COMMERCIAL AND FINANCIAL

Heavy Decline in Wheat Was the Feature in Speculative Circles.

PORK SCORED A CONSIDERABLE ADVANCE

For a While Provisions Were Weak, but with Most of the Leading Operators Buying the Improvement Was Quite Easy.

CHICAGO, Ill., Jan. 19.-Wheat had a sen-ational drop today, falling nearly 2c from last touched Monday. The causes of the decline were largely local, for while the news was rather bearish and cables and outside domestic markets easy, these influences alone were not sufficient to cause the big slump. The market closed 14c lower than on the previous

Corn and oats were unusually steady, con sidering the weakness in wheat, and closed with ac loss. Provisions, under the fostering care of such operators as Armour and Cudahy, ness. Compared with last night, pork is up

The curious selling of longs and the vicious nammering by the bears chiefly brought about the collapse in wheat. The crowd generally attributed the selling to the clique. It was recognized as clique houses, were doing most of the selling, and after starting the break

of the selling and after starting the break kept it going. On the down turn the lengs outside the ellane lost confidence and liquidated, stop less limits were gradually reached, and the execution of these produced further panic; the numerous and lofty pyramids came tumbling down, and for a short time there was much excitement and a panic among the longs who were outside the clique.

At the ciarr the market was fully by above last night's close, and seemed strong, but cables came ensier, and the buying soon came to a halt. At the same time Kennett-Hopkins, Boyden, Brosse, Parker, Gaylard, Schwartz-Dupce and others long recognized as bull leaders legan to timble. There was no effort to counteract this impression, and the market kept on the down grade until it had dropped 25e from the opening figure, which it did long before noon. There was some rally later, on free covering by short sellers to secure profits but there was no very important recovery.

The action of the clique, or the supposed action caused no end of comment. Some declared they have not sold much wheat, but have created that impression for the purpose of shaking out the tailers and getting the niarket down so they can buy cheaper wheat. On the other hand, it was contended that it was legitimate liquidation; that they have found it impossible to market their holdings at the prices which have ruled of late, and as their line was largely secured under size, they resolved to market it at a figure that could bring a sure profit anyway, and load up apain on the break.

Pardridge is reported to have covered leav-fly. It was rimmered that a negative to any the and the and the could bring a sure profit anyway, and load up apain on the break.

the break. Pardeldge is reported to have covered heav-

Thrainings is reported to have covered heav-ily. It was rumored that a prominent "short" had effected a settlement of a large let of wheat with the prominent "bull" traders, and it was thought that this was one of the reasons why the market received no support from the

The opening was about he to be per bushed higher than the close of yesterday and with some fluctuations, prices declined to a point 25% below the highest point reached today, then rallied he, again eased off, and the close then railled ac again eased off, and the clos-ing was about 14c lower than yesterday. Corn was tame. The market opened at about unchanged figures and under free selling by some of the larger commission houses, re-coded from 4c to 4c, railled from 4c to 4c, ruled steady, and closed with from 4c to 5c

There was more inclination displayed on the part of local roomers to "short" the market, evidently gaining courage at the action prices have pursued the last two days. The action of wheat was also instrumental in causing the decline.

action of wheat was also instrumental in causing the decline.

Oats were traded in to a moderate extent, but the business was mostly local and prices confined to a 4c range. The action of other grains had less than the usual effect, as operators were less disposed to sell. The market opened steady, but prices reacted 4c, then ralled 4c and closed easy at slightly below the prices of yesterday.

Pork broke down the day wheat started up. Today wheat broke down when pork started up. Today wheat broke down when pork started up. Today wheat broke down when pork started up. The hog market was reported from the yards to be weak and prices were from 15c to 20c lower. That caused a weakness on the provision market at the start and for half an hour or so it appeared doubtful whether or not there would be a further decline than that which occurred at the opening. Armour took the initiative in the matter with a number of buying orders. Cudahy adopted a similar course and with the heavy weights buying, the day's advance was not a difficult matter. A feature of the "long" side was the further decrease in the packing of the west, making the aggregate since the opening of the season about 41½ per cent less than last season, to date. The poor quality of the hogs had some effect in stinulating prices.

Estimated receipts for tomorrow: Wheat, 160 cars; corn, 210 cars; oats, 120 cars; hogs, 23,000 head.

