SPLENDID SPORT AT THE FAIR GROUNDS

Yesterday's Card Was a Strong One and Every Event Proved a Feature-Great Crowd of People Highly Entertained by the Races.

There was some grand sport out at the driving park yesterday afternoon, the like of which may not be enjoyed here again for many moons to come. While the attendance was a vast improvement over that of the first day, it was nothing like what it should have been considering the rare character of the entertainment. There were probably 2,000 people there, more or less, and all attested to their unalloyed enjoyment by demonstration with both hand and lungs. The grand stand presented a lively appearance, and the quarter stretch a sea of fashionable turn outs. Among these was noticed the ten-cart of Charles Sutphen, who sat with his wife and a party of friends behind a team of spanking blacks, manifesting the keenest interest in the varying fortunes of the flyers. Colonel and Al Patrick were there of course, and "Dick" McCormick with his handsome pair of bay roadsters. W. A. Paxton, Mrs. Paxton and Miss Buelah Sharp viewed the stirring scene from an open carriage, as did Frank Ramge and friend from his coupe. Then there was C. N. Dietz and Mrs. Dietz; Frank Colpetzer and party of ladies; Chat Redick, Bert Cooke and Misses Silloway and Himebaugh C. H. Guion and party, Drs. W. A. Rebert and W. P. Wilcox, Arion Cahn and family. Mr. and Mrs. Albert Cahn; Major Lew Hill, Charles A. Coe, Colonel Sharp, Mr. Webster and Miss Nelsie Hughes; R. T. Hurlingham and Misses Albaugh and Runyan, Salt Lake City; John T. Redick and party and a large number of other well known and prominent people. The afternoon was another admirable on

for the sport. The sky was obscured by welcome clouds and a freshening treeze blew constantly from the north. The track was in much better condition than on the opening day, having been sprinkled, rolled and scraped thoroughly during the night, and with less humidity in the air some very remarkable time would have been made to a certainty. As it was, Rosewater's performance in the free-for-all, in which he scored a brilliant victory by taking the three heats straight in 2:1714, 2:1614 and 2:20, against a rattling speedy field, was something that evoked the most lavish applause. He is a sleek, symmetrically-built roan, and has in him everything that he has been accredited One of the Club's Innovations.

The innovation of paying the winners off in the judge's stand immediately upon the finish of the respective events belongs purely to the Omaha Gentlemen's Roadster club and after each race, when Starter Swigert would unbuckle those sonorous lungs of his and sing out: "The owners of the winning horses will please repair to the judge's stand and get their money," was invariably reeted with cheers and a storm of hand clapping from the spectators. They seem to relish the sight of seeing semebody paid off and the reputation for promptitude and fairness that the club has established by this procedure is something that will entrench it in the favor of horsemen throughout the country, and whenever it sees proper to give a racing meet it can safely count on pienty of good nags to make it interesting and suc-The judges and timers were the same as

on the opening day, with the exception of W. C. Pritchard, who held the chronometer in Billy Hughes' stead. The "curtain raiser" was the 2:35 trot, and it was called up promptly at 1:30. The purse was \$400 and the entries as follows:

After three or four scorings the horses re ceived the word and went away in line at a merry clip. Governor Riddle knows a soft thing when he sees it, and without much delay he pushed himself into the van and re-mained there handily until under the wire. Fashion Maid made a couple of biuffs at giving him a race, but in rounding into the stretch gave it up as a bad job and confined her talents strictly to beating out Consu Chief and D'Aye, which she accomplished

They were off on a fair start for the third and almost immediately the black stallion, Ebony Wilkes began to assert himself and, like a ghost, glided by them all, having a safe lead at the haif. Mike Dwyer's Derby Candidate.

NEW YORK, June 15.—It is now settled that Mike Dwyer's colt, Don Alonzo, will be

sent to Chicago to run for the American derby on June 24. The racing men who saw Don defeat Rainbow at Morris Park yester-day, and run a mile and a half in 9:37 under a pull, were inclined to think that Mr. Dwyer didn't pay too much for the colt when he gave \$30,000 for him hast November. Mr. Rowe was right in his opinion, as he generally is, and if Don

Alonzo is as fit to run on American derby day as he was yesterday and is ridden as he was ridden against Rainbow he is likely to win first money for his owner.

