COMMERCIAL AND FINANCIAL

TRADE GENERALLY WAS DULL AND NARROW

Wheat Opened Lower than the Closing Figures of Wednesday and Later Floctuated and Scored a Further Decline.

CHICAGO, June 15 .- There was no snap to the markets today. The action of the New York Clearing House association in deciding to issue certificates, while designed to relieve matters, had temporarily a contrary effect on the Board of Trade here. Wheat broke over and closed within lic of the inside figures of the day. Corn, compared with last night, is Se off. Provisions are down from 5c to 756. There was great apathy in cables, the weather was all that could be desired and the

Cincinnati Price Current's weekly report showed a stendy progress in all crops. The proposition of the New York banks to issue clearing house certificates and the decline in stocks on Wall street were used with effect by the bears. The trade seems to have gone long on wheat during the last week and was disposed to unload, but as there was little demand the effort caused depression and

weakness.

There was some attempt to rally the market by reports of hot winds in Kansas and drouth in the northwest, but it met with little success. Trade was dull and narrow from start to finish. The opening was about %c lower than the closing figures of yesterday, and with some slight fluctuations prices further declined %c, then ruled steady, and the closing was about 1c lower for July and %c lower for september. It was given out that Armour & Co. are to carry half the wheat in store here. Corn was weak, the fine crop prospects, dullness in trade and the slump in wheat causing it. Cables reported an advance abroad, but it did not help things much. The market, after opening from %c to 4c off, declined %c more. At the decline the demand improved, but car lots coming in smaller a rally of from %c to %c followed, after which the price weakened %c and at the close the market had lost from %c to 1%c.

Onts were weak in sympathy with everything else. There was a light trade. Prices declined from %c to ½c, closing at about the inside figures.

Business in provisions was confined to a few

Inside figures.

Business in provisions was confined to a few trades in lards and ribs. The market ruled fairly steady at a slight decline.

Estimated receipts for tomorrow: Wheat, 44 cars; corn, 280 cars; oats, 184 cars; hogs, The landing fairly.

Omaha Produce Market. At the present time there are only about two grades of butter recognized on the Omaha market. A few packages of the very best of fancy country butter sell to the local retail trade direct at 15@16c, but only a small proportion of the best butter will bring that price, and if the retail trade will not take the butter it has to be sold as packing stock at practically one price.

butter it has to be sold as packing stock at practically one price.

There is a good deal of complaint about the poor quality of the eggs that are coming to this market. Strictly fresh eggs are not at all pienty, and it is necessary to candle several cases of eggs before one case of good eggs can be secured. While the tops are selling at pretty good prices there are so many seconds that the average is brought down considerably. However, eggs are higher on this market than on the caltern markets.

An occasional coop of very fancy old hens sells for is more than the quotations given below, but not enough to justify a quotation, Geese, ducks and turkeys are practically out of season.

of season.

Old potatoes are lower and the supply is most too large. The demand is now mostly for new potatoes, which are not at all plenty. The most of the old stock offered on the market is mixed and poor. New potatoes are coming very largely from California, as they can be laid down here for less momen than southern potatoes. Some pretty fair samples of new potatoes have been received from southern Kansas

tatoes have been received from southern is an said.

Home grown vegetables are becoming so plenty that the local growers are supplying the trade very largely, thus taking a considerable proportion of the business out of the hands of dealers.

There are very few southern strawberries coming to this market, and in fact not many of any kind. Home grown strawberries have put in an appearance, but they are not plenty and are not likely to be. At the present time black raspberries are attracting the most attention and are coming from Missouri. The arrivals are meeting with quite ready sale.

STOCKS AND BONDS.

Early Dealings Were Characterized by a Rather Weak Tone.

