### COMMERCIAL AND FINANCIAL

Timely Rains for Spring Wheat Unsettled the Bull Sentiment.

WHEAT AT THE OPENING WAS LOWER

Good Growing Weather and a Stack Ship ping Demand Caused Corn to Decline a Praction-Stocks and Bonds.

CRICAGO, June 27,-People sold wheat today who bought it yesterday. Timely rains for spring wheat unsettled the bull sentiment. At the close July wheat was Mc and September he below yesterday's prices. The good growing weather and a stack shipping demand caused corn to decline to the extent of %c for July and Mc for September. There are some sustaining orders in pork and an advance of about 30c per bbl. Lard and ribs closed with-

Wheat at the opening was about from 4c to Ke lower than yesterday's closing and prices receded from %c to %c more, then ruled stronger and prices advanced from %c to %c, but again ruled weak and prices declined Mc for July and Mc for September, held steady and the closing was from 14c to 14c from the bottom The December future ruled comparatively stronger than the other futures and closed about 15c lower. There were numerous influ-ences which contributed to the decline today. There were reports of cooler weather and rains in the northwest, and one dispatch stated that spring wheat crops were not so badly damaged as had been reported. Cable advices were re-

as had been reported. Cable advices were received which said that there was some improvement in the European crops and that the yield would be larger than expected. Part of the trading today was in the way of closing out July and replacing by taking December, which accounts for the widening out of the premium of the latter future. There were reports of small receipts of new wheat, which affected the market some. St. Louis reported three cars and Baltimore 2,500 bushels.

On the break some of the short sellers began to buy in and gave the market a little show of activity and strength. Then news came from New York that arrangements had been made to import \$2,000,000 in gold from Europe to relieve the money stringency. The effect of this was to create more confidence. But double dullness followed, lasting throughout the remainder of the session.

Corn was easy at the start, first trades being off a fraction, and the market sold down '4c soon afterwards. The action of wheat and the receipts overrunning the estimates had fails tendency. At the decline the demand improved, the impression going around that a prominent trader was picking up a good deal of September having a strengthening influence. Offerings fell off considerably and the price advanced from '5c to 4ge, but the arrivals for tomorrow came in heavy and 440 cars were reported. The price again weakened from '5c to 4ge, but later reacted from '5c to 5ge, but later reacted fr

extent.

Attention was directed to the receipts of hogs at Kansas City and Omaha, which, altogether, amounted to 20,000 head, and that led to the idea that bigger receipts were to be expected here in the near future.

Estimated receipts for tomorrow: Wheat, 135 cars; corn, 440 cars; oats, 210 cars; hogs, 28,000 head.

The leading futures ranged as follows:

Oben	nigh.	LOW.	Gione.

Omaha Produce Market.

There was a general complaint of trade being dull in the produce district. There was no snap to anything and every one appears to be holding back and doing as little business as be holding back and doing as little business as possible.

The butter market was firmer and all offerlings found ready sale. The large receipts which have been anticipated have not materialized and the demand is still in excess of the supply. Nearly all the country butter arriving has to be sold to the packers, as very little of it is in shape by the time it reaches the market to sell direct to the retail trade. Packing stock is bringing more money than it was, as will be noted from the quotations. Butter is, in fact, in the best demand of anything in the line of country produce.

Eggs are coming in more freely than was the case a week ago, but at the same time there is not such a very large supply. There are, however, enough to make those houses having eggs feel a little weak.

The receipts of boultry are light and the demand may be set down as the same. In other words, there is not much poutry on the market and not much is wanted.

There was not much on the market in the shape of berries, but what there was not with ready sale.

The potato market is picking up again after

shape of berries, but what there was ready sale.

The potato market is picking up again after the glut, as the supply is being reduced and there is not so much poor stock on the market as there was a short time ago.

STOCKS AND BONDS.

Securities Opened Feverish and Losses Were Quite Small. YORK, June 27.—The stock market opened feverish and unsettled, but outside of General Electric, which declined 24 per cent to 65%, the losses were confined within a range of % to 1 per cent. The downward movement was soon checked by the placing of buying orders on a liberal score in many of the leading stocks. The fact that the banks did not find it necessary to take out additional clearing house loan certificates and the knowledge that the currency shipments to the west had practically ceased, encouraged the bulls to issume more aggressive tactics.

