

PEOPLE AND PRESS PROTEST

Complaints from Nebraska Towns Over Curtailed Train Service. RAILROAD PRESIDENTS ON NEBRASKA'S LAW

The action of the Burlington and Union Pacific in taking off passenger trains on the branch lines of the companies is receiving considerable attention from the state press, charging the officials with throwing dust in the people's eyes.

Maximum Rate Bill. It is by no means certain that the maximum rate bill will be put into effect by the railroad of Nebraska. The opposition to putting in the new rates on the part of the Burlington, the Elkhorn and the Rock Island has had its effect to such an extent that the presidents of the Northwestern, Burlington, Rock Island, Union Pacific and Santa Fe are meeting in Chicago to decide just what course shall be pursued.

Secretary McFadden of the west of the Missouri freight rate committee arrived in the city yesterday and called on the representatives of the lines in interest to look the ground over and take the preliminary steps for checking up the rates should the president decide to go ahead and enforce the law.

At 10 o'clock the following freight men were present at the rooms of the Kimball, assistant general freight agent of the Chicago, Rock Island & Pacific, with headquarters at Topeka: J. H. Stein, general agent for the Chicago & Grand Island; B. Knight, representing the Missouri Pacific; George Crosby, of the Burlington; Elmer H. Wood, of the Union Pacific; and W. F. Murphy of the Elkhorn. The following other roads it is expected will send representatives on Wednesday: Missouri, Kansas & Texas; Santa Fe; St. Louis, St. Joseph & Memphis; and the St. Louis & San Francisco.

There was little done and the consensus of opinion seemed to be to let the law become effective and then some one of the railroads begin an action testing its constitutionality. Secretary McFadden, speaking of the merits of the bill, stated that it had many merits except demerits. "Its passage has added to instead of lessening the confusion that already exists among the railroads of the state. It will be a task of weeks to put these rates into effect and will seriously involve railroads in Kansas, Missouri, as well as Iowa, necessitating revisions of their tariffs to conform to the rates included in house roll 33."

Will Meet the Out. Previous to Mr. Lomax's leaving for Denver he gave instructions to meet the Great Northern's Portland one-way eastbound rate to the Missouri river (\$35), effective June 22. The adoption of this rate practically does away with the second-class rate, being in effect the second-class rate made some time ago.

The reason Spokane and Helena rates are not met also by the Union Pacific is found in the fact that they take lower rates, thus giving greater opportunity of demoralizing the local business and seriously interfering with rates made by other lines. This Mr. Lomax seeks to avoid, the Portland rate being made to protect the interests of the Union Pacific from the Sound country, which rates are based locally on Portland rates.

The general passenger agent, however, did not stop here, but also put in round-trip rates from Portland, Spokane and Helena to Missouri river and eastern points, effective today. These rates are based on the reduced one-way rates made by the Great Northern and Northern Pacific, good for continuous train passage with final limit of November 15. Mr. Lomax, in putting these rates in, argued that the great volume of business originating in this territory would be World's fair business, tourists returning to these points on an event, and so he puts in these rates, making them good over the Union Pacific in both directions, not being interchangeable with any other road. In this way the Union Pacific gets the entire haul, whereas it might only get its proportionate share under other conditions.

The Ladies. The pleasant effect and perfect safety with which ladies may use the California laxative, Syrup of Figs, under all conditions, makes it their favorite remedy. To get the true and genuine article, bearing the name of the California Fig Syrup Co., printed near the bottom of the package.

PERSONAL PROPERTY. Finding of the Assessors in Douglas County and Omaha. The work of finding and compiling the returns made by the ward and precinct assessors has been completed by the county clerk and the books are now open to public inspection. Last year the several assessors found property in the county of Douglas aggregating \$28,667,483.78, but this year they have not been so fortunate, as the result of their labor shows that they have unearthed but \$24,925,730.94, though when the banks are assessed by the Board of Equalization, it is thought that fully \$200,000 will be added to the aggregate. As matters now stand there is a shortage of \$747,752.84, as compared with the assessment for 1892.

Table with 3 columns: Precinct, 1892, 1893. Lists various precincts and their assessed values for 1892 and 1893.

No city in America offers so many attractions to tourists as St. Louis, the financial, commercial and manufacturing metropolis of the west and southwest. Visitors to the World's fair should arrange to spend a few days in that great city before returning to their homes. In its unique development and splendid prosperity St. Louis is a type of American progress and success and should be visited by every seeker after knowledge and entertainment.

GRANTED THE INJUNCTION. City of Omaha Restraint from Making Certain Improvements. The case of Delos W. Beard against the city, brought to restrain the council from ordering the paving of the most of the streets designated in the general paving ordinance, passed during the early days of the season, was passed upon yesterday by Judge Walton, who granted a temporary injunction.

In passing upon the case, the judge said: This is an action brought by the plaintiff against the city to restrain it from making certain improvements by way of paving streets in the city of Omaha, upon the ground that no petition was presented for the formation of improvement districts, and that no petition was presented to the city council asking that the street be paved, and (third) because certain pipe and sewer connections had not been made and other objections set forth in the petition. A restraining order was issued, and the matter now comes up for the issuance or rejection of a temporary injunction. Restraint on the city from making these improvements during the pendency of the litigation.

I have given this matter the best attention possible, owing to my limited time, and have concluded to grant the temporary injunction. It is very clear according to the provisions of the city charter that before any steps can be taken by way of improving the streets or alleys within this improvement district, a petition of a majority of the lot owners shall be presented to the city council. When that is done the improvement may be ordered; but before the ordinance is passed the city council shall select. Now, it being conceded that no petition for the paving of the streets in question was ever presented to the city council, and that being a jurisdictional one, the city council had no authority in law to proceed to order the improvement of the streets in question or award contracts thereunder.

ARE YOU A PREACHER? Did you get up in your pulpit and tell the members of your congregation that "there's a land that is hotter than this?" Did some of the members look skeptical, and wear a "whew!—I don't believe it if you do say so" sort of a look when you told 'em?

ARE YOU A BANKER? Did you tell your depositors that "a run on a bank" was apt to make a man hot, and the only thing to do was to keep cool, no matter what happened—it was more "interesting"?

ARE YOU A GOAL MAN? Does it make you "warm under the collar" to see an ice wagon leaving great big chunks of frozen river at a man's house, when he hasn't paid you for the coal that kept him from freezing last winter?

ARE YOU A MAN? Preacher, Banker, Coal man, Lawyer, Doctor, Traveling man, Laboring man, or any other man? Do you want to look well in warm weather? Did it ever strike you that the man that looked most comfortable looked best these days?

DID IT STRIKE YOU? That the man with a thin coat, russet shoes, negligence shirt, straw hat, and as few other things on as possible, looked much better than the "dressed up" fellow? Did it strike you that there's no place like ours to get these things at moderate prices?

DID IT STRIKE YOU? That our straw hats at a quarter are exactly the same sort of hats that our neighbors get fifty cents for? Did it strike you that the black alpaca coats that we sell for seventy-five cents are usually a dollar and a quarter?

DID IT STRIKE YOU? That we're opening thin coats, and coats and vests, this week, by the thousands? That we carry any and all kinds—alpaca—moirais—serges—brilliantines—flannels—cords—drap d'etes—blacks and colors; regular—extra—and "long" sizes? That a dollar here is a dollar-n-a-half anywhere else?
