May Wheat's Close Made Another Low Price Record Yesterday.

SEVERAL INFLUENCES AGAINST BULLS

Receipts in the N rthwest Were Heavier than on the Corresponding Day of the Year Before and Clearances Were Disappointingly Light.

Cricago, Jan.23 .-- May wheat sold at 68 40 today and closed at a slight recovery from the bottom. That makes still another low price record. Cern was firm and left off without change. Oats made a fractional guin. Provisions ruled dull and lower.

Bendes the influence of the snow the cables were also rather against the bulls. The receipts in the northwest were heavier than on the corresponding day of the year before and the export clearances from the Atlantic scaboard were disappointingly light. The only ray of hope the bulls had carly in the day was the comparatively light receipts at Minneapolis, but this did not amount to much, taking the situation as a whole. The bears realized that they had control, and under free selling the market was forced down and closed steady with little action. May started in at from 63% c to

64c, touched 631/c and closed 631/c. Corn was a little unsettled early, but the market, considering the action of wheat, was quite steady. The undertone was quite firm at times. There appeared to be good buy-ing, supposed to be for some of the larger appendators, taken for investment, and this encouraged purchases by the room contingent. The opening was 14c lower, but the demand increased, influenced by the stormy weather and small receipts, and prices were advanced from 3ge to 3ge and held firm at the up turn for awhile, then declined and closed steady at 38% for May.
Trading in oats was very light. There was light stuff offered and buyers were few.

The market followed corn in all its fluctu-ations, opening a trifle weaker, firming up later, and leaving off 16c higher than yesterday.
The market for pork was very quiet early It opened 25c higher and then declined 15c with scarcely a reaction for lack of support

The subsequent transactions which were few and far between were within a 5c and 7 c range, with the tendency upward on all the live hogs at the yards being taken, mainly by a prominent packer. Shortly be-fore the final tap of the bell weakness again set in, the market closing 15c lower than yesterday at \$13.27% for May. Lard and ribs were almost nominal. Compared with last night lard is 5c off and ribs 1214c down. Estimated receipts for tomorrow: Wheat, 70 cars; corn, 165 cars; outs, 70 cars; hogs, The leading futures ranged as follows:

Minneapoils Jan. 23.—The wheat market opened Ic lower this morning than yesterday, remained weak all day with a few changes in prices, but trade was active most of the time, and the volume of business was rather larger than usual. Receipts from the country were light and it was reported that farmers marketing at interior points was smaller on account of the extreme cold weather. It is probable that the country markets will be small all the week, or at least until this cold weather is over, and perhaps for a few days later. Appearances now indicate that less than 500,000 bu, will be sold by farmers in the three states this week. If that be the case there will be quite a large decrease in the country elevator stocks, as the wheat that will be coming here and going to Duluth will be mainly taken from such houses with little coming in from farmers to replenish them. The only material cause of the break appeared to be that there was snow in the winter wheat country and the fears that had been entertained of damage consequent upon cold weather were removed. When selling began it was found that there was considerable long wheat to sell that had been bought under the apprehension of a rise a day or two ago. There was much selling also from the east. This market maintained at other places and apparently there was considerable spreading done at this market and others in the way of buying with them and selling here. The denand for spot wheat was active and track prices were fully ice above May of today. This was a rise upon any previous day and track prices were fully ice above May of today. This was a rise upon any previous day and was due probably to small receipts here this morning. Receipts were 129 cars; shipments, 41 cars. These receipts were too small to keep the mills running even at the small capacity now used. A fair amount of wheat was sold to arrive by country elevator dealers, to be shipped in at an early date. Prices paid for such wheat were about the sam Minneapolis Wheat Market.

STOCKS AND BONDS. Excitement of the Day Was Largely Con-

fined to Dealings in sugar. New York, Jan. 23 .- When the Stock exchange opened for business today there was a wild rush to sell the shares of the American Sugar Refining company and the brokers who had selling orders in this stock climbed on each other's backs in an effort to get rid of a portion, at least of their burdens before the bottom had fallen out, as was expected would happen, in view of the disposition manifested yesterday by a majority of the house of representatives in dealing with the sugar schedule. The move was expected in the house and it was very clear the Sugar trust had no hope, for in the present temper of the national law makers the problem of no bounty and free refined sugar stared the holders of sugar stocks

