Biggest Market of the Month Was that of Yesterday Afternoon.

RESULT OF RUMORS FROM WASHINGTON

Wheat at the Opening About the Same as Thursday's Closing-Firmer Cables Influenced the Course of Domestic Speculation.

Curcago, Oct. 27. -The biggest market of the month was seen during the last hour of the session today. There are surmises that it was due to guesses that voting would begin this afternoon in the senate. Rumors were also current that northwestern receipts have begun to fall off. Wheat closed strong at an advance for the day of %c. Corn had to thank the strength in wheat for a 1/4c advance. Oats and provisions appeared to lean up against wheat for support, but both closed a little higher than on the day before.

Wheat at the opening was about the same as yesterday's closing, followed by snother easier feeling and prices declined about 1/4c. then became strong and prices were advanced 114c, eased off a trifle, held steady and the close was within 14c of the top. The market was partly influenced by the firmer cables. There is a large shortage in the market and the firmness induced rather free coverings. New York parties were reported as large ouyers. The receipts in the northwest hold up pretty well and some advices state that the movement is likely to continue two or three weeks more at about present figures. It was reported that gold imports would start in again and \$500,000 reported to be shipped from Liverpool

to New York tomorrow.

Trading in corn was light. The market was influenced chiefly by the firmness in wheat. Option is very much divided as to the amount of old corn back in the country. but leans to the side of small reserves. Fluctuations were confined to 14c range. The close was 14c from the top figure. Oats were very dull. The range was 34c.

and the close near the top, with a net gain Provisions started weak at some decline from yesterday's closing price on account of the bog receipts having overrun the estimate head. They recovered on the receipt of a few scattering buying orders, and in sympathy with the firmness in the grain market. The last bulge in wheat was taken advantage of to unload some early purchases, and the closing prices were not quite the highest of the day. Compared with yesterday, pork is 20c, January lard 2214c, and January ries 50c higher.
Estimated receipts for tomorrow: Wheat,

95 cars; corn, 380 cars; oats, 185 cars; hogs, 14,000 head.

Minneapolis Wheat Market.

Minneapolis, Oct. 27.—At the opening this morning the traders generally were in a walting mood and for the first hour very little trading was done, with prices barely steady and later declined Mc to %c, firmed up again and ruled active, with a strong undertone. Receipts were quite large and the interior reported a free movement from farms and granaries. A sharp demand was found to exist for track wheat and shorts in covering bid the market up. December opened at 60%c and closed at 61%c. Wheat in store closed: Hard, 62%c; No. 1 northern, 60%c; No. 2 northern, 59%c. Track wheat closed: Hard, 63%c; No. 1 northern, 61%c; No. 2 northern, 59%c. The cash market was active from the start with a good demand from local millers and clevators. hippers were also in the field and considera-

ble quantities were taken for outside millers, No. 1 morthern, 602614;c, one or two cars at 614;c; No. 2 morthern sold at 594;6664; Receipts, 528 cars; shipments, 63 cars.

The floor market is quiet. Buyers are bidding, but at prices that are too low as a rule, still with what is being sold, together with orders at hand, some of the mills are putting out more than their make. Rates are quoted at 634;c per 100 lbs. to Liverpool and London. Shipments, 32,923 bbls; first patents, \$3.50%, 3.70; second patents, \$3.26%, 3.50; fancy and export bakers, \$1.65%2.10; low grades in bags, including red dog, \$1.20%, 1.30. Following are millers asking prices in cotton sacks, 98 and 49 ibs: Rice flour, per bbl., pure, \$2.50; standard, \$2.20; luck wheat flour, \$4.60; nominal; graham flour, \$2.80. The added daily output of the mills grinding today will probably aggregate 35,500 bbls. The bran market is steady at \$9.26 and shorts at \$10.00%, 10.25, and about \$1 more for middlings. Shipments, 1,704 tons.

New York Dry Goods Market.

New York, Oct. 27.—The market is gradually picking up and in better shape for dry goods. Printing cloths are attracting more attention and 2%c for 64 squares is easily secured. Prints and printed fabrics are in fair demand. Ginghams and woven fabrics also excite more attention, and if suitable for the spring trade, sell weil. Woolens and dress goods of the heavier weights and color receive more attention from parties buying for the

spring trade. Foreign dry goods are doing a little better. The publing trade is more active. Speaking for the market at large, prices have not varied so much, but the tendency, if anything, is toward a higher level.

STOCKS AND BONDS.

