DAILY BEE NEWS FROM COUNCIL BLUFFS

Pottawattamie Republicans Return from the State Convention Jubilant.

SATISFIED WITH THE PARTY PLATFORM

They Approve of the Ticket Nominated and Will Accord it a Hearty Support in the Coming Election-A Few Opinions.

The Council Bluffs delegation to the republican state convention returned nome yesterday morning, and a more jubilant set of men it would be hard to find. For the first time in years, the republicans of Pottawattamie county and of the river counties generally received the recognition for which they have been fighting at every state convention since the workings of the prohibitory liquor law became generally known. The republicans of Council Bluffs have been in the front rank of the fight for the last six years, and, although discouragements met them at almost every turn in the road, they kept on, determined to bring about such a modification of the liquor law now on the statute books as would enable them to regulate the sales of liquors, which, like the brook, seems to go on forever. The local option part of the platform was

modelled upon the platform adopted by the Pottawattamic county republicans in their last convention, and contains, in substence the same statements. The Pottawattamie delegates played by no means an unimportaut part in Wednesdays convention, and they accordingly fell considerably elated over the action of the convention. Pottawattamie was in line for Jackson from the start, and on the second battot, which gave him the nomination, there was but one vote for another candidate.

Beartly Endorse the Ticket.

The nomination of Jackson and the rest of the ticket seems to meet with the hearty approval of the Council Bluffs people. He is regarded as one of the best speakers and most magnetic men in the state, and a red-hot campaign is looked for a thing that Iowa, at least from a republican standpoint has not seen for several years. The follow ing are the views of prominent citizens as

expressed yesterday:
Dr. F. S. Thomas-I like the ticket and the platform, and am glad to see that the republicans of lowa are coming to their senses. They seem to see at least that they are not running a Sunday school, but a political party. E. E. Mayne—It's all hunkidory. I tried to get four or five democrats to bet with me

on the result this afternoon, but none of them would do anything but talk.
George A. Keeline-The ticket and the platform are both all right. For several years the prohibitionists have been insistng on running our side of the house, and after we let them put up our ticket they went off and voted a ticket of their own. May as well cut loose now as any time Frank Trimble (democrat)—The platform is all right if it is carried out. I look for a repeal of the prohibitory law, whichever

party goes into power.

J. L. Templeton—We'll sweep the state. Mayor N. D. Lawrence-And Pottawattamie county, too.

Better than Two Years Ago.

U. H. Van Brunt-That suits me a good etter than the platform two years ago. Jackson will carry the state, without doubt W. H. M. Pusey (democrat)—You've got our platform at last. I'm glad we've done some good. It doesn't make any difference now who is governor: state-wide prohibition will be knocked out any way.

Some talk has been made in democratic circles to the effect that the present stand of the party will divide the republican ranks and result in a large increase of the prohibition vote and a corresponding diminution in the republican. This is denied by re-publicans who have looked the state over thoroughly. Although the platform will cause a slight defection in a few of the country districts, this will be more than made up by the enthusiam gained in the counties which contain large cities, where republicanism has been almost a last issue And no large pulling-off is looked for even in the strong holds of prohibition, from the fact that the only intention of the party, as stated in the platform, is to enable counties that can't prohibit to regulate and not to force saloons on all the counties in the state, whether they want them or not, as has been the aim of the democratic party for the last five years.

GASOLINE EXPLOSION.

Fred Wells Receives Serious Injuries in am Afternoon Blaze.

Fred Wells, son of Dell Wells, who is employed on the Fairmount park improvemenes. is lying at his home on Ridge street suffering terrible rgonies as the result of a fire in which he was caught yesterday afternoon. He was dressing up the furniture in one of the up-stairs rooms with gasoline and the evaporation of the liquid had left the room filled with gas. He stepped on a match that had been carelessly left lying on the floor, and in an instant the with gas. room was full of burning wapor. He seized the burning bed clothes and carried them down stairs, but before he could finish the job he had been terribly burned about the hands, arms, face and neck. It was also feared that he had inhaled the flame, and if this had been true he would have had but little chance of recovery. His physician, after making an examination, stated that he had not been injured internally, however, and thought that he would manage to pull through. The prompt action of the young man in carrying the burning bed clothes out, undoubtedly saved the building from serious injury.

Hall is a Determined Semist.

