#### **Omana Produce Market.**

CRICAGO, Ill., Feb. 10 .- The shorts in provisions are getting severely pinched. The day for them was excitedly brisk. The clique has been gradually tightening its grip and now in this market and contributed not a little toward keeping up prices here, was reported lower, with large receipts and light demand. Altogether the conditions favoring lower prices were more than the market could stand, and the break could not be avoided. Dealers showed considerable anxiety to un-load, but buyers were not at all plenity. Some dealers were strongly inclined early in the morning to stem the tide and were bravely holding for 26c, but buyers were not to be had at that figure. The majority were offering at that figure, the majority were offering at rather grew weaker as the day advanced, and before the close one dealer said that he would to give 22c. appears to have all these products under con trol. The high prices which ruled early in the season on the scarcity of hogs tempted a large amount of short selling. May pork, which was sold a few months ago at \$15.00, sold today at \$20.17 . May lard, which was \$7.00 not many months ago, was up to \$12.72 today, and May ribs have sold to \$10.45. Prices fluctuated wildly at times during the accession, but the close was very near to the top prices of the day. It is said the clique still has 60,000 tierces of lard unsettled with less

down 1 per cent. The only other material de-clints, however, were seen in Colorado Fuel, which lost 1 per cent, and Manhattan, which lost 1's per cent, again touching 164. The bears showed Itile disposition to largely in-crease their short lines, and an effort was made to cover late in the day, which ralled the whole market fractionally from the lowest prices. On this rally the market closed with a firm tone, and generally only slightly lower for the day. 22

The Post says: The stock market apparently reflected as somewhat changed scattment re-garding the action of the banks in offering gold to the sab-treasury. The action served to call attention to the country's finances. It was apparent that the relief was only on the surface, and that the banks had only tempor-arily eased the situation without in any way re-moving the causes of the trouble. While the action of the banks is called by many a laud-able act of "patrotism," it failed to bring re-lief to the market, which sagged abnost from start to finish. While the currency condition, it start to finish. While the currency condition does not cause any pronounced liquidation, it was undoubtedly a factor that prevented out-side buying and delivered the market over al-most entirely to the professional traders and bear cliques. The statement made that the exchange condition favored the shipment of gold was verified by the withdrawal of over \$300,000 for export fomorrow. The following are the closure constations of

### MARRIAGE FEES. County Judge and Commissioners Will

salve will surely cure you.

#### Fight for Them. The county commissioners held a meeting

cesterday afternoon, and the first thing that they did was to throw down the glove, inviting County Judge Eller to enter the arena and engage in a fight to see when where and how the fees for performing marriage ceremonies should be disposed of. During the years that have rolled away the county judges of the county have reaped quite a harvest by performing marriage coromonies, and at the same time they have held on to all such fees, claiming that they were not compelled to account for them in reporting the receipts of the office.

While T. J. Mahoney held the position of county attorney he passed upon the question and told the commissioners that wedding fees were a part of the receipts of the judge's office, and, that being so, they should go to the treasury. However, the law, as con-strued by Mr. Mahoney, was never enforced, but simply remained a dead letter, while the judge wort on marrying and giving in marriage. Yesterday the commissioners called a halt and adopted a resolution by which in the future Judge Eller will be required to report and turn in everything coming from the marriage department of his office. Officers of the Burt street Home for Aged Women asked for aid to assist in support of

the chairman of the committee of the whole reported progress and asked leave to sit again, stating that it would be several days before a report could be made to the board, George B. #### Judge Eller's Views.