The shorts were considerably alarmed and the purchases accelerated the upward move-ment. It was reported that \$2,000,000 gold had been engaged in London for shipment to New York and that the directors of the Delaware, Lackawanna & Western at their meeting on Friday would raise the rate of meeting on Friday would raise the rate of quarterly dividends from 1½ to 2 per cent. Both rumors were subsequently denied, but nevertheless the market continued to im-prove, the advance ordered by the eastern and western coal sales agents having a stimulating effect, as did also the statement made by those closely identified with the General Electric Co. that the usual quarterly dividend of 2 per

cent would be declared during the coming

cent would be declared during the coming week.

Improvement in prices was equal to 4% percent in Lackawanna, 4% percent in General Electric, 3% percent in American sugar, 3 percent in Missouri Pacific, 2% percent in the remainder of the list. Late in the afterneon there was a reaction of it to 1% percent, but the decline brought in a fresh batch of baying orders and a partial recovery ensued. Among the specialties American Tobacco broke 3% percent to 53%, recovered to 57 and finally reacted to 56% and 50%. Tennessee Coal and Iron was beavy, selling down to 13%. The market closed firm in tone.

The Post says: One of the features of the day was the further collapse in the price of sliver bullion, which, after a drop of 3c per ounce yesterday, took another sharp plunge today of 4c per ounce, thus making a drop of 7c in the two days and bringing the bullion value of a silver dollar down to a fraction more than 57c. The reported closing of the Indian mints to the free colnage of silver had little marked effect upon the market, although attention was called to the fact that while this country waits to be coerced into repealing the Sherman silver law, by a period of financial distrust and embarrassment, the British government forestailed possible disaster by a repudiation of this country's policy of absorbing a depreciated metal into the currency.

London Financial Review.

[Copyrighted 1833 by James Gordon Bennett.]

London, June 27.—[New York Herald Cable—Special to The Bre.]—Business on the stock exchange was very quiet today owing to the fortnightly settlement, but the volume of business to be arranged was not large and money was easy, only 3½ per cent per annum being charged for the account. In American railways the principal movements were determined by the dearness of sliver, which was quoted today at 35d per oz. Owing to the closing of Indian mints and the fixing of the value of the rupee at 1s and 4d Indian council drafts were allotted delay at over ½d. Rupee paper was strong at 71, but there is an expected advance to 60 or higher as it compares very favorably with sterling Issues. American railways opened dull and became very weak but subsequently recovered to some extent. There was a decided disposition to sell Union Pacific, Denver & Rio Grande, etc., which derive traffic from the silver industry. In the foreign market the feature was the weakness of Mexican government bonds which closed at 68½, otherwise there was no special movement. Home securities were dull.

OMAHA LIVE STOCK MARKETS. Run of Cattle Very Fair for a Tues-

day. TUESDAY, June 27. Receipts for the past two days foot up 4,152 cattle, 12,877 hogs and 1,528 sheep, as compared with 4,377 cattle, 13,851 hogs and 1,278 sheep the first two days of last week. The run of cattle was very fair for a Tues-day and it looked as if prices would go lower. The fire, tone to eastern advices and the ap-parent desire to trade manifested by all classes

of buyers made a fairly steady and tolerably active market. Heavy cattle were in better

than ordinary supply, and with a good demand showed some improvement; in fact, it was possible to realize fully steady prices on any thing in the beef line at all desirable. Ordinary grades, the infinished and shipping stock, sold but indifferently and not infrequently at shaded prices, and toward the close of the market there was a decidedly easier feeling on all grades of steers. Good to choice 1,200 to 1,450-lb. steers sold at from \$4.70 to \$4.90, with rough 1,200 and 1,300-lb. stuff at \$4.40 and \$4.50. Choice 1,126-lb. beeves brought \$4.65 and it was pretty common stock that had to sell at under \$4.35. There was quite a little of it, however, that sellers found it no easy task to dispose of at from \$3.75 to \$4.25. Everything changed hands and in fairly good season.

The cow market was about steady. Receipts were light and the demand ditto. Choice fat 730 and 730-lb. herfers brought \$3.50, and very good range cows sold for \$2.90, while there was a liberal amount of canning stock that \$1.25 to \$2.25 bought. Very fair to choice calves sold at from \$4.25 to \$5.25, or about steady prices, and poor to prime buils, oxen and stags at from \$4.25 to \$5.25, or about steady prices, and poor to prime buils, oxen and stags at from \$4.25 to \$5.25, or about steady prices, and poor to prime buils, oxen and stags at from \$4.25 to \$5.25, or about steady prices, and poor to prime buils, oxen and stags at from \$4.25 to \$5.25, or about steady prices, and poor to prime buils, oxen and stags at from \$4.25 to \$5.25, or about steady prices, and poor to prime buils, oxen and stags at from \$4.25 to \$4, were generally quoted about steady.

