Terrid Weather Kept the Traders Out of the Pits Yesterday.

STRONG FEELING IN GRAIN EARLY

Later it Gave Place to Weakness, Followed by a Partial Recovery—Corn Continued Quite Weak to the Close.

CHICAGO, July 14.—The torrid weather here kept traders out of the pits today. In grain there was a strong feeling for a short time at the beginning of the session which gave place to a long spell of weakness, followed by a partial recovery. Corn continued weak to the close, which was a 1/4 cent decline from yesterday's resting figure.

Wheat is 1/4 cent higher for September and 1/8 to 1/4 cent higher for December. Provisions are irregularly lower and rice suffering and 17/16 lower. Lard yielded more being 17/16 lower. Pork is nominally 1/8 down.

The feeling at the opening in wheat was attributed to the fact that cables were slightly better; there was more news of damage both at home and abroad, but there was no exact amount of trading. Mitchell bought some December, but was not very aggressive, while Boyden sold September very freely. It was understood to be for Canada. Firmness at Liverpool gave the bulls here a little advantage near the close. The opening was strong and from 1/4 to 1/2 cent higher than yesterday's closing and advanced from 1/4 to 1/2 cent, then weakened and prices declined 1/4 cent for September and only from 1/4 to 1/2 cent for December, then held steady, and the closing was steady at 1/4 to 1/2 cent under best prices.

Corn at the pit was firm. First trades were at about yesterday's final figure, but the demand was gone, and prices declined mainly by reported dry weather and the price of wheat. The action of wheat also helped to put up corn. The advance was a 1/2 cent increase offering, and the estimated receipts for tomorrow ranging in larger at 600 cars, 1,000 to 1,500 cars, and 2,000 cars, resulting in a 1/2 cent rise. The market later recovered part of its decline. Data was quiet and stronger today, but free of offer of wheat from the top and closed 1/4 cent lower. Trading was almost entirely in September.

Provisions opened fairly steady, but free of offer of about 1/4 cent from the top and closed 1/4 cent lower. Trading was almost entirely in September.

Estimated receipts for tomorrow: Wheat, 600 cars, 1,000 to 1,500 cars, and 2,000 cars, resulting in a 1/2 cent rise. The market later recovered part of its decline.
