provisions backward. Under Armour's steady selling of January pors and lard the market weakened and quite a number of stop orders for country account were reached. The Cudaby and Wight crowd are still pursuing a waiting attitude. Ryan was the best buyer of the day.

Catcago, 14. Oct. 28.—F. G. Logan & Co. to Donean, Hollinger & Co.: Liquidation and demonsitization continue to hold sway in the wheat market. Receipts, aithough showing a failing off here, are large in the northwest and southwest, where the weather continues perfect for marketing crops of all sinds. The oull continuent is badly whipped and discouraged, and until there is some rad call change in existing conditions a bull movement seems hopeless. However, the protracted drouth and the extremely low price are legitimate and in portant buil factors and will command attention when the present demoralization ceases. Corn and outs ranged lower in sym-CORN MEAT—Quiet, steady.

STOURS AND BONDS.

Distilling and Cattlefeeding Were the Leaders in Speculation Vesterday.

New York, Oct. 28.—The overshadowing enture of the speculation at the Stock exfeature of the speculation at the Stock exchange today was Distilling and Cattefeeding. The stock, after advancing from 65 to 68, declined to 614, and closed at 614. In addition to sales on stop orders the decline was caused by reports that a new issue of stock would be made to pay for opposition distilleries at the west, said to have been purchased by the company. While officials were reticent about the alleged absorption of these distilleries, they stated today in most emphatic terms that if opposition concerns have been or are to be acquired they will be paid for in cash out of the company's treasury, and not with new stock. They also assert that the dividend rate will be advanced.

The general market, contrary to the expec-

not with new stock. They also assert that the dividend rate will be advanced.

The general market, contrary to the expectations of the room traders, opened firm and advanced is per cent to it, per cent with Chicago Gas and New England in the lead. During the afternoon St. Paul was pressed for sale. The stock fell of from Sol to 70% and the remainder of the list outside of Distilling and Cattlefeeding yielded 5 to 1 per cent. In the final transactions there was a fractional raily due partly to an official statement that the increase in the operating expenses of the St. Paul road for September was due to the fact that the company male large expenditures for repairs, maintenance and new steel rails, which were charged to expense account. In a majority of instances the net changes for the day were only is to is per cent either way. Neither New England nor Reading were as prominent in the trading as heretofore. The market closed steady in tone.

The Postsays: Quite naturally the ebb and flow of prices in New England stock is influenced by the story that another mystery," underlies the Boston & Maine deal, this encouragement has proved necessary in view of the collapsed rumor of a goaranteed New England dividend. The only tansible shape which the new story has taken is the assertion, very positively made its some quatters.

England divisiond. The only tancible shape which the new story has taken is the assertion, very positively made in some quarters, that New England shares are to be exchanged for Boston & Malne in the proportion of 3 to 1. Now the idea of a final absorption of the New England by its new allies is not in itself wholly unreasonable. But the suggested basis of exchange is utterly absurd. New England is soiling at to and Boston & Malne at 183. A 3 to 1 ratio, therefore, would assume either that New England stock is worth 61, or clee that Boston & Malne stock is worth only 33.

The total sales of stocks today were 290,000 shares, including: Atchison, 5,021; Chicago Gas, 22,300; Eric, 12,000; Northern Pacific preferred, 5,550; New England, 21,740; Reading, 4,950; St. Paul, 20,000.

London Financial Review.

[Copyrighted 1897 by James Gordon Bennett.]
LONDON, Oct. 28.—[New York Herald Cable—Special to THE BEE.]—The settlement being concluded for the Stock exchange without any difficulties being reported, the markets have been rather unsettled, with an absence of new business. Funds closed steady with one or two exceptions. Foreign government securities have been dull all day, Home rill-ways closed flat, due partly to the wretched weather. Brighton deferred has been largely sold on another bad daily traffic statement and final prices show a decline of 1½ per cent, and nearly all others ½ to ¼ per cent, and nearly all others ½ to ¼ per cent. Americans onened dull mostly, but about noon became very firm. The closing was decidedly strong. The principal movebut about noon became very firm. The closing was decidedly strong. The principal movement was an advance of 14 per cent in Eric on the purchase of large blocks of shares for an influential firm, said to be over 12.00 shares. Improvement in most others ranges from 1 to 2 per cent. Camadians have been very little dealt in and leave off without quotable change. Mexican first preference improved 4 per cent. South American lines close somewhat irregular. There has been a better demand for money. Short loans commanded 1 to 1; per cent. The discount market has been much primer. Two and three months bills were quoted at 2!; to 2% per cent.