When seen last night in regard to the deision of the county commissioners relative to the disposition of the moneys arising from the performing of marriage ceremonies, County Judge Eller stated that he had made up his mind to one thing, and that was that he was capable of running his own business Those fees he did not propose to turn over to the county treasurer. The statutes did not provide for any such thing, and it had never been the custom, the receiving of such ioneys always having been a perquisite on

the side In support of the position the judge said In support of the position the judge same that the commissioners could with just as much propriety go out and ask the clergy-men and the justices to come up to the treasury and pay in the fees paid them each time that they married a coupl

### Croup at Plainfield, N. J.

My boy, five years of age, was recently aken with a severe attack of group and I thought sure I would lose him. 1 had seen Chamberlain's Cough Remesty advertised and concluded to try it, and am happy to say that after two doses he was relieved and slept till morning. He had another attack the next night; I gave the same remady and a prompt cure was effected. I feel that I cannot praise this remedy too highly -L. B. Mulfeed, 38 Park avenue, Plainfield, N.J. Chamberlain's Cough Remedy will not only cure creep, but will prevent it. If freely given as soon as the child becomes hourse, or even after the croupy cough appears, it will prevent the attack. Several doses are usually required. There is no danger in giving it freely as it contains nothing injurious.

#### STOCKS AND BONDS.

Securities Were Dull and the Bear Crowd

Did All the Business. NEW YORK, Feb. 10.-The stock market was a failing one, and, as usual under such circumstances, was dull, except where the operations of the bear crowd created a temporary activity. In the forenoon the comparative smallness of the gold shipments stimulated the bullish feeling which was manifested, also on the part of shorts to cover contracts, but later the hardening tendency of money and the prophesy of a prominent bank president that within the next thirty days we would see stiff 6 per cent money market, created further hesitation among buyers, and stimulated the professional bears to further aggressiveness and they were followed by the trading element.

The financial situation is regarded by both bulls and bears as unsatisfactory. The mar-ket was almost entirely professional today and besides the factors enumerated, the discrimination again exercised by financial institutions against certain stocks, tended not only to restrict operations, but to depress prices. The early strength sufficed to advance prices generally strength sufficed to advance prices renerally small fractions. Manhattan . Cattle Prices Break Under Slight Demand-Hogs Go Up to \$8.20.

OMARA, Feb. 10.-Receipts so far this week: 14,509 cattle, 17,048 hogs and 5,759 sheep, against 15,580 cattle, 17,140 hogs and 4,239 sheep the corresponding five days last week The cattle market was more or less demoralized on steers. The supply was not at all excessive, but more than ample for the requirements of the trade under the circum-stances. Eastern markets were considerably lower, and although the demand here was very fair, buyers started in bidding from 10c to 40c lower than Thursday. Sellers held off for a while, and trades during the forenoon were like angel's visits, few and far between

After dinner there was more life, but prices averaged from 15c to 25c lower all around Some choice 1,458-1b, beeves brought \$5.35, bu the bulk of the fair to good 1,000 to 1,200-1b steers sold around from \$3.90 to \$4.30. Quite a few cattle were still in the pens at the close. Cow stuff sold steady to a dime lower than Thursday, but the movement was tolerably free and a good clearance effected. Poor to prime cows and helfers sold at from \$1.75 to \$4.00 the bulk of the fair to good stuff at \$2.35 to \$3.25. Bulls, oxen and stags were quotably unchanged at from \$1.95 to \$4.00, Common to choice yeal calves sold at fully steady prices from \$2.35 to \$6.00. Business was fairly brisk in the stocker and feeder line and prices ruled firm, in fact about as high as before the recent break. The sup-ply was limited and the demand brisk. Sales, were at from \$2.00 to \$3.85, the bulk of the decent stock at \$2.75 to \$3.60. Representative sales: Thursday, but the movement was tolerably

Mr. Scott explained that in 1888 he was injured in the head by being jammed againgst the fence by a cow, 80 8 07 and that ever since the accident he felt that his head was not right, often doing and saying things of which he was afterwards ashamed. Through this explanation the doctors made an examination and performed an operation, tre phining the patient and removing the pressure from the brain. From the day the operation was performed Mr. Scott claims he began to improve, and is now a well man, though looking somewhat feeble. He is receiving congratulations on every hand, as he is a general favorite among the stock yards people.

Many had the water put in their houses and others carried it from the common hydrant. A prodigal use and waste of water caused land company to refuse longer to foot the bill, and when the water company requested the consumers to take care of the hydrant, see to keeping it closed and pay for the water used, they refused or neglected to do so, hence "Prohibition Hill" as that portion of the ity is named, is without water as well as beer.
