HOLDERS WERE ANXIOUS TO UNLOAD

Efforts of Bankers to Force Elevator Stocks on the Market by Withholding Money for Renewals Caused Some Trouble.

Cricago, July 28.-Utter demoralization characterized the wheat market throughout the session, and all previous records for low prices were again broken. There was a veritable panic on the part of the holders of long wheat to get rid of their enermous lead. One firm is reported as paying as high as 315c a bushel to carry over a large line of wheat into September. At one time the price for September was 24c under yesterday's close. The liquidation continued throughout the session, and the market showed little rallying power at

The decision of the banks last night to issue certificates, while it may unloosen considerable money, is generally regarded as a confession that matters are growing no brighter. Another and perhaps the most potent factor of weakness is the fact that banks have really called ina good many wheat loans, and there is a fear that it may become general. There was a rumor that since it has become evident that the elevators do not want to part with their grain, and have refused offers at market prices, the banks have concluded to force them by withholding further aid to this class. It is also stated that many loans are refused renewal for only half the original amount.

In view of this the question of value was hardly a factor in the situation; it was simply a question of money and inability to protect traces and carry the wheat forces on to the bargain counter to be sold at a sacrifice or what it will bring. The situation which forces its sale holds would-be buyers in check, and hence the prevailing depression. Local receipts were 144 cars and the northwest had 211 cars, a marked failing off from the receipts of this time last year. New York reported an active inquiry for wheat for export and some orders were said to be coming from Germany. A more hopeful feeling characterized the trading during the last hour and a reaction of 1c from the low point occurred, but part of this was lost. September opened at 57½c, sold to 64¾c, up to 64½c, down irregularly to 62½c, improved a trille, closing at that figure. July, or cash, which suffered quite as badly as the depressed options, being offered from 65½c down to 58½c, with but little support, recovered to 59¾c at the close. Corn was not only affected by wheat, but the natural influences were also against the market. On the whole, the feeling was heavy and there was a drop of ¼c for Seutember and ½c for May from last night. The receipts were liberal at about 400 cars. This was offset by the out inspection of 387,000 bu. The estimate for Saturday was larger, at 460, cars. The opening was weak on the weather crop report showing good rains over most of the corn belt, and later came the slump in wheat. The support was partly from shorts and partly from buyers against a line of puts sold last night. July was quoted ½c off at 37½c; September sold at 39c and off to 38½c, with a rally to 38½c.

The receipts were marked in oats. hardry a factor in the situation; it was simply a question of money and inability to protect

September sold at 39c and off to 384c, with a raily to 384c.

There was a very narrow market in oats. The market appeared to be firm and independent of other cereals. The July price held, firm around 244c. September lost 4c early at 234c and sold off to 234c, but at 1 o'clock was 134c sellers. Late in the day New York wired that Berlin had buying orders there for oats, as the duty against Russian grain had been increased 50 per cent. This helped to firm the market.

Hog products were weak on free offerings of Hog products were weak on free offerings of ribs and large receipts of logs, the feature being the slump in rlbs, which got no support. Exptember lard sold from \$9.75 to \$9.70; Sep-tember rlbs fell from \$7.50 to \$7.52½. Estimated receipts for tomorrow; Wheat, 126 cars; corn, 460 cars; oats, 185 cars; hogs, 10,000 head. The leading futures ranged as follows:

Omaha Produce Market. BUTTER-The local butter market is dull and weak owing to the unfavorable situation in the east. The New York market is in such condition that shippers can see little to encourage them to buy. Besides being dull and weak in the east the money stringency is lim-iting operations, making it difficult to get money with which to handle shipments. Local packers are talking very weak in consequence. One heavy buyer remarked that he would not pay over 12c for packing stock and, that if any pay over 12c for packing stock and, that if any one else would pay more they could have the butter, as he was not anxious for it even at that price, some buyers, however are still taking 13c. EGGS—Receipts are generally pretty heavy and dealers appear to be anxious, having little confidence in the market. Sales were generally made at 11c with some small lots of carefully selected stock going at 11½c. There were runners that the price was being cut on the quiet to 10½c and in a few instances dealers, in order to hold their trade, met the reported cut.

Live Poultry—The market was devoid of

LIVE POULTRY—The market was devoid of any new features. The supply of spring chickens continues large and the market is weak and rather slow owing to that cause. Spring chickens, per lb., 10%12c; best hens, per lb., 767/1;c; mixed coops, per lb., 6c; old roosters, per lb., 4&5c; turkeys, per lb., 8c; ducks, per lb., 76%. Potatoes—An occasional car of potatoes is being received, but for the most part the local growers are supplying the trade. A few orders for potatoes are coming in from the country, but the number is being rapidly reduced as they are getting home grown stock in most sections sufficient to supply the demand. On orders from the country botatoes are bringing as high as 75%80c.