It is now known that Don Alonzo was not thoroughly prepared for the Brooklyn derby, in which Rainbow defeated him, because he was suffering from cracked heels.

FOR THE RUNNING MEET.

All Arrangements Completed and Purse

Provided For. The Omaha Jockey club has completed all arrangements for its initial exclusive running meeting, July 4, 5 and 6, and Secretary J. A. · New York, June 15 .- In a letter to Arthur T. Lumley of the Illustrated News, P. H. Hall, a leading physician of Pioneer, Tex., states that there are half a dozen well-to-do business men in that city who stand ready to back John L. Sullivan to the amount of \$20,000 against Corbett, providing that Sullivan would undergo a thorough training of at least six mouths. The writer instructs Mr. Lumley to notify the big fellow at once of this offer. The doctor further states that should Sullivan accept he can come to Pioners whenever he gets ready and take up neer whenever he gets ready and take up his training quarters at his country seat.

Relayed Ahead of the Schedule. Madison, Wis., June 15 .- The relay bicycle race from Springfield, Ill., to the capital of Wisconsin was successfully concluded here today. The distance-295 miles-was covered in twenty-six hours and fifty three minutes. S. E. EMPIRE AT STAKE.

Strong Reasons Why the German Army Should Be Increased.

Richard Michaelis in the Chicago Tribune: The dispute about the military bill in Germany can be understood properly only by those who consider the historic development of the relations between Germany and France and the military strength of the five principal powers of continental Europe. About twenty wars have been carried on

between France and Germany and the former was usually the aggressor, more particularly in recent history. Owing to the proverbiat dissensions of the Germans, which only lately found expression in the splitting of the Reichstag into twelve fractions, France was usually victorious and acquired large strips of territory from the German empire. In the midst of peace the French surprised and robbed the city of Strasburg and the war of 1870-'71 was begun by them from sheer love of glory, of fight

and robbery.

After their glorious victories in the years 1870-71 the Germans did not take all the stolen provinces but only the two old German fortresses of Metz and Strasburg with

man fortresses of Metz and Strasburg with their appendages in order to secure the west-ern frontier of Germany. Since the peace of Frankfort which ter-minated the war twenty-two years have elapsed. But no statesman or newspaper of France has approved of the terms of peace. They are all clamoring for revenge and France has been arming for a war of revenge against Germany with feverish haste And as France is a constant menace to Ger many in the west, so is Russia in the east. Russia would conquer India and Constanti-nople and all the provinces of the Balkan peninsula, of Austria and Germany, that are innabited by Slavs. In opposition to these two disturbers of the peace the peaceable powers of Germany, Austria and Italy have united in the Dreibund, whose main object is the preservation of peace and joint defense

Facts About the Army.

From the figures below can be gathered the peace footing of the armies of these five principal powers of Continental Europe There are in service in Russia, 781,515 men; France, 572,209 men; Germany, 520,601 men; Austria, 326,640 men; Italy, 247,708 men. It follows that France and Russia have a force of 1,353,724 men under arms, whereas the forces of the Dreibund amount to only 1,095,-039. Every one who is familiar with mili-tary affairs knows that the European armies are drilling institutions in which re cruits are trained usually for three years, when they are discharged to the reserve and Landwehr and are mustered in again in case

The two disturbing powers have in times of peace a quarter of a milion more men under arms than the peaceable powers of the Dreiound. Taking the three years service for a basis of calculation it follows that France and Russia annually muster in 85,000 reance and Russia annually muster in 85,000 recruits more than Germany, Austria and Italy taken togother. Thus in twenty years the former powers would have an excess of 1,700,000 men over the forces of the Dreibund, or after deducting 25 per cent for losses, 1,275,000 men. Such an overwhelming power would crush the Dreibund, and it is quite natural that the rowers of the latter are natural that the powers of the latter are taking measures to prevent this inequality.

Logical Conclusions.

