## PROGRESS AND PROSPERITY

Thats the Report All Along the Line in Nebraska.

MORE HOMES, NEW MILLS AND FACTORIES

Many New Enterprises, Great and Small, Edlisting the Energy and the Capital of an Active, Progressive People.

That Nebraska is having a steady and substantial growth is evidenced by the returns of THE BEE'S correspondents. From all parts of the state come the ensering reports of new mills and factories, of enlarged water works and electric lighting plants, of more churches and balls and bomes, of finer stores and public buildings, of beet sugar and irrigating operations and of many minor enterprises. While there is no indication of a great boom, these returns carry the pledge of a general progress and a substantial prosperity. Could the figures of all the cities and towns of the state be gathered the aggregate of their improvements would show an enormous addition to the wealth and growth of the state. Below THE BEE prints the reports of its correspondents at a large number of widely scattered points, which indicate the character and extent of the public and private improvements of the current year and show that the advancement is not confined o any particular section of the state.

Fremont's Fine Record. FREMONT, Non., Dec. 1.-This city has spent for water works extensions this season \$20,-000 and voted \$90,000 sewerage bonds for work now being done. Two brick school houses two stories high have just been completed at a cost of \$7,000 each, and large brick additions built to two others.

Through the efforts of Hon. George W. E. Dorsey the government has appropriated \$60,000 for a new postoffice and the contract has been let.

The Fremont Saddlery company has built a large three-story brick with a good light, dry basement, at a cost of \$12,000. It has the best and nicest plant of the kind in the state, employes forty-five men and wants more. D. M. Welty is president, !!

John Dern is president of the Frement Browing company, which commenced to manufacture beer here last spring. The brewery is 165x112 feet and seventy-five feet high. The mait house is 56x100 feet, four high. The mait house is 55x100 feet, four stories of fifty-six feet and the malt kiin is ninety-six feet high. The browing capacity is 60,000 barrels a year. The building and machinery cost \$120,000. It is one of the largost and latest improved breweries west of Chicago. It employs thirty men, owns Elkhorn and Union Pacific, and has an ele-

The Fremont Carriage Manufacturing company has just completed a two-story brick addition to its large factory costing

Seely, Sea & Co. have commenced work on the elevator for the Nye & Schneider company, which is being built north of the brewery between the Union Pacific and the Elkhorn tracks. The front part of the building, which will contain the tower, will be 24x52 feet and ninety-five feet high. The storage part will be 34x64 feet and sixty feet high, and will hold 100,000 bushels. They will be able to handle from sixty to seventy-five carloads of grain per day, as there will be two places where they may be unloaded with double steam shovels. The building will be entirely covered with iron, making it fireproof. The boiler house will be built of brick and contain a 75-horse-will be formally. power Corliss steam engine. The company, which is the largest grain and lumber company in the state, will use this elevator to clean the grain bought at forty-eight other stations where it has small elevators. When completed it will cost \$28,000.

The Loomis-Miller double front two-story brick building with stone and copper trimmings, adjoining the Commercial National early in the spring at a cost of \$12,000 and is now all occupied. Welland & Son are now erecting a two-

story brick building with plate glass front, adjoining the bank building owned by Hon. George W. E. Dorsey, which will be occupied by them with a stock of jewelry. The

Hon. G. W. E. Dorsey and J. B. Brooks are each having a building erected on lower Main street; the former to be rented, the latter to be occupied by himself with a stock

The Fremont National bank is having an addition 30x52 feet, two stories high, built of brick, on the north side of the main building. It will contain a new steel-lined vault, burg-

front; will be heated with steam, and will cost \$12,000. A. C. Huli has improved his photograph

gallery with a new operating room, skylight and plate glass front, costing \$1,150. Under the supervision of J. C. Stitt, archi-Bothwell, superintendent each of whom are highly spoken of for their work by Father Flizgerald and the building committee, the roof is now being put on the new Catholic church in this city. The boilding is 114x54 feet, with two vestry rooms in rear, one 16x20, the other 20x24 feet, with basement under all. Will cost \$15,000. The German Orphans' home on East Mili

tary avenue is nearly completed, at a cost of \$12,000. It is a handsome, imposing and substantial structure, and the citizens, as well as the Lutherans, have just cause to be proud of it.

