AFFAIRS IN CUBA.

Information of the situation Received by

the State Department. WASHINGTON, D. C., May 4.-Secretary Gresham has received a letter from the

United States consul general at Havana, dated April 29, forwarding a copy of the proclamation issued April 28 by the governor general of Cuba (already published), declaring the province of Santiago de Cuba in a state of siege. The reason given for the declaration is that some bands of men have rison in arms against the government in the hamlets of Purnio and Velasco, near the north coast of that province, for the imme-diate suppression of which active military means are now being taken by the government.

The consul general says that according to the newspapers these bands number about 100 persons, while rumor gives their number all the way from 500 to 700 men. This letter was the first official information received by the State department with regard to the Cuban trouble

Secretary Gresham said this morning that no telegrams had come to him today, and he had not been advised of the reported surrender of the insurgent bands as given in press dispatches.

The Spanish legation here keeps the closest watch upon all filibustering movements and never fails to give proper warning to the State department when anything more serious is actually in progress than Cuban junta pronunciamentos or speeches of Senor Marti. No complaint has been made to the State department for many months by the Spanish legation of contemplated violations of neutrality laws in the United States. The commander of the MeLane, the revenue cut-ter stationed off the Florida coast, is under general and specific orders to promptly advise the Treasury department of any danger of violation of neutrality laws by filibustering expeditions, and to take im-mediate measures for the repression of any

leges and elections, today stated that it was not at all probable that the subcommittee charged with investigating the claim of Mr. Ady to the seat now occupied by Mr. Martin of Kansas would go to the state for the purpose of taking testimony. He has called upon the contestant and contestee for a statement and says that he understands the facts in the case are not disputed. The question then resolves itself into one of law. a question, Mr. Vance says, that can be set-tied in Washington fully as well as in Kan-

PROTECTION OF CHINESE RESIDENTS. Secretary Gresham Says He Has Requested

Western Governors to Be Vigilant. WASHINGTON, D. C., May 4.-Secretary Gresham reaffirmed today his statement of yesterday that he had sent telegrams to governors of the western states, asking them to take precautions against violence to Chinese when the exclusion act takes effect. He did not care to state how many or what governors had been asked to take action, but said that the text of the dispatch over. his signature given out for publication by Governor Pennover of Oregon was correct. The secretary declined to comment on the

answer sent him by Governor Pennoyer. "The telegrams speak for themselves" he said. "I sent a perfectly respectful message to Governor Pennoyer and received in reply the dispatch which has been given to the press. Representations had been made to the department that violence might be done Chinese subjects when the law went into effect and the dispatches were sent as pre-

cautionary measures. I do not believe there is any prospect of trouble, but the dispatches were sent nevertheless, to allay apprehen-The serious trouble in which the United States became involved through the conflict between the state laws and treaty stipula-tions over the killing of Italians in New Oricans and also over the killing of seven Chinese and the wounding of many others at Rock Creek, Wyo., for which the United States made reparation, induced the ad-ministration to take every precaution to avert violence toward Chinese citizens over enforcement of the exclusion law. Foreign governments have always re-quired explanation from the United States with reference to the paramount authority of a state in regard to crimes committed within its borners, even in cases where the crimes were not in violation of treaty stipulations. The State department decided to give the Chinese government, in the event of trouble, the assurance that

every precaution had ocen taken for the pro-tection of Chinese subjects as far as the ad-vice and authority of the general government could go. It will be remembered that President Harrison strongly recommended to congress to pass a law giving the United States courts jurisdiction over offenses against treaty stipulations, committed in the states, but congress declined to adopt the recommendation.

Probably no comedian of the American stage has made such rapid strides in his profession as Nat C. Goodwin. Mr. Goodwin is but 34 years old. He is a native of Boston. As a boy he dreamed of being a great tragedian. His first appearance was at the Providence, R. I. theater, then under the management of William Henderson, in Notherefore yeto the action taken by the exvember, 1873. His first part was that of Sir George, in a play unknown to this gener-ation, called "The Bottle." The youth had plenty of confidence in himself at rehearsal, but when he stepped before the footlights to "Seize the lovely lady," which, with a short speech, was about all he had to do, he was eized with a terrible attack of stage fright: his tongue was field to the roof of his mouth he could not utter a word. However, h and could not after a word. However, he soon recovered from the depressing effects of the shock and he went to work with energy and determination to make the position to which he felt that his talents entitled him.

