COMMERCIAL AND FINANCIAL

Confidence in the Value of Wheat Was on the Decline.

THAT CEREAL FELL ONE CENT EARLY

Troubles Over Chicago Savings Bank Depositors and Rumors of Failures in Duluth and St. Louis Caused the Break,

CHICAGO, III., June 7 .- Confidence in the value of wheat tried to struggle to the top at the opening, but the atmosphere was still heavy with the borrowed troubles of savings bank depositors and the more direct effect of rumors of failures in the grain trade at Duluth and St. Louis soon after the opening, quickly brought about a return of despondency, which caused a break of over le per bu, in wheat, The starting price for July was off the at 57%c. There were sales at 67%c, and then the market took a tumble at 68%c on rumors of failures at Duluth and Minneapolis, a break of Be occurring at the latter place.

The rumors afterwards were denied, but the market falled to respond beyond a recovery of Mc. The early cables were firmer and the reports at Chi-tago and Duluth were light, only 48 cars having been inspected at the former, and 320 at having been inspected at the former, and 320 at the latter place. Bradstreet's reports showed a net decrease east and west of the Rockles of 76,000 bu. The closing cables were encouraging, with Berlin I mark higher, and Paris from 16 to 35 centimes higher for flour, and 10 to 20 centimes higher for wheat. London and Antworp were also about as bad as expected.

Later the trading was light, July centering around 76%c, and closing finally at from 76%c to 76%c, a net loss for the day of %c. September lost ic.

ber lost le.

There was a fair amount of business done in corn at a slight decline from yesterday's prices. Receipts were 10 cars over estimates and for tomorrow 500 cars are looked for. There was no demand from the east for round lots and the bears were confidently talking of a continuation of the present rate of shipments from the west. July started 4c up at 89%c, a decline to 39%c speedily followed, when the wheat market made its first dive. There was a quick reaction to from 39%c to 89%c, followed by a gradual sag to 39%c, at which it closed. September closed %c lower for the day. Oats were steady and firm, holding better than anything else. July sold at from 27% to 28%, closing 28%, and September at from 25% to 26c.

Hog products were slow and steady at from \$20.75 to \$20.80 for September. May lard sold from \$10.50 to \$10.52\footnote{10}, closing at \$10.60, and September ribs from \$9.40 to \$9.50, closing at Estimated receipts for tomorrow: Wheat, 2 cars: corn, 500 cars; oats, 315 cars; hogs, 5,000 head.

Manchester Commercial Review Manchester Commercial Review.

Manchester, June 7.—The Guardian, in its commercial article, says: The market is firm, though quieter. Business has been checked. Though the inquiry is on a small scale, advances in sheetings for Calcutta are rarely obtained. The sales of bleaching shirting for China are fair. The makers of Burniey printing cloths are well engaged. One-third of the

looms usually devoted to the manufacture of cloths for South America are idle. Looms in other districts have been started in the high reduction of cloths usually made in the Burnley district. Brazilian buyers now in Manchester state that differential duties granted on goods imperted into Brazil from the United States are very unpopular in commercial circles in Brazil. Yarns are firm.

STOCKS AND BONDS.

While Fluctuations Were Confined to Narrow Lines Securities Were Erratic. NEW YORK, June 7 .- The stock market was full. While the fluctuations save in a few instances were confined within comparatively narrow limits, the market was decidedly erratic in its course. The speculative temper changed almost fr hour to hour. National Cordage common broke 34 per cent to 12 and preferr 12 per cent to 48 on rumors that an asse sment was contemplated on the common stock and that the forthcoming statement of ine condition of the property would be unfavorable. General Electric was also taken in hand by the bears and forced down

favorable. General Electric was also taken in hand by the bears and forced down from 71% to 68%; Illinois Central rose from 90 to 90% and later dropped to 88; Manhattan and Pullman yielded 1% to 2 per cent on small sales; Missouri Pachic rose % per cent to 35 and later declined to 33%; Atchison was weaker throughout and ran down 1% per cent to 35%. The general list improved fractionally at the start and Chicago Gas scored an exceptional advance of 1% per cent to 69%, but the improvement was subsequently lost.

The bears continued their efforts to depress the list up to the close, but some shares held firm and the leaders like Burlington & Quincy, St. Paul, Western Union and Sugar left off at practically last night's figures. Distillers were strong and galned nearly a point. Considerable disappointment was felt that the snarp decline in sterling exchange, the withdrawal of gold engaged yesterday for export and the improvement reported from Chicago did not have more effect on speculation. The fact is that traders have the market entirely to themselves, and they are directing their energies toward one endnamely, the shaking out of weak holders. The market closed steadler in tone at a recovery of % to 1 per cent from the lowest.