New YORK, June 15.—The dealings on the Stock exchange were characterized by a rather weak tone early in the day, the bears having raided the list on the strength of the meeting of the clearing house committee of the Associated Banks yesterday afternoon and the tack of knowledge as to what was accomplished at that conference. Lake Shore and Sugar yielded 1½ per cent, but the decline in the remainder of the list was only 4 to 1 per cent. and comparatively little stock was shaken

It subsequently transpired that the offerings for short account were absorbed by operators who felt satisfied that the clearing house committee would recommend an issue of certificates if necessary, and that this would relieve the tension which has existed in the local money market. As soon as it was announced that the clearing house committee at its meeting this afternoon had definitely decided to issue certificates, beginning tomorrow. Wall street experienced a feeling of relief and this was promptly reflected in the stock market. An advance of from % to 1% per cent ensued, Sugar, Lake Shore, Chicago Gas, General Electric, Reading, Louisville & Nashville and the grangers leading the upward movement. New England was exceptionally weak, declining 1% per cent to 194,6204, but this had no perceptible effect on the general market which closed steady at or near the top figures. Among the specialities National Lead was firmer on the declaration of a quarterly dividend of 1 per cent on the stock. National Stareh opened at 7% against 154, the last reported sale, and later railled to 10. The second preferred, which closed at 29% yesterday, opened at 52 and made a further advance to 35.

The Post says: Partly, perhaps, because of the expanded short interest in the market, Wall street received the news of the clearing house move with great equanimity and good sense. The committee's resolution yesterday, that clearing house certificates be authorized for use should an emergency develop, was an unusual procedure. To take such action thus far in advance of the emergency was undoubtedly to fix a novel precedent. The measure, however, was eminently wise and was approved unanimously by the bankers' committee. ginning tomorrow, Wall street experienced a

Committee.

Briefly summed up, its meaning is that the

New York banks have confidence enough in the borrowing community, and in one another to pool their entire resources for mercantile accommodation. A bank which, by itself, can lend no longer to its good customers, can virtually, through use of these certificates, obtain fresh money from all the other banks and increase its own loans to precisely this exetent. Far from being an expression of doubt as to the position of the smaller city banks, such action, taken at such a time, announces clearly that confidence on this score is complete. The moral influence of such an announcement can hardly fall to be considerable.

London Financial Review.

[Copyrighted 1833 by James Gordon Bennett.]

London, June 15.—[New York Herald Cable—Special to The Bee.]—The discount rate of the Bank of England was unexpectedly reduced to 2½ per cent today, but the alteration was fully warranted by the position, the reserve being larger this week by \$2.250.—000. The total is now over \$19,500,000 or 50 per cent of the deposits and liabilities. The value of money is bound to drop to a very low level and the stock markets should benefit accordingly. Business on the Stock exchange today was extremely quiet and the price was generally dull, the public doing nothing and speculators being apat hetic. The condition was reduced by the trying weather which is exceptionally hot. The feature in the American market was weakness of Atchison on adverse rumors due probably to the impending issue of new bonds as provided under the reorganization scheme. Most other issues were distinctly weaker except Erie seconds, Pennsylvania and Ontarlo, the last named being affected by a bull interview with Joseph Price. Home securities are quiet, but there is a firm foreign market which is stronger, especially for South Americans, but dealings were restricted until the result was known of the Argentine bondholders' meeting of Monday. Silver is unchanged.

OMARA LIVE STOCK MARKETS. Cattle Trade Still Unsett'ed-Hogs Drop

Another Dime with Esse.

THURSDAY, June 15.
So far this week, compared with last, receints show an increase of over 4,000 cattle and 7,000 hogs. There has been a slight falling off in sheep supplies.

The general cattle market was fairly active and a shade stronger all around. Receipts were not large and there was almost no outside demand, but all local houses were after supplies and paid stronger prices to get them. Some of the more desirable fat light grades showed a 5c to 10c advance, but on most grades prices were hardly quotably higher than Wednesday. Good heavy cattle were consplcuously absent, but good 1,150 to 1,250-lb, steers met with a ready sale at from \$4.40 to \$4.75 Another Dime with Esse.

and fair to good 900 to 1,100-lb steers sold at from \$4.20 to 184.40. Poor to fair light and only warmed-specifie sold anywhere from \$3.75 to \$4.15. There was a fair amount of life to the market, and by noon the offerings had nearly all changed hands.

