Operators in the Corn Pit Attracted General Attention Yesterday.

NOT CONFINED TO THE LOCAL TRADE

Wheat at the Opening Was Easy and a Fraction Lower-Uncertainty in Regard to the Financial Situation the Cause.

Cuicago, Aug. 9 .- The corn pit was the center of interest most of the time. Wheat was largely a side issue. The government weekly crop builetin showed serious damage to corn in many states by drouth and reports from the country were more emphatic than before, regarding the imminence of a great disaster to the crop. There was some weakness near the close on a report that rain was falling in Nebraska. Compared with last night, May corn left off Ic higher. Wheat was from he to he down. Pork and ribs are each up toe and lard 40c. 'ransactions in corn were not confined so much as of late to the local trade, the outside Interest Increasing and buying orders were numerous. The government weekly weather crop bulletin demonstrated that the past week was a hard one, inflicting more damage than any previous. Today there were scattering showers through Colorado and the extreme southwest, it being hot and dry elsewhere, and private advices reported considerable injury in Nebraska and other leading corn-raising states, which a short time back promised an immense yield. The money situation is in such shape that the cash trade is greatly curtailed, and has a dampening effect on the near futures, exchange cutting considerable of a figure.

The market opened at yesterday's closing figures, and under urgent demand from shorts advanced from 1c to 11c for September, and 154c for May, working back respectively from \$6c to \$6c and \$4c and at the close the former was up from \$4c to \$4c and the latter from 1c to 15c. Receipts were light, and estimates for tommorrow are also very moderate. wheat at the opening was easy and from

See to See lower, then improved, prices for September advancing 1c, and December from le to 1 ke, eased off again, and the closing was about ke lower for September, and ke lower for December than the closing figure of yesterday. The lower opening was a continuation of yesterday's weakness and the uncertainty in regard to the financial situation. The reported suspension of a New York bank may also have had some effect, but there was a fair demand at the decline. Shorts bought some, and there was buying from other sources on a moderate scale, influ by good clearances from the seaboard and rather unfavorable crop news. Operators also expect that the government monthly report will be "bullish." The weekly report said that the drouth was affecting the crop in Minnesota, that the spring wheat crop in Wisconsin was light and North Dakota suftering for rain. There was \$2,300,000 more gold taken in Europe for America. Cable advices were of an unfavorable tone, but presumably a reflection of the American

Oats showed a better trade and a strong feeling due to sympathy with corn and also to crop reports being rather unfavorable. The feature was the strength and advance of Ye in May, while September advanced 3/c. The bulge brought out liberal selling and prices reacted from 5/c to 5/c, and the mar-

ket closed steady.

The provision market was very firm on a very moderate amount of business. The firmness was more the result of the small offerings than of the extent of the buying orders. The hog receipts, as reported from the yards, were only 9,000 head, instead of the 18,000 which had been expected. Some buying, led by Armour & Co., caused some shorts to cover. Lard was the most active article on the list. On the advance there mas some long pork sold out, which was said to be the cleaning up of a line which was only partially liquidated on the slump a week ago. There was no improvement in the demand

for vessel room and rates remained easy at the asked for wheat and le for corn to Buffalo. Estimated receipts for tomorrow: Wheat,115 cars; corn, 270 cars; oats, 210 cars; hogs, 15,000 head.

The leading futures ranged as follows:

Omaha Produce Market.

BUTTER-Fancy creameries, solid packed, 19c; fair to good creameries, solid packed, 10@15c; choice to fancy country, 14@15c; fair to good country, 12@13c; packing stock, fresh, 11c.

Edds-The market is practically steady and there is not much life to the trade. The receipts are not large, but they are sufficient to supply the trade. The bulk of the sales are reported at 104@11c.

Live Poultruy-The receipts for a few days back have not been so large and the market has been well cleaned up most of the time. Prices have not advanced but stocks move more readily than they did and the market is upon the whole, in a more satisfactory condition. Some choice young ducks were received and brought 10c; choice old hens, 75@8c; old roosters, 42.5c; spring chickens, 10@11c.

11c.
POTATOES—There is very little doing in potatoes and very few find their way into the hands of the commission men at the present time. The local growers do not appear to be bringing in as many as they were, but still there are enough to supply the local retail trade. On orders from the country they are worth at least 65270c.

worth at least 65@70c.

UALIFORNIA FRUITS—A good many cling stone peaches are coming from California at this season and there is also a good supply of early Crawford peaches, per box, \$1.25@1.35; Bartlett pears, per box, \$2.10@2.25; plums, per box, \$1.50@2.00; nectarines, per box, \$1.50.

GRAPIS—So far this season there have not been very many grapes in from California.

