the cattle and before noon nearly all of

beeves went at from \$3.90 to \$4.40 and fair

to very good 950 to 1,200 lb. steers brought from \$3.25 to \$4. Offerings included several

loads of pretty good western cattle, and these sold mostly at \$3.15. The feeling was

firm and trading brisk, but under it all there was a sentiment that a heavy run would cause a bad break in prices and

country shippers were generally cautioned

accordingly.

The cow market was stronger as a rule

very dull and weak, with sales at \$1,35 to

feeder market. Everytning was on a limited

scale. Both supply and demand were light. The feeling was nominally steady, but there is not much confidence except in the best

Hogs-There was another sharp advance in hog values. The big break of a week ago has been recovered, and prices are back very

nearly where they were two weeks ago. The supply was only moderate, considerably lighter than expected, and with eastern mar-

Everything on 'Change Showed Strength Yesterday and Closed Higher.

CORN OPENED AT A FRACTIONAL ADVANCE

Receipts of Hogs Were Again Small and Packing in the West for the Week Showed a Heavy Falling Off.

Chicago, Aug. 10 .- Everything on 'change showed strength today and closed at an advance. Wheat is nearly to better; corn and oats, notwithstanding reports that the big drouth had been broken, gained 14c each. Provisions, despite yellow fever at Pensacola, had very few soft spots, and closed 20c higher for lard, 15c for pork and 10c for ribs.

A dispatch from New York said that only \$18,000,000 of clearing house certificates issued had really been used and this amount can easily be retired by gold from Europe or by the adoltional currency now being taken out by the banks.

Wheat opened Me higher than yesterday's closing figures, declined from 3gc to 3gc, advanced %c, held fairly steady and closed about Me to le higher than yesterday.

Corn at the opening showed from be %c advance, but soon reacted on reports that it was then raining in several parts of the corn belt, principally at Omaha and Sioux City, and the prospects were of the rain becoming general at many other points. The price worked back a full cent from the opening figures, afterward rallying %c, changed somewhat and at the close gained a fraction. Oats opened from \(\) to \(\) c higher in sympathy with corn, receded \(\) c, rallied \(\) c, but closed about the same as yesterday.

Receipts of hogs were again small and packing in the west for the week amounted to only 120,000 head, against 205,000 for the corresponding week last year. Much of today's strength in products, however, had Its basis in good cash demand for lard and on the advance in London of 2s per cwt. Business in ribs and pork was light.

Freights were slow and rates were steady at he for wheat and le for corn to Buffalo and lee for oats to Port Huron. Kingston room was dull and lower at 23/c for wheat. Estimated receipts for tomorrow: Wheat, 95 corn, 250 cars; oats, 200 cars; hogs, The leading futures ranged as follows:

New York Dry Goods Market New York Dry Goods Market

New York, Aug. 10.—In spite of the uncertainty felt as to current national legislation the situation in the dry goods trade seems more hopeful. The fall trade has begun with jobbers and there is less disposition to regard the future as dark. Some of the cheaper grade of goods are in better request, as those are moving freest with the jobbers also. The worst is believed to be over.

Wool Market. Boston, Aug. 10.—The wool trade closed duli and featureless. The low prices don't attract buyers. Fleece wools are very dull. Un-mashed and unmerchantable fleeces, 15g20; as to quality. Unwashed, 18g210; for one-quarter blood and 20c for three-eighths. Ter-atory wool selling fairly at 40c clean for line,

and 352340c for fine medium. Texan and California slow on a scoured basis of 42242c. Pulled wools dull and in foreign wools no trad-ing of consequence.

Edds-The market is practically steady and
there is not much life to the trade. The receipts are not large but they are sufficient to
smooly the trade. The bulk of the sales are celpts are not large, but they are sumicient to supply the trade. The bulk of the sales are reported at 10% 21c.