The cow market was in the main about steady at the decline of the early part of the week. Offerings were light and changed hands freely at from \$1.75 to \$2.65 for canners and \$2.25 to \$3.90 for fair to good butchers stock. Calves were about steady at from \$3 to \$5.50 and rough stock was generally unchanged common to choice bulls, oxen and stags selling at from \$2.30 to \$4.

There was hardly enough trading done in the stocker and fender line to establish quotations. Regular fleaders bought a few at about steady prices, but there was almost no country demand. The market is nominally steady. Representative sales:

Chicago Live Stock Market.

Chicago, June 15.—iSpecial Telegram to The Bre.—In no essential particular was today's cattle market an improvement on that for the preceding days of this week. Buyers continued to take hold very mincingly and they insisted upon getting the stuff at still lower figures. During yesterday and today the market for native cattle has eased off from 10c to 20c, the principal decline falling on heavy steers and canners' stock. For the former there was scarcely any inquiry, the demand being almost wholly confined to cattle weighing less than 1.400 lbs. Averages of from 1.050 to 1.250 lbs. are the best sellers though not much fault can be found with the way cholee cows and beifers are selling. Trading in native steers was mainly at from \$4.25 to \$4.20 and the prevailing prices for cows and buils were from \$2 to \$3. There was a limited impury for stockers and feeders at from \$2.50 to \$4.40 and for veal calves at from \$2.50 to \$4.75. Texas cattle were saleable at about Wednesday's prices. The receipts were between 2.500 and 3,000 head, nearly all of which were grassers.

Bad as was the state of the hog market yea-Chicago Live Stock Market. were grassers.

Bad as was the state of the hog market yes-

terday there was a still worse condition of things today. Such grades as were taken of Tuesday at from \$7.10 to \$7.20, and vesterday at from \$7 to \$7.10, went begging for buyers today at from \$6.50 to \$6.60, indicating a day-cline within the last two days of from 50c to 60c per 100 lbs. Of that loss from 25c to 30c was suffered today, the best sorts not being saleable, at the close at over from \$6.50 to \$6.55. The cause of the present demoralization is found in the rapid and altogether unexpected increase within the last few days in the arrivals. They have increased nearly a hundred fold, amounting since Saturday to about \$9.000 head as against 53,725 for the same time last week. The bulk of the hofs that found buyers today sold below \$6.55. There were isolated sales at from \$6.60 to \$6.65, but after \$6.0 loke \$6.50 was a fair outside quotation for heavy grades. From the above prices there was trading all along down to from \$6.25 to \$6.35 for poor lots, and to from \$4.05 for culls. Light weights continue to sell to the best advantage. They have been scarce of late, and are in demand at an advance on the prices paid for heavy weights of from 10c to 15c.

There was a decoping market for sheep. Good to best native and western were from 5c to 10c lower than yesterday, and there was a decline in common stuff of from 10c to 15c, making a decline of from 10c to 30c within the last two days. Poor ragged lots were quoted as low as from \$2.90 to \$4.65, and for poor to choice native and western sheep from \$3.25 to \$5.25, Choice yearlings sold around

poor to choice native and western sheep from \$3.25 to \$5.25. Choice yearlings sold around \$5.50, and spring lambs were quoted at from \$4.25 to \$7.

\$4.25 to \$7.

