LINCOLN, Neb., Feb. 16.- Special Telegram to Tan Ban |- The prime effect of the legislative recess was to place half a dozen members on the sick list, and the places that have known them for weeks past will know them no more for several days to come. It was supposed that the boodle investigation would be resumed today where it was left off Friday, but it was not heard of except in the private conversation of the members That the public expected a continuation of the scenes of the last session was apparent from the largely increased number of speciators in the galleries, but they were doomed

to disappointment. It is given out that the investigation will be pushed by the committee, but that the house has gone as far in the matter as it properly can at this time. This view of the case does not satisfy all of the members. however, and there is a strong demand for a public investigation to be conjucted in the hall of representatives by the committee in the presence of all the members, and with the doors thrown open to the public. The advocates of this plan are in favor of holding evening sessions for this purpose, in order that the work of the body need not be interfered with. No definite plan of action has yet been agreed upon. Thore are rumorsthat the investigations of the smellers have resulted in placing two or three republicans in a very bad light, and it is stated that a great deal of explaining will be required to make all these matters clear.

Judge Allen's Resignation.

Senator-elect Allen tendered his resignation as district judge to Governor Crounse today to take effect on the 23d inst. It is stated that Judge Jackson will be named as his successor, as he is now here and is backed by a large delegation from up the Elkhorn valley.

Judge Allen informed Auditor Moore today that he would have a matter to settle with that office, as he had drew his pay for the quarter last month in advance in accordance with the custom that has prevailed among the state officials, and will therefore have about half of it to refund. The matter was news to the auditor, who had supposed that he would have to draw a warrant for the amount instead of receiving it from that

He said that he could have done this had not the legislature cut off the contingent fund of his office, but under the existing order of affairs there was no way for him to do it without the assistance of the legislature. When asked why he didn't request the legislature to make an appropriation for that purpose, he said that he felt rather delicate about it, inasmuch as he had recommended in a message submitted some time ago that that body took such measures as to it seemed safest and best in the way of protecting the interests of the citizens of the state in the

President Harrison's Message.

I transmit herewith, with a view to its ratification a treaty of annexation concluded on the 14th day of Tenruary, 1803, between John W. Foster, secretary of state, who was duly empowered to act in that behalf on the part of the United States and Lorin Thurston W. N. Castle, W. C. Wilder, C. L. Carter and Joseph Marsdon the commissioners on the part of the government of the Hawalian Islands. The previsional treaty does not attempt to deal in detail with the question that gowsout of the Annexation of the Hawalian Islands to the United States. The connectioners representing the Hawalian government have consented to leave to the future and to the instantial benevolent purposes of the United States the adjustment of all such questions. I do not doem it necessary to discuss at length the conditions which have resulted in this decisive action.

The moral support of this government has continually manifested itself in the most friendly diplomate relations and in many acts of courtesy to the Hawalian rulers. The overthrow of the monarchy was not in any way promoted by this government, but had its origin in what seems to have been a reactionary and revolutionary policy on the part of Queen Liumsalam which put in serious perfil not only the large and prepanders ing interests of the United states in the Islands, but all foreign interests, and Indeed, the decent admission of civil actures and the peace President Harrison's Message.

of the islands.

It is quite evident that the monarchy had become effete and the queen's government so weak and inadequate as to be the prey of designing and unscrupulous persons.

Necessity for Annexation.

Necessity for Annexation.

The restoration of Queen Lilnovalani to her throne is undesirable, if not impossible, and unless actively supported by the United States would be accompanied by serious disaster and the disorganization of all business interests. The influence and interest of the United States in the islands must be increased and not diminished. Only two courses are now open—one the establishment of a prostectorate by the United States and the other annexation full and complete. I think the latter course, which has been adopted in the treaty, will be highly promotive of the sest interests are not wholly selfish. It is essential that none of the other great powers shall secure these islands. Such a position could not be consistent with our sufety and with the peace of the world. This view of the situation is so apparent and conclusive that no protest has been heard from any government against proceedings looking to annexation. the been heard from any government against proceedings looking to americation.

Every foreign representative at Honolulu promptly acknowledged the provisional government and I think there is a general concurrence in the opinion that the denosed queen ought not to be restored. Prompt action on this treaty is very desirable. If it meets the approval of the senate peace and good order will be secured in the islands under existing laws until such times as congress can provide by legislation a permanent form of government for the islands. This legislation should be and, I do not doubt, not only just to the natives and all other residents and citizens of the islands, but should be characterized by liberty and high regard for the rights of all foreigners domiciled there. The correspondence which accompanies the treaty will put the senate in full passessian of all the facts known to the executive.

Benann Harrison.

treaty is a letter of Secretary of State Fos-ter, it which he recapitulates the recent events in the islands and then head with the commissioners of the provisional government leading to the drafting of the treaty. He also declares the revolution was without the connivance of the United States; that it was unexpected; that Minister Stevens, in declaring a protectorate, acted on his own responsibility; that his course, in general terms, was approved, but approval was disavowed of any step looking to the impairment of the independent sovereignty of the Hawalian government by the assumption of a formal protectorate. He adds that the treaty leaves to congress to determine all questions as to

Democrats Anxious to Oppose Annexation

Until After March 4.
Washington, D. C., Feb. 16.—[Special Telegram to THE BEE . - The publication today of the proposed treaty of annexation between the United States and Hawaii revealed to members of congress an instrument most cleverly devised in all its details and having the especial merit of leaving to future legislation to be enacted within a year all the questions which will arise as to citizenship, the treatment of public lands, the revenues and public debt and other problems. There has suddenly arisen, however, an organized opposition in the senate to the ratification of the treaty. This opposition is confined almost wholly to democrate and has as its motive the desire to rob this administration of whatever ociat it might derive from the actual accomplishment of annexation before March 4.

administration in many other respects.