GRAFES—So far this season there have not been very many grapes in from California. A car of Southern Illinois grapes has been received from the section of the country where it is saidthe crop is very short. California, per case, \$2; Illinois, per 9-lb basket, 40g500c.

MELONS—The supply of watermelons is larger than it was a few days ago, but still there are not enough to reduce prices very much. Good watermelons are selling all the way from \$18 to \$25 per 100. Jem cantaloupes, baskets, \$1.50; short crates, \$2; long crates, \$2,50.

82.50.

Bennus-There are still a few blackberries coming and some blueberries. Blackberries per 24-qt case, \$3.00@3.25; blueberries, per a-qt. case, \$1.

APPLES-No apples to amount to anything are being shipped in, but the supply of home grown stock is liberal. Choice Duchess, per bid., \$3.00@3.25; common varieties, \$2.00@2.250.

CARRAGE-The business in shipping cabbage to the country appears to be about over. Decasional orders are received and filled at CELERY-Stray shipments are arriving and

the quality of the stock is pronounced good for this season of the year. Celery, per doz. bunches, 30%35c. Onions-Home grown stock is plenty at 1% ©2c per lb. on orders from the country. Tomatoes—Illinois stock, per4-basket crate.

TOMATOES—Illinois stock, per 4-basket crate, 75@80c.

TROPICAL FRUITS.
LEMONS—The steady warm weather produces a very fair demand for lemons and all houses are doing a good steady business in them. Messinas, extra fancy, \$6.0026.50; Messinas, per box, cholee to fancy, \$5.0026.50; Messinas, per bunch, small to nedium, \$2.006.225.

HIDES—No. 1 green hides, 224c; No. 2 green hides, 2c; No. 1 green salted hides, 2c; No. 1 green salted hides, 2c; No. 1 green salted hides, 25 lbs. to 40 lbs., 3c; No. 2 green salted hides, 25 lbs. to 40 lbs., 3c; No. 2 green salted hides, 25 lbs. to 40 lbs., 3c; No. 2 green salted hides, 4c; No. 1 dry salted hides, 5c. Part cured hides, 4c; No. 1 dry salted hides, 5c. Part cured hides \$6 per lb. less than fully cured. Siege Pet Best han fully cured. Siege Pet B ain wool pelts, per 10., actual weight, 7@9e; fry pieces and bucks, actual weight, 5@7c. TALLOW AND GREASE—Tallow, No. 1, 3%c; tallow, No. 2, 3c; grease, white A, 3\(\frac{1}{2}\)c; grease, white B, 3c; grease, yellow, 2\(\frac{1}{2}\)c; grease, dark, 2\(\frac{1}{2}\)c; grease, yellow, eqo swax, prime, 16\(\frac{1}{2}\)25c; rough tallow, 2\(\frac{1}{2}\)6\(\frac{1}{2}\)6.

Manchester Commercial Review. Manchester Commercial Review.

Manchester Lommercial Review.

Manchester R. Aug. 9.—The Guardian, in its commercial article, says: Much business was executed for China. The advance in the price of silver encouraged a considerable number of purchases of sacctings, shirtings and drillings. A slight advance on the lowest prices was sametimes obtained. Indian advices were quieter and prices showed a lower tendency. Printing cloths were neglected. Yarns were weaker. Reports from the United States make buyers cautious.

New York Dry G ods Market. New York Dry Goods Market.

New York Aug. 9.—New business was very flat in dry goods; demand being at a standstill awaiting developments. The tone of the market was not a despondent one however, the feeling being that as soon as confidence was restored there would be a quick revival of trade. The details of transactions were not worthy of note.

New York. Aug. 8.—Ontions opened dull, unenanged to 10 points down; closed steady 20 to 45 points down; sales, 17,000 bags, including August \$14,90£15.00; September, \$15; October, \$14.95£15.00; December, \$14.75£14.95; March, \$14.25£14.60; May, \$14. Spot Rio, dull, nominal; No. 7, \$16.

STOCKS AND BONDS.