The leading futures ranged as follows:

Spanish, per crate, \$1.90@2.00.
ORANGES—Brights, medium sizes, \$3.25 for single case lots, and \$5.00 for lots of five to ten cases; russets are 25c per case cheaper. A discount of 25c on the box is also made for extra large or small sizes. California unvals, \$4.25; Mexican, \$3.50.

lexican, \$3.50. Oysters—The situation remains the same, and prices are still quoted at 20%42c per can. Owing to the scarcity of the supply, local houses generally are not trying to fill orders for bulks.

for bulks.

POULTRY—The market is practically unchanged. Chickens, 9@10c; geese and ducks 10@11c; turkeys, 13c. Some live poultry is arriving, but the dressed is preferred and the live is only taken when no other is to be had. Porarors—Only small lots moving from store. Western Nebraska stock is quote i at 85c; Utah and Colorado, 90c@\$1.00; choice native, 756(8)c. native, 759480c.
Swear Potatogs—There are a few in the market which are selling at \$4.50.
Veal.—Veal caives, choice, 7c; large and thin, 36,5c. A large and thin veal calf is about the hardest thing on the market to dispose of

PRODUCE POINTERS. Minneapolis received only eight cases of eggs one day this week. It would appear that the hens are following after the example of the coal barons, and by limiting the output they have forced up the price of eggs beyond all reason.

A Baltimore oyster packing house wires in answer to an inquiry as to the prospect of oysters becoming more plenty: "We can look out of our windows and see the boys skating on out of our windows and the control of our windows and the large this extremely cold weather dressed poultry sells much better than the live and as it costs less to ship the dressed it is strange that some shippers persist in sending in live

The cold weather has been especially hard on importers of bananas. It is said that there are thirty cars of this fruit on the side tracks of Chicago, the greater part of which has been either chilled or thoroughly for

ither chilled or thoroughly frozen. Celery is said to be quite pienty in southern California but, as the cabbage there is held so high as to discourage eastern buyers from ordering, very little is arriving in this market as no one wants a whole car of celery.

as no one wants a whole car of celery.

"Consumers have begun a very effective campaign against the manipulators of the egg market," says the Chicago Herald, "and there is every indication that it will prove successful. The pian is simply to refuse to buy, except in the smallest possible quantities, any eggs at present prices. There is already a halt in the advance, with prospects of a full retreat in case of milder weather."

The Munecoulis Produce Pullstip research

in the advance, with prospects of a full retreat in case of milder weather."

The Minneapolis Produce Bulletin remarks that prices on butter are certainly too high at present to be sustained for any length of time. The butterine men are getting in their work to good effect, and will not permit the price to remain firm at the figures now ruling. But at the same time it is not to be expected that there will be any great decline under present circumstances. Supplies are too light throughout the country for that. There is little butter to be had anywhere, except in a hand-to-mouth manner, and the severe coid weather which has prevailed the past few weeks all over the country will have a tendency to further curtail production. The only thing, therefore, that can weaken the market is the falling off of consumption and the inroads of butterine. And right here it might be said that it would be a pretty good thing for the friends of butter if they would not permit the price to go too high right now. The higher the price of butter the better the butterine men are pleased and the more of a hold that butterine gets on consumers the more difficult it will be to dislodge the spurious stuff when attempted by legislation. There appears to be a good, sirong market for low grades, but the demand for mediums is curtailed all around by oleomargarine. The fine butter is selling well at the advance, as there is never any trouble marketing this line.

BUSINESS BRIEFS.

D. E. Prev, grocer and dry goods dealer at BUSINESS BRIEFS.

D. E. Prey, grocer and dry goods dealer at incoln, has sold out. L. A. Tillson, a grocer at Kearney, has been ucceeded by Warren Sherer. John S. Mullin, a South Omaha grocer, has sold out his business to Mrs. Phillip Krause. George W. Heun has succeeded to the implement and hardware business of Heun & Hrubesky at Howells. The stock and building of Wilhelmine Heine, formerly in the publishing business at Grand Island, has been advertised for sale.

New York Dry Goods Market. New York, Jan. 19.—There was rather more doing in the dry goods market, but no marked change from previous moderate transactions.

Traders' Talk.