squarely in the face. It needed no short interest to start a break in Sugar shares this morning; 8,000 of the common were thrown on the market at the outset and the price went from 79 to 77 with-out allowing time for any intervening quotation, then 1,000 were taken at 78, 500 at 77, 5,000 at 76 and then the decline halted. Then 5,000 at 70 and then the decline flatted. Then supporting orders were received and insiders looked upon Sugar as a good buy after a break of 5% per cent. This Maying induced reflections that perhaps the situation at Washington was not so bad after all, but when reports of today's vote in the house were received, showing no change of sentiment, a break to the lowest point of the morning came, the trade reaching an almost morning came, the trade reaching an almost unprecedented mark for any single stock.
In the late dealings a rally of 1 per cen-

ook place and there was a final reaction of per cent, the loss of the day being 43% per cent. Sugar preferred opened at a decline of 4 per cent, reacted % per cent, recovered % per cent, closing 3 per cent lower than yesterday.

The notable and practically only feature of the general market was the remarkable

firmness displayed in the list in view of the disaster to Sugar. The railway list and some of the miscellaneous stocks actually ad-vanced during the Sugar panic, which was evidence that it was not a bear raid on Sugar if any were needed, but a genuine case of scare. The grangers, Western Union and New England were quite strong in the early dealings, the latter stock being bought on the announcement that T. C. Platt had been appointed receiver. Then some slight sym-pathy was shown by the other industrials for their leader, Cordave deciming 1% per cent, Lead I per cent and others fractionally,

but the speculation was torpid in the special-

During the affection the dealings were very light. After I o'clock prices moved up a fraction. During the last hour the market stendily declined and closed steady, is to I per cent below yesterday's final sales in the railway list, and is to 11 per cent in the industrials, exclusive of Sugar.

The Post says: Considering the shock

The Post says: Considering the snock sustained through the early break in Sugar certificates, the general market showed considerable strength. A few stocks, chiefly the grangers, advanced fractionally, even while the Sugar stock was collapsing, and advanced, moreover, in the face of moderate local selling. When the commotion in Sugar had subsided the general market became very duly again and there were son in Sugar has somed the scheme were ket became very duli again and there were some efforts to mark down prices. In the industrial stocks these efforts met with some success, but the general market was not disposed to yield. When Sugar certificates broke again in the afternoon a con-certed professional attack was made on other stocks, with a number of fractional declines as the result. But this movement of a purely superficial character and

ended in renewed duliness.

On the London Market. New Your, Jan. 23.—The Evening Post's special financial cablegram says: The stock markets were quiet and steady. Rusiness was mainly in English railways, which are very

firm. The Indian government announces the issue of £2,500,000 of six-months treasury bills to be paid for on the 3d proximo. This is regarded as a sign that the Indian council will not allow the sale of bills at absurd rates.

Hoes—Receipts were fairly liberal, an while the hoes ran considerably before But silver has recovered to 30%d on specu-lative purchases here. The price of bar gold is barely sufficient to keep it out of the bank.

OMARA LIVE STOCK MARKETS. Cattle Trade Continues to Improve-Hogs

Active and Higher, Tuesday, Jan. 23. Receipts of all kinds of stock were fairly liberal today, in spite of the bad weather, but the two days supply, compared with the first two days of last week, shows a falling off of about \*1,600 head of cattle and 500 head of sheep, while receipts of hogs have increased nearly 2,500 head. The fat cattle market was slow and not

more than steady. Buyers were not wanting more than their usual quota, and as there were plenty of very decent beeves here they naturally tried to buy them lower. Sellers held out stubbornly for at least steady prices, so that notwithstanding the bitter cold weather, which usually accelerates trading, the movement was sluggish and unsatisfactory throughout. A couple of bunches of good fat beeves brought \$4.15 and \$4.35, but the most of the trading in fair to good 1,100 and 1,200-ib, steers was at around \$3.50 to \$3.80, with fair to poor stuff and odd lots at from \$3.40 down. The tone to the trade was not at all buoyant, but a very respectable clearance was effected.

The trade in butchers' stock and canners was considerably better. Over half the offerings came under this head, but the inquiry was good from all sources and the fifty odd loads changed hands freely at prices 25c to 35c higher than last Thursday, the low point. Sales included common to choice cows and heifers at from \$1.75 to \$3.40, the bulk of the fair to good butchers' cows selling at from \$2.25 to \$2.85. Veal caives were in good demand and stronger at from \$4.50 to \$5.25, with common stock about steady at from \$2.25 to \$3.35. The market for rough stock was active and firm, common to choice bulls, oxen and stags selling at \$1.80 to \$3.25.
There was some trading in Jeeders, but not much. Country buyers were in no great rush to buy and regular dealers had enough on hand to prevent any anxiety for the immediate future. Prices, however, ruled about steady and the teeling was firm. Good to choice feeders are quoted at from \$3 to \$3.70, fair to good at from \$2.70 to \$3, and lighter, commoner grades at from \$2.70 down. Representative sales: DRESSED BEEF.