Weakness Throughout the Day. New York, Aug. 9.-The dealings were characterized by weakness during a to protest.

recovery. The transactions aggregated 249,176 shares, including 39,187 unlisted. Speculation left off strong in tone with

of money now rolling in upon New York will ease the situation is one of the problems of the market. The fortnight beginning with last Saturday will have added to our stock of imported gold upwards of \$20,000.000. Not less than \$10,000,000 more will come for new bank circulation. The gold must continue to flow in from Europe as long as the local premium exists; for a bid of 1 per cent, it should be remembered, offsets a rise of fully 4c above the par of sterling exchange. Today \$2,500,000 more is engaged in London. The Bank of England, to meet the American demand, is drawing now on the Bank of France's gold—a very natural recourse, since the French bank held today \$69,000,000 more than its business needs required two years

What then is to become of this new money when it reaches us? It has not yet eased perceptibly the lime loan market. Wall street today predicts that it, too, will be hoarded and the dismal prediction may come true in part if congress does not act. Some of the gold will certainly go into the saving banks, some to the interior banking centers, which in contradiction of all pre vious examples are now buying specie by direct and personal representatives in Lon-don. But this cannot use the whole imported stock and in any case even such disposition of the money will ease the strain on the larger centers of capital. In short, the movement amounts to a currency expansion of \$30,000,000 in a fortnight. The following are the closing quotations on the leading stocks on the New York

Dealings Yesterday Were Characterized by greater part of the day and in some instances sharp declines were recorded. The bears were unusually aggressive, having been encouraged in their operations by the closing of the Madison Square bank, the continued high premiums paid for currency and gold and rumors afterwards denied. that the General Electric's paper had gone

On the other hand, there was little or no support from any quarter. The heaviest desupport from any quarter. The heaviest de-clines were 5½ per cent in General Electric, 3½ in Chicago Gas, 3½ in Western Union, 3½ Burlington, 2¼ in Sugar, 2 in Lacka-wanna and 1½ in Manhattan and Rock Island. The offerings were not particularly heavy and the losses resulted chiefly from the lack of supporting orders. As on yes-terday the selling of the long account was terday the selling of the long account was comparatively light, a fact which made itself felt during the last hour of business, when the whole market took on strength and advanced anywhere from 1 to 4 points. Sugar and General Electric led the upward movement, the latter on the announcement that the friends of the company had provided the \$4,000,000 necessary to liquidate the floating debt. When the bears attempted to cover they found the supply of stocks much smaller than expected, and the result was a regular scramble to purchase near the close. The heavy influx of gold was not without its influence in stimulating the late

quotations in a number of instances above those of yesterday. The Post says: How far the new supply

OMAHA LIVE STOCK MARKETS. Light Receipts Cause a Stronger Market and Sharp Advance in Prices.

WEDNESDAY, Aug. 9. These are days of wild markets and almost equally wild receipts. The one causes the other. Receipts of all kinds today were very limited. Receipts for the past three days foot up 3,750 cattle, 9,703 hogs and 4,240 sheep, against \$,231 cattle, 10,205 hogs and 1,786 sheep for the first three days of last

The supply of cattle was small but made up almost entirely of natives more or less cornfed. There was a better tone to east-ern advices and, as there has been a shortage in supplies so far this week compared with last of nearly 5,000 cattle, the dressed beef men were in the market for business. Competition was good on all useful grades and the market was active and from 10c to 20c higher than Tuesday. Really choice cattle were as conspicuously absent as the inferior grassy grades, but fair to very good steers weighing from 900 to 1,300 lbs. changed hands readily at from \$3.35 to \$4, and by the middle of the forenoon trading

Cow stuff was in very limited supply and found a ready sale at prices a dime higher than Tuesday and a quarter higher than at the close of last week. Extreme sales of common to good cows and beifers were at from \$1.25 to \$2.35. Veal calves were steady at around \$3.75 and \$4, and bulls were in poor demand and weak at \$1.25 to \$2.25. The feeder trade was quiet and dull with prices steady on good to a shade easier on common stuff. Good to choice feeders are quotable at from \$2.70 to \$3, fair to good at from \$2.50 to \$1.70 and common stuff at from \$2 to \$2.50. Representative sales:

No. Av. Pr. 1 cow.1290 2 20 4 fd's. 842 2 35 16 cows, 971 2 20 Hogs-There was another sharp upturn in hog values today. Receipts were almost ridiculously light, but 36 cars, and as eastern markets were better, and all classes of buyers were in the field for supplies, trade was brisk from the start, with prices from 15c to 25c higher than the very strong close of the market Tuesday. Light and butcher weight hogs and an occasional heavy load that was choice sold at \$4.95 and \$5, with a load of prime 199-1b, pigs at \$5.05. Ordinary heavy and mixed racking grades sold largely at \$4.80 and \$4.90, and rough porkers and throwouts scattering down to \$4.70. The tone of the market was very bullish, and with very active trading the meager offerings had all passed over the scales shortly-after 9 o'clock. Trading was very largely at from \$4.90 to \$5, against \$4.55 to \$4.65 Tues lay and \$4 to \$4 10 on last Wednesdar, Today sads vance places the market back where it wa

