

CITY COUNCIL PROCEEDINGS

Eight of the Mayor's Appointments Are Confirmed with Unanimity.

UNEXPECTED FATE OVERTOOK DR. EBBITT

Bruner's Demands Too Much for Democratic Caucus—Names Suggested by It to the Mayor for City Attorney and Other Offices.

The city council last evening confirmed eight of the mayor's appointments and rejected one, out of nine the whole number being reported on by the judiciary committee, to which they had been referred. The unlucky one was Dr. Ebbitt, who had been named for the position of city engineer.

The partial estimate of the cost of the proposed extension of the city water works, as reported by the city engineer, was \$1,000,000.

The judiciary committee submitted its report, favoring the confirmation of the nine appointments of the mayor named above, and all, with the exception of Ebbitt, who was confirmed by the unanimous vote of the city council.

BUILDERS AND TRADERS IN SYMPATHY

Delegates Elected to the National Convention—Central Labor Union Will Discuss the Depot Proposition and Elect Officers.

The organization of Builders and Traders of Omaha, which came into existence four years ago, includes in its membership the principal contracting builders in the city, and has for its objects and purposes the unification of the men engaged in the art and trade of building. They have commodious rooms on the second floor of the New York Life insurance building, and hold sessions at 11 o'clock each day for the purpose of acting upon any business that may be brought before the organization.

From time immemorial, or at least since man had become civilized, and since he had recognized that union there is strength. The earliest history we have of organized labor was at the building of King Solomon's temple, where the workmen were divided into three classes, namely: Masters or overseers, fellow-crafts and apprentices.

The republican convention, with the exception of Bruner, met at councilman's office at 2 o'clock. There was not a majority representation of the council, as the caucus numbered but eight votes, but it was concluded that enough strategy and tact would be shown to elect a man almost any appointee on whom the republican caucus could agree.

People overlooked the importance of permanently beneficial effects and were satisfied with transient relief; but now that it is known that the cure of chronic constipation, well informed people will not buy other laxatives, which act for a time, but finally injure the system.

WITH CORPSES ON SLEDS. General Cook Describes the Trip for Relief to the Snowed-out Miners.

"This snow and wind is a ray of spring sunshine compared to the weather I faced in the heart of the Rocky mountains when I headed the relief expedition for the Homestake miners," said General George W. Cook of Chicago at the Millard yesterday. The general was mayor of Leadville, Colo., in 1886 and wears a \$1,500 coat as a reward for his bravery upon that occasion. Continuing he said: "It was in March, 1886, that the people of Leadville received news that ten prospectors were buried under a snow-drift on a mountain 3,000 feet from Homestake peak, which was 14,000 feet above sea level and a locality of perpetual snow and blinding blizzards. A man named Leadville dreamed it and became so impressed with his dream that he started out for the spot on snow shoes. He returned with a snow-drift on his back and hoarsely whispered that his dream was realized and that the snow was so deep that the cabins could not be found. He knew the topography of the country and was a man of veracity. So a relief expedition was promptly fitted out. It was generally known that ten young men were prospecting upon the mountain, and they had many friends in Leadville. Nearly every mine in the big camp shut down, and over 10,000 men volunteered to go to the rescue. Cad Davis of the Herald-Democrat was chairman at a meeting called to take steps for organization. I was elected captain of the expedition, and with 150 picked men prepared for the journey. We left the train at Malta, and backed on snow shoes for a hard walk over eighteen miles of snow-covered mountains, grades and canyons were below zero without exaggeration. The snow drifted in massive banks and the wind out of the north was a howling gale. The men, and finally, after a hard trip, fraught with privation, suffering and heroic display of manly courage on the part of the men, we reached the snowed-out mine. The men were supposed to be out of 150 men who started with me only eighty-two reached the summit. The balance were compelled to abandon the mountain and return to the city. The men who were supposed to be out of 150 men who started with me only eighty-two reached the summit. The balance were compelled to abandon the mountain and return to the city. DES MOINES MINERS GO OUT

Ten of the Largest Mines in the State Forced to Shut Down.

NINE HUNDRED MEN STRIKE IN IOWA

Some of the Operators Agree to the Demands of the Men and Thus Prevent a More Extended Walkout—Other Labor Troubles.

Des Moines, Jan. 23.—The miners in ten of the largest mines in this district, numbering about 900, are idle today. They are out on a strike. The difference between the operators and miners is but 15 cents a ton. Three operators have agreed to pay the price demanded and the men are at work. At a mass meeting yesterday, at which 1,500 miners were represented, it was decided not to accept the 15 cent reduction demanded by the operators. Resolutions were adopted, however, agreeing to accept a 10 percent reduction. The Trades assembly of Des Moines and the Federation of Labor of this district agreed to stand by the miners in any action taken, and this morning a strike was ordered in all mines where the compromise had not been accepted.

Philadelphia, Jan. 23.—A notice was issued by General Manager Voorhees to the heads of departments of the Lehigh Valley instructing them not to employ any more men unless absolutely necessary, and calling attention to the fact that the ranks were badly crowded and intimating they will be speedily depleted by discharges.

