THE OMAHA DAILY BEE: THURSDAY, NOVEMBER 2, 1893.

COMMERCIAL AND FINANCIAL It Was a Decidedly Healthy Market in Securities Yesterday. SILVER NOT REGARDED AS AN ISSUE Feature of the Day Was the Unusually Heavy Buying in Chesapeake & Ohio -No Heard Meeting at Chicago. NEW YORK, Nov. 1.-It was a decidedly

healthy market in stocks today, and the volume of business, though lighter than during the past few days, was fairly active. Two great features of the New York market were not in operation, it being a bank holiday in London and Chicago exchanges being closed on the occasion of Mayor Har. rison's funeral. This tended to restrict the dealing and left speculation practically in the hands of the local operators. The in fluences affecting the speculation were mainly such as concerned special stocks.

6

The silver bill was regarded as practically out of the way, its passage through the final stages being a matter of mere routine. The news that the house had agreed to the sen-ate amendments did not reach the street until after the close of business and it is not likely it would have caused any movement had it been done during business hours. The cancellation of the outstanding clearing house loan certificates, which was effected this morning, closed an incident of the day's panic and was accepted as evidence of remarkable recuperative power of the local remarkable recuperative power of the local finances. The first issue of these certificates was made on June 17, the total amount authorized having been \$41,300,000, and at one time some said \$59,000,000 were in ex-istence, which, within the space of four months, were wholly retired. Among business features of the day was

the unusually heavy buying in Chesapeake & Ohio, the purchases being credited to the Vanderbilts, who, it is claimed, are anxious to obtain a strong representation on the board of directors of the company. From the Louisville & Nashville contingent came the suggestion that the directors of that company would shortly announce that they had taken their option to buy the Chesa-peake & Ohio road. The Associated press dispatch, stating that the Baltimore & Ohio company had floated a \$3,000,000 loan in Lon-

don, was accepted as widence of a return of confidence in Ameri-can corporate institutions on the part of the English capitalists, and taken in connection with the other favorable in-cidents of the day, assisted in developing the strength of the market and induced pur-chases for the long account, as well as inviting the short interest, which it is said is very large, to cover. After a lairly steady opening the market became active and strong and for half an hour prices moved upward, but the bears began to offer blocks of the grangers, industrials, Western Union and New England, which resulted in sending those shares below the opening and the

general list fell off in sympathy. The reactionary tendency was, however, quickly checked and from 11 o'clock, until shortly before 2 the movement was in the main upward, the occasional reactions being slight and quickly recovered from. At this time realizing sales depreciated values some-what, but in the final dealings the market what, but in the final dealings the market recovered its tone and closed strong, the ad-vance for the day ranging from ½ to 2% per cent, the latter in Chicago Gas, Michigan Central and Lackawanna; 2% per cent in Pittsburg, Cincinnati, Chicago & St. Louis preferred; 2½ per cent in St. Paul and 2 per cent in Rubber; 1% per cent in Manhattan, Delaware & Hudson; 1% per cent in Mis-souri Pacific; 1½ per cent in Baltimore & Ohio and Rock Island; 1½ per cent in West-ern Union and Distilling, and 1 per cent in Reading, Pullman, Burlington, Chesapeake & Ohio, Sugar, preferred, Cotton Oil pre-& Ohio, Sugar preferred, Cotton Oil pre-ferred and Iowa Central. WEATHER CROP BULLETIN.

Winter Wheat Looking Fine-Gathering

the Cotton Crop.

WASHINGTON, Nov. 1.-It was cooler than usual last month in the upper Missouri valley and all the Pacific coast states. The rainfall during October was largely deficient in the upper Mississippi and lower Missouri valleys, and in the guif states. Very little rafh fell ducing the month in Iowa, and from Nebraska southward to Texas, over which region the deficiency ranges from one to four inches. There was more than the usual rainfall from the upper Missouri valley to the north Pacific coast, the excess amounting to from one to two inches in western Washington and Oregon. Upon the whole the month has been favorable for such farm work as is usually done at this season. Winter wheat is up and reported as looking well in the states to the east of the Missis-sippi, and while the crop is in fair to good con-dition in Kansas and Missouri rains would be beneficial in those states. In Texas the gen-eral absence of rain was very favorable for in some sections as early as October, the releys, and in the gulf states. Very little rain

in some sections as early as October, the re-port generally indicating that picking will be completed in that state earlier than usual. In Arkansas, however, the cotton crop will not be completely secured before November 15, and possibly not before December 1.

FLOUR OUTPUT.

Big Week's Work of the Superior and Daluta Mills.