Volume of Business on 'Change Yesterday Much Smaller than Usual. New York. Oct. 27 .- The volume of business on the Stock exchange today was much less than for the past three days, but the tone was much steadier and none the less strong. A new leader was erected for the dealings - St. Paul - an unusually heavy buying movement having been inaugurated therein, this stock having been comparatively neglected in the recent upward movement. Some of the purchases were for the London account and were based on increased earnings and improved prospects of the company. New York & New England was also prominent in the transactions. The movement in the shares was accompanied by reports that an entrance to New York had been secured by way of the Second Avenue Elevated railroad and that there was a prospect of it gaining a through line connection by means

of the Lehigh Valley.

At the opening a higher range of quotations was established, but the market met with some selling orders at the outset which caused a reaction, in which only part of the improvement was lost.
The offerings were readily absorbed and

new buyers were attracted thereby whose purchases changed the current of specula-tion, and the market was soon again on the upward track, the improvement continuing until afternoon, when realizing sales brought about another reaction of brief duration. folabout another reaction of brief duration, followed by a renewal of the advance. About 1 o'clock a heavy tone came over the dealings, from which they did not recover until 3:30, at which time prices had receded from 1½ to 2 per cent. Toward the closs a sharp purchasing movement was developed, which caused a recovery, and the final sales were at an advance over yesterday's closing figures of from ½ to 2% per cent in the active list. of from 16 to 2% per cent in the active list, and extending to 6 per cent in the specialties. The shares which participated most largely in the appreciation in values were: Rubber common, 4% per cent; Rubber preferred, 4% per cent; Louisville & Nashville, 2% per cent; Lackawanna, 2% per cent; Chicago Gas, Tobacco and St. Paul, 2 per cent; Mis-Gas, 100acco and St. Paul, 2 per cent; Missouri Pacific and Minneapolis & St. Louis preferred, 2% per cent; Nothern Pacific preferred, Lead preferred and Starch, 1¼ per cent; Western Union and Atchison, 1% per cent; Burlington, 14 per cent; Ontario & Western, 15 per cent, and Illinois Central, Kansas & Texas preferred, Denver & Rio

Grande preferred and Cotton Oil preferred, The Post says: However slowly, and with whatever incidental reactions the stock market may respond to this week's developments at Washington, it can hardly For ten years and longer our silver coinage policy has spread a pall over the nation's whole finances. The market seemingly broke away from its influence in 1885, when the disastrous trunk line war was settled, and in 1891, when nature showered her bounties with unparalleled profusion on American produce. But for each of these out bursts there was a speedy reckoning and at

each successive obbing away of bull enthusi-asm the load of silver incubus grew heavy. The following are the closing quotations of the leading stocks on the New York exchange today:

OMARA LIVE STOCK MARKETS. Cattle Supplies Scarce and Trade Steady-

Hogs Weak and Lower. FRIDAY, Oct. 27. Receipts of all kinds were comparatively light today. So far this week, compared

with last, cattle supplies have fallen off nearly 3,000 head, while there has been an increase of some 4,000 hogs and 3,500 sheep. The general cattle market today was monotonously steady. Receipts were the lightest of the week, and there was no improvement in the quality of the offerings. Dressed beef men all wanted supplies and paid good firm prices for all the cattle they could use. Some lightish cornfed steers brought \$4.20 and \$4.45, and fair to good westerns sold at from \$3 to \$3.65. On account of the generally common quality of tne offerings trading was slow, but a very

fair clearance was effected. About a third of the offerings today were cows and mixed lots. The demand was good from all sources and the movement free at steady to a shade stronger prices. Poor to very good cows and heifers sold at from \$1 to \$2.50 with fair to good butchers' cows largely at \$2 to \$2.25. There was a fair demand for caives and prices ruled about steady at from \$2.25 to \$4. Common to choice bulls, oxen and stags were freely

taken at full yesterday's quotations from \$1.50 to \$2.75. Business in stockers and feeders was more satisfactory than it has been for sev-eral days past. Light receipts for a day or two have enabled yard traders to clean up their holdings and with a continued good country demand prices advanced materially on all grades. Fair to good stock sold largely at from \$2.70 to \$3.20. Good to choice feeders are quoted at from \$3 to \$3.50; fair to good at from \$2.60 to \$3, with common and inferior at from \$2 to \$3.50. Hous-Receipts were light, but the quality of the offerings continues very good on an average. There were quite a few choice heavy hogs on sale, but the light and mixed stuff was generally common. Conditions were again rather against the sellers, and they had to submit to a further reduction in values of 5c to 10c on all grades. Chicago was lower and there was only a limited shipping demand. Packers were indifferent and fresh meat men bearish. Under the circumstances trading could hardly have been otherwise than slow. The good to choice heavy and butcher weight hogs sold at from \$6.05 to \$6.17%, while the common light and mixed packing grades sold largely at \$5.85 and \$6. About everything finally sold, however, the bulk of the fair to good hogs of all weights going at from \$6 to \$6.05, against \$6.05 to \$6.15 on Thursday and \$6.10 to \$6.20 last Friday. Chicago Live Stock Market.