per cent. New York Money Market. New York, Oct. 28.—Money on Calt.— Eas er at 2 to 6 per cent; fastloan, 2 per cent; osed offered at 2 per cent. Prime Mercantile Paper—54@6 per cent. STEMANG EXCHANGE—Steadler, with netual onsiness at \$1.83 for sixty-day bankers bills and \$1.85% for demand.

LIVE STOCK MARKETS.

Cattle Prices Still Going Up—Hogs Active and Higher.

OMAHA, Oct. 28. Hereights for the past five days foot up 20.72 cittle, 20.836 hozs and 3.56 sheep, against 14.748 cattle, 20.836 hozs and 1.372 sheep the same five days last week, a gain of about 6.000 cattle, 48.51 hozs and 2.36 sheep.

The run of cattle was considerably lighter than anticipated and the offerings included a very small proportion of decent beef steers. Supplies feil far short of the demand and with eastern markets stronger buyers had to still forther advance prices. It was as it has been all week in fact and the result is an advance of from like up 25c since last Friday on anything fit to kill. In the native line there were some 1,400-15, cornfed steers good enough to bring 84.40 but the half fat and grass cattle soid at from 8.350 to \$4.65. There were no choice western cattle here but several bunches of fair to good steers went to the killers at from \$1.25 to \$3.63. Even the common and mean stuff was easily worked off. Taken all in all it was a good healthy trade, the feeling was firm and a very fair clearance was effected.

There were about forty loads of cows and Cattle Prices Still Going Up-flogs Active

was firm and a very fair clearance was effected.

There were about forty loads of cows and mixed stock on sale, and they change hands briskly at substantially stronger figures. The advance this week on butchers stock and canners has been from 10c to 2 c. Poor to very good cows and heifers sold at from \$1.10 to \$2.50, the bulk of the fair to goods tuff at from \$1.70 to \$2.52. Bulk, exen and star were in fair demand and about steady jit from \$1.25 to \$1.00. Common large calves and yearings to choice years sold at about steady prices at from \$1.35 to \$4.50.

Feeding steers with flesh and quality sold freely at steady to strong prices, but there was the same duli trade in the under grades. Range of prices, \$1.15 to \$1.10. Representative sales:

Hoss-Reduced supplies a good local and shipping demand and a stronger market in Chicago caused an netive opening with prices a shade to 5c higher than Thursday. Fair to good hors of all weights sold largely at \$5.50 and \$5.55, with some of the good to choice butcher and heavy weight loads for shipping account at \$5.60 and \$5.65. Several loads of common light and light mixed stock sold at from \$4.40 to \$5.475. Early trading was active at the advance, but as urgent orders were nilted and Chicago advices came lower the edge of the morket wore off and the greater part of the early advance was lost. About everything finally changed hands; the bulk at from \$5.50 to \$5.55, against at from \$5.45 to \$5.55. Thursday. Representative sales:

Chicago Live Stock Market. Chicago Live Stock Market.
CHICAGO, Ill., Oct. 28.—[Special Telegram to THE BEE.]—The cattle market was unchanged in its general features. Fat cattle of all weights were in good request and sold strong. The "off" grades remained under neglect, and while they were no lower than before it was not an easy matter for sulesseen to unload at steady rates. The range of quotations for natives was from \$1.00 to \$5.00 for cows and buils, \$1.50 to \$3.40 for stockers and feeders and from \$5.00 to \$5.00 for common to fancy dressed beef and shipping steers. Western rangers to the number of \$3.00 arrived and there were about \$1.000 Texans. Both were in good demand and were steady.

Texans. Both were in good demand and were steady. Prices for hors were a little stronger at the opening of business this morning but they lost their strength very soon after, the close being no better than for yesterday. Receints were larger than expected, amounting to about 22,000, but the eastern demand called for nearly one-half that number, and the wants of the ten local packers who had buyers in the field absorbed the remainder. Sales of poor to choice light weights were at from \$12 to \$1.75 and from \$1.40 to \$1.93 was paid for very common to strictly prime heavy. Little

business was some above \$3.00 and prices above \$5.50 were reached in not more than half a dozan instances. The offerings were quite nationm and most of the sales were at from \$3.50 to \$3.53.

nollorm and most of the sales were at from \$2.50 to \$3.73.