Being Directed by Cleveland. democratic and has for its motive the one already given. This is quite in line with ome of the publications which appear to have emanated indirectly from the building and from Lakewood, inti that the peaceful revolution in Hawaii had been expected by Mr. Cleveland and that had it not been precipitated he had counted upon the coming event as one which would give justre to his own administration at its

Senator Pugh, whose colleague Senator lorgan, the leading democratic member of the foreign relations committee, is a strong advocate of annexation, said today that op-position to the treaty might possibly be made a party question. This, however, is not thought probable by other senators. It is more likely that the opposing democrats will increly endeavor to postpone action until after March 4. The senate will then be in its usual extra session to confirm the nomina tions by the new president, and it would be quite possible for the opposition to the treaty then to yield, thus giving Mr. Cleveland whatever barren credit there might be for the accomplishment of an event which was part of the policy of his predecessor.

TOTERA, Kan., Feb. 16 .- Special Telegram to Tur Bre |-After five companies of state multia under command of the governor and 1,000 armed deputy sheriffs, whose business it was to see that the militia did no violence, had marched up and down the streets of this town all day, making warlike demonstrations, the governor and the besieged republican members made mutual overtures for peace and a truce was declared pending

negotiations: The proposition came from the governor at 4 o'clock, assuring the republicans that if they would withdraw the criminal proceedings against Ben C. High, the populist clerk and agree to let the populist house occupy its side of the building, the troops would be withdrawn, and the dual house organization could run, pending a settlement of the controversy in the courts. The proposition was rejected, and another made to the governor that Rich should remain under arrest, and that the republican cierk should also be arrested, and, pending a settlement in the courts, the republican house should retain possession. To this proposition the governor will give his answer at 9 o'clock tomorrow morning. It will probably be a refusal to comply, and then either the militia or the

deputy sheriffs must act. Sheriff Wilkerson's Deputies.

All kinds of rumors were in circulation today, and until noon open warfare seemed the only possible outcome. Acting upon his threat made in his letter to Governor Lewciling last night, Sheriff Wilkerson began to swear in deputies at an early hour this morning, and by noon had armed forty squads of twenty men each, whose instructions were to disarm the militia if they attempted to molest the republican legislators. The republican members had barricaded during the night every stairway leading from representative ball and had padlocked all the down The lower cor-ridors were in possession of the state militia and no one was permitted to enter unless he had a military pass from the governor. Lawyers were stopped on their way to the court, and there was no passing the ayonets. The thousands of armed citizens from the rural districts failed to materialize, but in their stead came students from the State university with old muskets and red ribbons, who took the oath as deputy sheriffs, and every available man in this town was pressed into service by the repub-

licans as a protection against the militia. Got a Colonel Who Will Act. Colonel Hughes of the state militia, who refused last night, in a letter to the governor, to interfere with the republican house, was relieved of his command, and Colonel Barker of Marion placest in charge. Colonel Barker enforced orders to the letter and the entire state house grounds were placed under

military rules.

This morning the republican members left the hall in squads to get their breakfast, and thus having fortified themselves for the day loaded baskets with supplies of provisions for the sergeants-at-arms who dared not leave the hall because the enemy below would not permit them to return. This was kept up until all the members had been out for their own meals and supplies for their forces, and at 11 o'clock the house began its regular routine of business which was interrupted by Captain Seaton who announced that a twenty-four hours supply provisions was on the way. About this time also some sergeants-at-arms appeared in the hall, carrying their arms full of Winchester rifles which they stacked up in Commander R. B. Welch's armory. This incldent aroused the enthusiasm of the members to a high pitch and much talk was indulged This had hardly ceased when a number of mall carriers, who cannot be denied admision to the state house by the militia, came a bearing Captain Seaton's promised supply of provisions. More cheering was indulged and a moment later when Commander Welch marched a ble of twenty-four men

armed with Winehesters across the bull to a position at the head of the main stairway, there was a great hurrich.

"Fighting Dan" on Deck. At 11:35 D. R. Anthony, the fighting editor of the Leavenworth Times, appeared in the half and was sworn in as a soldier in Weich's army. He got through the lines of the militin without a pass. He was stopped several times, but he stood the guards and

their bayonets off, saying: "I am a citizen of the state of Kansas and the United States. I have business in this sullding, and by God I am going to get in !" His nerve paralyzed the guards and he got

past them unharmed: At 12:30 a company of about thirty men with fing and drom and bearing arms appeared on the main stairway and asked to be dmitted to the ball, saying they were the Lawrence guards of republicans, and wanted to enlist in the republican army. The guards at the stairway were suspicious and sent for some Lawrence men to identify them. They proved to be a Lawrence company, but composed of populists who came here this moraing to take up arms for the populists. The guards accordingly drove them down stairs, and they went back to Adjutant General Arta to report the failure of their little ruse?

The republicans remained in centrel until 2 o'clock, when citizens of the town who foured a general riot went before the governor and urged him to submit some proposition looking to a compromise. After a long consultation with the populist leaders, the governor sent through his private secretary the following proposition:

Citizens Plead for Peace.