CHICAGO, Ill., Jan. 19.—Kennett, Hopkins & Co. to S. A. McWhorter: Tra ing in wheat has been very large and the market at times wildly excited. A somewhat higher opening than the close yesterday met enormous offerings, which are generally credited to the so-called clique, and under those offerings the market broke hadly. The weakness was largely assisted by the selling of scattered outside holders, and in fact directors of the board have posted for the consideration of members a proposition to make No. 1 northern deliverable on our No. 2 contracts. A number of absurd stories have been circulated to necount for the breaks, among others one that a prominent short had on yesterday walked up to the captain's office and settled 4,000,000 bm, of short wheat at 83c and that this transaction had relieved the clique of so much wheat that they were willing to sell the remainder today on the market. This statement we consider ridiculous, but it had some effect on prices. It seemed to be generally conceded at the close that the bull contingent have sold very heavily during the past three days. Corn and oats have been quiet, and have sympathized somewhat in the weakness of the wheat market, but trading has not been large and both markets have steadled up somewhat before the close. There was but little news in either commodity. The provision market has been strong in spite of the fact that hogs were lower and that an effort was made by both packers and hog shippers to break the market for an upturn. It is hard to determine whether it is for a scalp or a long deal.

London Financial Review.

London Financial Review. [Copyrighted 1833 by James Gordon Bennett.]

London, Jan. 19.—[New York Herald Cable
—Special to This Ber.]—A fair amount of business was transacted on the Stock exchange without, however, any approach to activity. Consols maintain an improvement of from 1 1-16 to 1½ per cent. Indian sterling and rupee paper was also from ½ to ½ per cent better. Colonial government securities were a little dull on the report that Queensland intends to place a 3 per cent loan on the market for £1,000,000, the price of the issue to be 88. Foreign government securities close firm. A good tone was reported on continental bourses. Spanish bonds advanced ½ per cent and most interbourse stocks ½ to ½ per cent. Arzentine issues leave off strong, 1886 and funded showing an advance. Home railways close somewhat irregularly. The feature was an advance off 24 per cent in Metropolitan, due to the dividend announcement being higher than expected. Americans were not so well supported during the last hour and the closing was inclined to be duil. In several cases the early rise was turned into a fall of ½ to ½ per cent, but an advance of ½ per cent in New York Central. Canadians have been little dealt in and leave off weak. The Bank of England directors made no change in the bank rate, which remains at 3 per cent. Money was very little wanted. Short loaus were obtained at ½ to ½ per cent. The discount market continued easy; two and three months bills were quoted no better at 1½ to 1½ per cent. [Copyrighted 1893 by James Gordon Bennett.]

STOCKS AND BONDS.

Considerable Irregularity Shown in Secur-Ities with some Lines Active. New York, Jan. 19.—The stock market

today showed considerable irregularity in its movements, though the general list as a rule was heavy, until the last hour. The opening advances alone prevented several material declines. There was rather more activity and more pressure of longs, which were especially noticeable among the grangers, Reading, New England and Hocking Valley coal, while stocks, especially industrials, Western Union and Richmond & West Point continued strong on inside buying. The market was dominated principally by the assurance that considerable gold-estimated in some quarters as high as \$4,000,000 would leave the country on Saturday. The situation in Paris, it is thought, will have influence on both the London and New York markets. The heavy loss of gold by the Bank of France and the uncasiness of savings bank depositors in that country is causing France to draw heavily upon England for gold, which in turn draws upon this coug-This influence, however, was combated

This influence, however, was combated effectually by the unusual case in money, while the elimination of the short interest during the last few days has been wrought over all the traders on the bull side of the markets. Declines therefore, meet with stubborn resistance and the street having become familiar with gold exports at a seasonable time, pays less attention to them as time wears away. The special features of today's market were the decided weakness in New England and the strength of Western Union, Richmond & West Point. New England was soid heavily and the source of the selling was a mystery to the street. Rumors were circulated that the Philadelphia syndicate was disposing of its stock and also that President Parsons had resigned, the inference from each being that the long stock would come upon the market. The price declined steadily until the last hour, dropping from 50 to 46%, rallying a fraction in the last hour, but closing the day with a net loss of 2½ per cent. Manhattan yielded 1½ per cent, and Hocking Valley coal and from 1½ per cent, but neither attracted much attention during the day. The industrial stocks were all strong, especially in the early dealings, and though they yielded somewhat later, all closed materially higher. Consolidated Gas became the special feature iate in the day, closing with an advance of 2½ per cent.