MELONS—Only a very few watermelons are arriving and the market continues very firm as quoted. It was only a short time ago that watermelons were so plenty and so cheap that commission men were refusing them on the ground that they could not get freight out of them. Now they are selling quickly at \$25 per 100. Cantaloupes are more plenty than they were a few days ago. Cantaloupes, per basket, \$1.0021, 25.

Tomatons—The market is still full of tomatoes and prices are low. Large receipts are anticipated for the next few days. Southern, per 4-basket crate, 75cc2\$1.00; per \(\frac{1}{2} \) box, 50c.

Rerries—The market was very lightly supplied with berries and prices were firm. Blackberries, which have been coming in for a week past in large quantities, were scarcer, and about the only supply was to be found in the hands of local growers. The respherry season is about over. There were a few blueberries on the market, but they have been so high at the market, but they have been so high at the market being receive of from any of the selections are continues very firm. Small. Figures—California fruits of all kinds are low this season, as the canners are not operating to the usual extent and growers are forced to throw their fruit on the market for what it will bring. This market is especially low on California fruits at the present time, as can be seen from a comparison with the price lists sent out from other cities. Wild goose plums are scarce. Plums, wild goose, per 24-ql. crate, \$2.50; Texas pears, per box, \$1.50; Texas peaches, per 4-basket crate, \$1.10\(\frac{1}{2}\), 1.50; California plums, large and fancy, \$2; California peaches, traie's early, \$1.15; early Crawford, \$1.20\(\frac{1}{2}\), 40.

New Crop Louisiana Rice.

A telegram from New Orleans states Messes, Dan Talmage's Sons & Co. are in receipt of first of the new crop rice. The lot, six sacks, is simply a sample of "hand cut" from a planter friend seeking glory rather than gain. It is well cured and of line quality and as a "straw" indicative that the crop of the river parishes is full of promise. Some paris of the state complain of limited rainfall, but in the main Louisiana rice crop is about as at an equal date last season and the outcome will probably be the same, i. e., 7,500,000 bu. The general harvest will begin carly next month, but shibments can scarcely be liberal before middle of September. New Crop Louisiana Rice.

Securities Opened with Quite a Sharp Ad-New York, July 28.—The stock market opened with a sharp advance in prices, partly in sympathy with the improvement at London and continued high prices for foreign and domestic accounts. The rise was equal to \22 per cent in many instances, but was subsequently lost under sales to realize profits, as well as offerings by the room traders, who seem loth to desert the short side. The only real sensation of the day was furnished by General Electric, which broke during the afternoon 314 per cent, a decline of 1414 points from the opening figures. All sorts of rumors were in circulation to account for the break, it being said that the dividend payable August 1 would be withheld from the stockgust 1 would be withheld from the stockholders and the money applied to the liquidation of pressing liabilities; also that an application for the appointment of a receiver for
the company was to be made immediately.

The directors held a protracted session and
it was officially announced long after the close
that it had been decided to offer certain securties in the company's treasury to the stockholders for the purpose of liquidating the
floating debt of \$4,000,000. Seventy per cent
of this amount has already been taken by
friends of the company. The sharp break in
General Electric, while it led to rumors of
probable failures, did not occasion any alarm
among holders of other securities and although the market yielded, as a matter of
course, the decline outside of a few instances
was by no means heavy. Sugar fell off 4½ per
cent. Big Four and Manhattan 4 to 4½ per
cent, and the rest of the list 1 to 3½ per cent.
There was comparatively little excitement
and in the later transactions General Electric
ralled 5 per cent and other stocks ½ to 2½
per cent. The feet that delivery hour ways

and in the later transactions General Electric rallied 5 per cent and other stocks \(\) to 2\(\) to 2\(\) per cent. The fact that delivery hour passed without any suspension on the Exchange imparted a little more confidence to operators, as did also the decidedly easier rates for money on call.

The Post says: As was foreshadowed yesterday the huge reservoir of gold in the Bank of England has been tapped at last and at least \(\) 2.000,000 will be shipped to New York tomorrow. On both sides of the water this operation is described as a special transaction, which simply means that the banks require only a low and unaltered rate of interest on the money involved during the period of transit. A similiar arrangement, very much more favorable to the shippers, served a year or two ago the purpose of the French importers of American specie, the present depression of sterling being accomplished through the sale of grain futures exactly as the market of that year was sustained through level. the sale of grain futures exactly as the market of that year was sustained through the reverse transaction. Whether the large local issue of loan certificates today and yesterday have or have not any connection with the gold transaction is immaterial. The further trengthening of the bank resources was advisable for numerous reasons, of which the accommodation of gold importers was unquestionably one. The collateral arrangements to import and carry blocks of American securities to London against this shipment of specie is perhaps somewhat unusual, but in existing circumstances it is very wise.

