Arkansas' Law Taxing Pullman Cars and Telegraph Companies of No Weight. LITTLE ROCK, Feb. 13.—The law taxing Pullman cars, telegraph and express com panies operating in the state, passed by the last general assembly of Arkansas, has been declared unconstitutional by Judge Williams

in the United States circuit court.

Several months ago the Western Union Telegraph company and the Pacific Express company filed bills in court asking for an injunction restraining the collectors of the various counties of the state from collecting taxes assessed under the act. A temporary restraining order was granted. The case was argued a short time since, the attorney general demurring to the bill. The court today overruled the demurrer, made the injunction perpetual and declared it unconstitutional on the ground that the act provided for assessments of property not situated in the jurisdiction of the state; that it embraces interstate commerce in violation of the United States law; that the acts do not give the plaintiffs the equal pro-tection of the state; that the assessment was made without regard to an excess of its

Attorney General Clark said this morning that the decision was a great surprise to him, in view of the fact that the Arkansas statute was drawn up after the style of similar laws in Massachusetts and Penn-sylvania, which had been declared by the United States supreme court in its de-cision to be constitutional. The case will be taken to the supreme court.

Protests of Taxpayers Against Paving Country Roads Filed Too Late. The protest of the forty property owners

filed with the Board of County Commissioners Monday against the paving of the three country roads from the city limits will go for naught.

In speaking of the matter, the commis sioners say that the parties protesting were all good citizens and most of them heavy taxpayers, but the trouble was, the protest was too late. The people of the county had, by their ballots, decided that the roads should be paved, and nothing was left for the com missioners to do but to carry out the instruc tions of more than two-thirds of the voters of Douglas county.

The purchasers of the paving bonds, Rudolph Kleyboite & Co., have written the commissioners that they have examined at of the facts and circumstances connected with the voting of the bonds and that they have found all of the proceedings regular. They also state that they are ready to take the bonds and pay for the same as soon as they are issued and registered. Yesterday Chairman Stenberg and Clerk Sackett commenced the work of filling out

and signing the 150 \$1,000 bonds and will have them in shape to send to the state auditor for registration by the first of next week. In signing the bonds and coupons the chairman and the clerk have to affix their official signatures 6,150 times each.

City Prosecutor Shoemaker Says His Con-City Prosecutor Shoemaker assumed the duties of his new position yesterday, and likes them so well that he proposes to hang on to the place, notwithstanding the talk of a reconsideration of the action by which he was confirmed. He maintains that no such reconsideration can take place after an appointment has been confirmed, as that action places the appointee in office, and the only way to get him out is then to prefer charges. He says that if an appointment was rejected the action could be reconsidered, as was done in the case of Mr. Eobitt, who was appointed city veterinarian, but not so when the appointment is acted or favorably. He claims to come pretty near knowing what the charter provides in this matter, as he framed the section making the office a statutory one instead of being provided for by ordinance, and he is confi-dent that his position is perfectly tenable. He further argues that if it was possible for the action to be reconsidered, inasmuch as the rule limiting a reconsideration to one meeting is simply one of the rules adopted by the council, that rule could be so amended as to provide for reconsideration at two, six or a dozen meetings later, or at any time, and that it would then be possible for the council to bounce a man out of appointive office whenever it was disposed to reconsider the action by which his appointment was confirmed, and that then there would be no tenure of any of these positions, in-

stead of being two years, as provided by the RETRACTS HER CONFESSION.

Brazil, Ind., Has a Mild Sensation as

Sequel to a Divorce Suit. BRAZIL, Ind., Feb. 18.—This city was thrown in a state of great excitement today by Mrs. O. R. Yocum giving to the press for publication a letter dated at San Jose, Cal. February 5, from the divorced wife of Rev. Charles Shattuck Several months ago
Mrs. Shattuck confessed to committing
adultery with County Auditor O. R. Yocum,
and on this ground Mr. Shattuck secured
a divorce. About three weeks ago Mr.
Yocum, on his return home from a trip through the west, fell dead. On hearing of his tragic death Mrs. Shattuck writes Mrs. Yocum a sensational letter in which she says: "I have always felt ever since I returned home that I should write and apologize for the suffering which I know I caused you by the untrue confession I made at the time. That confession was false in detail, but you do not know, you can have no idea of the torment and torture which was subjected to—they tried in every pos-sible way to wring a confession from me, but I stood firm to the truth until the agony of the torture became so great that I felt any confession of any nature whatever was bet ter than such suffering."
