COMMERCIAL AND FINANCIAL

Phoris Were Scared by Bradstreet's Visible Supply Statement

WHEAT OPENED AT A SLIGHT ADVANCE

Early Firmness of the Market Was Broken by Reports of Light Export Clearances and Lower Paris

Cintifers.

Curcaso, Dec. 6 .- The deduction from Bradstreet's visible supply report, that country stocks outside of those places covered by the statement, have ceased to increase, scared shorts today and with this the Hight north-western receipts caused a gain of Me for May and le for December. Corn gained %c, oats %c and provisions also advanced slightly.

Wheat began at a slight advance and held steady for a time, despite selling by Pardridge and Leaming, Kennett, Hopkins & Co., and Baldwin-Farnum. Pardridge made a trade with Peole of 800,000 pu., the former taking that quantity of December and giving an equal quantity of May in exchange for it at 61%c premium for May. The premium thus paid was 3ge more than had been generally current, and a little later from 5%e to 5%e was all the premium obtained. The early firmness of the market was due to small receipts here and repoipts at Minneapolis and Duluth of but hos cars, which were about one-third of the ears received at those points the correspond-ing date last year. Light export clearances were reported and a cablegram from Paris quoted prices lower. With this a marked decline occurred and May touched the low figure of the day, 69/4c. Then Bradstreet's report came in and was fellowed by a sharp advance. The report made the increase east of the Rockies 88,000 bil and the decrease west 130,000, much less than was looked for. The shorts immediately decided that country stocks have ceased to mercase and the price went to 60%c. Cables were lower and a slight reaction occurred, but the bears were well supplied with nerve and the market closed strong but \(\frac{1}{2}c \) under the top figures of the day. May opened at \(\text{Bi} \) \(\text{c} \), bot \(\frac{1}{2}c \), sold up \(\frac{1}{2}c \), lost \(\frac{1}{2}c \), advanced \(\frac{1}{2}c \) and lost \(\frac{1}{2}c \) to the close, at \(\text{Ol} \) \(\frac{1}{2}c \).

The corn market started without anima-

tion. The movement in the country, howsmall, shorts became alarmed and May tool a spurt of Mc and closed but Mc under the day's top figures. The opening for May was 10 so, or 36c lower, and after holding there for some time and going 15c lower it advanced 36c and closed at 405c.
Oats, aided by the firmness in corn, together with moderate offerings and good

local demand, advanced %c, after opening with May unchanged at 31%c, and closed at

Provisions started easier with heavy hog receipts, heavy estimates for tomorrow and a decline of from 5c to 10c in prices at the yards. The firmness of the grain markets caused a rally, however, and closing prices were higher. As compared with last night January pork is 714c higher. January lard 5c up and January ribs 25c higher. Estimated receipts for tomorrow: Wheat,

125 cars; corn, 255 cars; oats, 140 cars; hogs, The leading futures ranged as follows:

Minneapolis Wheat Market.

Minneapolis Wheat Market.

Minneapolis, Dec. 6.—Wheat was inactive in the early part of the season, but with better demand and a fractional advance more activity was noted. Later reports from the country indicated steady but rather quiet farm marketing. Receipts here and at Duiuth and Superior were lighter, giving encouragement that the large movement is past, for the present, at least. These feelings, with the high relative price for track wheat, was back of the firmness whenever shorts began to cover. Some of the surrounding mills that buy wheat here to ship are shut down, and, while the receipts are falling off, the demand will also be less and track wheat may not draw any closer to the price of May until the holidays. Nothing to speak of was done in Derember, as that wheat is now held for storage. May wheat opened at 634c, sold up to 634c and closed there. Track wheat closed: No. 1 hard, 62c; No. 1 northern, 604c; No. 2 northern, 59c; receipts, 274 cars; shipments, 34 cars. The cash wheat market was active, with a very strong demand from local millers. Elevator companies but bought little, the price being too near the May price to pay carrying charges. Shippers were not in it. No. 1 hard sold at 63c; No. 1 northern, mostly at 604c, and No. 3 northern, 596;94c.

Millers generally represent scattering sales of flour, which, taken as a whole, make a fair amount daily. Wheat prices are claimed to be high compared with flour prices, and this checks all attempts toward more than small ousness. The production is not large, however. The flour shipments today were large, but they included five days shipments on the "Soo" road. Shipments today were large, but they included five days shipments on the "Soo" road. Shipments, 40,279 bbls. First patents, \$3.356,375; second patents, \$3,556,35; fancy and export bakers, \$1.5061,90; low grades in bags, \$1.2061,25. The added daily output of mills grinding today will probably aggregate 22,800 bbls. The feed daily output of mills grinding today will pr Minneapolis Wheat Market.