Fat muttons have continued to come on the market rather sparingly and the few arriving from day to day were quickly taken at reminerative prices. Good to extra grades are quoted at from \$4.51 to \$5.50. There is a surplus of trashy stock and it is sciling at prices that leave little for the shipper after freight commissions and yardage are paid. Within the last week there were sales as low as \$1.9 to \$1.00 and the stuff was actually dear at those prices. The bulk of the offerings changed owners at from \$4.00 to \$4.6) for westerns. Some choice to extra sheep fetched from \$1.75 to \$4.03. Lambs were in moderate supply and met with good demand at from \$1.50 to \$4.75 for poor to fair and at from \$2.53 to \$3.00 for good to extra. There is some inquiry for feeders at from \$1.55 to \$4.55.

PUBLIC WORK.

Contractors Are Pushing the Improvements of Streets these Fine Days. The south side of Leavenworth street has been repayed and the north side to a point as far east as Twenty-lifth avenue. The contractor, Hugh Murphy, states that the street will be completed within twenty days, weather permitting. The same contractor, who has the contract on Twenty-second street, from Leavenworth to the government corrai, has finished the curbing and yester-day commenced laying the red Colorado stone pavement. The paving of this street will be completed next week.

will be completed next week.

Lowe avenue, from Farnam to Cuming streets, has been curbed and the asphalt is being laid by the Barber company.

At the office of the Board of Public Works the idea prevails that if picasant weather continues for thirty days all or nearly all of the paying and curbing contracts awarded this season will be completed. The gas company has laid its mains on

Seventeenth street from Ohio to Locust, and from now on that street will be illuminated by gas instead of gasoline lamps. This is brought about by the fact that there is an existing ordinance that provides that when the council shall order the laying of new gas mains it shall order the location of gus lamps along the line of the main.

Andrew Jaicks has returned from Chicago where he had been to purchase additional machinery for his asphalt paving plant, located in this city. Mr. Jaicks states that he has concreted all of the streets which have been awarded to his company and that he will begin laying pavement next The Board of Public Works met in regular

session yesterday afternoon and let about the last contracts of the season. For the paying of Center from Tenth to Eleventh street, the alley in block 55, city, from Seventeenth to Eighteenth street, the alley in block 116, city, from Seventeenth to Eighteenth street, because it is a Eighteenth street, Seventeenth Irom Jackson to Leavenworth street, the alley in block 1985, city, from Sixteenth to Seventeenth street and Pacific from Thirty-second street to the alley between Thirty-second and Thirty-third street there were two bidders, John Grant and Hugh Murphy Grant bid on asphalt, his bid being \$2.75 on class "A" and \$2.44 on class "B" per square yard with a five year guaranty, \$3.18 on class "A" and \$2.84 on class "B" per square yard with a ten year guaranty.

Hugh Murphy bid on red Colorado sand-stone and made his figures at \$1.95 per square

vard on class "C." The awards were made to the two bidders, subject to the selection o material by the property owners.

In the same districts J. W. Furnes & Sons captured the curbing at 65 cents per lineal foot for red Colorado sandstone.

The award for the construction of the eight-inch pipe sewer in Forty-first, from Davenport to Cass streets went to Hamann & McDonuld at \$1.39 per lineal foot. They were also awarded the contract for the construction of the sewer in Twenty-fifth ave nue, from Burt to Camfornia street, at \$1.60 The contract for the sewer in Twenty-sev enth, from Dorcas to Shirley street, was awarded to Samuel Katz & Co., their bid

being \$1.49 per lineal foot. ANNOUNCEMENTS.