GUY ROBERTS' GREAT SPORT He Amused Himself by Tying Up Lincoln's Electric Lines. COST THE COMPANY SEVERAL DOLLARS

Secured the Current from the Trolley Wire for the Purpose of Enjoying a Display of Fireworks - Was Not Disappointed.

LANCOLN, Neb., May 4 .- [Special to THE BEE. |--Guy Roberts, son of the minister who created something of a sensation recently by wandering away from home while temporarily insane, distinguished himself yesterday afternoon by tying up the Home Street Railway company's lines as effectually as a motorman's strike could accomplish for over two hours. Owing to paving operations the Eighteenth street line had been temporarily abandoned, but the trolley wire was still

charged with electricity. Roberts had been suspended from school and concluded to have an embryonic Fourth of July celebration and fireworks. He got hold of a piece of wire and wrapping one end around a piece of wood to furnish a handle that was a nonconductor, he threw the other end over the trolley wire. All that was necessary then to complete the circuit was to jab the end of the wire protruding from the piece of wood onto the rail, and a brilliant display of fireworks resuited. By doing so, however, he returned the current back to the power house along

the rail, and when it reached the armature there was a display of fireworks that would have pleased young Roberts had he been present. The interior of the power house was a blaze of light in a moment, and the en had to flee for their lives Meanwhile Roberts tired of his amusement and stopped for a few minutes. The engineer, supposing that the fuses were of too soft metal and that that was responsible for the trouble, ran back and placed some new ones in. Soon after Roberts resumed his

jabbing and again there was trouble at the power house. Again the fuces were burned out and again the engineer replaced them. A third time it happened, and to stop the annoyance it became necessary to cut the main trolley wire and to send out men to locate the difficulty. Roberts was found and promptly acknowledged his fault, but gave as his excuse that as no cars were running he thought it wouldn't hart anything. He was not prosecuted. The damage to the company was several humired dollars.

President Alberts' Veto. There seems to be something of a misnderstanding between the leading member of the Afro-American league as to whethe the next annual convention shall be held at Nebraska City or at Omaha. At the con-vention a year ago it was decided to hold this year's meeting at Nebraska City and all

preparations have been made for the recep-tion at that place. Recently, however, some leading spirits of the organization have named Omaha as the meeting place. The following "veto" from President B. F. C. Alberts has been handed to THE BEE: "Owing to the extent of the preparations of the local league (Afro-American) of Ne-braska City to entertain the state league at that place, and feeling assured that it would be a gross injustice to change from Nebraska City to Omaba, under those circumstances

Question of Identity.

Al Kimerer, a machinist in the employ o the Missouri Pacific, was arrested last night on the charge of grand larceny, but it is probably a case of mistaken identity. The and when she returned a few minutes later met two men coming out of the room. She grabbed one, but after a struggle he got away, taking with him a gold watch and some jewelry. Last evening while walking on O street with her husband she saw Kimerer, and pointed him out to her hus-band as the thief. He was arrested, but is near out on \$200 hold. He cleans to here

Commandant Scoville said to the mumbers of the board Scorille said to the manners of the board that the party which was now furnishing the groceries admitted to him that such an "un-derstanding" existed, but the contractors deny having made this statement and claim the protest was sim-ply spite work. The bids were prepared and contracts made under the administration of Commandant Zentmayer. When the con-tract for furnishing the next outputs sup-

Failed to Make His Report.

FREMONT, Neb., May 4.- [Special to THE BEE. |-A. W. Forbes, who was re-elected city treasurer on the republican ticket last month, has failed to file with Thomas Killeen, county clerk, a new bond, and has not made his report to that office for April, as the law requires. It is also claimed that he the law requires. It is also claimed that he has not settled with the school opard; that, although he has made his report to John Dern, county treasurer, he is about \$000 short in his cash account there. Yesterday afternoon Thomas Killeen took possession of the books belonging to the county which were in the hands of Forbes, and will keep them until Forbes' bond is submitted and approved. At this time it is not known how much he will be short, but his bondsmen are good for any deficiency that may be found.

The new edifice to be arected by the First Presbyterian church will be one of the largest buildings of the kind in the state.

Exchanged Several Shots.