Chicago. Oct. 27.—There were more cattle in the yards today than usually seen there on Friday, but the supply for the week falls far short of the average, being about 11,000 head less than for the same time last week, 5,500 less than in 1892 and 14,000 less than in 1890. The demand developed a little more activity than on yesterday or the day before and buyers were found willing to take the stuff at Thursday's price, or at a reduction from Monday's quotations of from 10c to 30c. The proportion of natives was not as large as for some days past, athe offerings consisting of about 2,500 natives, 5,000 westerns and 2,500 Texans.

Texans.

The situation in hogs was almost as bad as on the preceding two days. The fresh receipts were the smallest since Tuesday, but the supply actually on sale was as large as for any day recently amounting to 35 000 head. The

were the smallest since Tuesday, but the supply actually on sale was as large as for any day recently, amounting to 35,000 head. The demand did not call for that many and holders were obliged to submit to an additional decline of from 10c to 15c, heavy weights forced down to from \$5.90 to \$6.30. The latter had no friends, and for the first time in many weeks were at a discount as compared with heavy and medium weights. Buyers did not want to pay more than \$5.25 for anything weighing under 200 lbs., and some very decent lots changed hands around \$6. The buik of the sales were at from \$5.10 to \$6.30 for heavy and medium weights and at from \$6 to \$6.20 for light.

This week's receipts of sheep were almost as large as for the week before, amounting to 30,000 head. It is needless, therefore, to say there has been no improvement in prices. Neither do we have to note any further decided depreciation in values. Prices were already about as low as they well could be, for much of the stuff on sale within the last fortight brought very little more than enough to ay freight, yardage and feed bills. Not an unusual number of good sheep were offered, but the market was fairly deluged with common and poor stuff and the pens now contain several thousand head that cannot be sold at better than \$2.75 per cwt. The buik of supply came from beyond the Missouri river and changed hands at prices ranging downward from \$3, though during the week there were sales all the way from \$1 to \$3. The lamb market ruled comparatively steady at from \$2.50 to \$4.75 for poor to extra.

Pope Leo Sustains Archbishop Katzer in His Opposition to Secret Societies. MILWAUKEE, Oct. 27.-Information been received from Rome to the effect that the Independent Order of Good Templars has been placed under the ban so far as Catholics are concerned.

Chief Templar Frazier of Wisconsin some time ago brought the matter before Archbishop Katzer, calling attention to the fact that the London convention had refused to allow Catholic members of the order to reveal the secrets of their order to their confessors. The archbishop at that time said he had decided to oppose Catholics in his diocese joining the order. Recently the question was brought before the supreme body of the church from Norway and a decision has been given sustaining the position taken by Archbishop Katzer.

The decision is of great importance to Catholics and secret societies generally. The position of the Baltimore plenary council in the matter of secret societies is thereby upheld by the holy see, even in the face of concessions made by the representa-tive orders so that the condemnation does not refer merely to the order, but to the principle that secret societies are mimical to the welfare of the people.

BROKE THE FIRM.

Bookkeeper of a St. Louis Hat Company Took \$100,000 and Skipped.
Sr. Louis, Oct. 27.—The Rainwater-Bradford Hat company made a general assignment last night. It was precipitated by the discovery that the firm's bookkeeper, Louis J. Silva, was a defaulter in the sum of over

\$100,000. He is missing. The assets of the company are placed at \$300,000. The liabilities probably exceed the assets.

Every effort has been made this morning to locate the defaulting secretary. The po-lice are of the opinion that instead of being in hiding near by, pending possible develop-ments, he has gone as far and as rapidly from the scene of his crime as possible. The experts at work upon the books of the ruined company have not completed their their labors, but the defalcation, it is positively known, will exceed \$100,000, practi-cally all of which has gone to the race track and grain pit. The creditors of the company with two exceptions, are eastern firms. One of the local creditors is the National

Bank of Commerce, fully secured for its \$85,000 loan by collateral, the other, Major C. C. Rainwater, the head of the firm. who had also loaned it \$69,000. Major Rainwater expresses the conviction that the assets will cover the liabilities. Other concerns in which he is interested, viz: The Madison Car works, the Merchants Terminal bridge, the Bank of Commerce and several land en-terprises will not be affected by the failure.

Supposed Victim of the Battle Creek Wreek Turns Out to Be Bologus.

BATTLE CREEK, Oct. 27,-This morning the oroner made a post mortem examination qu all the bodies of the Grand Trunk victims left in the morgue. When he came to the body of the supposed baby it was discovered that it was only a piece of burned bologna sausage, a tongue sandwich, some brains and two human feet. This lowers the number of victims to twenty-seven. The three bodies which are still unidentified will be buried together here.
