SOCIETY SEDATELY SLEEPS

Small Events Break the Monotony of a Very Dull Week.

PREPARING FOR THE POST-LENTEN SEASON

Talk of the Town Collected in Paragraphs-Literary Club-Historical Section of Unity Club Holds a Meeting.

One or two card parties, a dancing party, a Kensington and a reception has been the extent of society's dissipation the past week, even the Nordica concert not calling out the swells as was anticipated. Sack cloth and ashes are everywhere figuratively seen and it is quite safe to say that never has there been so quiet a Lenten season.

But this remarkable condition of affairs will not last any great length of time and the more daring of the swells may be expected to break over this week. It is surely Il Penseroso now and no mis-

First Anniversary of the Mu Sigma Club So much is being written about the women's clubs of the city these Lenten days that it would be a misfortune not to say something of a woman's club, or literary circle, which in a quiet way has been doing good work, both pleasant and beneficial, since its formation.

A short history of this club will be read with interest.

On a Wednesday morning one year ago a few ladies met in the parlors of one of their number, for the purpose of forming a wo-man's club, the object of which should be to direct study in definite channels. These ladies decided that this should be

a club with a leader, not a class, for a few a club with a leader, not a class, for a few months taking the name of the Lowell club, as their work centered in that poet's writings. They met in an informal way Wednesday morning of each week, until July, when a halt was called. September 21 they decided to organize form-ally and join the National League of Literary Workees. Very humbly they took their Workers. Very humbly they took their name, Mu Sigma chub, showing by its signifi-cation that they were not wise at least in their own conceit. The officers chosen were: their own conceit. The officers chosen were: Mrs. Charles Van Tyle, president; Mrs. Phil Stimmel, vice president; Mrs. Henry Neely, secretary; Miss Jessie Johns, treasurer; Mrs. George Thompson, critic; Mrs. Dr. Somers, keeper of abstract—all of whom are women well fitted to lead and direct the affairs of the other. affairs of the club.

Tuesday, February 28, was the first anni versary of the Mu Sigma and it was cele brated in the happiest manner. The levely home of Dr. and Mrs. Somers, 423 North Fortieth street, was thrown open to receive and welcome the members, their husbands and a few guests. Handsomely decorated with flags, trailing vines and vases filled with lovely cut flowers, they were indeed fitting surroundings for the handsomely dressed, bright women and their Benedicts An interesting program was rendered, con-sisting of a paper on the history of the club, finely rendered by Mrs. George Thompson, fine musical selec-tions by Mrs. Eugene Montgomery, and the Misses Johns. An original poem on the World's fair by Madame Harris and an-other, a gem in thought and rendition, a class poem by Mrs. Somers. Every guest represented a book, restricted

to American, Scotch and Irish authors. evan Reformers, showed how Geneva, because of its struggles for political freedom, was nat-urally a refuge for those desiring religious freedom. She regarded Farel as the mis-sionary of the moment and Calvin as the

theologian. The last paper of the program was by Miss I. L. Ramsey on "Influence of Genevan School on Western Protestantism, French Hugnenots, Scotch Covenanters, English Puritans and Pilgrim Fathers." Miss Ram-sey's review of the subject was masculine in its strength its strength.

Her quotations from Wigglesworth's poe try, which in this generation excite only wonder and amusement, show with what terrible earnestness the early Puritans fought for an infallible creed.

The evening closed with a discussion of the papers, led by Miss R. E. Hamilton, the efficient director of the reformation section.

Celebrated Washington's Birthday. The Omaha Kindergarten, 2606 Davenport street, under the direction of Mrs. Evelyn Griffiths Stallard, gave a delightful entertainment to its many friends and patrons on Washington's birthday, February 22. Scenes and tableaux from the life of Wash-

ington were enacted by the little ones, the youthful son of J. G. Haines, with his hand-some face and manly bearing, well repre-senting the hero of the day. Though hard to choose between the scenes,

perhaps three deserve special mention --one in which Washington appeared with his bride, sweet Eugenie Whitmore, who stepped into Martha Washington's shoes with an into Marina Washington's shoes with an ease and grace that was simply charming. Another, a night score, in which Washing-ton, with bowed head, was seen sitting in the door of his tent, his night lamp, only, lighting up the surrounding gloom. Another particularly pretty act was that of Wash-ington receiving the sword of Cornwallis; little Denise Barkalow, with a dignity and grace beyond his years, well represented the red-coated English general, as on bended knee and with bowed head he presented his sword to Washington.

