OPPOSED TO SEATING MARTIN

Republican Members of the Kansas Legislature Enter a Protest.

GOOD REASONS GIVEN FOR THEIR ACTION

His Election, They Claim, Had Been Effected by a Legislature Unconstitutionally Constituted-More Concerning the Case of Senator Roach.

WASHINGTON, D. C., April 13.—The senate was in session for only an hour today and nearly half of that time was spent behind closed doors. Before going into executive session a memorial from seventy-seven members of the Kansas legislature was presented by Mr. Sherman and was referred to the committee on privileges and elections, declaring that Mr. Martin's election as senator had been effected by a legislature, ten of whose members had not held certificates of election, and that Mr. Ady had been legally and fairly elected as senator.

The resolution reported yesterday from the committee on privileges and elections for the investigation of that question came up again today, but was, on objection of Mr. Harris, laid over until tomorrow.

The motion for an executive session was rejected by republican senators and the year and nays were demanded on the republican side and were taken. After the names of those voting were read, but before the re-sult was aenounced, Mr. Hoar aunounced suit was announced. Mr. Hoar announced that several democratic senators had voted (undoubtedly by inadvertance) who were supposed to have paired with republican senators. The same thing, he said, had occurred the day before yesterday. They had, he supposed, reserved the right to vote to make a quorum, but that was not necessary now as there were two or twelve senasary now as there were ten or twelve senaators voting beyond the number constituting a quorum—forty-three. Mr. Cockrell-Is debate in order?

Mr. Hoar-I think it is a question of the highest privilege.

As a result of Mr. Hoar's intimation the works of Messrs, Vance, Mills and Berry were withdrawn, those senators being paired with republicans, and having voted so as to make a quorum—a right which they had re-

On the Roach Resolution. At 1 o'clock the doors were reopened and

Mr. Chandler took the floor to address the senate on the Roach resolution. He assented, however, to a suggestion by Mr. Gorman to defer his speech until tomorrow, and the senate adjourned until then. Republicans say they do not think the democrats would go to the extreme of pre-venting Mr. Chandler from getting the floor tomorrow, and know well that the outcome of his speech would become a matter of interest. Republicans regard it as the entering wedge that will force the transfer of the consideration of the Roach case from behind closed doors to the open session of the senate. So far as can be ascertained, no democrat has arranged to reply to Mr. Chandler. His speech will be of some length, and will deal largely with questions of law and finance. He will ask concerning the plans of the democrats without going into executive session for such debate as the affair has brought about. Whether they will meet the republicans and discuss the case in open session cannot now be said.

A conference of democratic leaders was held this afternoon after the senate adjourned. They met in the room of the com-mittee on commerce and the senators present were Messrs Gorman, Gray, Black-burn, Harris, Cockrell and Ransom. After a short time Mr. Gorman went after Mr. Roach and brought him to the committee room, where he remained a few minutes and left with Mr. Gorman, the latter gentleman subsequently having a conference with Mr. Bryan in his room. It is quite probable that at this conference some definite plan will be agreed upon. The senators who participated were very reticent and refused to talk.

REPUBLICANS DETERMINED.

They Will Insist on Investigating the Charges Against Senator Roach. Washington, D. C., April 13.—The republican senators in caucus this morning decided to insist to the last on the investigation of the charges against Roach and of the claim of Ady to Martin's seat.

It was decided that a vigorous opposition should be made against the consideration of the Roach case behind closed doors. But one conclusion, they insisted, could be the outcome of the struggle that had been precipitated, and that was that the senate should agree that the committee on privileges and elections should, by subcommittee or otherwise, investigate the Roach case and the validity of the claim of Mr. Martin to his seat during the recess and report to the senate at the next regular session.

The republicans also declared that they

would submit to no proceeding that was in-tended to choke off debate before the resolu-tion was acted upon. If, finally, the democrats were prepared to assume responsi-bility of voting down the resolution to in-vestigate it must be done, the republican senators asserted with vehemence, by a vot-ing quorum, and the responsibility for such action thus placed where it belonged

The seventy-seven members of the Kansas legislature who ask that an investigation be made into the right of Mr. Martin to his seat as a senator from Kansas say that if these seventy seven members had been permitted to vote no one would have had a majority of all the votes cast in the joint assembly and that there would have been no election of a United States senator. They therefore re-solved to enter their solemn protest against what they declare to be a revolutionary and illegal transaction and instructed the presi-dent of the joint assembly to appoint a committee to prepare a formal statement and emphatically protest to the senate of the United States, which protest was the one presented to the senate today. The memorial concludes with the following:

We demand that the senate of the United States make a full and complete investiga-tion of the unhappy and unfortunate situation existing in our state legislature to the end that justice may be done and that no one may be scated in your body as the result of revolutionary proceedings, striking at the foundation of good government."

The vacancy is from the Seventh Massachusetts district, and was caused by the election of Representative Louge to the senate. Say He is Incompetent.

Washington, D. C., April 13.-The subommittee of the committee on judiciary was engaged this afternoon in examining charges that have been made against B. F. Fall, nominated to be an associate justice of the su preme court of New Mexico. It is said by the republicans from that territory that Mr Fall is not a competent man for that place for the reason that he is more of a politician than a lawyer. And, furthermore, that he is a man inclined to be tyrannical and is lacking in that particular quality that does most arouse prejudice. These charges did not reach the committee in the shape of specific assertions, but they asked Mr. Fall who was in the city, to respond to them and he produced a number of good men who knew him, all of whom appeared before the committee this afternoon. These men say that Mr. Fall is in every way competent for the place. The committee will probably recommend the confirmation.

With all the fanaticism that a man born with a consuming ambition to serve his race car have, I believe a public office to be a public trust, and that the trust imposed on any one occupying the position I do, in regard to the most vital and perishable interest in a state, is greater than can be imposed on any man. Babies burning up, babies in agony from itching and burning eczemas and other torturing, disfiguring, itching, burning, bleeding, scaly and blotchy skin and scalp diseases. None but mothers realize how these little ones suffer when their tender skins are literally on fire. To know that a single application of the CUTICURA REMEDIES will in the great majority of cases afford instant_clief, permit rest and sleep, and point to a permanent and economical (because most speedy) cure, and not to use them is to fail in your duty. Think of the years of suffering entailed by such neglect, years not only of physical but of mental suffering by reason of personal disfigurement. Why delay a moment longer the use of these great skin cures blood purtfiers, and numor remedies? Cures made in infancy and childhood are speedy, economical, and almost invariably permanent.

When you buy a pair of shoes of us you buy them with the expectation of getting your money's worth—and we make you fully realize your ex-pectations—We insure them. It's "policy" (insur-ance policy) for us to do it. When you buy shoes o 'The Nebraska" we insure them to wear bette than you ever had shoes wear for a like price-we nsure the stock to be perfect—the stitches not to rip-the hanger not to pull out-the sole to wear well Our policy says-"if your shoes do not prove goodwe make them good-even if we give you back in cash all that you paid for them in the first place. The best shoes that ever were sold for like money are
