A WARNING TO SPOILSMEN.

Some of the recent utterances of Mr. Cleveland, if they be accepted as seriously meant, will not prove altogether comforting to the spoils seekers of his party.

The last sentence was clearly designed to convey to place hunters a warning that the new administration will not permit itself to be treated as a mere purveyor of patronage.

ship of the democratic party of the state. That's all."

Milton Doobits of Atkinson is in the city. He was one of the delegates to the democratic national convention, and is continuing with the party whom he met in this part of the state with reference to the distribution of patronage.

Mr. Doobits said he believed that the republicans would elect the next United States senator from this state, as he saw little if anything in the situation that pointed to a successful combination of the democrats and independents touching the matter.

Samuel M. Elder of Clay county, who was speaker of the last legislature, is in the city. He said last evening that he was confident that the contest now pending over his right to a seat in the next legislature would result in his favor.

A politician who is prominent in independent circles, and who lives not very far from the city, was in the city yesterday for a short time, and in speaking of the probable action of the legislature with reference to the election of a senator said: "I tell you one thing that you needn't print at the present time, but you can write it down in your family bible that W. J. Bryan will not be the next senator from this state."

"If Mr. Bryan loses five independent votes, he cannot possibly be elected, and I personally know of eleven that he will never get, and there may be more. I want to see an independent sent to the senate, but I realize that chances are considerably against it."

JAMES SIMMONS PARDONED

Unpleasant Experience of a New York Financier in Purchasing a Bank.

RUINED BY A TECHNICAL OFFENSE: President Harrison's clemency extended after more than a year's sojourn in the penitentiary.

WASHINGTON BUREAU OF THE BEE: President Harrison today made an appeal of his good business sense and humanity in disposing of a case which is of special interest to national bankers everywhere.

Simmons was a man of large means and owned a controlling interest in one or two banks. His agent, George H. Pell, was directed to purchase for him a controlling interest in the Sixth National bank of New York city, which required a cash payment of nearly \$200,000.

The examiner pointed upon the bank, that the checks of Simmons had been certified, but that there had been a deposit made in the bank for the purpose of certifying the checks.

In six days Simmons had disposed of his stock placed in Pell's hands for sale and deposited with the Sixth National bank the \$200,000 necessary to certify the checks.

It is believed that the anti-trust bill will be pushed to a final passage at the coming session of congress. Democrats in the house say they will send it to the senate at an early stage of the session this winter.