New York Dry Goods Market.

New York, Dec. 6.—The volume of trade developed so far this month has been small and there has not been any special interest shown in any line of regular trade goods. The demand for staple cutton goods is quiet, but the price of 64-squares is steady at 3c. There is a demand for export in brown sheetings and drills. Ginghams are showing a very slow trade, with the outlook for spring rather unsatisfactory. Woolen goods continue good. Johbing trade has developed little feature this week, the attendance of buyers being less than anticipated.

STOCKS AND BONDS.

Duliness Characterized Dealines in Securities Generally Yesterday.

New York, Dec. 6 .- The feature of the market on the Stock exchange today was duliness, only six stocks selling above 10,000 shares and one other above 5,000. The four leading industrials did three-fourths of the entire business. The status of the Atchison company was again a subject of interesting discussion, the cabled denial yesterday of President Reinhart not having by any means satisfied the street that all was smooth sailing with the corporation of which he is the executive. The cable was used again today in an effort to get news of new developments, but without result, except that late in the afternoon it was announced that President Reinhart had sailed for home on the Teutonic today. If his mission, if he had one, was successful was not disclosed. The report of the November earnings, showing a considerable comparative increase, had an unfavorable effect on both the stocks and bonds. The stock, after an early advance of 14 per cent, fell off 34 per cent, with a final recovery of 14 per cent. Early in the day there was good buying in Sugar, which sent itup 136 per cent, but interests, which possibly desired to get the shares at a lower figure, but our runners, that he did a lower figure, put out rumors that the di rectors, who were about to meet, would not declare the regular dividend, and, as a result, a decline of 23s per cent was en-gineered. Upon the announcement of the dividends near the close of business a recovery of 14 per cent ensued. Sugar preferred declined 114 per cent on the day. Distilling was held very strong, owing to a rumor of increased tax on whisky preventing any considerable selling and the uncertainty restricting purchases. The stock fluctuated within a range of % per cent and gained 1 per cent. General Electric rose % per cent on the opening, and then on selling for the Boston account receded 1% per cent, but quickly rallied on purchases induced by the lower figures, recovering 1% per cent of lower figures, recovering 14 per cent, of which 14 per cent was lost at the close.

which 36 per cent was lost at the close. The general list was extremely sluggish of movement outside of a few specialties. A strong tone prevailed at the opening and for the first hour, but was rather weak during the second. In the afternoon the speculation became firm again, continuing so without material advance until 1 o'clock, when a pressure to sell set in and with it a reaction, which was kept in marrow figures. reaction, which was kept in narrow figures generally. In the final dealings a covering movement was developed, which caused a

small raily.

The Post says: In its general features today's market was similar to that of yestorday. Although at the opening there were several fractional recoveries, based in were several fractional recoveries, based in a measure on the higher range of London prices, both in London and New York the gains were little. It is now pretty generally conceded that the attack on prices yesterday was a cleverly concerted movement between the speculators on both sides of the ocean. Their plans, however, were not ahandoned today and after two hours of duliness and irregular recovery professional selling began again and prices yielded. The only features in the day's early trading were the advance in Sugar certificates and the deadvance in Sugar certificates and the de-cline in General Electric. The professional selling of the afternoon was based on no particular developments. Despite, how-ever, a partial recovery, the stock market closed at material declines.

The stock market continued weak until

just before the close. About 2 o'clock a raid

was made on Sugar on rumors that the dividends would not be declared and the stock broke 1% per cent tolog, but on the declaration of dividends a rally was made to 83, and in the final dealings a rally of from & 10 to 83 with inferior to good at from \$2.70 to \$3, with inferior to fair grades at from \$2.70 to \$3, with inferior to fair grades at from \$2.10 to \$2.65. Cattle Trade in a Demoralized State-Hogs Active but Lower. WEDNESDAY, Dec. 6. Receipts of all kinds were rather liberal

today, the three days supply compared with the first half of last week showing an increase of about 2,000 cattle, while heg and sheep receipts show a falling off of about a thousand head each. The supply of medium and poor cattle was large, but there was a dearth of good, ripe