The strong points of the market, however, were Western Union and West Point, which, together with the industrials, enjoyed inside support. Western Union crossed par and closed at its highest figure, with a gain of 1½ per cent, being now higher than it has been in a long while. Richmond & West Point was bought heavily by outsiders, and although the company under the proposed reorganization of Georgia Central would lose its control, the value of its holdings would be somewhat increased, and

rumors that Drotel. Morgan & Co. would probably control the reorganization were circulated. Its actions was unusual and it closed with a gain of percent. The grangers, after their late advances, were drooping, being affected to some existin by the fact that while they show satisfactory gross earnings, their not is generally disaphointing.

The coalers were heavy and especially Reading and Luckawanna. Reading was sold on account of the unfevorable criticisms on its annual report, and, from the evidence that fresh litigation and legislative attacks upon the coal combine are inevitable. The general list ruled steadily, after a strong opening until the last hour, in which the local shorts covered extensively, but final changes, while small, show a majority of losses.

The Post says: Tansstock market today was of a decidedly mixed character. There was an increased interest shown in the trading by the professional manipulators, a continuance of outside buying said an effort on the part of

an increased interest shown in the trading by
the professional manipulators, a continuance
of outside buying and an effort on the part of
a speculative pool to market its heldings of
New E. gland. London was not a factor in the
trading, but the foreign houses acting as correspondents for the Bank of France exerted a
depressing influence by announcing that they
had arranged for the shipment of \$3,000,000
in gold on Saturday.

LIVE STOCK MARKETS.

Cattle Trade Somewhat Demoralized by the Absence of Shipping Demand.

Cattle Trade Somewhat Demoralized by the Absence of Shipping Demand.

OMAHA, Jan. 19.—Receipts for the past four days foot up 16,936 cattle, 20,228 hogs and 2,048 sheep, against 15,711 cattle, 21,345 hogs and 4,311 sheep the corresponding four days last week.

The cattle market was in rather bad shape. Receipts were about 1,000 lighter than Wednesday, but nearly as much heavier than last Thursday. The shipping and speculative demand, which has been very active of late, was entirely lacking today, partly owing to the discouraging reports from Chleago and other castern points and partly because shippers are never active buyers on Thursday, as that compels them to reship their purchases so that they will have to arrive in Chleago either Saturday or Sunday. At any rate, no one appeared to want the cattle except the dressed beef men, and they wanted to buy them 10c to 5c lower than Wednesday. Sellers could hardly see it in that light and the cattle changed hands very slowly and generally at the decline above mentioned. There was a very noticeable dearth of good to choice beeves here, but fair to very good 1,000 to 1,300-1b, beeves sold at from \$4.85 to \$4.50. It was a dull, mean trade throughout, and there were some very decent cattle still in first hands at the close.

Cows and mixed stock sold at unevenly lower prices. Here and there sellers thought they got very near steady prices, but the general onlinen seemed to be that prices were of anywhere from 10c to 20c. There was no outside demand, and local houses did not appear particularly anxious for the cattle, even at the decline. Good to choice cows and heifers

sold at from \$2.90 up to \$3.55; fair to good stuff largely at from \$2.35 to \$2.85, with common and canning grades at from \$1.00 to \$2.25, Rough stock sold readily at fully steady prices from \$2.25 to \$3.25. The very moderate offerings of yeal calves changed hands readily at from \$3.00 to \$5.00, with common large calves as low as \$2.25.

as low as \$2.25.

There was comparatively little doing in the stocker and feeder line. Regular dealers had little desirable stock on hand to show to prospective buyers and the fresh offerings cut very little figure in the trade. The supply of suitable feeding stock is far short of the demand and prices are strong with the volume of trading light. Representative sales:

4 50 1150 OXEN. 4.....1532 2.75

2.....1990 8 35 STAGS. 1.....1000 2 75 ...1220 8 65 STOCKERS AND FEEDERS

626 740 MILKERS AND SPRINGERS.

240 40 SHEEP—Only one load of very common mut-tons was received. The market was quotably unchanged, the demand good for the right kind of stuff. Fair to good natives, #3.75±6 5.00; fair to good westerns, #3.50±64.75; com-mon and stock sheep, #2.25±3.50; good to choice 40 to 100-pound lambs, \$4.00±5.50. Representative sales:

Receipts and Disposition of Stock.

Omaha Packing Co... Phe G. H. Hammond Co. Swift & Co. B. & P. Shippers and Feeders. . . Chicago Live Stock Market.

