Sharp Demand for Export Caused Wheat to Show an Advance.

STEADY REALIZING KEPT CORN DOWN

Few Buying Orders Were in from the South-west, Which Also Added Strength, and on This Basis Operators Said.

Cornico, Sept. 15.—A sharp demand for export caused wheat to show an advance notwithstanding lumbering by the hours. Corn was kept down by steady realizing of long stocks with a good profit to it, aided by heavy estimated receipts for tomorrow. Provisions were dull, but strong.

Wheat at the opening was about the same as yesterday, rated firm and advanced 10¢, then became weaker and prices receded 10¢ for December and from 10¢ to 10½¢ for May, rated stronger and prices advanced 5¢ for May and 5¢ for December, both steady and the closing was about 10¢ to 10½¢ higher for December and 5¢ higher for May than yesterday. The export clearances aggregated \$88,000.

Corn opened with an easy under-tone at from 10¢ to 10½¢ decline, but soon afterwards advanced 10¢ on buying by a few of the larger operators, and the early sellers also put in their bids. Prices receded 10¢ to 10½¢ in the afternoon. A few buying orders were in from the south-west, which also added strength. On this basis operators were inclined to sell, the receipts for tomorrow coming liberal, increasing this tendency and causing liberal realization of stocks held some time ago.

Honey Hounds is commanding to move a little more freely, but the demand is still light.

Provisions. The demand is not quite so active as it was five days ago, \$1,000 to 1,100, standard extra selects 2½-cent coins, 3½¢.