The Congregational people have completed

a nice parsonage for their paster, Rev. W. . Buss, costing about \$1,000. David R. Franklin, with May Bros., whole-

sale grocers, has built an elegant residence at a cost of about \$11,000. Among many other new residences may be mentioned those of J. J. Hawthorn, four cottages, all rented, and those of S. Koberling, A. J. Alberts and Mr. Shephard.

Wilber Makes Great Strides. William, Neb., Dec. 1 .- The public improvement most worthy of note made in Wilber since January 1 was the remodeling of the interior of the Saline county court house, at a cost of over \$1,500.

The improvements by private outerprise have been the most extensive of any year in the history of the town. A new steam flouring mill of 200 barrels per day capacity has been built and is op-erated by W. H. Mann & Co., representing

an investment of \$30,000, A large new brick opera house was built by Richtarik Bros., costing \$12,000.

A fine large business block, with 100 feet frontage by 110 feet long, two stories and basement, divided into four store rooms, was built by Albert Beck, August Janouch and Mallott & Mallatt, general merchandise.

and Frank Janouch, hardware dealer, the block costing \$18,000, A brick building, with carved stone front, one story and basement, was but up by John Hatta, liquer dealer, at a cost of \$4,500.

Joseph F. Kyles, landlord of the Wilber bouse, is making a large addition to his hotel building and remodeling the interior of the

old part, improvements which will cost Wencil Viids, George Berger and Dr. Eider have built private residences costing \$1,500 and nowards each, and many improvements of lexar value have been made

Next spring Hon. Tobias Carter will make a two-story addition to the State bank block to be used for a postoffice.

There is considerable capital here to invest in building, but the trouble is the desirable business lots are held by nonresident parties who refuse to sell at prices within the bounds of reason.

Chadron Moving Forward. CHADRON, Dec. 1 .- This year has been a most important one in the history of Chadron as regards public improvements. Our very fine system of water works, which cost originally \$35,000, is being changed into a natural pressure or gravity system, at an expense of \$30,000. When this is completed Chauron will have one of the finest

consisting of the following well known bustness men: A. C. Putnam, J. S. Romine, J. D. Bacon, T. A. Coffey, C. J. Davis, F. O. Messenger and J. D. Boyd.

About \$5,000 has been expended upon street improvements and sewerage under the

efficient supervision of our city marshal, Charles Wilson. Holdrege Went in for Beet Sugar. HOLDREGE, Dec. 1. - The amount of money expended on public improvements in Holdrege the past year is nominal, but private

frame building.

spent on the streets.

parties for residences.

at a cost of \$10,000,

The school poord has erected a building

Two blocks of pavement are now under way and will probably be completed before January at a cost of \$7,000.

Over \$50,000 has been spent by different parties for residence.

F. M. Richey, C. C. Parnell and J. M. Craig and the city will build next year a

city hall and opera house combined at a cost of \$30,000.

Nelson Recovers from the Tornado.

NELSON, Dec. 1 .- There has been con-

iderable improvement in Nelson during

quality. There have been two good black-

frame livery barn, one two-story brick

store building, and one one-story brick store

building, both of last of excellent quality. There are about six new substantial rest

dences, costing from \$1,500 to \$2,000 each.

The part of the town wrecked by the cyclone in March has been almost com-

pletoly rebuilt, and is in much better con-dition than ever today.

\$3,500, will soon be completed. Probably \$50,000 would be a reasonable estimate of

the money invested in improvements in building, etc., during the past year.

Auburn Up and Doing.

AUBURN, Dec. 1.-The following is a

partial list of buildings completed here dur-

ing the year: First National bank, bank

ing the year: First National bank, banking house and effices, \$13,000; Joseph Conley, two-story brick store, \$4,500; Maelay & Crummel, store building, \$2,500; H. Cooper, store building, \$2,500; William Mattheisen, blacksmith shop, \$1,500; Mrs. M. Peck, residence, \$1,000; Thomas Clark, residence, \$2,000; B. N. Burress, residence, \$1,200; Jacob Erisman, residence, \$1,500; Robert Gillan, residence, \$2,000; C. E. Phippenney, residence, \$1,000; Elbert Case, house and barn, \$3,500; H. Shurtliff, residence, \$1,000; H. W. Dryer, residence, \$800; Mrs. J. C. Cook, residence, \$000; Mrs. J. C. Shiffer, residence, \$500; W. H. Haith, residence, \$1,500; A. Halladay, residence, \$800; Mr. Cecil, residence, \$500; J. Leach, residence, \$1,500; Thomas Hines, residence, \$2,000;

\$1,500; Thomas Hines, residence, \$2,000; John Huff, residence, \$500.