CHICAGO, Ill., Jan. 19.—I Special Telegram to THE BEE.]—The average of prices for cattle was about 10c lower than for Wednesday, and from 10c to 20c lower than for Tuesday. Cer-tain grades, notably fat cows and helfers, sold nearly as high as at any time recently, while

rough half fatted steers changed hands at from 20e to 25e off from that day's quotations. Not much fault could be found with the character. There was an active inquiry both for the local and slipping account, but a difference between the view of buyers and sellers as to values made trading slow in general. The weakness of prices was the immediate result of too heavy supplies, nore than 30,000 cattle having been unloaded at the yards within the last forty-eight hours. Nearly all of this large number has been nedved out, but prices had to suffer. Sales were principally at from \$2.25 to \$3.25 for cows and buils, and at from \$3.55 to \$3.26 for cows and buils, and at from \$3.55 to \$3.26 for cows and buils, and at from \$3.55 to \$3.26 for cows and buils, and at from \$3.55 to \$3.26 for cows and buils, and at from \$3.55 to \$3.76 for some \$1.50 to \$5.90.

Another 10c was chapped off the price of hogs today. This makes a tumble since Tuesday norming of from 20c to 36e per 100 lbs, and carries the market to from \$7.25 to \$7.76 for nedlum and heavy. The reduced prices did not appear to stimulate the demand, for there was very little activity in the trade at any time, and the weakness of the morning continued until near the close of business, when a somewhat firmer feeling obtained. A scarcity of cars was given as one cause of the depression, but we note that shipments are nearly up to the recent average. The real cause is, undoubtedly, an organized bear movement on the part of local packers. Sales were principally at from \$7.30 to \$7.40 for light, and at from \$7.40 to \$7.50 for medium and heavy weights. Calls and pigs sold all the way from \$4.50 to \$7.00.

The viriality of the sheep market was low. Upward of \$3.000 head were left from Wednes-

weights. Culls and pigs sold all the way from \$4.50 to \$7.00.

The vitality of the sheep market was low. Upward of 3.000 head were left from Wednesday's unsatisfactory market, and fresh receipts were large enough to swell the total supply to about 12.000 head. The demand was of an indifferent character, and trade dragged in avily at weaker prices. Sheep generally sold to from 5c to 10c lower, and there was a more decided decline in limits. The former were quoted all the way from \$2.50 to \$3.00 for culls to from \$5.20 to \$5.00 for collection for lambs.

Receipts. Cattle, 18,000 head; hogs, 25,000 head; sheep, 3,000 head.

The Evening Journal reports:

CATTLE—Receipts, 18,000 head; shipments, 4,000 head; market slow, unchanged; best steers, \$5.0002,50; fair to good, \$5.0005,55; others, \$4.0004,05; feeders, \$4.0004,25; cows, \$3.2563,95.

\$3.25@3.95.
Hous Receipts, 30,000 head; shipments, 10,000 head; market 10c lower; mixed and packers, \$7.20@7.45; prime heavy and butchers' weights, \$7.30@7.65; prime light, \$7.25@7.35; westerns, \$1.00@5.25; lambs, \$5.90@6.00.

Disputing for a Dead Man's Wealth.

The first and it is afleged the real wife of Charles Pontez, deceased, appeared in probate court yesterday and filed a petition to be declared a lawful heir of the property left by the dead man.

Pontez was for years employed as an ex pert chemist by the Union Pacific and amassed considerable wealth. He intro-duced a woman as his wife and for fifteen years she was recognized as such. Since his death, however, the second woman has appeared and claims that they were never legally separated. She comes from New York.

IN GLASS.
That's the way Dr. Pierce's Pleasant Pellets come. And it's a more important point than you think. It keeps them always fresh and reliable, unlike the ordinary pills in cheap wooden or pasteboard boxes.

They're put up in a better

They're put up in a better way, and they act in a better way, than the buge, old-fash-foned pills. No griping, no violence, no reaction afterward that sometimes leaves you worse off than before. In that way, they cure per-maneally. Sick Headache,

In that way, they cure permanently. Sick Headache, Bilious Headache, Constipation, Indigestion, Bilious Attacks, and all derangements of the liver, stomach, and bowels are prevented, relieved, and cured.

They're tiny, sugar-coated granules, a compound of refined and concentrated vegetable extracts—the smallest in size, the easiest to take, and the cheanest pill you can est to take, and the cheapest pill you can buy, for they're guaranteed to give satisfac-tion, or your money is returned. You pay only for the good you get. There's nothing likely to be "just as good,"