If it is remembered that France has 12,-000,000 inhabitants less than Germany, that its debts amount to \$6,000,000,000, whereas the debts of Germany are equalized by the mome from its railroads and imperial domains, and that, nevertheless, France has 50,000 more men under arms, it will be easy to understand the utter futility of the talk of German demagogues about overburdening the German people. If Germany wanted to keep as many men under arms, in proportion to its population, as France does it would ave to increase its peace footing to 753,000

men.

If Germany fails to increase its fighting strength at this time it will succumb in the next great war and the German beer philosophers who are now denying to the father-land an additional expense of 30 cents a year per capita will then be obliged to pay a thousand times that amount to the Cossacks and the Turcoes. The fact that all the federated governments: have unanimously recommended the military bill as urgent should convince every unprejudiced man of the necessity of the measure.

Germany will either have to keep pace with the warlike preparations of her neighbors until all the nations, weary with the great burden of militarism shall consent to

great burden of militarism, shall consent to disarm, at least partially, or else it must give up its independence and surrender to the French and Russians for better or worse.

nt Present. [Comprighted 1893 by James Gordon Bennett.] Valparaiso, Chili (via Galveston, Tex.) June 12 .- [By Mexican Cable to the New York Herald-Special to THE BEE.]-The Herald's correspondent in Rio Grande de Sul telegraphs that frightful atrocities are being practiced by the Castilhistas. Governor Castilho ordered a man's throat cut because he was suspected of aiding the revolutionists. This murder was committed in the presence of the wife of the victim.

A state of terror worse than exists in Central Africa, so the Herald correspondent telegraphs, exists in the state of Rio Grande do Sul. Barbarous punishments are in-flicted on mere suspicion. The revolutionists are daily receiving new recruits. Many officers of the national guard have deserted the government and gone over to the rebels. From Montevideo the Herald's correspondent telegraphs that at the funeral o the Brazilian consul, Silveyra Marten, said that the triumph of the revolution in Rio Grande do Sul was a certainity. He further said that he had every reason to believe Uruguay desired their success, with a view of adding the state to her territory.

Walter Baring has been appointed minister from Great Britain to Uruguay, succeeding Minister Satow, who has been transferred to Territory.

ferred to Tangiers. The Heraid's correspondent in Buenos Ayres telegraphs that Minister Escalute declares that congress and the press are the political disturbers in Argentine. His opponents affirm that the president has the power to end the revolution in Catarmarca, and that the only means to accomplish this end is by armed intervention. Congress does not holds this view. Chili's new and powerful cruiser El Capitan Pratt is at Talcahnano. Her officers report that she behaved admirably at sea. She was especially steady under gun practice. It is probable that some of the Chilian cabinet will resign. It is alleged that there is a difference of view among them concerning the program for education which is now before congress. Banks now maintain steady rates, while the speculators quote higher figures for ex-change.

Panama Swindlers to Be Released from Prison-A Decision in Their Favor. Paris, June 15 .- Considerable excitement has been caused by the decision of the court of cessation on the appeal of Charles De Lessens and the other defendents convicted of fraud in connection with the Panama canal. The court handed down a decision today quashing the sentences on the ground that the statute of limitation covers the offense charged and that the indictments on which the prisoners were tried were irregular. In consequence of the decision M. Eiffel was at once liberated from prison. Charles de Lesseps, who is now in the St. Louis hospital suffering from acute dyspepsia, was informed that he was free, but he was too ill to leave the hospital. The following were those convicted: Ferdinand de Lesseps, his son Charles, Marius Fontaine, Henri Cottu and Gustave Eiffel. Ferdinand de Lesseps was sentenced to five years' imprisonment and pay a fine.
M. Fontaine was also notified of the reversal of his sentence and he was at once

given his liberty. In addition to the sentence of five years imprisonment imposed upon M. Charles de Lesseps, he was senenced at a later trial to serve a year for bribing certain members of the Champer to vote for the Panama lottery bond bill. sentence has not been set aside, the statement that he was told this morning that he was at liberty was slightly erroneous. The sentence of one year's imprisonment running oncurrently with the heavy sentence, M. de Lesseps chose to serve the one year's sentence in a cell. By this means, according to the prison regulation, the time will be reduced one-half. It is probable that the unreserved portion of the sentence will be .im-mediately remitted and that M. de Lesseps is to leave the hospital as soon as he is able

WILL OF A RICH COLORED MAN.