a De Mon ealle! DON'T DELAY

Hoes-Receipts were fairly liberal, and while the hogs ran considerably lighter than usual the quality was good. The market opened out netive and all of a nickel higher than Monday. Reports from the east were in the main favorable, and while there was no activity on the part of shipthere was no activity on the part of ship-pers and speculators local houses were all wanting supplies and did not besitate to pay the advance. For fair to good logs of all weights \$5.30 and \$3.35 was paid and choice light and butcher-weight staff brought \$5.40. Among the top sales today were cleven loads of good, smooth butcher pigs from Oregon that had been fed entirely on wheat. That is one way to solve the problem of low priced wheat. On bad re ports from the east the market closed up weak, but with about everything out of first hands. The big bulk of the trading was at \$5.30 and \$5.35, as against \$5.39 Monday and from \$5.20 to \$5.25 on last Tuesday. Repre-

Chicago, Jan. 23.—The cattle trade was rather slow, but salesmen who had suitable stock for the market were in no wise willing to make concessions, and the only factor that stood in the way of a substantial advance was that of a big run in the west, about 12,000 head in the three principal markets—Omaha, Kansas City and St. Louis. Values are from 20c to 25c better than the past week on good and useful steers, and the best grades of cows and helfers are selling for more money. In the stocker and feeder line business was light and prices steady.

the stocker and feeder line business was light and prices steady. In the hog market business was active with the bulk of arrivals selfilm at about the same range as yesterday, a few fancy lots selfing a triffe higher, but toward the close prices ruled a strong 5c lower than at the opening, and a few lots were carried over. Hough heavy may be quoted at from \$5.20 to \$5.30; packers and mixed from \$5.40 to \$5.45; prime,

may be quoted at from \$5.25 to \$5.30; packers and mixed from \$5.40 to \$5.45; prime, heavy and butcher weights from \$5.50 to \$5.65; light, from \$5.40 to \$5.45, and rejected from \$4.50 to \$4.65.

In the sheep market there was little or no change in prices as compared with the close yesterday. The increase in the receipts, however, had a tendency to check the rather upward tendency of yesterday. Thin and common sold at from \$2.25 to \$2.90, something better at from \$2.75 to \$3.20, fair to good mixed lots of ewes and wethers from \$3.25 to \$4.25, western ewes from \$2.75 to \$3.05, and western wethers from \$3.15 to \$3.75. FOURTEEN MEN WANTED WORK. County Board Plan Blocked By Cold for the Present.

Yesterday's infant blizzard nipped the county commissioners' labor scheme in the bud and at the same time prevented the idia inboring men from winding their way out to the Elkhorn road, there to earn a dollar to assist in supporting their families.

At an early hour in the morning fourteen able-bodied men showed up at the office of the charity committee and stated that they were ready to go out and do some road grading. Their names were entered and they were ready to start when the storm broka over the face of the earth. When the snow commenced to flirt around the corners they were sent to their respective homes, with instructions to call when the weather

The plan adopted by the commissioners is this: All of the men are registered at the county agent's office, and when he finds that they are residents of the county they are given a ticket to the commissioners. The commissioners register the applicant, the record showing his residence, the length of time in the county and the number of persons dependent upon him for support. This being done the man is given a letter to the foreman of the work, where he is given emplayment. At the end of each week the fore-man on the work will make a report to the commissioners, and when any man has worked ten days he will have to lay off and allow his place to be filled by some other man who is out of employment. When men are receiving aid from the county the cost of the supplies furnished will be deducted from the bill for labor and the balance paid in casb.

CRIME IN HIGH PLACES: It is not strange that some people do wrong through ignorance, others from a failure to investigate as to the right or wrong of a matter But it is strange. that individuals and firms, who are fully aware of the rights of others, will persist in perpetrating frauds upon them. High-toned, wealthy manufreturing firms will offer and sell to retail merchants, articles which they know to be infringements on the rights of proprietors, and imitations of well known goods. We want to sound a note of warning to the retailers to beware of such imitations and simulations of "CARTER'S LIT-TLE LIVER PILLS." When they are offered to you, refuse them; you do not want to do wrong, and you don't want to lay yourself liable to a lawsuit. Ben Franklin said "Honesty is the best pollcy"; it is just as true that "Honesty is thebest principle."