MINNEAPOLIS, Nov. 1.-The Northwestern Miller says: The seven mills in operation at Superior and Duluth last week produced 65,073 bils, of flour, against 52,371 bils, the preceding week, 28,023 bils, for the corre-sounding time in 1802 and 18,224 bils, in 1891. All the mills are being pushed to their limit of capacity to fill orders for shipment before the lake season ends. The market is in a healthy condition, but most of the millers have booked their orders so far ahead that they are obliged to refuse orders for lake and rall shipments. The stock of flour here is 277.416 bils, against 254.421 bils, a week ago and 259,066 bils, in 1892. The output this week is the largest ever made. Miller says: The seven mills in operation at

Chicago Live Stock Market. Chicago, Nov. 1.—Good to choice native cat-tie were in active demand today. Of the re-ceipts less than the usual proportion answered to that description and the bidding was suffi-ciently spirited to give prices an upward in-clination. There was no considerable advance, but the tone was strong—decidedly strong. Lart week's receipts were compartively light, but the tonal for this week bids fair to show a respectable decrease, and there is a very fair prospect of an advance in the near future in all grades of cattle. There were about 17,000 than 9,000 were natives. They were in de-mand at from \$1.75 to \$2.76 for cows and heifers and at from \$4 to \$5.25 for steers. There was one sale at \$5.75 and several at from \$5.25 to \$5.50. The offerings of western rangers amounted to 5,000 head, all of which were taken on a basis of former quotations. The 3,000 Texans received were wented at from \$1.25 to \$3.25, the market being firm at the 1.25 to \$2.50. 55,140 152 258 Conditions on the cattle market were simllar to yesterday, while the receipts show a decrease so far this week as compared with same time last of over 4,000 head. There same time last of over 4,000 head. There was a better tone to the trade and suitable beef cattle sold readily at prices fully as good as resterday. Inferior offerings were quite plentiful and trade on that class of stuff was dragging. Some good 1,291-101 corned steers sold for \$4.90, and fair to good western beaves sold at from \$3 to \$3.75. The market may reasonable active and at the market was reasonably active and at the close there were very few cattle in first hands.

Cows and mixed butchers' stock sold fairly brisk at generally steady to firm figures, the bulk of the fair to good offerings selling around \$2 to \$2.30, Veal calves were in good demand at from

\$2 to \$4, and rough stock changed hands at fairly steady figures, bull exen, stags and The stockers and feeders market was

hardly noticeably different from the two pre-ceding days. There was a very fair domand both from regular dealers and country buyers. Prices were firmly held on all suitable offer-ings, but the under grades were more or less discriminated against. Quotations are: Good to choice feeders at from \$3 to \$3.50, fair to good at from \$2.50 to \$3, common and inferior at from \$2 to \$2.50. Representative sales:

President Rodriguez hearing of this gave orders that in no case should the officers in charge of Weeks accept service of the writ. The government placed a special train at the disposal of the detective to take Weeks and his party to Limon, where they boarded the Foxhali for New Orleans. The ship left Wednesday at 9 o'clock, and the trip was uneventful. As a special precaution the following receipt was taken:

Weeks is a slim man with a bearded face, jovial in disposition and about 50 years old. He is accompanied by his wife, who takes his troubles very much to heart. Weeks states that when he gets to New York he will plead guilty, will throw nimself on the mercy of

his extradition, foreigners also taking part

the through train. Weeks is still on board the steamer, where he has been treated the same as any passenger. A large force of po-lice was at the wharf upon the arrival of the boat and would not allow any one to board, carefully watching all parties coming near. By order of the captain no one was allowed

ing Churches. HAVERHILL, Mass., Nov. 1.-Three more attempts at church burning were made last

guarded by special watchmen. Last evening a youth named McCloskey discovered a blaze in a pile of lath in the Winter Street church. The flames were extinguished. This is the second attempt on

this church within three days. One hour later the choir of the Center church notified the police that when they came out from rehearsal a mat in the cor-

ridor was found to be on fire. At 9 o'clock a report was brought to Marshal Dole that an attempt had been

secured. Finding it impossible to secure a jury the state's attorney entered a noile

with M. D. Wood, manager of the Western Union company in this city, to secure for him (Andrews) a better position than that held by him in the company's service. An drews at that time told Phelps if Wood re-fused him what he wanted he would "hat him."

bezzling, arrived this morning at 3 o'clock on the Foxhail in the charge of Detective Reilly of District Attorney DeLancey Nicol's The attempt by Weeks' lawyer to take him out of jail last Tuesday was abortive.

Noted Criminals.