The Post says: No better instance could be furnished of the mutual action of the world's financial market than the turn in sterling exchange. The collapse in Chicago wheat prices followed the run upon the banks. On the demoralized market, European wheat importers were heavy buyers taking from I,000,000 to 2,000,000 bu here and in Chicago in a single day, and an enormous increase over the previous daily record. Bills on London, drawn against these purchases, broke so completely the market for sterling exchange in a single day, and an enormous increase over the previous daily record. Bills on London, drawn against these purchases, broke so completely the market for sterling exchange that not only have all plans been upset for this week's further gold shipmen, but the order already placed for

the simultaneous rise in London discounts, the sterling market gave way sufficiently to stop at once the outward flow of gold. In the week following that disturbance only \$500.000 in gold was sent abroad. But when the security markets steadled the London buying ceased, and in the next three weeks no less than \$15,000,000 in specie was experted. It is true, the subsequent financial strain in London forced heavy sales of all American securities, a factor not at all likely to be present in the market for grain. But the foreigners nevertheless bought, in one case as in the other, for panic bargains, not for pressing needs.

needs.

London Financial Review.

[Copyrighted 1833 by James Gordon Bennett.]
LONDON, June 7.—[New York Herald Cable
—Special to The Bee.]—There was no feature
on the Stock exchange today, business being
very quiet, but the undertone was inclined to
be good, as tomorrow the bank rate may be reduced to 3 per cent. No more gold is wanted
in London, money being rather a drug. The
American railway market was dull and
featureless, speculators being discouraged by
New York sales on every raily. Prices were
turned by dealing in a few hundred shares;
still the Stock exchange believes in higher
prices soon, especially if the Chicago banking
difficulties do not develop. Leading dealers
say that at present it's a case of giving a few
dollars for a perpetual call of many shares.
Home securities were steady. Rupee paper
was good and silver strong at 384d. Probably
Herschel's committee will recommend measures to secure the minimum value of rupee
paper. There was an upward reaction in
Grecks, and Argentines were firm. There was
a small arrival of gold at the bank. Copyrighted 1893 by James Gordon Bennett.1

OMAHA LIVE STOCK MARKETS. Prices on All Grades Recover Somewhat Under Limited Supplies.

WEDNESDAY, June 7. Receipts of all kinds continue light. Compared with the first half of last week there has been a falling off in the past three days of about 5,000 cattle, 4,600 hogs and 300 sheep. Under ordinary circumstances this would mean a sharp advance in values, but in the present peculiar condition of affairs, especially while the commercial world is on the ragged while the commercial world is on the ragged edge of uncertainty, a change for the better in cattle values has to be almost forced. With light supplies for three days, local dressed beef houses were at last forced to hustle for some cattle, and as the supply was very limited, less than 1,000 head, and eastern reports rather more favorable, competition for the fat, light and medium weight cattle was active enough to force a 10c advance on most anything in this line. Shippers still preferred

what they considered the safe side, by remaining on the outside? Good 1.234 to 1.381-1b, beeves that sold at from \$4.00 to \$4.50 did not show as much improvement as the fair to good 945 to 1.141-1b, steers at from \$4.25 to \$4.60. Odd bunches of inferior light stuff sold at from \$3.00 to \$4. Husiness was fairly active throughout, and a good and early clearance was effected.

There was the usual strong active market for cows. Offerings did not include over seven or eight loads, and local bouses picked them up quickly. Common and canning grades sold at from \$2 to \$2.75y butchers cows cagerly at \$2.80 to \$3.75 and good to choice fat cows and heliers at from \$3.75 to \$4.15. The calf market was steady with sales of fair to good yeals at from \$3.50 to \$5. A few bulls were offered and sold-readily at strong prices from \$3.10 to \$3.75.

The market for feeders was moderately active and values ruled a shade firmer with sales of fair to good stock at from \$3.75 to \$4.10. Representative sales:

DRESSED BEEF.

48... 583 3 75 2... 110 3 90
48... 583 3 75 17... 1365 4 10
Hogs—The market today experienced a partial recovery from Tuesday's paralytic stroke and values ruled from 10c to 15c higher on all grades. Receipts were only fair, fully 1,000 less than a week ago, and the quality was generally good. There was a very active shipping demand, calling for over 1,800 hogs, fresh meat men were good buyers and one backer took hold freely. Chicago was reported stronger and under the circumstances it did not take dealers long to get down to business. Prices ruled from 10c to 15c higher from the start. The popular price for good hogs of all weights was \$6.30 and several loads of choice heavy and butcher weights sold at \$6.35. Ordinary grades, regardless of weight, mostly sold in the \$6.25 notch, and a load or two of poor stuff sold a trille lower than that. About everything had changed hands before noon, the bulk selling at \$6.25 and \$6.30, against \$6.15 and \$6.20 Tuesday and \$6.65 to \$6.70 a week ago. Representative sales:

WESTERN PACKING INTERESTS.

small Marketings Still the Feature-Wha Small Marketings Still the Feature—What the Season Shows.