The pretty scenes were closed by the in-augural ball, in which the white-wigged gentlemen and gay little ladies flitting round the room will long be remembered by the appreciative audience.

Celebrated Her Eighteenth Birthday. Monday evening Miss Grace Blanchard entertained her friends at her father's resi dence, 2719 Poppleton avenue, in honor of her 18th birthday. High five was played during the early hours, followed by dancing The first lady's prize was won by Miss Pearl Shelly, the second by Miss Madge Hake. The first gentleman's prize was taken by Master Ray Austin and the second by Master Edman Bonner.

The members of Mr. Cleveland's cabinet have been thoroughly discussed. Every interesting incident in their lives from date of birth to the hour they were bidden to Lakewood, have become public property. But what of the women who, as their wives, are to figure almost as prominently in national society. Three of them, Mrs. Daniel S. La-mont, Mrs. Walter Q. Gresham and Mrs. Adlai Stevenson, have been factors in Washington society. To the others the experience will be new, b they possess the tact and grace which will enable them to fulfill their social duties.

### Mrs. Bissell.

Mrs. Bissell. Mrs. Wilson S. Bissell, wife of Mr. Cleve-land's old friend, law partner, and post-master general of the incoming administra-tion, was Louise Fowler Sturges, the daugh-ter of Edward Sturges of Geneva, N. She was born in Utica in 1806 and is consequently now in her Utica in 1866 and is consequently now in her 37th year. Her parents were not wealthy, but they were able and willing to give their daughter more than the ordinary educational advantages, and the facilities afforded by residence in Utica were supplemented by study and travel in England and on the continent

Early in life she developed a great talent for music. She studied three years under Stockhausen in Frankfort, and finished with Mme. La Grange in Paris. When she returned with her musical education perfected it was expected, naturally enough, that she would put her talents to practical use and

Sixteen University of Virginia men are in the present congress. Four of them are in the senate division.

Princeton has secured 2,000 square feet of space at the World's fair in which to display its exhibits. The famous picture of Wash-ington and other pictures of him identified with the revolution and the framing of the constitution will form a fine collection of paintings.

James W. Patterson, who will begin his occupancy of the chair of oratory on March 1 at Dartmouth, was for thirteen years in his early life an instructor there. He has spent four years in the state logislature, six years in the United States senate and ten years as superintendent of public instruction in New Hampshire, which place he resigned at the last meeting of the governor and council

The twenty-seventh building of the Uni versity of Pennsylvania group will be shortly erected. The building will be devoted entirely to chemistry, and quarters will be provided for three departments, general, organic and analytic chemistry. There are at pres-ent over 250 students working in the labora-tories, who are confined in very inadequate quarters in the college department.

The Hopkins university library has just acceived a valuable set of English official publications, consisting of 160 volumes of the Cabinet of English State Papers. They relate to the documents of the Tudor and Stuart dynasties, preserved in the record offices at London. The library has also re-ceived facsimiles of the rare books and manuscripts preserved in the famous Bodleian library at Oxford.

It is announced that work will begin on four new buildings for the Harvard uni-versity. Two of these are a museum of fine aris, to cost \$150,000, and the new Conant dormitory, to cost \$90,000. Through the generous donations from friends \$150,000 has been received for another dormitory and \$200,000 more for a new reading room to be attached to the library. The money for the art museum came from the estate of the late Mrs. Elizabeth Fogg of New York and the \$90,000 for the Conant dormitory was left by Edwin Conant. The American peo-ple have many wants. The merchant who shows them their wants gets a hearing. This can only be done by cash buying and selling large quantities at special prices, laking a small profit, thus placing the puytaking a small profit, thus placing the ing public in a position to secure more goods than the old style of merchandising, which aimed to get a specific profit on everything. "To illustrate: The other day when in

Boston I dropped in to see a merchant who, last August, bought out a once flourising dry goods business, but then on its last legs.

He doubled the sales the first six months and the day I called was closing out the last

of several thousand pieces of eiderdowns at

29 cents. His neighbors were getting 50 cents, but at 29 cents he was selling them to

everybody, having cornered the market on these goods and while making a profit on them was still selling at about half value. That's the kind of merchandising people want and are bound to have."