James Sweeney, an Aged Preacher, Leaves Much Valuable Property. KANSAS CITY, Mo., June 15 .- The will of James Sweeney, an old colored preacher, who died Sunday, was admitted to probate yesterday. Sweeney was the owner of property worth about \$500,000. All of this he leaves to his widow, Johanna Sweeney. The only other heir is a son, Henry Galloway Sweeney, born in slavery, who is to have \$5. Sweeney was the best known colored man in Kansas City. He was an exslave and for many years he preached at the St. James Baptise church, which he built out of his own funds. About two years ago an attorney tried to swindle this old man out of his valuable property by making out a deed to himself under the pretense of writing his will.

GRAND LODGE AND EASTERN STAR WORK

Election of Officers of the Ladies' Auxiliary Organization-Beatrice Chapter Seeks Reinstatement - Mrs. Billings Remembered by Her Sisters.

This has been an interesting week in Omaha and Nebraska for the Masonic fraternity. The Nebraska grand lodge has been in session several days. Over 300 delegates attended, including a targe number of ladies belonging to the Order of the Eastern Star, the auxiliary organization to Masonry. The first session at 4 o'clock Wednesday accomplished only the preliminary work of the meeting and an adjournment was taken for supper. At 8 o'clock the grand lodge again assembled and Grand Master Davidson of Tecumseli, introduced Grand Orator James J. McIntosh of Sidney, who delivered an eloquent and stirring ad dress in reviewing the work of the order.

The delegates to the grand lodge of the Order of the Eastern Star also held an evening session at which there was a lively dis-cussion over the re-establishment of the Beatrice chapter. This chapter disbanded a few years ago and at Wednesday's meeting Miss M. F. Davis and other tadies of Beatrice presented a petition for a new charter. There seemed to be a disposition on the part of the grand lodge to tax the ladies who were interested in the new chapter \$10 for the charter, and this they stoutly opposed from start to finish. They did not so much object to the amount of the tax as the principle of the thing. After a vigorous struggle and a long discus-sion of the matter the ladies from Beatrice were successful in gaining their point, and were granted the charter without the payment of any sum whatever.

The morning session of the Order of the Eastern Star was devoted to the closing work of the session. The most important work was the session. Ine most important work was the installation of the offi-cers. The ceremonies connected with the installation were conducted by the past grand matron, Mrs. Addie Bil-lings of Geneva. At the close of the ceremonies there was an impressive little inci-dent which moved Mrs. Billings to tears. The order passed a resolution to present her with the lodge jewel. Her efficiency in office and her devotion to the duties that have de-

volved upon her have made her many very warm friends in the order. The visiting dadies all speak in highest terms of the manner in which they have been entertained by the sisters of Vesta chapter. On Tuesday night they enjoyed a chapter. committee, arrived here today from Chi cago, and, in conference with local workers, completed arrangements for the seventeenth international and second world's convention of Sunday school workers to be held here August 31 to September 6, inclusive. The convention will have about 5,000 delegates, and will discuss organized Sunday school work for the world, with a view to aid all Sunday schools now organized. It will seek to bring out the best ideas in every department of Sunday school work and will hear reports from every part of the world, which will help to study the needs of the various localities and to provide the proper help. The plans and methods employed in Missouri, Illinois and other parts of the United States will be applied to the whole world as far as applicable and practicable.

To Preserve

The richness, color, and beauty of the hair, the greatest care is necessary, much harm being done by the use of worthless dressings. To be sure of having a first-class article, ask your druggist or perfumer for Ayer's Hair Vigor. It is absolutely superior to any other preparation of the kind. It restores the original color and fullness to hair which has become thin, faded, or gray. It keeps the scalp cool, moist, and free from dandruff. It heals itching humors,

prevents baldness, and imparts to

THE HAIR a silken texture and lasting fragrance. No tollet can be considered complete without this most popular and elegant

of all hair-dressings. "My hair began turning gray and falling out when I was about 25 years of age. I have lately been using Ayer's Hair Vigor, and it is causing a new growth of hair of the natural color."-R. J. Lewry, Jones Prairie, Texas.