CINCINNATI, O., June 7.—Tomorrow's Price Current will say: The marketing of hogs has been of small proportions the past week for the time of year. Total western packing, 180,000, against 210,000 last week and 385,000 last year, making 2,465,000 since March 1, against 3,310,000 last year Prominent places compare as follows:

CITIES. 1.245,000 400,000 288,000 146,000 118,0,0 153,000 60,000 71,000 71,000 24,000 Nebraska City..... Chicago Live Stock Market.

Chicago Live Stock Market.

Chicago, Ill., June 7.—[Special Telegram to The Bee.]—Native cattle sold as satisfactorily as on yesterday. Not more than 6,000 head were offered and there were orders here for more than that number. For anything grading better than medium the market was rather strong and the poorer kinds did not show any decline. Fat cowa and helfers sold especially well as they were scarce. From \$1.50 to \$6 was the range of suotations, but there was very little business outside the limits of from \$2.50 to \$5.15, cows and bulls selling price. especially at from \$2.75 to \$3.75, and from \$4.30 to \$5 buying most of the steers. Texascattle were in heavy supply and were decidedly lower. The best of them were off from 10c to 15c, while from 20c to 25c no more than covered the decline in common to fair grades. There were some good droves among them, but ordinary grassers constituted the bulk and sales were largely at prices ranging downward from \$3.75. Receipts were estimated at 6.500 head. Nothing like such receipts was ever before known this early in the season.

receipts was ever before known this early in the season.

Hogs jumped up another step today and well they might for only about 12,000 head arrived. This makes the total receipts since Saturday about 41,500 against 44,632 for the same time last week and 20,530 for the corresponding three days last year. A a result of the small receipts and yesterday's improvement in the grain and provision markets, prices advanced from 10c to 15c. They climbed to from 86,30 to 86,35 for choice assorted and light and to from 80,35 to 87 for prime medium and heavyweights. At the higher prices buyers took hold rather gingerly, but their requirements were quite equal to the \$25,49, which, including the stale hogs, did not exceed 16,000 head. They paid from \$6.50 to \$7.05 was the extreme range for merchantable stock. Frime light grades were scarce and being in good demand sold about as well as the best of the heavy sorts.

The receipts of sheep have been altogether

too liberal this week. More than 44,000 have been unloaded here since Saturday and there is a plenty still in sight. There was a weak market today at from \$3.20 to \$4.85 for poor to choice Texaus, and at from \$3.50 to \$5.25 for natives and westerns. Good to prime qualities sold close to yesterday's prices, but poor to common grades were from 10 to 15c lower, making a decline of from 20 to 30c from the highest prices of last week. Yearlings were quoted at from \$4.50 to \$6.25 and there was a demand for spring lambs at from \$4.25 to \$7.25. Receipts: Cattle, 12,500 head; calves, 600 head; bors, 12,000 head; shipments, 3,500 head; market steady; prime sters, \$5.2035,55; extra, \$5.7565,00; mediums, \$4.95 (55.15; others, \$4.254.00; Moss—Receipts, 11,000 head; shipments, 6,500 head; market active, 10 to 15c higher; mixed and packers \$6.6526.85; prime heavy and butchers' weights, \$6.90@7.02%; light, \$6.856.700.

5.85@7.00. Sueep-Receipts, 12,000 head: shipments, 5.000 head; market steady; natives, \$4.75\d 6.00; Texans, \$4.25\darkappa 4.50; westerns, \$4.75\darkappa 5.05; lambs, \$5.75\darkappa 7.00.

Total amount of transfers \$ 33,503 CROPS IN KANSAS. Conditions in that State Favorable for a

Bountiful Harvest, Kan. June 7.—The ere sued today by Secretary Mohler of the State Board of Agriculture shows that the condition of wheat has not improved during the month of May; that the prospect of a large corn crop is excellent and that oats, rye and barley will yield only about half a crop.

