NEWS FROM COUNCIL BLUFFS

Return of Madame Pollard to Push Her Libel Suit Against the World-Herald

Twenty Thousand Dollars Asked

That Sum Wanted as Dam for Her Wounded Feeling, Because of the Publication of an Item Reflecting on Her Character

Madame Nathalie Pollard has returned to Council Bluffs. This statement will be read with a great deal of interest by the many people who became acquainted with her in a way a year or two ago through the coupling of her name with that of a young man named A. Z. Bowen, who traveled with her as business manager. Mrs. Pollard has been engaged in her business of lecturing ever since leaving Council Bluffs and her success in getting her name before the public and keeping it there has been hardly less marked than while she was in that city. She achieved a national reputation by having introduced into congress a bill providing for abolishing all divorces in the District of Columbia. The member of congress who introduced it would not father it, but disclaimed any interest in its passage. When it passes congress and the senate and becomes a law it will be owing to the untiring efforts of Mrs. Pollard and her powers of fascinating the men who stand at the wheel of the national government.

Mrs. Pollard stated that her husband had become a Jew and an indication that she overthinks as she does, she points to an overwhelming crop of divorce suits instituted in the District of Columbia since the bill was introduced, the men with anti-marital instincts evidently thinking it a wise plan to lay in a good supply of divorces in view of the import of the bill.

Isolated a Vast Sum of Money. Since leaving Council Bluffs Mrs. Pollard has fallen heir to an almost fabulous amount of money through the sad death of a brother. Her object in returning here is to look after the welfare of the \$30,000 damage suit which she commenced in the United States court in the Bluffs about a year ago against the World-Herald. She has a bill pending for certain damages stated that she appeared in one of the issues of the World-Herald. She says the attorneys whom she engaged when she started have been neglecting their business and she has come back to administer to her own interests by showing them that she still has money. When she leaves Monday she will go directly to Chicago, where she has acquired a reputation for delivering a speech on the subject, "Foot Free in God's Country," on the 16th, before one of the sessions of the woman's congress.

Mrs. Pollard is visiting friends in Petersburg, Ill. He will take in the World's fair before returning.

Rev. T. W. Williams of the Latter Day Saints church has arrived and will occupy the pulpit Sunday.

W. W. Loomis has returned from Chicago. Mrs. Loomis and Mrs. W. F. Sapp are expected home Sunday.

Mrs. E. E. Thomas, who has been visiting her relatives here for several days, returns to her home in Kearney, Neb., today.

Mrs. Thomas and her niece, Miss Alma Pfeiffer, have gone to the World's fair. Mrs. Pfeiffer will follow them in a few days.

F. E. Gilliland leaves today for a trip to Portland, Ore. He will be accompanied by his wife as far as Lake, where she will stop and visit friends until his return.

E. R. Ponda has returned from Gettysburg, Pa., where he went to attend the reunion of the 101st regiment, in view of the fact that he came from longer distance than any other member of the regiment to attend the exercises, and he was awarded a position of honor as the appointed color bearer for the occasion.

OMAHA SEWER IS EMPTYING ITS FILTH INTO THE RIVER.

A matter has just come to light which deserves the immediate attention of the city council of Council Bluffs. A new sewer has recently been built in Omaha, intended to drain a large portion of the northern part of the city. The district it covers is 4,940 acres in size, according to the plans drawn by City Engineer J. M. O'Connell. Omaha, and the main outlet is at Florence, a few miles north of the city. This throws the filth from the entire district into the river at a point above the place where Council Bluffs gets her supply of water.

This state of affairs is one that should not be allowed to exist a day longer than is necessary. The attention of City Physician Macrae has been called to this matter, and he intends to give it his immediate attention. He states that from what he has heard he views the outlet as a breeding place for disease. By requiring the water works company to move its pumping station above Florence this trouble can be done away with, and it is hoped that some action will be taken as soon as the city physician has time in which to make a report.

John W. Lowrey, a farmer residing in Garner township, is missing and his friends are considerably worried over his long absence. He came to Council Bluffs a week ago today and stopped at Neumayer's hotel. During the day he called at the First National bank, where he left some action with his name, remarking while there that he was thinking of starting for a trip to his old home in Scotland on Monday. No trace could be found of him at any of the depots, and it is hardly thought that he can have started on such a trip, for he had made no preparations for it, although he had been talking of it at times for a long while back. Some incline to the theory that his mind was unbalanced as the result of a stroke, which he suffered about a week ago, and that he has wandered off without knowing where he was going.