Schutler, Dec. 1 .- The improvements in

Schuyler has added water works and

electric lights at a cost of \$28,000 for the

former and \$7,500 for the latter. The water works comprises a 100-foot standpine of

\$6,000 gallons capacity supplied by a system

of thirty-two drive wells and a seventy-five-foot bored well through two pumps of 500,

000 and 750,000 gallons respectively, which are driven by steam from one of a pair of boilers. There are five

miles in all of ten, eight six and four-inch wooden mains and thirty-one fine

hydrants. There have been four extensions

of the system, that of 404 feet to the cemetery being the principal one. The elec-

tric light machinery is in the same building with the water works machinery. The same boilers supply steam for pumps and to

ran the two dynamos, each of 450-lamp capacity, which are driven by a 125-horse-power high speed engine. The city uses ten are and 600 incandescent lamps. There are two commercial are lights and 600 in-

candescents. Both plants have given satis-

Among private enterprises are John Jan

eck's opera house and J. U. Sprecher's block. The new opera house is a fine building 66x100

and two stories high, built at a cost of \$22,000. The first floor has store rooms, two 22x100 and one 22x40. The main hall is 46x72,

at the end of which is a stage thirty feet deep. Adjoining the opera house are a banquet

room, 22x40, cloak, toilet, waiting and dress-

ing rooms, all provided with modern con-veniences in the way of light and water.

S. Cloyer, who has an unusually well equipped stage and fine scenery,

66x88 and three stories high, 22x66 being unbuilt at present owing to a defective title,

be built at once. The cost of the present structure is \$9,000.

Greeley Center's Prospects.

building to be used as a hotel and postoffice

probably cost not less than \$8,000 to \$10,000.

Alma Improves Its Highways.

Growing Gering.

GERING, Dec. 1.—The amount invested in his city during 1893 will not fall short of

\$35,000. The Gering Milling company has expended \$15,000 in erecting and furnishing a large roller mill of seventy-five barrels ca-

pacity. The balance has been expended on several business buildings, two handsome churches and a number of residences.

It has been a healthy year for this city. The county at large has also winessed a great deal of building, the sod and log houses

and barns giving way to more substantia frame structures. A number of school dis

tricts in the county have butl: good schoo

houses. Work is going on upon three com-pany irrigating canais and several smaller

enterprise has been active. There was a stock company formed in March last, cailed the Phelps County Sugar Beet company, for the purpose of a demonstration in a practical way that the soil and climate of Phelpsecounty were adapted to the elimate of Phelps county were adapted to the growth and culture of the sugar beet. The company was composed of the best business men in the city. C. H. Eshbaugh was elected president, T. M. Hopwood vice president, A. S. Frickson treasurer and J. A. Snyder secretary. Twenty acros of ground were rented and planted to sugar beets, which have all been harvested and snipped to the Oxnard sugar factory at Grand Island. The highest test made from the beets was 10 per cent, the lowest test 14.8 per cent, the average test of the twenty acres being 16.3 per cent. There were ten acres being 16.3 per cent. There were ten and one-half tons of beets grown to the acre, and they prought \$5.50 per ton, making \$57.50 per acre, the twenty acres bringing the handsome sum of \$1.150, so proving that Nebraska soil and cumate are well adapted to the growth and culture of the sugar beet. Those engaged in this experiment feel highly clated at their success, and a large acreage of sugar boots will be planted

Nebreska City Banishing Mud. NEBRASKA CITY, Dec. 1 .- Public improvenents in Nebraska City during 1892 have been confined almost exclusively to street paving. Between \$60,000 and \$75,000 have been expended in this work. It can hardly be finished this season. The material used is brick of home manufacture.

in this county the coming year.

