IT MUST have been a noble thief who ventured to rob the delegates to the American Federation of Labor convention.

A BEET sugar factory at Omaha will be a welcome addition to our gradually increasing number of manufacturing industries.

ISN'T it almost time for the school board to look seriously into the question of retrenchment in anticipation of decreased revenues for the coming year?

The days are getting very short, but not quite as short as they are way up in Sitka, where daylight does not come in until 10 in the morning and night sets in before 3 in the afternoon.

AS TO EXPLOSIVE OILS.

The chief state oil inspector and his deputies positively deny that there has been any negligence on their part in the inspection of oils during the present year and they also assert that there is not a pint of oil on sale in the state that will not stand the test required by our statutes.

This certainly affords an opportunity to parties who claim to know anything about accidents caused by explosive oils to come to the front with particulars.

So far as THE BEE is concerned it has no light to make on the chief inspector or any of his deputies.

A good deal of dissatisfaction with the Wilson tariff bill has already been manifested on the democratic side of the house and there is every reason to expect that when the measure comes up for consideration democratic hostility to numerous features of it will be developed.

It is understood that the republicans of the United States senate will unitedly and persistently oppose any change in the rules of the senate with a view to restricting debate.

THE SENATE RULES. It is understood that the republicans of the United States senate will unitedly and persistently oppose any change in the rules of the senate with a view to restricting debate.

But the democrats, having unitedly and uncompromisingly opposed any such change in the rules when they were in the minority, now that they have control of the senate and desire to pass certain legislation of a distinctly partisan character, are willing to restrict debate, and in view of the past attitude of the democrats on this question the republicans feel fully warranted in assuming a like position and uncompromisingly maintaining it.