Will Close the Mines. MILWAUKEE, Jan. 23.—At the annual meeting of the Brotherhood Mining company today, it was decided to close the mine at Ironwood and allow it to fill with water. The railway tracks will be torn up. The Brotherhood mine produced 50,000 tons annually. It cannot be operated at a profit unless ore brings \$4 per ton.

Will Call Out the Militia. BRIDGEPORT, Conn., Jan. 23.—The strikers are quiet today, but the trouble is expected tomorrow, when the company will attempt to run cars with nonunion men. If the police are unable to cope with the strikers the militia, now in readiness, will be called out.

Accepted the Cut. WHEELING, W. Va., Jan. 23.—The 1,200 employees of the potteries have accepted a reduction of 25 per cent in wages. The object was a cut so as to meet Pittsburg competition.

Will Not Accept a Reduction. COLUMBUS, Jan. 23.—Enough is known to say that the Ohio miners refuse to accept a reduction by about 500 majority. They are still in session.

The Schlitz is open today. Louisville, Jan. 23.—A special to the Post from Knoxville says: John Shea, the wealthy railroad contractor, who shot and killed Walker Mills, a prominent negro politician, yesterday afternoon was discharged from custody today, he proving it was a case of self-defense. The negro thinks the preliminary hearing a sort of joke.

The Schlitz is open today. Matters Discussed by the Executive Committee Yesterday Afternoon. The executive committee of the Commercial club met in regular session yesterday afternoon and transacted the usual grist of routine business. C. E. Weller, chairman-elect, occupied the post of honor at the head of the table. Secretary Drexel submitted the names of S. E. Howell, Rev. W. P. Healy, Mayor Clarkson, J. F. Harris and E. E. Ballard for active membership. The gentlemen were unanimously elected. It was decided to admit ministers to honorary membership.

The Schlitz is open today. The question of local shopping trains was discussed and finally referred to the bureau of retailers.

By a unanimous vote it was decided to hold a public session of the Commercial club to discuss the subject of county roads at some date in the near future. An appropriation of \$400 was voted for advertising purposes.

The following resolution was unanimously adopted: Resolved, That we recognize in the efforts of the Omaha Opera festival school, in establishing an annual season of legitimate opera at the city of Omaha, a movement the benefit of which is equally shared by the city and the state, and we extend to the Omaha Opera festival school our official recognition, and ask of the citizens of Omaha their moral and financial support of the same.

This is the dull time of the year in that department, and it was the intention of the plumbing inspector to utilize it in preparing a set of diagrams in compliance with the recently passed plumbing ordinance, showing the arrangement of all plumbing in the school buildings and other public structures, but the necessary book for that purpose had not been provided, and the inspector will not have the authority to order it until his appointment is confirmed. Under the old system it would have been the duty of the plumbing inspector to provide all necessary books and stationery, but now he is relieved of that responsibility, and no book is forthcoming. The new system will provide for the keeping of complete diagrams and record of plumbing in all buildings hereafter to be erected, and it will be made sufficiently complete to include all schools, hotels and public buildings. The record will be kept in the office of the Board of Health, and prospective renters of houses will be required to show their certificates of the sanitary condition of the houses they have in view as possible habitations. The exact location of all waste and soil pipes will be shown, and the position of all fixtures as well as to tell at a glance whether or not the arrangement is what it ought to be.

GREATEST IN THE WORLD!

Why Thousands of Families Owe Their Health to Paine's Celery Compound.

Thousands of persons are suffering from no definite disease, but are tired, worn out, weak and nervous. To meet the needs of just such overworked, over-anxious men and women whose nerves are shattered and their blood grown thin and impure, Paine's celery compound is prescribed. It is the greatest remedy the world has ever known for fatigue of mind and body, for sleeplessness, debility and all complaints arising from depressed vitality. It restores the functions of the digestive organs, strengthens the mental and physical powers, relieves the dullness and drowsiness of nervous weakness. Ten nights are required to repair one night's loss of sleep, says an adage. But nothing so calm and soothing as nerves as Paine's celery compound, or so surely brings sound, dreamless sleep during which the daily loss of nervous energy is replaced and the exhausted tissues repaired. For men and women subjected to the enormous strain of social life, or spend-thrifts of vitality through any form of dissipation, nothing will save them from complete breakdown like Paine's celery compound. Paine's celery compound is the outcome of a long life devoted to incessant scientific study of diseases of the important organs of the body and their dependence upon the nervous system. No less an eminent scientist than Edward E. Phelps, M. D., LL. D., professor in the Dartmouth college medical school, first prepared Paine's celery compound, the great remedy that has cured so many thousands sick, nervous and enfeebled men and women throughout the country. "I feel it my duty," he writes, "to say a good word for Paine's celery compound. I have suffered for a number of years from neuritis, and tried many different medicines without relief. Finally I was induced to try Paine's celery compound. After using nine bottles I am in better health than I have been for many years. My wife and children have also been using the compound with marked benefit to all of them." The picture above is of Mr. Engle and his family. They have had the same experience as thousands of others.