Considerable money has also been spent in grading and many heretofore unused streets have been put in good condition. Although the Nebraska City starch factory was begun in 1891, it was not completed and in operation until this year. The plant cost in the neighborhood of \$100,000, and the stockholders represent ten times that amount of capital. Prominent among the share-holders are Hon. J. Sterling Morton, Carl Morton of this city, Hon. John C. Wat-sen of this city and Joy Morion of Chicago. This institution bids fair to become one of the most important in the city.

The past year has also witnessed great improvements in the cereal mills, the pack-

ing houses and the distillery. Osceola's Biggest Boom. OSCEOLA, Dec. 1 .- Osceola has had the largest boom the past year of any in her history. A. O. Monson has built an opera house costing \$15,000 and put a second story to his store costing \$1,000. The Osceola bank has remodeled its building and built it all over outside with pressed brick at an expense of \$5,000. Will Stokes' brick store building cost \$2,000 and the De Witt-Kuapp warehouse on the square \$2,000. The Odufellows have re-

modeled their lower store room at an exense of \$500. Quite a number of nice residences have been built and remodeled. Among them are the following:

H. F. Henderson
Lawyer M. A. Mills
H. A. Scott
Frank Chauner
W. H. Weeden James Stewart Ben C. Campbell. Mrs. Beebe's livery barn has been covered with iron at a cost of \$1,500, and the Grand Army of the Republic hall has been remodeled at an outlay of \$300 This makes the improvements foot up to \$46,300, and it

is estimated by some that they will not fall short of \$50,000. Imperiat's First Rattroad. IMPERIAL, Dec. 1 .- Imperial has expended during the past year in building sidewalks, crossings and improving streets about \$1,000. The year has been one of unparalleled growth for our city. The railroad reached us August 15, and since that time our town has doubled in population. In addition to the depot and other railroad improvements two fine elevators have been erected, one using a gas engine and the other steam.

several more are under way. Niobrara's Great Artesian Well. NIOBRABA, Dec. 1 .- The public enterprises of Niobrara for the year beginning with January are quite encouraging. The flow of the artesian well was struck January 22 at a depth of 656% feet, eight-inch pipe all the way with a pressure of sixty-five unds to the square inch, the cost of which

A seventy-five barrel flouring mill was completed September 1 and receives its power from this well. Both well and mill belong to the Niebrara Mill company, comprising most of the citizens, but mainly by W. M. Barnum, president; F. Melson, secretary and treasurer; B. Bade, H. E. Benesteel, J. S. Lenger, S. Draper, G. G. Bayha and F. Opoccusky. The cost of the concern

A system of water works is now in progwhich will be owned and controlled by the city, though through an arrangement with the mill company the water supply will pe furnished free to the city from the arte sian well, which will force itself into a 25,000-gailou reservoir for ordinary purposes, but in the event of fire the direct pressure of the artesian well will be used upon the main pipes. Five blocks on the main street will be laid with pipe this winter with five hydrants, and two hose carts with 700 feet of hose will be ready for use. Cost \$1,000. This is considered the least costly plant for its size in the state, and the light running expenses will be no small item, since it requires no board of water commissioners to cat up the profits coming from various sources.

A large livery barn, 40x48, 26 feet high, with carriage shed 4xx16 feet, is being erected by H. D. Palen and will be completed December 1; cost \$2,500. F. Nelson, vice president of the Niobrara

Valley bank, has just completed a residence at a cost of \$3,500. The Nioprara causing factory contemplates making about \$1,500 improvements

next spring. The Niebrara Mill company is now flouring for an electric right plant, the dynamo to be run by the artesian well power at the mill, about \$2,000 to be invested in the start.
A syndicate has purchased forty acres of land bordering the city, and its members are negatiating with different parties to go in with them in the erection of a union brick block of ten stores. They claim to have suc-ceeded and will begin in the spring to burn The investment will aggregate

It is anticipated that next season \$50,000 worth of improvements will be made here. Niobrara's immense banks of chalk rock, clay and other are also attracting consideraple attention, and artesian well power is no

onger a matter of doubt. Rusuvnazz, Dec. 1.-Rushville has made substantial improvements both public and private during the past year. This growth has been healthy. No building has been erected nor enterprise undertaken except a demand or necessity first existed. There is not an unoccupied habitable abode in the

place. The prospect for an increased amount of building next year, especially dwelling houses, is very good. Following are the more important improvements of a public nature since January 1:

The location of the Rushville roller mill was secured for this place by the energy of the Business Man's association and the liberality of our citizens. The town donated \$1.550 and entered into a contract with Thomas H. Nut to build and operate the mill. Mr. H. Nuit to build and operate the mill. Mr. Nuit has since associated with himself County Treasurer Harry Harasberger and F. E. Walker, and the firm is now the Rushwithe Milling company. The mult is a sub-stantial three-story structure above a twelve-foot basement, has the latest and best improved machinery and will have a capacity of 100 barreis per day. It is now nearly completed and will cost \$14,000.

Rushville Agricultural and Trotting asso-ciation grounds were completed in time to bold a very successful fair early in October. expense of \$30,000. When this is completed Chauron will have one of the finest systems of any city in the state.

An Educon electric light plant has been put in at an expense of about \$10,000. It has been in operation now about three months and gives the best of satisfaction. The plant is owned by a local stock company.

bold a very successful fair early in October. The capital stock is \$10,000 and \$8.500 was expended in completing the grounds. The association offered in premiums \$5.500 and paid them all in full. The officers of the association are M. P. Musser, presidents; J. E. West and H. J. Stauchfield, vice presidents; C. E. Mays, secretary, and

# N. H. Shepherd, treasurer. The directors are J. H. Jones, J. R. Peverett, James Alexander, N. B. Barnes, C. R. Evans, August Brockman, O. F. Farman, C. B. Jackson and W. H. Strotheide, The Northwestern hotel, now nearly finished, is a s batantial and handsome two-story frame structure and will cost the proprietor, E. B. Hovt, \$2,000. The semi-weekly Standard building was finished early last spring at a cost of \$400. THE TERROR OF THE BORDER

Recollections of Captain Bourke and His Campaign Against Garza.

UNFOUNDED REPORT OF ASSASSINATION

W. N. Foru's blacksmith and carriage shop, creeted at a cost of \$500, is a two-story Premature Obituaries of the Trooper-Gallant Services in Vari-Plattsmouth Pegging Away. ous Indian Wars-Interesting PLATTSMOUTH, Dec. 1.-Public improve-Reminiscences. pents in Plattsmouth have not been what they should, although about \$8,000 has been

During the past two weeks the friends of Captain John G. Bourke were amazed to read in a number of papers flattering obituaries of the rallant trooper. The cause of these premature tributes was an unfounded report to the effect that the captain was assassinated at San Antonio, Tex., while testifying at the trial of one of Garza's border ruffians. The report was promptly denied, nevertheless the incident created much excitement in Omaha, where Captain Bourke the past year in buildings of a substantial spent many years and where he led to smith shops erected worth \$500 each, one large the altar one of Omaha's fair daughters,

A writer in the Press of Philadelphia, where Captain Bourko was born, gives an interesting sketch of his career on the Texas border. "Early in the 60's," he writes, "Bourke graduated from West Point. He was a member of the Fifteenth Pennsylvania, or, as it was better known, the Anderson cavalry ranking as a second lieutenant. In 1887 he joined the Third cavalry, then skirmishing in Arizona under direction of General Crook. It was there that I met Captain Burke. Crook made him his aide and placed much confidence in his ability and

"The bloody war with the Apaches was soon in progress and for four years we fought the red men until they were subdued. Bourke was a splendid linguist and frequently acted as an official interpreter between the Spanish-speaking Indians and General Howard, who united General Crook's command with

"I have many recollections of Bourke's usefulness in such a capacity. He was a witty man and a clever story teller. Some of his spare time was also passed in writing articles on military topics. I believe several years ago he wrote a book giving his experiences in the army. He was very popular with his associates and comrades in arms. When at Omaha with General Crook he was married to the daughter of Hon. John A. Harbach.

"When the Indian troubles in the Yellowstone country broke out, Captain Bourke was again with General Crook and participated in the light on Rose-bud river, when busing Bull held our forces back and then drew away only to annihilate General Custer's band of brave men.