Live Polling—The receipts for a few days back have not been so large and the market has been well cleaced up most of the time. Prices have not advanced but stocks move more readily than they did and the market is upon the whole, in a more satisfactory con-dition. London financial report says. The reserve de-creased during the week £2,297,000, of which £1,820,000 was in gold for export, the details being £1,951,000 to the United States, £55,000 to Montreal, and £50,000 to Constantinople. One hundred and thirty-six thousand lbs. came in from the continent and £100,000 from Australia. Today the Bank of England sold £32,000 in eagles and 30,000 sovereigns for New York. The bank has raised the rate of discount to 4 per cent, and the selling price of eagles to 76s 10d, and practically refuses to sell any more. Bar gold was in stronger de-mand at 78s. Silver was up to 34%d, and rupee paper was lower at 68%d. The markets were quiet tolay and undecided, pending evi-dence that the gold drain would be met from France. Paris exchange has a tendency less favorable.

STOCKS AND BONDS.

Improving Tendency Characterized Dealings Among New York Speculators. New York, Aug. 10.-The affairs at the Stock exchange today showed an improving tendency, chiefly in consequence of the heavy arrivals of gold from Europe and the further engagements made in London for shiftment of the yellow metal to this side stimulated purchases for both the long and short accounts. The feeling in financial circles was one of encouragement and leading bankers, for the first time in several weeks, expressed the belief that the situation was on the mend. No applications for clearing house loan certificates were made today, and it is not improbable that a considerable amount will be canceled shortly. So far as the stock market is concerned, it is to be said that it advanced quickly on good news, whereas but a few days ago it made but a feeble response.

At the opening, Louisville & Nashville broke 2% per cent to 53% in sympathy with a drop in London. St. Paul and Sugar were also heavy, the latter yielding as much as 1% per cent. As soon as it was found that a few long stocks were coming out a sharp advance ensued, and in turn induced selling of the short accounts and there was a reaction. During the afternoon the bears became alarmed and under the influence of their purchases, as well as the support accorded the market by bulls, a general General Electric advance took place. moved up 5½ per cent to 46½; Star Union, 2½ per cent to 27½; Union Pacific, 2 per cent to 2014; Burlington & Quincy, 314 per

The Post says: Upwards of \$4,000,000 in gold came in by today's English steamer and more was taken for import from the Bank of England. This latter account was, however, comparatively small, due partly to the bank's advance in discount rates and in the selling price of American coin, and partly to the fact that no other steamers sail from England for New York until Saturday. This financiering on the part of the bank's directors is plainly governed by the purpose of shifting the strain from their own gold supply to that of the Bank of France, which is much better able to meet it. Paris ex-change on London is, indee 1, as yesterday's quotations showed, squarely at the gold shipping point. Meantime the relief an-ticipated here from the shipments of England's gold shows itself very slowly. The time money shows, however, gratifying signs of willingness to renew maturing local loans; a disposition encouraged by the pre-mium rate fixed by the city banks on out of town renewals.

This measure, in fact, will be the most justifiable step taken. If outside firms or institutions need accommodation badly enough to pay the 12 per cent, it is at their command; if not they must do without or seek rediscount elsewhere. The Bank of England itself adopted precisely the same policy in the crisis of 1890, when it freely supplied regular customers at 6 per cent and exacted 8 or more—abnormal charge in Loufon-for outside accommodation.

Chicago Live Stock Market.

Chicago, Aug. 10.—[Special Telegram to The Bre.]—The conditions were much the same as on the day before—light supplies, a good demand and stronger prices. Receipts of all kinds footed up about 9,000 head, of which it was estimated 1,500 were Texans and 600 westerns. Anything that was good enough to ship on the hoof was salable at a small advance on yesterday's closing prices, and the less attractive sorts were firm. Everything was closed out early, and unless the arrivals for the remainder of the week prove larger than there is any likelihood of their doing, the market will not lose any strength. Since Saturday barely 35,000 head have been received, which is 14,500 head less than for the same time last year. Under such supplies prices are bound to advance in spite of a light money market. Today's sales were mostly at from \$1.75 to \$4.66 for natives, and at from \$1.75 to \$4.66 for natives, and at a from \$1.75 to \$4.66 for natives, and at from \$1.75 to \$4.60 for all the close. The hog market showed strength. Immediately after the opening there was an advance of 10c and that improvement was not lost, though there was talk of weaker feeling at the close. However, the chances are that prime hogs would have sold quite as high at the windup as at any time. Choice heavy weights sold at from \$5.50 to \$5.60 and there were sales of fancy light around \$6. There is a great scarcity of prime lightweights, consequently light and mixed are selling much higher than straight heavy lots. Extremely heavy hogs are discriminated against as is usually the case at this season of the year.