Bre 1—There was a smart advance this morning in prices of cattle. The shipping demand was more active than for several days past, and as local buyers wanted some cattle there was a show of competition that in these days is altogether unusual. Prices for such grades as are good enough to send east on the hoof went up from 15c to 25c per 100 lbs, and there was an advance in other descriptions of from 10c to 15c. Toward noon the demand became less spirited and prices fell back about 10c, the market closing from steady to 15c higher than yesterday. The advance was brought about by the continued small receipts, the fresh arrivals amounting to about 9,000 head, and the total for the expired part of the week but slightly exceeding 25,000 head. Sales were largely at from \$1.75 to \$2.75. for native cows and buils and at from \$3.75 to \$4.65 for steers, while sales of Texans were principally at from \$1.60 to \$1.90 for cows and at from \$2.05 \$2.75 for steers. Western rangers were in limited supply at from \$1.75 to \$4.25.

Today's receipts of hogs were limited to 9,000 head and there were no more than 2,000 stale offerings. The arrivals since Saturday scarcely exceed 29,000, which is less than half the number recorded for the same time last week. Naturally the market made a further gain in strength. It was easily 15c higher than on yesterday, choice heavy grades solling up to from \$5.70 was puild for light. Shippers took about their usual proportion of receipts and there was a disposition on the part of local packers to secure bots. The cumpetition was not brisk, but the hogs were soon all out of selers' hands and the inter feeling was 10 t less firm than that prevalent early in the day. The quality was excelient and only a very small part of the supply sold below \$5.25 for heavy and medium weights and from \$5.35 to \$5.50 for lays was defended at from \$2.75 to \$5.50 for poor to choice.

There were enough sheep today to fully satisfy the demand, which was chiefly confined to meeting the wants of 5cal sinushterers. Shippers r BEE ]-There was a smart advance this morn-

Probability that Omaha Will Eventually Own Its Water Supply. There is a possibility that the city of Omaha may become the owner of its own water works plant. Such a movement is on foot and it will bob up serenely before the city officials one of these days. The plan as outlined by one of the progressive and pushing members of the council is for the city to acquire the property of the American Water Works company.

It is well known that a faction of the stockholders of the American Water Works company of New Jersey is dissatisfied and is moving for a new company to be organized, to be known as the Omaha Water Works company, which shall acquire the Omaha plant in accordance with the plan and agree-ment settled upon. It is the intention of the new company to create an authorized issue of \$6,000,000 ten and twenty year 5 per cent gold bonds, \$1,100,000 of 6 per cent non-cumulative preferred stock, with a priority of lien over the common stock and \$5,000,000 of common stock. It is proposed to issue the new 5 per cent bonds as follows: Two million two hundred thousand dollars to take up at 110. \$1.600,000 the American Water Works company 6 per cent bonds and \$400,000 City Water Works company of Omaha 6 per cent bonds. Two million dollars to take up at par, \$2,000,000 the American Water Works 5 per cent bonds, \$550,000 to take up the present outstanding coupons, floating debt incurred on account of the Omaha plant, reorganization expenses and compensation to the committee. One million two hundred and fifty thousand dollars to remain in trust for future improvements and for interest account during the time required to obtain title to the property. The bond-holders are also to have a bonus of 40 per cent in the common stock.

The scheme to acquire the property is by

forcelosure proceedings on the mortgage representing the \$3,600,000 of outstanding bonds made by the American Water Works company of Illinois the corporation which owned the Omaha property prior to the transfer to the New Jersey company. There are now outstanding unpaid about \$152,500 of past due coupons, and on the 1st of July. 1893, there matured \$98,000, and on August 2,

When this new company, the deal for organization of which is being so cleverly planned and accomplished, secures the plant in this city the intention at that time is to unload it upon the city at an enormous profit. Under the provisions of the city charter the city can acquire and operate either water works, electric light or gas plants. The fran-chise of the American Water Works company in this city expires July 20, 1905, and the new company hopes in the meantime to unload on the city.

When the foreclosure of the mortgage re-ferred to is made and the plant is placed under the auctioneer's hammer, the new company will probably find a competitor in the person of the city of Omaha. The member of the council who has given this matter much earnest thought and attention says that the time is at hand for the city of Omaha to own its own plant. He believes that when the foreclosure proceedings come that the city should be prepared to step in and purchase the plant at a reasonable figure. He has ascertained that the annual revenue of the Omana plant is nearly \$175,-000, of which the city government pays in 000, of which the city government pays the neighborhood of \$80,000 for hydrancs.