"About two years ago when Captain Bourke was detailed to join General Stanley's command, then regulating atfairs along the Mexican border, and the chase after Garza, the outlaw, gave him ample opportunity to be of excellent service.

"Captain Bourke's chief prominence as United States army officer dates from the Garza guerrilla warfare, which grew from a spasmodic uprising into a concerted revolution against the Mexican government. The self-styled "revolutionists" were, in Captain Bourke's own language, "bandits \* \* \* who have a perfect organization, a good system of signals, know the country thoroughly and, being without uniform, can turn themselves into innocent ranchmen and goat herders in five minutes."

"It was on December 29, 1891, that Captain Hardie of the Third cavalry, struck a camp of about 200 Garza followers in dense chaparral pear the ranch of Garcia, Garza's father-in-law. Captain Brooks' Texas rangers and which are shown his audiences by the glare of 200 electric lights.

J. C. Sprecher's block is intended to be troop A, Third cavalry, and a force of deputy marshals were the American vanguard. These attacked the bandits. who retired. Captain Bourke, as Captain Hardie says in his report, was Two rooms, each 22x66, and one of the same size having a basement, are built up one story, to so remain till the entire block can along as a volunteer.
"These bandits,' says Captain

Bourke's report, 'scattered in the chaparral at sundown, and I do not think they will fight much unless they get in

GREELEY CENTER, Dec. 1.—There is a movement on foot now to build a large brick "Garza, meanwhile, realizing that his 'cause' was looked upon with suspicion. This is to be done by the Building and Loan association. If the building is put up it will tried to rehabilitate himself with the natives on the Mexican side. This resulted in a temporary accretion of his force. The people made a scant living herding and working as agricultural laborers and were easily induced for a pended in this city for public improvements time to join the revolutionary standard this year, chiefly in building and extending sidewalks and in grading streets. of Garza.

"Garza's scheme, backed by a large amount of money, contemplated the declaration of a republic under the constitution of 1877 as soon as the northern stretch of Mexico had been cut off by military cordons. This design was pleaded by Gar za in extenuation of many plundering expeditions. The base of operations was on the United States side of the Rio Grande, in Texas, and a concerted movement upon Mexico was what it became necessary that Uncle Sam's troops should prevent. There is no doubt that the anti-Diaz element in Mexico gave the constituted authorities of that republic much concern for a

"Meanwhile Captain Bourke was in command at Fort Ringgold, along the line of hostilities. Captain Bourke sent to Assistant Adjutant General Martin, at military headquarters in San Antonic, Tex., for good guides and scouts. "This request was complied with, and an active campaign of strategy was opened by Captain Bourke, in co-operation with other detachments, moving separately, under command of Hardie and others. The revolutionists never afforded a chance for open battle, but

divided themselves into roving bands,

which had to be hunted out in turn. "Once Captain Bourke, in a drench-ing rain, led a score of his men along the steep declivity of the Rio Grande's banks opposite Tamanlipas. Dismounting atlast, because of the narrowness of the way, each man followed the officer nto a clump of bushes, where, protected from the storm, the movements of a straggling group, seated around a fire built beneath an overhanging boulder, could be watched. This gang proved to be professional bandits, operating it Garza's name, and when they rossed into our decritory, the whole party was surprised and captured."

## Instructions to Out-of-Town Customers:

We assort bottled goods, putting in just such an assortment as you may wish. We do a strictly cash business. Do not send in an order without money remittance, as goods will not be shipped until money

In sending money to us remit by postoffice order or bank draft. Personal checks will not

Express companies will not receive wines or liquors for shipment C. O. D. So to avoid delay send money with order.

We make the following charges for packing: Each package of one dozen bottles or one

gallon jug, 25c extra over quoted prices. IMPORTANT --- From now until the 1st of February our out-of-town orders are very numerous, and while we try to pack goods and ship promptly, we are sometimes so crowded that orders are delayed; hence we advise customers who contemplate ordering from us to order a

few days ahead so goods will be sure to arrive when wanted. No attention paid to orders un-

less money is remitted. Los Angeles Wine, Liquor and Cigar Co. 1313 FARNAM STREET,

OMAHA, NEB.
