

CONDITION OF STATE BANKS

Balance of the Various Reports Submitted to the Nebraska Board.

NO CHANGE SINCE THE ANNUAL STATEMENT

Lincoln's Mayor Concludes to Make a Vigorous Effort to Suppress the Social Evil—His Statement to the Chief of Police.

LINCOLN, Jan. 16.—[Special to The Bee.]—The State Banking board issued a call for a statement of the condition of all state and private banks in Nebraska as of the close of business on December 19. It was not until today that the chief clerk of the board was able to complete the consolidated statement showing the condition of the banks collectively. The consolidated statement includes the operation of 663 banks under the control of the State Banking board. The reports are neither favorable nor unfavorable. A comparison with the reports of September 15 of the same year, three months earlier, will show that the loans and discounts, deposits, capital, surplus and undivided profits have suffered a slight decrease in each instance, while the bills payable are somewhat increased. The following brief statement will show the difference as it actually existed:

THE YEAR HAS BEEN A PARTICULARLY trying one upon the state and private banks of Nebraska. The causes which affected so many of them were of a general nature, and the union and Nebraska was no worse off, and perhaps a great deal better, than many of her sister states. Her banks were not suspended numbered forty-five. Of this number but fifteen were placed in the hands of receivers, the rest either being sold or voluntarily liquidated. Six of the banks that were placed in the hands of receivers had their depositors' funds safe in only five were the depositors subjected to any considerable loss. The list of state banks which went out of business during the year is as follows:

State of Ansley, Porter Bros. & Co., Alliance; Citizens of Atkinson, Farmers and Merchants of Bassett, American at Beatrice, First bank of Beatrice, Bank of Blaine, Farmers and Merchants of Elk Creek, Merchants of Fairmont, State of Franklin, J. M. Thatcher's bank at Fort Calhoun, Bank of Fremont, American at Fremont, Exchange of Grant, Bank of Gresham, People's at Gotham, Bank of Hemingford, State of Hastings, Farmers and Merchants of Imperial, Bank of Kearney, Nebraska Savings of Lincoln, Lancaster County bank of Lincoln, State at Lyons, Bank of Lyons, Bank of Madison, American at Madison, Omaha, Holt County bank at O'Neill, Keith County bank at O'Neill, First Commercial bank at O'Neill, Citizens at O'Neill, O'Neill Bank of O'Neill, State of Platteville, Platte County bank at Platte Center, Farmers and Merchants at Red Cloud, State of Rushville, Farmers and Merchants of Strang, Farmers State at Strubert, Bank of Verona, W. H. Dickinson's bank at Wahoo.

THE GOVERNOR, attorney general and secretary of state this afternoon approved the bonds and deposits of the various state depositories. The list of banks so designated together with the amounts of their deposits are as follows: First National of Omaha, \$50,000; First National of Beatrice, \$50,000; German National of Hastings, \$50,000; Citizens National of Geneva, \$15,000; First National of Lincoln, \$100,000; and First National of Fremont, \$40,000.

THE ABOVE BANKS combined will be entitled to a total of \$1,000,000 in state funds. The state is now drawing interest upon \$465,000, with more bonds to be approved by the board.

Suits Against the Directors. The suits against the directors of the defunct Capital National Bank are now on the docket of the district court. Two more suits were commenced this forenoon, one against the directors of the Capital National Bank, and another against the directors of the Capital National Bank.

DAVEY'S POSTMASTER IN TROUBLE. James H. O'Brien, postmaster at the little town of Davey, in this county, was arraigned before Judge Dundy, of the United States court this morning on a charge of embezzlement. The amount of his alleged defalcation is \$300.75. He entered a plea of not guilty, and was released on \$500 bonds to appear for trial. O'Brien has been involved in no little amount of trouble during the past year. At the time he was appointed postmaster at Davey he was under arrest for selling liquor without a government license, but he cleared himself of the charge. A short time since he was arrested and taken before Judge Dundy on a charge of disposing of mortgaged property. To finish off his unlucky career comes the charge of embezzlement preferred by the federal authorities. He claims that he took the money with no intention of defrauding the government. On the day he was arrested he was told by him he was compelled to pay a large amount of money. He had considerable money due him and he was told that if he did not pay the money he would be arrested. He borrowed the money from Uncle Sam.

ABSTRACT OF THE SOCIAL EVIL. Mayor Weir has taken another new departure in the crusade against the social evil. In a letter to Chief of Police Cooper, dated yesterday, he states his position at length on the subject. He is in sympathy with the methods commonly used to suppress the evil. The system of monthly license, and his statement that he will under no circumstances concur in the custom of fining the women alone, believing that all prostitutes are equally guilty, should be dealt with exactly alike. He therefore issues the following direct orders:

They stopped at the Hopkins house Sunday night, but were not allowed to stay. Sheriff McCabe is in pursuit.

TRAIN LOAD OF HARROWS

The Lininger & Metcalf Company Receive a Shipment of

TWO THOUSAND CUTAWAY PULVERIZERS

Largest Single Shipment Known in the Implement Trade—Gold Medal Machine of the World's Fair that Will Revolutionize the Harrow Business.