beeves. Tuesday's slow, mean trade was repeated today with interest. Dressed beef men were wanting a few cattle, and paid nearly steady prices for what suited them. An active demand for feeders kept the market from going to smash on the poorer grades, but the betwixt and between stuff was a drug on the market, and all of loc and 15c lower than the market, and all of loc and 15: lower than
the first of the week. Fair to very good
beeves sold at \$4.25 and \$4.50, but the poor to
fair stuff sold all the way from \$3.25 up to
\$4. There was not much change to the market for westerns and Texans, as there was
very little of it here. The general tone to
the trade was weak at the close and there
were still a good famy cattle unsold.
The cow market was dull and lower

were still a good figure vast dull and lower. The cow market was dull and lower. There were all of fifty loads on sale, and with only an ordinary demand they sold generally 5c to 10c lower than Tuesday. Sales included poor to good fat cows and heifers at from \$1 to \$2.85, with fair to good butchers' stock largely around \$2 and \$2.40. Veal calves were in active demand and firm at from \$3.50 to \$5.35, while common large stock and yearto \$5.25, while common large stock and year-lings were dull and weak at from \$1.90 to \$2.75. Poor to choice bulls, oxen and stags sold at from \$1.60 to \$3.25 or not far from

steady prices.

Business in stockers and feeders was lively and on the suitable offerings prices ruled stronger, while no particular change was noted in the market for the commoner grades. Offerings, both fresh and stale, were

Chicago Live Stock Market,

Chicago Live Stock Market,

Chicago, Dec. 6.—Today's cattle market gave sellers no comfort. Trade developed a little more life than characterized it yesterday and the day before, but it had not the appearance of activity and prices were night weak and variable. The dressed beef and shipping sorts generally sold loe lower, though instances were not wanting where the decline amounted to 15c. The market for the above descriptions is now back to where it was at the beginning of inst week. There was a sale this morning at \$6, and something fancy might have brought from \$0.10 to \$6, 15, but choice cattle were quoted at from \$5.25 to \$5.50, and very few of the offerings had the quality to bring those figures. Common to good steers sold at from \$3.25 to \$4.50. Butchers and canners stock was in fair request and rule! stendy, with sales principally at from \$2 to \$4. The receipts were estimated at 16,000 head, making 44.557 for the first haif of this week, as against \$2,001 a week ago, and \$4.408 a year ago. There were enough stale cattle in the yards to swell today's supply to 20,000. The demand did not call for nearly that number.

The hog market remained in a state of unsettlement. It continued to show a tendency to go downward, though within the past three days there has been a shrinkare of 22b, per 100 lbs. They continue weak and declining in spite of the fact that receipts are lighter than in any previous Peccanber within the last twenty years and the prices are more than \$1 per 100 lbs. They continue weak and declining in spite of the fact that receipts are lighter than in any previous Peccanber within the last twenty years and the prices are more than \$1 per 100 lbs. They continue weak and declining in spite of the fact that reacipts are lighter than in any previous Peccanber within the last twenty years and the prices are lighter than in any previous Peccanber within the last twenty ears and the prices are lighter than in any previous Peccanber within the last twenty ears and the prices are lighter than in any pr

last year.

If there was any improvement in the sheep market, sellers were not aware of it. Supplies continue to come forward with a freedom t at precludes the possibility of any enhancecontinue to come forward with a freedom t at precludes the possibility of any enhancement of values and today's market was as mean as that sellers have experienced lately. At the close of business yesterday the pens were still well filled with unsold stock, and, as the fresh receipts ran up to about 15,000 head, buyers again had things all their own way. The bulk of the sheep sold at from \$2 to \$3, and from \$3.50 to \$5.30 took the greater part of the lambs. Choice sheep are quoted aronad \$3.40 and Christmas stock might sell at from \$4.50 to \$5.80 took the greater part of the lambs. While thin, ragged lots were not wanted at from \$1 to \$1.50.

Receipts: Cattle, 16,000 head; calves, 500 head; hogs, 33,000 head; sheep, 15,000 head.

The Evening Journal reports:

CASTORIA

for Infants and Children.

AND THE CASE OF A SHOPE OF A SHOP

"Castoria is so well adapted to children that | Castoria cures Colic, Constipation, I recommend it as superior to any prescription known to me." H. A. ARCHER, M. D. 111 So. Oxford St., Brooklyn, N. Y.

"The use of 'Castoria is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the

intelligent families who do not keep Castoria within easy reach." CARLOS MARTYN, D. D.,

New York City.

"For several years I have recommended your 'Castoria,' and shall always continue to do so as it has invariably produced beneficial results." EDWIN F. PARDER, M. D.,
