Along with the suits were filed affidavits of attachment setting up that Mosher and Outcalt have disposed of property to defraud their creditors, and that the affiants have reason to believe and do believe that D. #### Mr. Thorton's Troubles.

The troubles of the Alliance-Independent, which were very fully elucidated when the Action for a receiver was before the courts, are again attracting considerable attention by reason of the action of the president and by reason of the action of the president and editor, S. E. Thornton, calling a meeting of leading lights in the party to raise sufficient money to provent the paper from going under. The Lincoln Newspaper union has attached the press and folder for workdone, but are allowing the company to proceed in the hopes that its indebtedness will be paid. Mr. Thornton stated today that when the present management took hold the debt under which the commany was stargering present management took hold the debt under which the company was staggering amounted to about \$5,000. This had been reduced to a little over \$4,000, but notes to the amount of \$2,500 are due and outstanding, and the holders will not extend them. The balance of the indebtedness consists of a \$1,500 note en-dorsed by Van Wyck, Wolfe and others, and it is not being pushed. A meeting of prominent independents was called, and they agreed to make a valuation of the they agreed to make a valuation of the plant and issue stock on the net valuation to present holders, and enough additional to pover the indebtedness. Of the \$2,500 or.e-fifth has been subscribed, but the old hold-pres of stock are fearful that the new ones will creat them out of control as the value. will crowd them out of control, as the valua-tion is put at what they term a ridiculously low figure, \$4,200 for the property and \$1,700 for the good will.