There was a fair business done in stockers and foeders, the country demand being somewhat better than usual and the fresh receipts fairly liberal. Prices ruled about steady, cortainly no stronger. A big string of westerns sold for \$2.70, choice natives brought \$3.25 and very common stock \$2.35. Representa tive sales:

Hogs-Most dealers were disappointed at
the size of the receipts today. No one would
have been surprised at 12,000 and few expected less than 10,000. As it was there were
only 8,500 here and a correspondingly light
run at Chicago and a stronger market there.
Sellers were norved to ask higher prices and
buyers who all appeared to have liberal orders
proceeded to fill them at prices 15c higher
than Monday in most cases and not infrequently the advance was even more. The best
hogs weighing all the way from 208 to 297 lbs,
sold as high as \$5.85 and common heavy and
mixed packers sold at \$5.70. For fair to good
hogs of all weights, however, it was practically
a \$5.75 to \$5.50 market nearly everything selling at that figure as against \$5.00 to \$5.65
Mondayand ng at that figure as against \$5.60 to \$5.65 Monday and \$5.85 to \$5.00 on last Tuesday. Representative sales:

Chicago Live Stock Market. Chicago live store Market.

Chicago, June 27.—(Special Telegram to The Bee.)—There was no important change today in prices for any grade of cattle. The quiet usual to Tuesdays prevailed, shippers wanting only a few cattle, but the very moderate proportions of the supply made it easy for salesmen to hold the advantage they gained on Monday. Good natives were strong and other grades were fully steady. Prices ranged from \$1.50 to \$5.70 Rubbish sold at from \$1.50 to \$1.75 and extra 1.550 to 1,700-lb.

steers were quoted at from \$5.40 to \$5.70. There was very little trading, however, below \$2.25 or at better than \$5. Texas cattle of the better class were firm, while thin stock was barely steady. The calf market was abundantly supplied and was weak at from \$2.25 to \$5.50 for poor to choice qualities.

There was continued activity in the hog trade and prices continued to advance. Shippers bought freely and so did the local continuent, and with something like 23,000 hogs less than for Monday another 100 per 100 lbs. was casily added to prices. The best of the offerings fetened from \$6.30 to \$6.35 and only a very little trading was done below \$6.20. But slight discrimination was made between light and heavy weights. If there was any difference it was in favor of the latter, the demand for averages of less than 200 lbs. not being as active as it was but recently. There was an unusually early clearance and the close was firm. There were sales all the way from \$4 to \$5.50 for culls to \$6.35 for extra quality.

The sheep market was a trifle firmer for good natives, the offerings being few. For poor and common truck the situation was even worsa

quality,

The sheep market was a trifle firmer for good natives, the offerings being fow. For poor and common truck the situation was even worse than before. There were no buyers for the latter at any price that holders could name. As low as from \$1.75 to \$2 was named without attracting buyers and several thousand head still lie in the pens. For many days the market for thin sheep has been very bad, and why they should continue to come is unaccountable. The present range of quotations is from \$1.75 to \$2.90 for poor to common, and from \$3 to \$5 for good to extra. This is a wider range of values than is often seen in the sheep market. Spring lambs are quoted at from \$3.75 to \$5.

#### ABOUT PUBLIC WORKS.

Message from the Denver Board on Asphait-Viaduct Plans Ready. The Board of Public Works is in receipt of a congratulatory letter from the Denver Department of Public Works. The Denver board is at present wrestling with the asphalt paving problem, and has solicited the advice of the Omaha board. The following extract is taken from the letter:

This board is unanimously of the opinion that the only way to get asphalt pavement of good quality and fair price is to burst the bubble and realize that the presumption should ble and realize that the presumption should be that nature, so prolific as to other substances, was not so barren as to asphalt, as to confine the only kind fit for use to a small lake on a small island in the tropics. We are now wrestling with an entire new set of asphalt specifications, and are paying particular attention to the guarantee feature.

We expect to let contracts on open competition for six or eight miles of asphalt pavement this year. We are in full touch with yourselves and Mr. Rosewater on the asphalt question and are happy to say that the community is with us. We refused to act on petitions that called for Triniad lake asphalt, as we decided that under the requirements of our lately enacted charter such designation of the source of supply would not permit genuine competiof supply would not permit genuine competi-

Hon. John C. Watsen of Nebraska City has requested the Board of Public Works to give him information regarding the macadamizing of the streets, where block pavement has served its usefulness. Nebraska City has several blocks of wooden pavement that is in

a state of decay, and needs repairing.

