of THE BEE: Knowing that you are always anxious to state facts I wish to refute a statement that has been going the rounds of the press regarding the last race that Lobasco trotted at St. Joe. Mo. McHenry, his driver, has been accused by some of the turf papers of pulling him in that race to the disgust of his owner, James Ladd. I was at Mr. Ladd's place on the 7th instant, and in conversation with him about said race he told me that he had never accused MeHenry of pulling the horse previous to his first race at St. Joe. ELopasco had picked up a gravel and it had not worked out at the time of that race, out the track being soft, and he being a game horse, he won the Tace and took the world's stallion record in a race during the time that intervened between his first and second race at said place. tween his first and second race at said place. Lobasco did not have the harness on but twice on account of the gravel having worked through, which left him in no con-dition for a brushing race, being short of work and very sore on his foot. Mr. Ladd tells me that at the time of the race it was blowing a perfect gale, that the track was as a brief argeneration of the race of the

blowing a perfect gale, that the track was as a brick pavement, and having one of the hardest horses on earth to beat in Walter E., taking all things into consideration, Mr. Uadd says it was no disgrace to have Lo-basco beaten that day. He further says that he thinks had Mc-Henry had the horse earlier in the senson, so that he would have had time to properly condition him, his mark would now be 2:07 or better, instead of 2:10%. Should nothing happen to the horse this winter he will be put in condition next season to take a shy at put in condition next season to take a shy at Now I am not writing this for the benefit

Now I am not writing this for the benefit of McHenry nor to boom Lobasco, but am aimply trying to right a wrong that must have originated in the brain of some one who had a dislike for Mack. When Uncle Jim-mie openly accuses Mack of pulling the horse and gives him to some one else to handle, then will be the time for some of these croakers to shout. Billey HUSTON.

#### Nebraska Trotting Right Along.

It was but a few years ago when the state of Nebraska took no rank whatever as a home for the trotter, but today she is in the very front and apt to stay there. During 1892, six yearlings throughout the United States have acquired standard records, and none are credited to Catifornia, the land none are credited to California, the land that first gave us a 2:30 trotter at the see of one year. Belle Acton 2:214. Sy Shadeland On ward is the fastest when Violta 2:27, by Onvalid and the second state of the second s were sired Nebraska stallions, and both are owned here. Leone was sired by a Massa-chusetts stallion, and she is owned in Illinois. Mill Lady is owned in Pennsyl-vania, Nelly A. in Kentucky, and Violta in New York.

Chicken and Quail Plentiful. OMAHA, Nov. 22.-To the Sporting Editor of THE BEE: It's not known among sportsmen that the southeastern portion of Nebrasks is a fine game section. If you inquire from the public you are informed that there is no game to be found, but for my own information I took a hunt out from Beatrice and found prairie chicken plentiful, killing in half a day's hunt, over two good dogs, eighteen birds. The hunt was one to be remembered as one of my most pleasant experiences. I found the fields all open, the farmers very kind and obliging. Several farmers very kind and obliging. Several told me where chickens were seen last. It's not a country for the market hunter or game

"Frank Killen'is a good man," said Tom Fullwood after Washington had offered him to Cincinnati. "His only fault is that he is too large around here," and he waved his hand about his cranium. Manager Gas Schmelz is superstitious to the extent that he is a confident believer in

sameness -- that is to say, if his club is doing well he will permit no change of play, being arbitrary to the most minute particular. Of the Western league players but few

have gone in the National league. Hower and Dungan formerly played with Kansas City, Vickery and Burke with Milwaukee. Shugart went to Pittsburg from Mianeapo-lis by purchase during the playing season.

Grim was a now man to league diamonds bis season, but fast enough for the com-pany. The Louisvilles were handicapped when he was disabled. Merritt, who had previously been with the Unicagos, caught in almost all of the games after he was hurt and filled the bil most successfully.

Eddie Burke is credited with recently icking Mike Sullivan, the Reds' big pitcher. New York will drop Burke like a hot potato. It looks as if Captain Comiskey knew what he was about when he dropped "Sir Ed-ward," after all. He has proved that the rumors that he was a malcontant are true.--Times-Star.

Bille, Earle, after resolving not to go to Cuba, has changed his mind and he left for Cuba, has changed his mind and he left for the West Indies today. When he arrived at Mobile he found that the team had gone on ahead of him, but he will join them at Havana. He has signed to manage the Birninghams next season and will have full control of the Magic City team .- Ren Mulford.

The best indoor exercise for base ball players is band ball, which develops those qualities most essential to the ball playerqualities most essential to the ball player-alertness, agility and even development of muscle. Woodmen of the World.

The Woodmen of the World and particularly those of Alpha camp No. 1 have every eason to be proud of their entertainment of Tuesday night, when at least 500 members of the order and their families assembled at Washington hall to witness the presentation of a silk banger in houor of Alpha's passing the 600 mark and making it the banner lodge in the world. An interesting program occu-ped the early hours of the evening and later the young people were permitted to dance, a procram of twenty four numbers giving the dancers a surfeit of that kind of amuse-

mont. The Alpha male quartet sang "Welcome Tonight" in a very pleasing manner and vocal solos by Mrs. Cook and W. F. Len-hardt followed. Then Sovereign Consul Commander J. C. Root presented the banner with appropriate remarks. The banner is a very handsome one and bears the name of Alpha camp with the omblams of the order Alpha camp with the emblems of the order and the inscription: "Woodmen of the World." The upper portion is white, representing the morning of life. The red center is emblematic of the noon or middle life, and the bottom is black, a reminder of the dark

all of death that crowns the e.d. The speech in acceptance was made by Sovereign W. L. Scism and was an eloquent

effort which was warmly applauded. The remainder of the program consisted of singing by the quartet, a vocai solo by Mr. Cole and a plano duet by Prof. Roe and Mr. hompson.

At the close of the program Deputy Sover-eign Consul W. W. Moseley was presented a handsome silk pumbrella as a token of appreciation of his efforts in raising Alpha camp to its present prosverous condi-The camp was organized in December, 1890,

Dick Moore went down before Henry Baker at Chicage a week ago after a terrific battle of fifteen rounds. Moore was the favorite 10 to 8 and should have won handily with a little headwork. He preferred, how-ever, to mix things from the start and the consequence was he was eventually thrown against one of the stakes and stunned, then knocked out by a smash under the chin.

The coming battle between John 19 Van Heest and Solly Smith out in Caifornia is expected to be a great one. My tip is Van Heest for a winner. Both men are rushers and hard hitters. There will not be any at-tempt at scientific fighting. Van Heest is undoubtedly the most formidable man that Smith has yet tackied. George Siddons has been up against both men. His draw with Solly Smith is still fresh in the minds of la-terested parties. Van Heest put Siddons ut the first time they ever met.
