News that the British Lion Has Put Down His Paw on the Gilbert Islands. SAN FRANCISCO, Dec. 27.-The Helen Almy,

which has just arrived from Gilbert islands. brings news that England has determined to seize the whole group, and this has in all probability been done before now.

Sir J. B. Thurston, British high commissioner of the Western Pacific and governor of Fiji, recently completed an inspection of the Gilbert islands and reported that the British flag should be holsted on all the islands, as it was over a year ago on Butaritari, the most northern of the group. His report dwelt on the richness of the islands and the prospect of developing British trade. When the Almy left the islands on Norember 20 the steamer from Sydney was expected in a few days with the new commissioner to take charge of the islands. Five years ago merchant traders controlled

the lucrative business of the Gilberts, but now there are few remaining, and they will soon have to retire.

Sequel to the Story of the "Man Who Mar-ried the Widow's Money." SAN FRANCISCO, Dec. 27 .- Two weeks ago

Lincoln Potter, who recently engaged in the saloon business here, was arrested for grand larceny and embezzlement on advices from La Crosse, Wis. It was alleged that he had been a railroad brakeman and recently married a wealthy widow from whom he ran away after getting \$5,000 of her money to engage in business. The wife from Wisconsin appeared here today and went direct to the city prison. She ran to her faithless husband's arms, wept on his neck, and then went to the chief of police and induced him to release the prisoner, stating that they had been reconciled and would return to La Crosse and try to live happily "ever after-wards." She gave her husband some ready

cash and the couple disappeared in a hack. HEROISM THAT FAILED.

State Treasurer Anxious to Ascertain the Exact Situation in Reference to the Indebtedness-Nebraska Edueators at Lincoln.

LINCOLN, Dec. 27.-[Special to THE BEE.]-A reference to the last report of the auditor of public accounts shows that Douglas county still owes the several current funds of the state delinquent taxes to the amount of \$35,068.90, all due prior to the year 1867. When Auditor Moore assumed the duties of the office he remarked that the county the office he remarked that the county treasurer of Douglas county had reported no collections of delinquent taxes prior to 1867 for many years. At his suggestion Chief Clerk Babcock of his office addressed a letter to the county treasurer of Douglas county asking for information. He received a reply to the effect that by an enactment of the legislature all delinquent taxes prior to the year 1857 were to be converted into the county report fund of the county into the county general fund of the county in which they were collected. Mr. Babcock asked for the particular statute enabling county treasurers to so convert state funds, but as yet has received no answer. Deputy

I would advise you to ask the treasurer of Douglas county upon what sec-tion of the statute he bases his action in re-fusing to pay over to the state moneys col-hered when the state layies "

The matter is of considerable importance, for if the treasurer of Dougias county can so convert delinquent taxes due the state, so can the treasurer of any other county in the state. Such schools must have a larger them. Such schools must have a larger force of teachers than are now employed; ample time for recitations; at least one well-equipped laboratory in each school for work in the sciences; good school libraries; and fewer branches of study, more thoroughly taught. Doctors Who Performed the Autopsy or Mindreader Bishop Won't Be Tried. NEW YORK, Dec. 27.-Judge Martin today lismissed the indictments against Dr. Frank Ferguson and Dr. Irwin Halce who were charged with unlawful dissection. The charge against the doctors grew out of their holding an autopsy and dissecting the dead man's brain without authority to do so and without the consent of his family.