There is none of Shakespeare's plays that

contains a greater number of passages that have been quoted in books of extracts, or a greater number of phrases that have become in a manner proverbial, than "As You Like t." The meeting between Oriando and Adem: the exquisite appeal of Orlando to the humanity of the duke and his company to supply him with food for the old man, and their answer; the duke's description of their answer; the duke's description of a country life, the account of Jacques moralizing on the wounded deer; his meeting with Touchstone in the forest, his apology for his own melancholy and his satirical vein, and the well known speech on the stages of human life; the old song of "Blow, Blow, Thou Winter's Wind"; Rosalind's descriptien of the marks of a lover, and the progress of time with different persons; the pic ture of the snake wreathed around Oliver's body while the lioness watches her sleeping prey; Touchstone's lecture to the shepherd his defence of cuckolds, and panegyric or the virtues of "an if." It is the purest comedy that Shakespeare ever wrote and its selection for Miss Marlowe's opening ap-pearance at Boyd's new theater Monday evening is a happy choice.

Dore Davidson and Miss Ramie Austen, supported by a good company, will present "Guilty Without Crime" at the Farnam street theater next week, commencing at the mat-inec Sunday, October 30. The New York theater next week.
ince Sunday, October 30. The New York
Sin in speaking of the attraction says:
Theater, April 32, 1890.—The New York, Tuesday, April 32, 1893.—The general nature of "Guitty Without Crime" is strong and eventful. The assault upon Sir Raiph Waldron by the demented softy, the introductive of the unhappy young wife, Stella, the silling of the villations Mortimer, the bullyragging of a number of the meeker characters by the characters of

ant and active remedy.

Don't Be Deceived, esp cially when your health may be at stake. If any one offers you Johann Hoff's Malt Extract and "Johann Hoff's" sign ture is not on the neck of the bottle, do not take it under any circumstances. For Sore Throat, Coughs and Colds take the Malt Extract ho at bed-time and the genuine Johann Hoff's Malt Bonbons during the day. A pleas**OMAHA**

Hospital Medical Corps. The medical staff of the county hospital has met and organized. Dr. Oscar Hoffman s president and Dr. Bridges is secretary. The following committees have been appointed: Committee to recommend to the county commissioners the best kind of a building to take the place of the wing of the ospital which has fallen down-Drs. Ginn, Report and Van Camp.
Rules and regulations—Drs. Chase, J. E.

Rules and regulations—Drs. Chase, J. E. Summers and Lanyon.

The staff is divided into the following departments: Surgery, Drs. Summers and Lee; medicine, Drs. Bridges, Ginn and Worley; mental diseases. Drs. Bridges and Hanchett; obstetries, Drs. Van Camp and Dailey; genito and urinary diseases, Drs. Summers, Rebert and Lanyon; skin diseases, Drs. Biart and Hoffman; eye diseases, Drs. Gluck and Gifford. Drs. Gluck and Gifford.
The staff decided to let one man in each

department handle the hospital business for three months and then make a change let-ting another man in each department take the work for three months. This schome will be recommended to the county commis-You don't want a torpid liver; you don't

want a bad complexion; you don't want a bad breath, you don't want a headache. Then use DeWitt's Little Early Risers, the famous little pills. A Defanct Investment Company. Mr. William Dinning, receiver for the Ne

braska Mortgage and Investment company in which Hon. George W. E. Dorsey and Mr. C. F. Toncray of Fremont were the leading lights, has handed in a partial report of his administration of the affairs of the defunct company. He shows in the report, which is submitted

to the United States court for approval, that the company has paid the sum of \$22,761 on interest coupons that had been guaranteed and which the borrowers have not made good. The report gives in detail the availa-ble assets thus far found and the indebted ness of the company to other companies and individuals. Some of the accounts have udividuals. Some of the accounts have been settled and others are still unbalanced The receiver asked the court to grant the payment of his commission amounting to \$504 on the business already settled up.

An honest pill is the noblest work of the apothecary. DeWitt's Little Early Risers cure constipation, biliousness and sick headache. Equalizing City Taxes. The city council met as a board of equal ization vesterday morning to continue in ses-

sion for several hours, disposing of apecial assessments and considering plans for special The Douglas street matter was called up and continued until next Monday in order to allow the interested parties to be present at allow the interested parties to do uplet of the the hearing. In this case the object of the assessment is for the purpose of figuring out a plan by which the \$32,057 damages arising from the change of grade of Douglas and the intersecting streets may be paid.

Perfect action and perfect health result from the use of DoWitt's Little Early Ris-ers. A perfect little pill.