Good to choice grades of sheep sold as well as on the preceding day, but there was a weaker feeling among holders of low grades, common westerns especially, being hard to sell. Supplies were liberal and the demand somewhat limited. Outstallow sen for \$2.50 for \$2.60 and there was a weaker feeling among holders of low grades, common westerns especially, being hard to sell. Chicago Live Stock Market. LONDON, Aug. 10.—The bultion in the Bank of England has decreased £2,207,000 during the past week. The proportion of the Bank of England's reserve to liability, which last week was 46.11 per cent. Is now 42.99 per cent. Money, 2½ per cent. Rate of discount in open market for both short and three months bills, 44@24¼ per cent. The marketing of stock continues on a rather small scale. There were very few over 100 loads received today, when ordinarily at this time of the year there would be between 200 and 300 loads. So far this week receipts foot up 5,020 cattle, 13,145

hogs and 4,240 sheep, against 9,335 cattle,

weaker teeling among holders of low grades, common westerns especially, being hard to sell. Supplies were liberal and the demand somewhat limited. Quotations ran from \$1.50 to \$2 for ragged stuff to \$4 for choice, with sales principally at from \$2.50 to \$3.50 for Texas and westerns and at from \$3 to \$3.75 for natives. Lambs were in demand at from \$2.75 to \$5.25.

Thrown from a Bridge.

St. Paul, Aug 10.—Mrs. Robert Par-ker, claiming New York as her residence, was thrown by two men last night from a carriage on the State street bridge fifty feet high with intention to kill her. She fell in the mud under the bridge and was not hurt. The crime was seen by switchmen employed in the yards of the Chicago & Great Western and fished out. The carriage was immediately driven away. Mrs. Parker was taken to the station. She sustained no injuries. At first she refused to divulge her name, but later gave it. She

RICHMOND, Va., Aug. 10.—General James B. Weaver, the people's party candidate for president, will visit General J. G. Field, who was his second on that ticket, at the latter's home in Albemarle county next week. The populist candidate for presidential honors will accompany his host on a speaking tour through several of the surrounding counties. On September 4 they will speak at Charlottesville. These speeches are not made under any special arrangement with the populist state executive committee. The latter will not open the campaign until the United States house of representatives appoints the committees of that body and takes preliminary action on the financial question. Th Virginia Farmers alliance meets in this city tomorrow. The alliance men who are in sympathy with the populists hope for the adoption of resolutions in line with the national organization of that party.

WEATHER CROP BULLETIN.

August Report Sant Out from the Department of Agriculture. WASHINGTON, Aug. 10 .- The August report of the statistician of the Department of Agriculture shows that the condition of corn has declined a little over d points during the past month, the average for the entire country being 87 per cent, as against 182 for the month of July. This decline is due in the main to the drouth, which has proved both extensive and persistent. While in some parts of the country the continued dry weather has injured the crop beyond recovery, it is nevertheless true as to the larger portion of the area devoted thereto that improvement is not only possible, but with a sufficient rainfall through the month of August will be assured. NEW YORK, Aug. 10.-Police Justice Grady issued summonses this afternoon against J. M. Waterbury, E. M. Fulton, sr., G. R. Weaver Loper and E. T. Wall of the National Cordage company to appear next Monday in answer to charge: of perjury and violation of the statutes relating to corporations. These criminal proceedings were instituted by E. B Balch, a stockholder of the company who is also connected with the John Good Cordage and Machine company.

The complainant recites that for the year beginning October, 1890, the books of the National Cordage company show that a dividend of \$1,460,213 was declared on the capital stock of the com-pany and that a surplus of \$16,413 was carried over. Mr. Balch alleged that the dividend had not been earned for that period, constituting misdemeanor and perjury.

Eloped with the Minister.

SCRANTON, Pa., Aug. 10-The congre gation of the Hickory Street Presby-teria church, and in fact the entire city, is shocked by the announcement that the pastor, Rev. C. L. Weiswasser, has eloped with Mrs. George Scheur, a prominent member of the church and president of the Ladies Aid society. Mr. Weiswasser departed Monday. Last evening Mrs. Scheur told her family she was going to Petersburg and would be back on a late car, but she did not return and her husband notified the police.