DEPOT FOR INDIAN SUPPLIES. Commercial Club Takes Prompt Action to Secure the Location in Omaha. The desultory talks of locating a depot for

Indian supplies in this city, originated in Washington by Mr. Tobias Castor, took definite shape Tuesday when the Commercial club began a systematic hunt for the new depot, now located in Chicago. At a largely attended meeting it was decided to forward to the Nebraska senators and representatives in congress and Secre tary Morton a letter setting forth the ad-

vantages which Omaha had over Chicago in the matter of such a depot, and the following letter was ordered sent to the above mentioned gentlemen: Dear Sir—The membership of the Commer-ial club of Omaha includes 600 business men of this city.

A well attended meeting of the club was held today to consider the best course to pursue to induce the location of the depot of Indian supplies in this city instead of Chicago, its present location. The following is the sense of the meeting as expressed:

That the subject be placed before our members of congress, now in Washington, and their immediate and earnest action be requested in

ediate and earnest action be requested in

bers of congress, now in Washington, and their immediate and earnest action be requested in our behalf.

The location of this depot at Omaha would be of vast benefit to the state of Nebraska and this city; it would result in the disbursement of large sums of money for purchase of grain, seeds, implements, meats, flour and general merchandise.

It is to be considered, in connection with the meat supply, that Omaha is the third packing point in the United States; also that several flouring mills are located at points in Nebraska, on the railroads between Omaha and the reservations.

And that Omaha did a jobbing business of \$80,000,000 in 1892 and has complete representation in all classes of jobbing trade, and sells goods at Chicago prices.

That the railroads running to the Indian reservations from Omaha are land grant reads, with which the government has contracts guaranteeing low? transportation charges; they are the Union Pacific, Burlington and Missouri River and Fremont, Eikhorn & Missouri Valley railways, comprising 15,000 miles of road extending west and northwest, with headquarters at Omaha and their short direct lines diverge from this city.

This is the only point where these roads all concentrate, and they make the distance 200 miles less than Missouri river points below Omaha, and 500 miles less than Chicago, to the reservations to be reached.

This makes the difference from two to five days less in time on shipments in transit; it is assumed that dispatch in forwarding supplies is advantageous and in this respect Omaha excels all possible competitors.

It would seem that all the requisites necessary in securing the location are favorable to Omaha; cost of supplies, cost of transporta-

It would seem that all the requisites necessary in securing the location are favorable to Onaha; cost of supplies, cost of transportation, cost of rentals, or grounds and buildings, and their maintenance and direct lines of railiway, guaranteeing quick transit of shipments. We learn that Commissioner Armstrong thints well of our advantages, feneral Brooke says that Onaha is without question superior to all other points for location of this depot, and we hope that the government may be prevailed upon to recognize our advantages and locate the base of supplies in our city.

That the good work was not permitted to But the good work was not permitted to stop there, a petition to Secretary of the Interior Hoke Smith being prepared along the lines of the letter, which was signed by

the lines of the letter, which was signed by all the bank presidents in the city, all the wholesalers, jobbers and manufacturers' agents, calling upon the secretary to give Omaha favorable consideration.

Eighty signatures were attached to the petition, representative in character, and with the appeal to the members of congress Commissioner Utt hopes for definite action. Speaking of the matter the commissioner said that \$15,000,000 were disbursed annually by the department for Indian supplies, 40 said that \$15,000,000 were disbursed annually by the department for Indian supplies, 40 per cent of which would be spent here in Omaha if a depot could be located in this city, "and naturally our jobbers, wholesalers and others would be in a position to benefit by the removal from Chicago. Lincoln people usually get the contracts for supplies for the penitentiary and insone asylum because they are on the grounds. If a depot was located in Omaha our wholesalers would have an opportunity to get on the ground floor if they so desired. It would be a big thing for Omaha if we could secure the location of this depot here."

A dozen raw with a bottle of Cook's Extra Dry Imperial Champagne is an after theater thought.

IRON WORKS.

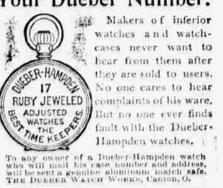

A visit to this spot, which is now a national cemetery, is extremerly interesting. Here seventeen years ago General Custer and five companies of the Seventh United States cavatry, numbering over 200 officers and men, were cut to pieces by the Sioux Indians and allied tribes under Sitting Bull. The battlefield, the valley of the Little Big Horn, located some forty odd miles south of Custer, Mont., a station on the Northern Pacific railroad, can be easily reached by stage. If you will write Charles S. Fee, St. Paul, Minn., inclosing 4 cents in postage, he will send you a handsomely illustrated 100 page book, free of charge, in which you will find a graphic account of the sad catastrophe which overtook the brave Custer and his followers in the valley of the Little Big Horn in June, '76.