A carload of freight under existing financial conditions looks to the railroad manager an immense order, but when a railroad company is called upon to haul a whole train of cars loaded with some kind of goods across the country the freight man is inclined to doubt his eyes, while the inhabitants of the territory through which the train passes stand amazed at the sight of such enterprises. Last year the Lininger & Metcalf company sold so many Cutaway pulverizers that they conceived the idea of bringing to Omaha a whole train load of harrows this year from the factory at Higanum, Conn., and when they reached the subject to the makers of the Cutaway machine, the proposition was jumped, but was the first train ever sent out by the harrow company. But when the Lininger & Metcalf people sent in their order for 2,000 pulverizers to construct the train the manufacturers questioned their ability to deliver so large an order, but the triumph of sending out the largest single shipment of harrows ever known in the implement trade, appeared so strongly to the eastern mind that the order was arranged for, the Pennsylvania company, which is one of the largest car companies in the world, of the same capacity, equipped with air brakes throughout, was secured to construct the train and the train, with flags flying, paraded from engine to engine, announcing to the world that the Lininger & Metcalf company of Omaha were the conquerors, left Higanum, Conn., December 30, in charge of a representative of the Cutaway harrow company, viz., New York, New Haven & Hartford railroad. At Jersey City the Pennsylvania company took charge of the train. A. F. Clark, general agent of the Pennsylvania company, was in charge of the train at Chicago, which was delivered to the Chicago, Burlington & Quincy at that point on schedule time, the run to Omaha being made in forty-eight hours. The train was made entirely by daylight, stops being made at the principal towns along the line of the Burlington, the train being inspected by thousands of people, many farmers, who were greatly impressed with the excellence of the new machine that promises to revolutionize the harrow business of the country. Secretary of the Lincoln State Agricultural Society, Dr. H. A. Fair, of Lincoln, who was decorated with banners and flags.

CUSTOMS GUARDS KILLED. MEXICAN REVOLUTIONISTS SURPRISE A CAMP OF THEIR ENEMIES. EL PASO, Jan. 16.—Conflicting news has been received concerning the whereabouts of Ochoa, who recently joined the revolutionists. The first report said he had had a battle at Ascension, and now comes a letter to Editor Molina of the Spanish paper, El Progreso, that Ochoa and his men have captured the custom house at Ojinaga, down the Rio Grande. That Ochoa is actively at work there is no doubt, and people are inclined to consider certain speculations, such as the purchase of arms, as well as a money saver. With all the old pattern harrows it has been difficult to construct in certain conditions, as the blades were soiled, sodded lands, fields that have been plowed for several months, or wheat, or corn, or other crops, the harrow is heretofore the tool to be used in such a class of lands has been the plow, but with the Cutaway pulverizer the conditions have been changed for many of the lands mentioned can be cultivated in a much more perfect manner than is possible with the plow. The harrow not only saves itself to the farmer, for whom it was designed, but to the dealer as well, for it is regarded in the best of ways in Nebraska and western Iowa, a country being engaged in the manufacture of the implement. Dealers, therefore, who sell these pulverizers and build up a trade in the very best of ways, and are, therefore, captured their provision train. Particulars have not been received.

TALK OF DAMAGE SUITS. AMALGAMATED ASSOCIATION THINKS IT HAS CRACKED THE IRON CONTRACTS. PITTSBURGH, Jan. 16.—The Amalgamated Association is seriously considering the advisability of entering suits for damages against the iron and steel manufacturers, who, it is alleged, have recently repudiated contracts with the association by insisting on a higher price for their iron and steel. In speaking of the matter, President M. G. Garland of the Amalgamated Association said that in view of the many contracts that have been repudiated, it is proposed to look carefully into the legality of such agreements, and if there was legal grounds for instituting a suit against manufacturers who have repudiated their contracts, it would be begun. Damages will be asked for if possible.

Queen Lili Incline to Wait on the Action of Congress.

SAN FRANCISCO, Jan. 16.—In correspondence from Hawaii received by the steamer Australia there was an assertion that the deposed queen has given up the contest and will sign the United States for damages for the part taken by the former representative of this country at the time the provisional government was substituted for the monarchy.

Samuel Parker, prime minister of the ex-queen and minister of foreign affairs, and A. P. Peterson, attorney general, two members of the cabinet at the time of the change of government, came by the same steamer. They both denied the statement, deeming that it was unwarranted. At the meeting yesterday the members discussed various plans for advertising and increasing the local membership, but no definite action was taken.

Her Only Recourse to Congress. WASHINGTON, Jan. 16.—The rumor that the ex-queen is about to bring suit against the United States for a large sum of money, based on her claims for the damages on the president's recent Hawaiian message and Secretary Gresham's letter, has created a great deal of interest for the members of the president's recent Hawaiian message and Secretary Gresham's letter, has created a great deal of interest for the members of the government and there is no method of procedure which she can pursue. The only recourse of the ex-queen is to bring suit against the United States. This congress would have to approve before the claim could be settled by the court of claims. It is the only recourse of the ex-queen in the future, where, in view of her present unpopularity, she could hardly expect to meet with satisfaction or success.

WITH A GRAIN OF SALT. RUMORS FROM HAWAII WHICH THE LONDON TIMES TAKES WITH RESERVE. LONDON, Jan. 16.—The Times in a leading article says: It is prudent to accept all unofficial rumors from Hawaii with reserve. It is possible that the report that the ex-queen is about to bring suit against the United States is in part true, but it is easy to believe that her weakness of heart must have been severely aggravated by the intense and prolonged anxiety of her present position. On the other hand, it is conceivable that some persons concerned in the intrigue of her downfall must be interested in the success of the ex-queen's suit, and it is not surprising that they should be anxious to observe that although the whole conspiracy against the queen was a failure, she should be able to recover some of her losses.