Seymour Won't Be Buried Yet. ROCKFORD, III. Aug. 10.-Dr. E. C. Dunn has become frightened at the opinions enunciated by papers through out the country that he would be criminally liable if Seymour should be buried alive under his direction and failed to survive the experiment. The doctor has notified Seymour that he will not act as his physician. He suggests to Seymour that he will wait until the talk dies out and do the act privately in the presence of reputable witnesses where people know nothing about it.

Helpless Cripples Lose Their Pensions. St. Joseph, Aug. 10.—Old soldiers living in the vicinity of Marysville, Kan., who are drawing pensions are alarmed over the action of the Pension department in regard to several of their ompanions. In the last week the pensions of a dozen crippled old veterans have been cut off and they have been ordered to Hutchinson, Kan., for examination. In ten of these cases the pensiopers are so badly crippled they cannot walk.

Got Heavy Damages. LIVERPOOL Aug. 10.—The Allen Line Steamship company today got £200 damages in a libel suit against Joseph Havelock Wilson, member of Parliament for Middleborough and secretary of the National Scamens' union, for issuing and posting placards in Liverpool reflecting apon the management of the company and the safety of the Allen Line steam-

Found Two More Bodies. DANVILLE, Ill., Aug. 10.—Two more bodies were recovered last evening in the Big Four wreck. They were lying close to the stone pier at the bottom of the debris. One was Andrew Wallace, aged 56, a tailor who formerly lived in

county, Ill. His family is supposed to be in Peorla. The other was William Cross, aged 46, a bricklayer, who has worked at Decatur. More bodies may

OLD BLOOD AND BRIDLES.

Varied Career of the War Gevernor of Colorado.

Mr. Walte was born and reared in Chautauqua county, New York, and obtained his schooling at the Jamestown academy, says Harper's Weekly. The family is a respectable one, and the governor's father held for some years the responsible post of justice of the peace. Davis H. Waite had always been considered a harmless enough person a little peculiar in his notions, perhaps, but of estimable private character. He came to Colorado from Kansas, and in "packed" a printing-office plant into the mountains to Ashcroft, near Aspen, which was then the newest min-ing camp in the state, and began to issue a little weekly paper called the Ash-croft Herald. He moved to Aspen when it began to be evident that that town was to be bigger than Ashcroft, and for a time edited the Aspen Times, which was then a small weekly paper. This journal is now issued as a daily, and beongs to Governor Waite's son-in-law, B. Clark Wheeler, who is a state senator, and a man of some influence in the populist party.

Mr. Waite added somewhat to his in come by practice as a lawyer, doing an office business principally, and became interested also in some mining property. When he was about 60 years old Governor Walte married a second time, and has now a small child young enough to be his grandson. In Aspen Mr. Waite was somewhat noted for his opposition to drunkenness, gambling and other forms of vice, and as justice of the peace he was especially severe upon offenders. He was also noted as a bitter anti-Romanist. In politics he was a republican, and took such part in campaigns as a country editor and lawyer would. Now he professes a hatred for politics and politicians equalled only by his detestation of newspapers which are politically opposed to him.

As governor, Mr. Waite's record has

been by no means all bad. He fell out with the last general assembly and vetoed a large proportion of the bills that were sent to him. On the whole he has evidently tried to do his best for the welfare of the state as he sees it.

Worthy of Admiration.

Washington Star: "So," said the sight seer, "that was put up by the mound build-"And it's there yet!" "Wonderful, isn't it?"
"I should say so. I tell you, they must have had a building inspector who amounted

to something in those days." CRIME IN HIGH PLACES! It is not strange that some people do wrong through ignorance, others from a failure to investigate as to the right or wrong of a matter. But it is strange, that individuals and firms, who are fully aware of the rights of others, will persist in perpetrating frauds upon them.

High-toned, wealthy manufreturing firms will offer and sell to retail merchants, articles which they know to be infringements on the rights of proprietors, and imitations of well known goods. We want to sound a note of warning to the retailers to beware of such imitations and simulations of "CARTER'S LIT-TLE LIVER PILLS." When they are offered to you, refuse them; you do not want to do wrong, and you don't want to lay yourself liable to a lawsuit. Ben Franklin said "Honesty is the best policy"; it is just as true that "Honesty is thebest principle."