London, July 28.—[New York Herald Cable—Special to The Ber.]—There is a great change for the better here owing to the unexpected ease with which the settlement was concluded today. Four failures were reported, but all are small, indeed insignificant, and although some checks were returned tonight and one or two small dealers may yet go down the general belief is that the worst is over, and the prospects are now brighter. Prices all close decidedly higher, although American railways finished below the best, and if, as is probable, investment buying begins there will be a sharp advance, as bears are in it up to their chins. Yankees all marked a big advance, the feature ocing a rise of 5½ per cent in Lake Shores to 1195. Milwaukees, Denvers, Eries, Louisvilles, New York Centrals, Pennsylvanias, Union Pacifics and Wabash issues were all very strong, at an advance of from 2 to 4 per cent. Den-

ver preferred closed at 29%. Eric preference 23%, and mortgage 62%. Norfolk preferred 21%, and walsan B debenture 22%. Home securities been versually firmer, but there was no special feature. There was a sharp rise in foreigners. South Americal Issues and Mexicans leading, share is unchanged, at 32% of the great lines, was no good, only 4% per cent. At the bank £183,000 was withdrawn, but it had no influence.

London, July 28.-5 p. m.-Prices at the close showed a decided rally, primarily owing to advices from New York. Operators here, however, were unable to respond as cheerily as usual to the reflef given the market owing to the settlement, though buying was general all around. OMAHA LIVE STOCK MARKETS.

Cattle Prices Firm to Higher-Hogs Take Another Slump. FRIDAY, July 28.

Receipts so far this week foot up 6,300 cattle, 25,000 hogs and 1,154 sheep, as against 8,343 cattle, 18,888 hogs and 2,396 sheep the corresponding five days last week. On account of the continued light supplies of cattle the market today took a sharp turn for the better and fair to good beef cattle showed all of a 10c advance. Buying orders were not all urgent, but with less than a thousand cattle on sale and a comparatively small proportion of them fit for beef buyers had to do some rustling and this gave the market more show of life than it has exhibited for nearly two weeks. There were some right good cattle here. Several loads of fat 1,236 to 1,307-1b. beeves went at from \$4.35 to \$4.50 and very good 1,026 to 1,113-lb. steers brought from \$4.20 to \$4.30. Half-fat and shortfed stock sold at from \$8.25 to \$3.85 and a bunch of good 1,218-lb. Wyoming grassers brought \$3.50. Under the circumstances the light supply was not long in changing hands.

The proportion of cows and mixed stock was even smaller than usual and with very few western grassers to make up the supply of butchers and canners' stock buyers picked them up briskly at prices 10c to 15c higher than Thursday. Poor to very good cows and heifers sold at from \$1.25 to \$2.65, the bulk around \$1.95 to \$2.40. Calves at \$4 were fully steady and bulls, oxen and stags at \$1.50 to \$3.50 were not quotably different.

The feeder trade was active, with prices unevenly higher, 25c to 50c higher than ten days ago. Fair to good stock sold largely at \$2.80 to \$3.20. Good to choice feeders are quotable at \$2.75 &3.25; fair to good at \$2.50 &2.75 and common stuff at \$2.00 &2.50. Representative sales; ket more show of life than it has exhibited for

WYOMING CATTLE. 46 steers. Hoss-Including holdovers there were not over 3,500 hogs on sale, but the feeling was bearish from the start and prices averaged fully 20c lower than Thursday and 50c lower than the first of the week. Chicago Live Stock Market.

Chicago, July 28.—[Special Telegram to The Bee.]—There was about the usual Friday's run of cattle, the estimate being 7,500 head. That supply was equal to the needs of the trade, there being but little activity in the demand from any source. Exporters wanted a few and there was a fair inquiry from eastern and local buyers. Competition, therefore, was sufficient to hold up prices, though the prevalent feeling was not by any means buoyant. Anything good enough to send forward was taken at fully steady prices, and the poorer grades did not sell appreciably lower. It is impossible to describe the condition of the hog market, so atterly demoralized was the trade. Such grades as sold at from \$6.05 Tuesday, at from \$5.90 to \$5.75 at the opening of business yesterday were not wanted today at from \$5.35 to \$5.40. There were a few trades at those figures, but buyers insisted upon getting good heavy logs at from \$5.20 to \$5.25 and the day's work was done on that basis. Heavy hogs were from 30c to 35c lower than at yesterday's opening and from 60c to 70c lower than on Tuesday. One might suppose the demand would have been stimulated by so great a reduction but such was not the case. Trade was lifeless and holders were forced to carry over several thousand hogs, though the fresh and stale receipts combined did not exceed 33,000 head, Sales of droves averaging over 200 lbs, were principally at from \$5.15 to \$5.30, and from \$5.60 to \$5.75 were the popular prices for lighter weights. There were many sales below \$5.15 and a very few at from \$5.35 to \$5.45 for heavy and at from \$5.90 to \$5.85 for light.