CLAY CENTER, Neb., May 4 .- [Special to THE BEE |- Charles A. Dazey, while plowing on his farm in Sheridan township, this county, yesterday afternoon, was approached by Chris Ranes, a neighbor, who commenced shooting at him with a revolver. Dazey re-treated, but returned the fire, one shot of which took effect on Ranes. Dazey immediately can e here and fileo a complaint with the county judge, charging Ranes with shoot-ing with intent to kill. The affair grrw out of an old family feud which has been brewing for some time.

To Preserve

The richness, color, and beauty of the hair, the greatest care is necessary, much harm being done by the use of worthless dressings. To be sure of having a first-class article, ask your druggist or perfamer for Ayer's Hair Vigor. It is absolutely superior to any other preparation of the kind. It restores the original color and fullness to hair which has become thin, faded, or gray. It keeps the scalp cool, moist, and free from dandruff. it heals itching humors, prevents baldness, and imparts to

a silken texture and lasting fragrance. No toilet can be considered complete without this most popular and elegant of all hair-dressings.

REMOVALS OF POSTMASTERS.

Comparisons Between This and the Last

Administration.

WASHINGTON, D. C., May 4 .- A statement prepared from the records of the Postoffice department shows that during the first two months of the present administration the total number of fourth class postmasters appointed was 3,894, as against 5,104 made during the first two months of Mr. Harrison's administration. The number of appointments made during the last two months to fill vacancies caused by resignations and deaths was 2,635, as against 1,608 made during the corresponding period of the last administration. The num-ber of removals made during the last two months is shown to have been only 1,209, while the number of removals made during the first two months of the Harrison adminstration reached 3.496. The excess of appointments four years ago was therefor 1.210 and the excess of removals 2.287, while the number of appointments made on ac count of resignations and deaths was 1,077 more than four years ago.

That Russian Treaty Again.

WASHINGTON, D. C., May 4 .- It is learned that the delay in the issue of the president's proclamation in regard to the extradition treaty with Russia is due to the non-arrival of the treaty prepared by the Russian government in accordance with the terms of agreement and handed to our minister at SL Petersburg on the occasion of the exchange of ratifications at the Russian capital on the 21st ultimo. The coremony established the fact that the treaties ratified by each government and then exchanged are exact duplicates, so far as the text is con-cerned. The Russian copy is now on its way to Washington, and the president's proclamation will be based upon it. Awaiting its receipt before promulgating the terms of the treaty, while apparently unnecessary in view of the fact that its provisions are mat-ters of record in the State department, is a time-honored formality of diplomatic inter-course that will be faithfully observed in this instance.

proving that he was equal to the require-ments of pure comedy, that he could touch pathos, as feelingly as he could interpret wit and humor. His reputation was now established, and he made a trip to Europe, capturing the critics of London as com-pletely as he had those of his native land.

Since then Mr. Goodwin's fame has been constantly increasing, and with each new play he has revealed new force which had hitherto been unsuspected. He has been seen in twenty-eight new parts since he began his career as a star, and each creation has been original and totally unlike anything that has gone before. In "A Gilded Fool," his latest production, the comedian is said to have the best character he has yet reated, and its success has been so great that he will present nothing else during this season.

SHORTAGE IN PROSPECT.

Indications that the Board of Education Will Be Short of Funds.

According to the prognostications of a member of the Board of Education that organization will find itself with a shortage of from \$30,000 to \$50,000 at the opening of the school year next fall. It is claumed that

unwarrantable extravagance has been shown in the purchase of supplies and that many articles had been purchased at a price considerably in advance of what the board had been accustomed to pay for the same articles in previous years. For some time the members of the board have been of the opinion that the janitors' salaries were higher in Omaha than in other cities, and several measures were introduced

looking toward a radical reduction. A schedule introduced by Mr. Burgess was finally adopted, which promised to effect a saving of about \$5.000. Since then members have made up their minist that as soon as the new buildings are in operation the new schedule will increase the salary list of juni-tors instead of decreasing it, as the reductions contemplated in the schedule are mostly in detached muldings, which will soon be abandoned, while the salaries in the larger school buildings are materially in-

To Select Paving Material.

Monday, May 15, is the last day for property owners in the fifty-eight districts advertised to select the material for paying and repaying. So far no petitions designating material have been received, although the time is growing short. In case the majority of the owners of abutting property upon the streets and alleys in the districts do not designate or agree upon the material the council and mayor determine the material to be used.

The advertisements for paving and repay ing with sheet asphalum call for bids Fri-day. May 12, three days before the expira-tion of the time for designation of material by the property owners.