William Hall has a temptation to use a eine in Lake Manawa which is simply irresistible. It has brought him into trouble several times this year, but his unpleasant experiences of a night or two in jail every few weeks do not appear to have had much of an effect upon him. Last Wednesday evening he fastened his seine in the water in the way that would do the most good and then lay down in the bottom of his boat to sleep the sleep of the righteous. While engaged in this pleasant operation Marshal Bowling of Manawa, with tion Marshal Bowling of Manawa, with several assistants who had been planning an attack, rowed up, surrounded Mr. Hall and in a trice had him in their clutches. His surprise was so childlike in its innocence that the marshal was fairly affected to cars. He did not know there was seine within ten miles of him. He was fast asleep n his boat, his physician having prescribed leeping out of doors on the bosom of Lake

Manawa as a preventive of nervous prostration. Prescription or no prescription, he spent the rest of the night in the Manawa jail, and yesterday was brought to the county jail for safe keeping. He will have a hearing at 11 o'clock this morning before Mayor Reed.

The officer was at the depot when the train arrived, but a search of the coaches failed to re veal any one answering the description. Looking down the track toward the Burling ton depot he noticed a man going in that direction in rather a hurried manner and concluded to follow him. He was soon overtaken and told by the officer that must return to the city. Le must demanded to know the cause of his arrest. The constable replied evasively. The prisoner was, until recently, a farm hand and for a couple of seasons worked part of the time for W. W. Sparks, a farmer living in Gage county, a few miles southwest of the city. He forged Sparks' name to checks amounting to nearly \$300. Sparks was notified by the bank that his account was overdrawn. Charles O'Farrell Nominated for Governor on the First Bultot. RICHMOND, Va., Aug. 17.-The Virginia democracy met in state convention at noon today. Chairman Ellyson of the state committee called the convention to order. R B. Munford was made temporary chairman and W. H. Mann secretary, Committees were appointed and after a recess Senator Daniel made a speech. Alluding to the financial situation of the country, he asserted that the democracy of the country was in no wise responsible for it, and lake the charge of the evil in the country to the McKinley tariff bill. GOVERNOR WAITE AGAIN.

He Will Deliver an Address at Chautauqua, New York, on Sunday. CHAUTAUQUA, N. Y., Aug. 17 .- Governor Waite of Colorado arrived at Jamestown yesterday, and will deliver an address from the Chautauqua platform on Sunday, the

occasion being Grange day. Governor Waite, discussing the silver question tonight, said the decline in the price of silver was because congress had lessened the demand for the ore by taking away the right to coin silver.
"If congress authorizes free silver," he

said, "you will see the price of silver go to \$1.29 per ounce, where it was years ago, and all h-l can't stop it. The moment free coinage begins the price of silver will advance. The governor said no paper has yet done him the justice to use the "blood to the bridie" sentence in its proper connection with the speech containing it, though while in Chicago he sent copies to all the leading papers. He, however, had nothing to re tract, and reiterated that it would be better to wade in blood to any depth rather than have our national liberties destroyed.

The governor thinks the democratic party will be the worst whipped one at the next election that ever conducted a campaign in this country, and that the people's party will soon have control of the government.

TORTURED BEFORE THOUSANDS.

World's Fair Visitors Witness a Horrible Spectacle. CHICAGO, Aug. 17 .- Thousands of people lined the edge of the Grand pasin at the fair tonight and watched four Quackahl Indians undergo the torture dance. The horrible ceremony took place on a float in the center of the basin. The four braves who underwent the torture dance had thongs passed through strips of flesh cut in their backs. Other Indians took the loose ends of the thongs and using them as reins drove the others around the float as if they were driving horses. At times the drivers would pull back upon the thongs, causing the flesh to strain and stretch and causing exquisite agony. Finally the thongs were pulled loose, tearing the flesh and

bringing streams of blood. One of the men lost his reason because of the pain he suffered. He sprang upon In-terpreter Ford and fastened his teeth in his Several men were needed to open his jaws. He will regain his reason in a short time. The dance is the one practiced by the Indians to prove their bravery.

General C. H. Howard read a paper entitled, "A Military Man's Opinion of Arbitration." The general unqualifiedly en-dorsed the settling of international disputes by means of arbitration. He suggested that permanent international tribunal would serve a grand purpose.

CRIME IN HIGH PLACES! It is not strange that some people do wrong through ignorance, others from a failure to investigate as to the right or wrong of a matter. But it is strange that individuals and firms, who are fully aware of the rights of others, will persist in perpetrating frauds upon them. High-toned, wealthy manufrcturing firms will offer and sell to retail merchants, articles which they know to be infringements on the rights of proprietors, and imitations of well known goods. We want to sound a note of warning to the retailers to beware of such imitations and simulations of "CARTER'S LIT-TLE LIVER PILLS." When they are offered to you, refuse them; you do not want to do wrong, and you don't want to lay yourself liable to a lawsuit. Ben Franklin said "Honesty is the best policy": it is just as true that "Honesty is thebest principle."