WALKER'S FATE IN DOUBT. Indians Still Hold the Doctor and Troops

Hurrying to His Ald. BRAINERD, Minn., June 15 .- Company D, Third infantry, United States regulars, with Lieutenant McCoy in command, moved northward yesterday morning. The weather is extremely sultry, 96° in the shade, and the march will be so slow that it will be impossible for the command to reach Leech Lake until some time today. News by courier from the reservation is to the effact that the Indians have thrown out a double line of pickets in the direction of Park Rapids, and are preparing to defend themselves from attack. The whole number of Indians in the recalcitrant tribe is 400, and the fear is expressed that the single company of regulars, without artillery, will hardly be able to cope with the whole Indian camp. The soldiers were accompanied from this point by Agent Ruffe of the White Earth

No news whatever has been received of the fate of Dr. Walker. It was ru-mored that he had been burned at the stake, and later that he was horribly tortured, but was still alive. Mrs. Walker and her daughter were in Minneapolis on their way to Chicago when the news of Dr. Walker's capture reached them. They are now hastening back to the reservation and are expected to reach Park Rapids today. A courier from the north last evening said the troops had already gone to within seventeen miles of the hostile camp, but would camp for the night and push forward at daybreak.

REORGANIZING THE CHEMICAL. One of Chicago's Broken Banks Will Soon

CHICAGO, June 15 .- The stockholders of the Chemical National bank have decided to accept the conditions imposed by the comptroller of the currency. These conditions were that the consent of two-thirds of the stockholders to a 40 per cent assessment be secured, and that satisfactory arrangements with creditors be made by July 15. There is little doubt now that the bank will be reopened on or before the latter date, and on a much sounder footing than before. At the meeting of the stockholders last night fully three-fourths agreed to the assessment plan, and the work of reorganization will be pushed as speedily as possible. President Curry said yesterday that the report that the comptroller had required that an entirely new set of officers be placed in control was incorrect. There was little doubt, however, that most o the present officers would be retired, among the number being himself.

GERMAN DAY AT THE FAIR

Emperor William's Personal Efforts Finally Bear Their Fruit.

FATHERLAND CAPTURES THE WHITE CITY

Over a Hundred Thousand People Present to Observe the Day and Witness the Dedication of the German Building-Other Features.

CHICAGO, June 15 .- Today is a big day at Jackson park. First and foremost it is German day, then it is Indiana day, and last, but not least, it is Arkansas day. The melodious chimes of bells rang out a glad welcome to the incoming hosts of music loving, patriotic German-Americans. Never did the white palaces look more beautiful, and never did they entertain a more joyous pleasure-loving crowd. Teutons from far and near are present in thousands. By 10 o'clock it was estimated that 100,000 had passed the gates. The day is bright and clear and a fresh breeze is blowing from the lake, tempering the sun's rays. Bands of musicians are scattered in every direction, filling the air with tuneful melodies, and the place is like a very paradise.

The day's celebration started by an immense parade down town and then the march to the fair grounds. The parade formed at 8 a. m. on the Lake Front park and it was made up of nine immense divisions, composed of hundreds of civic and military societies, German-American veterans, Turners, sharpshooters, singing societies, floats and bands. It was 2 o'clock in the afternoon before the head of the parade reached the grounds.

Exercises at the Building. The following program was carried out in

front of the German building in the exposition grounds, commencing at 2:30 p. m.,

The following numbers will be given at 5

o'clock in Music hall:

In the evening there will be a brilliant illu mination of all buildings and fireworks.

Over at the Indiana building Hoosiers were present by the thousands. The dedi-catory exercises began early. The building was beautifully decorated with palms, foliage and cut flowers. Ex-President Harrison arrived just before the exercises began and was greeted with generous applause. After prayer Executive Commissioner Hayen delivered the keys to President Studebaker of the Indiana board of managers, who in turn presented them to Governor Claude Matthews, who received them and consigned the building to the use of the people

of Indiana.

At the Arkansas Planters home Governor Fishback of that state, who arrived this morning with his staff, received the building from President Mitchell of the state comon and dedicated it to the use of the people of Arkansas and their friends.