Mr. Connell has everything in readiness for the paving problem to go the supreme court and his brief in the case is prepared. He will be accompanied to Lincoln by Councilman Saunders and Frank Rausom. Saunders has other business in the capital city and is has other business in the capital city and is not geing exclusively for the purpose of in-teresting himself in the paving case. The application for a writ of mandamus will be filed this morning, and the Board of Public Works has had served upon it a copy of the application and been cited to appear and make defense.

In view of what Hood's Sarsapari''a ha done for others, is it not reasonable 55 be lieve that it will also be of benefit to you.

### UP FOR THREE YEARS.

An Ex-Omaha Crook Gets a Sentence in

Washington. Mortimer Fox, alias Jacob M. Myers, alias Cohn, a scion of a prominent family of Berkeley, Cal., pleaded guilty in the United States district court at Seattle to the charge of having burglarized the MacDougall & Southwick Co.'s box at the postoffice about a month ago, and was sentenced to three years' imprisonment. He will probably be sent to Detroit, Mich.

Fox commenced his career in San Francisco in 1888 by robbing letter-boxes in rail-ways, and was eventually sent to the house of correction for two years. On being re-leased he began operations in Oakland, securing \$15,000 before he came to Omaha, where San Francisco officers located him He was taken back, indicted by the grand

jury, but set at liberty on some technicality. He then went to Seattle. Fox is the lad, for whom United States marshals awaited at the door of Judge Estelle's court ready to grab him as soon as habeas corpus proceedings were decided in his favor. A big fight between the state and federal authorities took place, the federals finally getting him and taking him to

Fire and Police. The fire and police board has decided

to place the names of the men who were killed or injured in the Shiverick fire on the pay roll for June. Sergeant Shoop and S. S. Drummy were granted leaves of absence. Hereafter the police and firemen's pay roll

READY MADE MUSTARD PLASTERS We were the first manufacturers on this Continent, Our latest improvement surpasses anything ever before produced. 15c., 25c., 25c., per tin. Be sure to have SEABURY'S. Ask for them spread on cotton cloth.

SEABURY'S SULPHUR CANDLES: Prevention is better than ours, by burning these candles bad smells in basements, closets, &c. are destroyed, and thus contarious diseases are kept away; also useful for expelling mos-quitos and irritating insects. Price, 25c. each. HYDRONAPHTHOL PASTILLES,

which in burning, disinfect and produce a fragrance refreshing and invigorating. 25c. per box of 12. Sole Manufacturers, SEABURY & JOHNSON, Pharmaceutical NEW YORK.

will date from the 25th of each month, in- | brings stead of the ist, as heretefore.

The board decided to advertise for bids for engine house quarters for the new engine and water tower in a location between Eleventh and Fifteenth streets and between Howard and Dolge streets. Fire box No. 74, located at Eighteenth and Pierce streets, was reported damaged at the Wakefield fire.

WESTERN PASSANGER TROUBLES

Union Pacific in Hot Water Over Cuts On Pacific Coast Business, The meeting of the Western Passenger association in Chleago yesterday means a very great deal more to roads competing for transcontinental business than appears on

the surface. The Great Northern has practically controlled the situation regarding business for troiled the situation regarding business for north Pacific coast points by its very material cuts in passenger rates from said points to St. Paul. The Northern Pacific has tried to meet the rates made by its new and formidable rival, but with very small success until yesterday, when the latter road announced an all-rail rate from San Francisco to St. Paul of \$45 first class and \$40 second class, being a cut of \$10 in the first class and \$7.90 in the second class.

This cut the railroads in the Western Passenger association are considering today, and should the roads vitally interested decide to meet the rates made by the Great

cide to meet the rates made by the Great Northern it would complicate matters very seriously for Jim Hill's road.

The Union Pacific in this connection is not having a bed of roses by any means, to lie on, and Mr. Lomax is kept guessing as to just what movement his sturdy competitor in the northwest is bear. what movement his sturdy competitor in the northwest is bent upon making next. When the Union Pacific demanded certain rights regarding the long haul from the Missouri river to the northwest it was thought it would be absolutely consistent in conceding the same right to others. But the Union Pacific appearance in the Control of the control of the same right to others. Pacific succeeded in making a contract with the Chicago, St. Paul, Minneapolis & Omaha and, having reached St. Paul, proceeded to swell up with conscious pride to the delight of the Northern Pacific, Great Northern and

other roads in that territory.