Ing receipt was taken: I, George Leslie, captain of the steamer Fox-ball, have received from the District of Limon the indicted North American, Francis II. Weeks, whose extradition, asked for by the United States, ins been granted by the govern-ment of Costa Rica. I signed the present receipt on board the steamer Foxhall, anchored in the port of Limon, on October 26, 1893. This is to certify that Mr. Weeks is on board the steamer Foxhall today, October 26, 1893. GEORGE II. LESLIE. Weeks is a slim man with a beavied force

From \$1.25 to \$3.26, the market being firm at that range. Veal calves sold at from \$3 to \$5.05.
There was little change today in the prices of hogs. The market pursued the rather unusual course of opening dull and weak, and then becoming active and growing stronger as the day advanced. The supply, including the stale lots, amounted to 25,000 head. The demand called for quite that number; indeed, not all the orders were filled. The best heavy lots—averages of from 280 to 400 hs.—sold as high as \$6.20, and there were sales of medium weights at \$6.30 to \$6.35. From these figures there was trading all along down the line to \$5.75 to \$5.90 for poor and common stuff, and to \$3 to \$5 for culls. The close was quite strong at the quotations given below. In pork the quality of the offerlays did not show to quite the advantage as recently, but there was not much room for complaint on that score, the average being notably good as compared with last years.
Had the supply of sheep been confined to the free with far years of the supply of sheep been confined to the pare with last years.
Had the supply of sheep been confined to the pare with last year a sufficiently heavy load to keep prices down to their former low level. The market was firm for good to choice and yours of from \$1.20 (unustant) to \$3.75 for \$2.50 to \$4.50. the supply of a for good and therefore a clearance was out of the question. Sales of sheep were on a basis of from \$1.20 (unustant) for a way large part of the supply, and therefore a clearance was out of the supply, and therefore a clearance was and 5.000 westerns; market active, strong \$2.50 to \$4.500 to \$4.500; though something fancy would bring a little more.

New York Dry Goods Market.

New York Dry Goods Market. New York, Nov. 1.—The beneficial effect of the passage of the repeal bill has been further demonstrated by increasing quantities called for by mail orders and by a still larger confi-dence manifested by resident buyers in pro-viding themselves with goods. Whatever weak spots the market has recently shown are gradually disappearing and values are from steady to firm in nearly all directions. Business in cotton goods of staple kinds shows some increase, with prices leading in seliers' favor. Prints and printed fabrics rule steady as to price, with the demand improving. Printing cloths show an advancing tendency. Ginghams and woven fabrics are more active, with the demand working towards fancy and novelties. Dress goods of suitable quality for spring trade are in good demand and firm. Woolen goods are slow, except the lighter weights and colors. Foreign dry goods are steadily improving conditions.

ENGLAND'S GREAT STRIKE.

Interesting Facts and Figures from the Center of the Scene of Action.

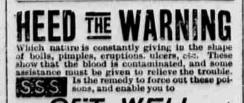

WASHINGTON, Nov. 1 .-- United States Consul Benjamin R. Beedlee at Sheffield has sent to the Department of State an interesting report on the present great coal strike in England.

The consul gives a brief history of the de mands made from time to time during the past several years by the Miners Federation of Great Britain for an advance in wages, and says that in August, 1890, the miners were receiving 40 per cent advance on the scale of wages ruling in 1888, and the price at the pit for the best Yorkshire steam coal had risen to \$3.55 per ton, the average price of coal exported from the United Kingdom being \$3.19 per ton free on board.

During 1891 and 1892 the price, which in 1890 had reached the highest point it had touched since 1875, was falling, and the past six months it has been going down rapidly. In July, 1893, the price at the pit for best Yorkshire steam coal had declined to \$1.76 per ton, and steam coal is said to have sold as low as \$1.25 per ton. Notwithstanding these reductions in the

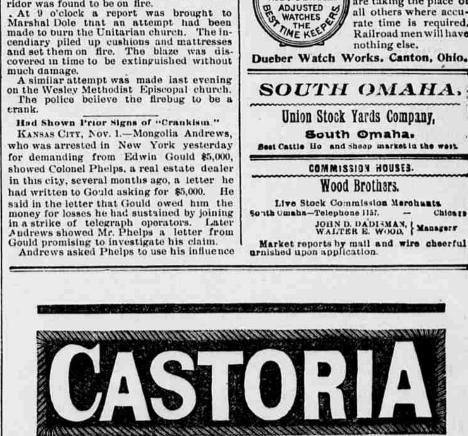

price of coal, the miners' wages have re-mained ever since the 1st of Au-gust 1890, at the maximum rate hitherto paid, viz, 40 per cent above the standard rate paid in 1888, and the owners now say that they will no longer continue this high rate of wages in the face of a falling market, and after asking for and being refused by the Miners Federation a voluntary con-cession to the extent of 25 of the 40 per cent advances obtained in 1888, 1889 and 1890, they have given notice to the men to leave their work unless they will accept such reduction The bulk of the notices expired on July 29. The number of hands directly affected is stated to be not far short of 350,000.

stated to be not far short of 350,000. It is said that the funds at the command of the various trades unions amount to about \$1,549,270. It was arranged that for the first three weeks of the strike the men should not receive any strike pay from the union. There is now in program. union. There is now in progress a very severe struggie, the effect of which has been to greatly diminish trade in the consul's district