Taking Care of Excursion:sts. In the terminal station increased activity

was shown, for the World's fair excursion season opened today. An engine with a party of pilots aboard moved over the net-work of tracks yesterday tracing all the routes made possible by the tower men of the interlocking system, for the purpose of teaching the pilots the ins and outs of the largest railroad terminal in the country. This morning at 8:30 o'clock an excursion train over the Michigan Central from Michigan City pulled into the station and between 10 and 10:30 three trains of nine cars each were brought in by the Lake Shore & Michigan Southern road. The Baltimore & Ohio sent in some trains full of Indianaians during the morning. All that came were taken care of. For weeks the terminal station men have been patiently waiting an opportunity to

demonstrate the fact that they can take care
of seventeen trains of fifteen cars each hour.
In a letter sont out by Superintendent
Green to every railroad superintendent in
the city he said: "For your information
would state that we have storage capacity
for 500 passenger cars." This is the minimum capacity of the storage house, which
has twenty-five tracks. In addition there is
trackage enough to store almost twice. trackage enough to store almost twice as many cars, and this does not include the thirty-five parallel tracks used as terminals. The interlocking system used gives such flexibility to the terminals that five minutes notice is all that is necessary for receiving more trains than can be switched in over the Baltimore & Ohio and Illinois Central

the Baltmore & Ohio and Illinois Central tracks, which lead to the yard.

Tomorrow the first World's fair excurions from Pittsburg will be brought into the grounds by the Fort Wayne road. The Panhandle will also bring in a double section train from Dayton and tomorrow night the Big Four will start trains from Cincinnati. The Dayton and Pittsburg trains will leave the terminal station Sunday night if the The Dayton and Pittsburg trains will leave the terminal station Sunday night if the fair is open. If not they will take on their passengers at the union depot. The big roads will take turns in bringing excursions from Ohio river points. Next week the Panhandle will do the business, bringing in excursionists every day. From three to live such trains are expected daily. The week following the Monon will do the carrying. An excursion train from Denver over the Burlington will roll into the exhibition yard Saturday morning.

Africa, Italy and Diamonds. Energetic Africa joined hands with sunny!

Energetic Africa Joined hands with sunny. Italy in throwing open the doors of their respective exhibits in the Manufactures building yesterday afternoon. The open doors of one disclosed a rajah's paradise; the other a view of rare wood carvings, statuary and tapestries. Down Columbia avenue a number of visitors wandered. They stopped when they reached a handsome colonnade of the American section near the his clock. the American section near the big clock tower. Inside the colonnade, arranged in tower. Inside the colonnade, arranged in wonderful groups and showing startling effects of color, the most valuable exhibit in the building is displayed. One million dollars is the estimated value of a collection of diamonds which sparkle and glow on the velvet beds. The gem of this collection is a stone which has been placed at the top of the assortment. As it slowly revolves on the golden red supporting it all the light in stone which has been placed at the top of the assortment. As it slowly revolves on the golden rod supporting it all the light in the pavilion seems to be concentrated in its many facets. The weight of this stone is 125% carats, and its owners will part with it for \$100,000. In front of the case, on a bust figure, is a strand of pearls, said to be the most wonderful ever brought into this country. The largest is about twice the size of a large pea and the smallest is a little over one-half as large. A card attached to this necklace indicates the price as \$200,000. Two other strands on the same figure, not quite as large or as well matched as the first, are marked \$100,000 and \$85,000 respectively. At the right of this figure is a woven gold medal of arabesque style. This contains twenty-one large canary diamonds.

In the jewelry exhibit is shown some remarkable work in precious metals. The first attraction in this part of the exhibit is a reproduction of a diamond collar worn by Marie Antoinette. An attractive piece of gem flower work is a narcess brooch. The steam of the flower is of green gold, thickly steadstantil dense the state of the flower is of green gold, thickly steadstantil dense the supplementation of the flower is of green gold, thickly steadstantil dense the supplementation of the flower is of green gold, thickly

stem of the flower is of green gold, thickly studded with demantolls. The leaves are fashioned in diamonds and a large yellow. sapphire represents the flower. The sap-phire was drilled through the center and cut to represent the sections of the natural flower. The wavy outer edges of the leaves are set with rubics.
