COMMERCIAL AND FINANCIAL Repeal Has Spent Its Force in Ohicago Speculative Markets. CORN DRAGGED ON POOR CASH DEMAND What the Mills of Dalath and Saperior

Worst Blow to Wheat Was Delivered When Bradstreet's Statement of the Visible Supply Was Received-Stocks and Bonds.

CHICAGO, Oct. 24 .- Repeal has spent its force. That seemed to be today's verdict in the wheat pit. Yesterday a mere rumor of the repeal of the silver purchase act was sufficient to add 1160 to the price of wheat and today, with that repeal in clear view, the price declined almost lc. Repeal, it was argued, will make wheat none the less overplentiful, and unless either the receipts become small or the foreign demand more urgent it can have no lasting influence unless through the revival of the general trade of the country.

Corn dragged on a falling off in the cash demand, but in strange contradiction to the expected effect of light receipts. The close was ic under yesterday's final quotations. Provisions were again duil and neglected at considerably lower prices.

The worst blow to wheat was when Bradstreet's statement of the visible supply was received, a few minutes after 12 o'clock, re-porting an increase of 2,735,000 bu. east of the Rockies and 492,000 bu. west and an in-grease of \$22,000 bu. to the set and an inthe Rockies and \$2,000 bit, west and an in-crease of \$32,000 bit. In European stocks and the quantity afloat, thus making an increase in the world's stock in sight of 4,059,000 bit. The receipts in the northwest continued quite liberal and the export clearances were small European property indicated more quite liberal and the export clearances were small. Foreign reports indicated more liberal shipments of Russian wheat. The opening was about from 1/4c to 3/4c lower than yesterday's closing figures, eased off from 1/4c to 1/4c, then rallied from 5/4c to 3/4c for December and from 1/4c to 3/4c for May, but again settled back, declining from 3/4c to 1/2, and the closing was 3/4c for December and 1c, for May lower than yes! are December and ic for May lower than yes' or-day. The market acted as though som party or parties were feeding it freely

each raily. Operators in corn were apparently at sea during the greater portion of the day. The bulk of the business was credited to "room traders." The market opened rather steady at about $\frac{1}{3}$ c decline and a further reduction of from $\frac{3}{6}$ c to $\frac{1}{3}$ c was submitted to. About the middle of the session a little more steadincast prevailed and prices railied from is to incast prevailed and prices railied from is to is to but settled back slightly and the mar-ket in a general way closed stands

ket in a general way closed steady. In oats there was no particular pressure to sell, prices were confined to the 4 c range and closed 1 c below yesterday. The near futures were neglected.

Hatley Bros., White & Co. and the Chicago Packing company, who have been for some time backing the main supporters of October prices of hog products, were free offerers, not only for the present month's delivery, but for January as well, and that was the chief cause of the day's decline. The market became very weak in the closing moments. Compared with last week Oc-tober pork is 50c off and January 27% c; October pork is 50c off and January 2714c; Oc-tober lard is 30c and January 10c lower; October ribs, 45c, and January, 17c. The estimated receipts for tomorrow are:

Wheat, 160 cars; corn, 290 cars; oats, 150 cars; hors, 27,000 head. The leading futures ranged as follows:

ington, pointing to an unconditional repeat of the silver purchase law, has improved the dry goods outlook a little, but the immediate market is rather quiet still. Cotton goods show some improvement in demand at un-changed prices, gionham fabrics barely held their owa. Prints and printed fabrics are a little uneven. Printing cloths are steady to rather firmer. Dress goods ruled quiet at steady prices. Woolen goods are dull and a little weak.

FLOUR OUTPUT.

Have Been Doing. MINNEAPOIDS, Oct. 25.—The Northwestern Miller says: The mills at Superior and Duluth ground 52,317 bbis, of flour last week against 57,595 bbis, the week before, 34,238 bbis, for 57,595 bbis, the week before, 34,239 bbis, for the corresponding week last year and 18,579 bbis, in 1891. This week's output will be much heavier. The new Anchor mill at Superior is now in operation. All the mills in operation have booked their output at full capacity until the close of navigation. The demand for four has been excellent. Millers have been obliged to turn away orders for shipment down the lake. Sales of the week wore much in excess of the output. Both foreign and domestic bugers were in the market. Stock of flour, 254,421 bbis, against 191,133 bbis, a week ago and 275,485 a year ago and 208,000 bbis, at this date in 1801.

Wall Street Speculators Made a Bit of Interesting llistory Yesterday.

in Wall street, taken as a whole, seems to

justify the contention which has been held that when the silver question was solved, and not until then, would the current of speculation return to its accustomed channels. It was not made manifest very clearly in the early dealings that the situation had been entirely cleared, or that the expected revival of confidence in the stability of values had come to stay. There was a certain feverishness in the dealings that appeared to be inconsistent with a steady upward movement based upon solid foundations, but as the day advanced the tone of the market became healthier, and evidences of strong undertone were not wanting.

undertone were not wanting. For the first time in many months the commission houses were largely in the mar-ket as buyers for clients, considerable proportions of their orders coming from the west. The mails brought numerous inquiries ad-dressed to the large brokerage houses asking for advice as to whether the time had come for operations on the bull side of the market and as to the best stocks for spe culative turns on the long side. It is us no longer to be a purely traders' market, the outside public was moved to take a hand inthe deal. Then, too, comes the decline in foreign ex-change, which is, perhaps, the cest indica-tion that can be afforded of the restoration of the stability of the national finances, and

 Hogs-Receipts today were the heaviest of the month, and the quality was about the best of the month. Reports from Chicago were not very favorable, and this with the liberality of the offerings, produced a rather weak feeling, notwithstanding the good gen-eral demand. All local houses, both fresh meat and packing, were in the field after supplies. Prices ruled 5c to 10c, mostly 10c, lower than vesterday, the good to choice lower than yesterday, the good to choice butcher weight and heavy hogs selling at from \$6.25 to \$6.35, with a \$6.40 top. St. Lonis Markets, side at existing rates for stering exchange. At the opening of business there was a firm tone at near closing prices, which moved up for some fifteen minutes. Then came a decline, followed by a recovery and a retro-grade novement all in the first hour. The result of the movement was, however, an advance, in which all the shares traded in participated. By degrees the speculation became steady, and although just before noon sales to realize profits checked the up-ward movement for a short while, the market swung into the afternoon with a buoyant step which carried it up to a buoyant step which carried it up to a higher level than had yet been reached. Cattle Trade Steady-Hogs Break Un Heavy Receipts and Close Weak. WEDNESDAY, Oct. 2

There was a good average run of s today. So far this week the cattle rece have been about the same as last. Hogs h increased nearly 3,000 head and sheep ne 3.000 head.

Including today's cattle receipts, 90 cattle have been received so far this mo As the previous banner month's re-(October, 1891) was only 90,037 head, the ceipts from now on till the end of the ma will simply indicate how far this month' ceipts will beat the record.

There were almost as many cattle today as were here on last Wednesday, the quality was about the same as it been for several weeks past. To all int and purposes it was a steady market.