In much the larger part of the central belt,
in which about two-thirds of the entire wheat area of the state is found, there has been a loss in condition, and a larger area is reported lost than reported a month ago. The western belt reports about 26 per cent plowed up and an average condition for entire belt of 70 per cent; the central belt reports 40 per cent lost and an average condition for the entire belt of 33 per cent; the eastern belt reports 75 per cent of the area lost and condition for entire belt 20 per cent. This makes an average condition for the entire

cent. Spring Wheat—The same conditions which during the spring were so unfavorable to winter wheat were equally unfavorbale to spring wheat, and the condition is reported also quite low, being 35 per cent. Corn—The area planted to corn this sea-ion, as compared with that of last year, is placed by our correspondents at 107 per cent The increase was chiefly due to failure wheat, the area being planted to corn. T area will still be further increased by plant-ing still more wheat land to corn. The aver-age condition is reported for the eastern belt at 84 per cent, central belt, 71, and western

area sown to wheat in the state of 36 per

belt 51 per cent.
Oats—The condition of oats for the eastern belt is reported at 89 per cent, central belt, 41, and western belt 40 per cent. Winter Wheat—Compared with full average, 36 per cent; spring wheat, compared with full average, 35 per cent; corn, 70 per

H. B. COCKRELL,

cent; rye, 44 per cent; barley, 45 per cent; oats, 61 per cent.
Fruit Crop—Compared with full average.

55 per cent. Chintz bugs are reported throughout the eastern and central belts and in some places are quite numerous, but as yet but little damage has been done. With timely and sufficient rainfall during the balance of the season, the loss sustained in the wheat crop will be largely compensated for by a very largely increased acreage planted to corn.

Piles of people have piles, but De Witt's Witch Hazel Salve will cure them.

Another Convention for Omaha. At the recent meeting of the American Institute of Homeopathy, Dr. Hanchett made an active and successful fight for the location of the next meeting of the institute in Omaha, but found that the eastern delein Omaha, but found that the eastern delegates outnumbered the western, and the only hope for Omaha and the west was by a compromise. This was effected by giving Denver the meeting in 1894, with the understanding that Boston should entertain the institute in 1895, and that the World's congress, the centennial of homeopathy, in 1896, should be held in Omaha. This will be an international meeting and will be attended by the leading homeopaths of the old world.

Piles of people have piles, but Dewitt's Witch Hazel Salve will cure them.

STRENGTH, VITALITY, MANHOOD THE BLIENCE! OF LIFE

W. H. PARKER, M. D., No. 4 Bulfinelist, PEARODY MEDICAL INSTITUTE, to when PEARODY MEDICAL INSTITUTE, to what was awarded the Gold Menal by the National Medical Association for the PRIZE ESSAY on Exhausted Vidality, Attor by, Narrous and Physical Bebilly, and in Disca, as and Weakness of Mea, CURES the young, the middle-aged and one, and the properties of the Prospectus with testimonials, FREE Large book, Sci ENCE OF LIFE, OR SELF-PRESERVATION, 200 pp. 125 invaluable prescriptions, full six only \$1.50 to mail, sealed

Complete Manhood AND HOW TO ATTAIN IT. AND HOW TO ATTAIN IT.

A medical work that tells the causes, describes the effects, points the remedy. Scientifically the most valuable, artistically the most beautiful medical book ever published; \$6 pages every page bearing a half-tone illustration in thats. Subjects treated: Nervous beblifty, Impotency, Sterility, Development, Varieocele, The Husband, Those Intending Marriage, etc.

Every man who would know the Grand Truths, the Plain Fact: the Old Secrets and New Discoveries of Medical Science as a prited to Married Life, who would atone for past follies and avoid future pitfalls, should write for this WONDERSUL JITLE BOOK.

It will be sent free, under seal, while the edition lasts. State age, and if married or single, Address the publishers.

ERIE MEDICAL CO., Buffalo, N. Y.

WHERE FLESH IS NEEDED.

and the system's weakened, you should take Dr. Fierce's Golden Medical Discovery. After "the Grip," for Instance, or in company alescence from pneumonia, fewers, and other wasting diseases, nothing car could it as an arrequal it as an arrequest and arrequest arrequired to the second nothing car equal it as an ap petizing, restora tive tonic to

bring back health and vigor. For pale, puny, scrofulous children, it does wonders. It builds up both their fiesh and their strength theroughly purifies the blood, and make effective every natural means of cleansing repairing, and nourishing the system.

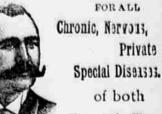

It starts the torpid liver into healthy action and promotes all the bodily functions.

For the most stubborn Scrofulous, Skir and Scalp Diseases, Dyspopsia, Biliousness and kindred ailments, the "Discovery" if the only remedy that's guaranteed. It is doesn't benefit or cure, you have your mone back.