It was easy sailing as long as the waters were calm and peaceful, but when the Great corthern people made a wide rent in the rates, then a howl went up, which was heard upon the farthemost shores of Puget Sound. It was a delight to Mr. Hill, and he gave the crank another turn.

Reduced Train Service. Erastus Young in speaking of the charges

made by the press of the state that the Union Pacific had taken off trains because of the maximum freight rate bill, said: "It is the height of foolishness to attribute the withdrawal of trains on the part of the Union Pacific to the maximum rate bill. If the railroads were making money out of the trains it would be suicidal to discontinue them. A comparison, however, with earnings of June, 1892, with June, 1883, will show that freight receipts have fallen 50 per cent, passenger comparison, holding up railroad more earnings alone, holding up railroad prop-erties. People who have time to collate figures regarding the present situation should turn their attention to railroad earn-ings rather than jump to the insane conclusion that the railroads are making a mint of money, while the rest of the country is trying to protect itself against financial panies, etc. The truth of the matter is that con-fidence in the world of finance is lacking. There is just as much money per capita as a year ago, but not so much in circulation, which of course makes times harder. There is no demand for articles raised on the farm, stock is at low ebb, nothing is being bought because of the scarcity of money, and that

## YOUR HEALTH May depend upon the way you treat the warnings which nature gives. A few bottles of S. S. S. taken at the proper time may insure good health for a year or two. Therefore act at once, for it

Treatise on blood and skin diseases mailed rea. SWIFT SPECIFIC CO., Atlanta, Ga.

doubt uncertainty. and Banks have refused discounts and demand a dollar's worth of security for every dollar loaned, so that the whole financial situation is more or less involved. This is the condition as found by the railroad. With nothing moving our only recourse has been to cut down and we have done that wherever possible. All the rail-roads are feeling the present depression and everyone is trying to lessen expenses."

#### UNION PACIFIC TAXES.

Answer in the Company's Injunction to Be Made Next Monday.

Next Monday is answer day in the tem-

porary injunction brought by the Union Pacific to prevent the city council assessing the property of that company within its right-of-way, not returnable to the State Board of Equalization.

The temporary restraining order was issued when the council was holding a session for the purpose of placing the property of the several railway, telegraph and tele-phone companies upon the tax rolls. The Union Pacific was the only company not represented and entering a protest. It went into court, and as a result all proceedings were brought to a close, to await the outcome of the suit for a perpetual injunction, Unless the city was able to secure a dis-solution of the Union Pacific injunction the members of the council argued that it would be useless to make the proposed

would be useless to make the proposed assessment on the other companies. As a result no further action was taken.

Mr. Connell will make answer Monday. He does not hope to secure a full hearing during this term, as Judge Dundy will bring the session to a close within the next few days. He anticipates, however, that early in the September term a full hearing will be granted and that the fact of the matter. granted, and that the fact of the matter being tied up by an injunction will not prejudice the city's right nor chances in making the proposed assessment in case the injunction is dissolved.

Suffering with Hydrophobia.

ADRIAN, Mich., June 27 .- Miss Bertha Burnham of Deerfied, aged 18, is dying of hydrophobia. Two months ago she was bitten in the hand by a stray pug dog, which immediatety disappeared. Saturday, at her father's store, as cash. ier, she paid out \$1,000 for wool. At noon she was seized with convulsions. Doctors give no hope.

the big blundering, old-fashioned pill, probably. And
there's no reason why you
should. You can get better
help, and more of it, with
things that are easier to take
and easier in their ways—Dr.
Pierce's Plensant Pellets.
They're the smallest in size,
and the pleasantest remedy,
all the way through.
In every derangement of the
liver, stomach, or bowels, these

all the way through.

In every derangement of the liver, stomach, or bowels, these tiny Pellets will give you more good. They have a tonic or strengthening effect on the lining membranes of the intestines. This assists and increases the natural action of the bowels, and permanently cures Jaundice, Biliousness, Dizziness, Sour Stomach, Indigestion, and consequent stupor or drowsiness.

For breaking up attacks of Colds, Chills, Fevers, Rheumatism, Neuralgia, and kindred derangements resulting from severe exposure, nothing can equal them.

They're guaranteed to give satisfaction, in every case, or your money is returned. You pay only for the good you get. This is true only of Dr. Pierce's medicines.

What offer could be more business-like!
